Memiliki Induk Perusahaan yang Bereputasi

Having a Reputable Parent Company

Bank Mandiri Taspen memiliki induk perusahaan dengan keunggulannya masing-masing yang berfungsi untuk mengembangkan bisnis Bank Mandiri Taspen yaitu:

- Bank Mandiri sebagai bank terbesar di Indonesia yang memiliki expertise dalam pengelolaan Bank.
- PT Taspen memiliki akses kepada captive market pensiunan sehingga dapat menambah database calon debitur pensiunan.
- Dukungan pendanaan dari grup Pemegang Saham.

Sinergi pemegang saham dan grup usaha tersebut diimplementasikan dalam kemitraan strategis antara PT Bank Mandiri (Persero), Tbk. selaku pemegang saham mayoritas bersama dengan PT Taspen (Persero) dalam Bank Mandiri Taspen yang fokus dalam memberikan layanan kepada ASN dan pensiunan serta memberikan penyaluran kredit pensiunan dan UMKM dengan aspirasi menjadi *"The Undisputed Leader in Indonesia's Senior Citizen Financial Ecosystem"* aspirasi sebagai penyalur kredit pensiun terbesar dan penyedia layanan perbankan terkemuka bagi nasabah senior di Indonesia melalui penguatan posisi sebagai penyedia layanan keuangan end-to-end bagi pensiunan dan pra-pensiunan, yang didukung oleh fondasi bisnis yang kuat, kapabilitas digital yang mumpuni, serta sinergi ekosistem yang terintegrasi. Keunggulan kompetitif dibangun melalui dominasi segmen inti pensiunan, pengembangan produk dan layanan yang relevan dan personal, serta perluasan akses layanan yang inklusif melalui optimalisasi jaringan fisik, digital, dan komunitas.

Bank Mandiri Taspen benefits from the strengths of its parent companies, each of which plays a strategic role in supporting the Bank's business development:

- PT Bank Mandiri (Persero) Tbk, as the largest bank in Indonesia, provides strong expertise in banking management.
- PT Taspen (Persero) offers access to a captive pensioner market, thereby enriching the database of prospective pension-loan customers.
- Funding support from the shareholder group further strengthens the Bank's financial capacity.

The synergy between shareholders and the business group is implemented through a strategic partnership between PT Bank Mandiri (Persero) Tbk as the majority shareholder and PT Taspen (Persero) within Bank Mandiri Taspen. This collaboration focuses on serving civil servants (ASN) and pensioners, while also expanding pension loan and MSME financing. The Bank aspires to become *"The Undisputed Leader in Indonesia's Senior Citizen Financial Ecosystem"*—positioning itself as the largest pension loan distributor and a leading banking service provider for senior customers in Indonesia. This aspiration is supported by strengthening its role as an end-to-end financial service provider for pensioners and pre-retirees, backed by solid business fundamentals, strong digital capabilities, and an integrated ecosystem synergy. Its competitive advantage is built through dominance in the core pension segment, continuous development of relevant and personalized products and services, and expanded inclusive access through the optimization of physical networks, digital platforms, and community-based engagement.

Transformasi Digital

Digital Transformation

Bank terus meningkatkan kemudahan, kenyamanan, kecepatan bertransaksi melalui Transformasi digital (Movin') dan Perbaikan Proses serta Pengembangan Produk. Layanan Movin by Bank Mandiri Taspen menginisiasi fitur yang telah disesuaikan dengan kebutuhan nasabah Bank Mandiri Taspen yaitu *senior citizen*, sehingga diharapkan dapat menjadi layanan unggulan yang akan digunakan untuk akuisisi dana murah dan memberikan *service excellent* kepada Nasabah. Movin by Bank Mandiri Taspen memiliki fitur yang berbeda dengan Bank Lain yang disesuaikan dengan segmen nasabah Bank Mandiri Taspen, fitur tersebut adalah Absensi Pensiun yang berfungsi untuk melakukan verifikasi Nasabah secara berkala. Mekanisme proses fitur ini yaitu membandingkan data *biometric* yang *ter-capture* saat proses absensi pada aplikasi *Mobile Banking* dengan data *biometric* yang *ter-capture* saat proses *enrollment*. Movin by Bank Mandiri Taspen pada tahun 2025 melakukan release fitur Registrasi *Online* dengan *liveness* KYC, QRIS Acquirer, Integrasi dengan Maestro (*New Core Banking*) dan Transaksi VA di Movin.

Bank Mandiri Taspen continued to enhance convenience, comfort, and transaction speed through digital transformation (Movin') as well as process improvements and product development. The Movin by Bank Mandiri Taspen service introduced features specifically tailored to the needs of its core customer segment—senior citizens—aiming to become a flagship service for low-cost fund acquisition while delivering excellent customer service. Movin by Bank Mandiri Taspen offered differentiated features compared to other banks, customized to its customer segment. One key feature was the Pension Attendance (Absensi Pensiun), which functioned as a periodic customer verification tool. The mechanism compared biometric data captured during attendance via the mobile banking application with biometric data recorded during the initial enrollment process. In 2025, Movin by Bank Mandiri Taspen planned to launch several new features, including Online Registration with liveness KYC, QRIS Acquirer, integration with MAESTRO (the new core banking system), and Virtual Account (VA) transaction capabilities within the Movin application.

Analisis Atas Kinerja Bank

Dengan berbagai sumber daya yang dimiliki Bank tersebut, pada tahun 2025 Bank telah menghasilkan kinerja yang baik di tengah kondisi perekonomian yang masih belum sepenuhnya pulih. Direksi senantiasa mempertimbangkan kondisi perekonomian baik global, nasional maupun industri perbankan dalam mengembangkan strategi bisnis, sehingga mampu mengatasi kendala-kendala khususnya yang terkait dengan dampak kondisi perekonomian terhadap bisnis Bank.

Kondisi Perekonomian yang Secara Langsung Berdampak Terhadap Kinerja Bank dan Target Pasar

Ketidakpastian global pada periode 2025–2026 masih tinggi, dipicu oleh berlanjutnya konflik geopolitik, meningkatnya ketegangan di berbagai kawasan, serta kebijakan proteksionisme yang mendorong fragmentasi perdagangan dunia. Kondisi tersebut memberikan tekanan pada aktivitas perdagangan dan investasi global, sehingga berdampak pada perlambatan pertumbuhan ekonomi dunia yang cenderung stagnan di kisaran 3%. Di sisi lain, gangguan rantai pasok, kenaikan biaya produksi, serta tekanan inflasi yang masih relatif tinggi turut memperberat pemulihan ekonomi global. Ke depan, prospek ekonomi dunia juga dibayangi oleh sejumlah risiko struktural, antara lain meningkatnya polarisasi perdagangan, tingginya beban utang global, kerentanan pasar keuangan, serta berkembangnya aset digital yang belum sepenuhnya diimbangi dengan pengaturan yang memadai.

Perekonomian Indonesia tetap menunjukkan kinerja yang baik dan berdaya tahan di tengah ketidakpastian global, didukung oleh stabilitas makroekonomi, pemulihan pascapandemi, serta sinergi kebijakan fiskal dan moneter antara Pemerintah dan Bank Indonesia yang mampu menjaga inflasi dan sistem keuangan sekaligus mendorong permintaan domestik, diperkuat oleh transformasi ekonomi melalui perbaikan iklim investasi, pembangunan infrastruktur, dan hilirisasi. Hal ini tercermin pada pertumbuhan ekonomi yang mencapai 5,11% (yoy) pada 2025, meningkat dari 5,03% (yoy) pada 2024, dengan pertumbuhan Triwulan IV 2025 sebesar 5,39% (yoy), lebih tinggi dari 5,04% (yoy) pada triwulan sebelumnya, yang didorong konsumsi rumah tangga dan investasi serta diikuti perbaikan kualitas ketenagakerjaan, dan diperkirakan berlanjut pada 2026 seiring peningkatan konsumsi (termasuk pada periode HBKN) dan investasi. Dari sisi regional, pertumbuhan Triwulan IV 2025 relatif merata dengan Sulampua sebesar 5,83% (yoy), Bali–Nusa Tenggara 5,82% (yoy), Jawa 5,30% (yoy), Sumatra 4,81% (yoy), dan Kalimantan 4,80% (yoy), yang didukung peningkatan kapasitas industri dan pertanian di Jawa serta hilirisasi mineral seperti nikel, bauksit, dan tembaga di Kawasan Timur Indonesia.

Analysis of Bank's Performance

Equipped with various resources, the Bank achieved firm performance in 2025, despite a non-recovered economy. The Board of Directors consistently considered global, national, and banking industry economic conditions when developing business strategies, so they were able to overcome challenges, particularly those related to the impact of economic conditions on the Bank's business.

Economic Conditions Directly Impacting Bank Performance and Market Target

The 2025–2026 global uncertainty remained high, boosted by ongoing geopolitical conflicts, rising tensions in various regions, and protectionist policies that are driving the fragmentation of global trade. These conditions pressed on global trade and investment activities, resulting in a slowdown in global economic growth, which is likely to stagnate at around 3%. Meanwhile, supply chain disruptions, rising production costs, and relatively high inflationary pressures are also complicating the global economic recovery. Going forward, the global economic outlook is also overshadowed by a number of structural risks, including increasing trade polarization, a high global debt burden, financial market vulnerabilities, and the proliferation of digital assets that have not yet been fully balanced by adequate regulations.

The Indonesian economy continuously demonstrates good and resilient performance amidst global uncertainty, supported by macroeconomic stability, post-pandemic recovery, and synergy of fiscal and monetary policies between the Government and Bank Indonesia that can maintain inflation and the financial system while stimulating domestic demand, strengthened by economic transformation through improvements in the investment climate, infrastructure development, and downstreaming. The resilient performance was reflected in economic growth reaching 5.11% (yoy) in 2025, increasing from 5.03% (yoy) in 2024, with growth in the fourth quarter of 2025 of 5.39% (yoy), higher than 5.04% (yoy) in the previous quarter, driven by household consumption and investment and followed by improvements in labor quality, and was predicted to continue in 2026 along with increased consumption (including during the HBKN period) and investment. From a regional perspective, growth in the fourth quarter of 2025 was relatively even with Sulampua at 5.83% (yoy), Bali–Nusa Tenggara 5.82% (yoy), Java 5.30% (yoy), Sumatra 4.81% (yoy), and Kalimantan 4.80% (yoy), supported by increased industrial and agricultural capacity in Java as well as downstreaming of minerals such as nickel, bauxite, and copper in Eastern Indonesia.

Dari sisi perbankan, stabilitas sistem keuangan Indonesia tetap terjaga dengan fungsi intermediasi yang terus meningkat, tercermin dari Indeks Stabilitas Sistem Keuangan (ISSK) yang berada di zona normal sepanjang 2025 serta ketahanan perbankan yang kuat dari sisi permodalan, risiko kredit, dan likuiditas; rasio kecukupan modal (CAR) tercatat tinggi sebesar 25,89% pada Desember 2025, sementara risiko kredit tetap terkendali dengan NPL sebesar 2,05% (bruto) dan 0,79% (neto), serta likuiditas yang longgar dengan rasio AL/DPK 28,57% dan LDR 85,35%, seiring pertumbuhan kredit yang mencapai 9,69% (yoy). Di sisi lain, ekonomi dan keuangan digital terus tumbuh pesat, didukung oleh meningkatnya transaksi *e-commerce*, uang elektronik, dan *digital banking*, serta perluasan ekosistem QRIS yang telah menjangkau sekitar 42–42,75 juta *merchant* dan lebih dari 59–59,53 juta pengguna, dengan pertumbuhan transaksi mencapai sekitar 140% (yoy). Kinerja sistem pembayaran juga tetap kuat, tercermin dari nilai transaksi BI-RTGS yang mencapai Rp65.069,78 triliun atau tumbuh 31,04% (yoy), volume BI-FAST sebesar 1.358,65 juta transaksi atau tumbuh 30,44% (yoy), serta transaksi *digital payment* sebesar 14,26 miliar transaksi atau tumbuh 39,21% (yoy), sementara Uang Kartal Yang Diedarkan (UYD) meningkat 12,90% (yoy) menjadi Rp1.359,94 triliun, yang secara keseluruhan menunjukkan sistem pembayaran yang aman, andal, serta didukung oleh peningkatan interkoneksi dan adopsi teknologi seperti SNAP.

Berdasarkan analisis perekonomian dan industri serta memperhatikan tantangan yang ada, maka Bank Mandiri Taspen menetapkan target pasar berupa DPK dan Kredit di tahun 2025 yang masing-masing sebesar Rp52,56 triliun dan Rp52,29 triliun. Untuk mencapai target-target tersebut Bank Mandiri Taspen memfokuskan pada peningkatan total rekening nasabah, rekening baru, jumlah rekening DPK, jumlah Dapem Pensiunan ASN dan pencairan kredit/*plafond* baru.

Untuk mencapai target pasar tersebut, telah ditetapkan suku bunga dasar kredit tahun 2025 adalah sebagai berikut:

In terms of the banking sector, the stability of Indonesia's financial system was maintained with a continuously improving intermediation function, reflected in the Financial System Stability Index (ISSK) remaining in the normal zone throughout 2025, as well as strong banking resilience in terms of capital, credit risk, and liquidity. The capital adequacy ratio (CAR) was recorded at a high 25.89% in December 2025, while credit risk remained under control with NPLs of 2.05% (gross) and 0.79% (net), and liquidity remained loose with an LA/TPF ratio of 28.57% and a LDR of 85.35%, in line with credit growth reaching 9.69% (yoy). On the other hand, the digital economy and finance grew rapidly, supported by increasing e-commerce transactions, electronic money, and digital banking, as well as the expansion of the QRIS ecosystem that had reached approximately 42–42.75 million merchants and more than 59–59.53 million users, with transaction growth reaching approximately 140% (yoy). The payment system performance also remained strong, reflected in the BI-RTGS transaction value reaching IDR65,069.78 trillion or growing 31.04% (yoy), BI-FAST volume of 1,358.65 million transactions or growing 30.44% (yoy), and digital payment transactions of 14.26 billion transactions or growing 39.21% (yoy), while Circulating Currency (UYD) increased 12.90% (yoy) to IDR1,359.94 trillion, which indicated a secure, reliable payment system supported by increased interconnection and adoption of technologies such as SNAP.

Based on economic and industry analysis and considering existing challenges, Bank Mandiri Taspen set market targets for third-party funds (TPF) and credit of IDR52.56 trillion and IDR52.29 trillion, respectively, for 2025. To achieve these targets, Bank Mandiri Taspen focused on increasing total customer accounts, new accounts, the number of third-party funds (TPF), the number of retired ASN (State Civil Apparatus) pension funds (Dapem), and new credit disbursements/ceilings.

To achieve this market target, the 2025 Prime Lending Rate had been set as follows:

Strategi dan Kebijakan Strategis yang Diterapkan oleh Bank

Dalam rangka mendukung pencapaian target kinerja yang telah ditetapkan, Bank Mandiri Taspen menetapkan berbagai strategi dan kebijakan strategis dengan fokus utama pada akselerasi pertumbuhan dana pihak ketiga dan kredit, serta optimalisasi operasional secara cepat dan efisien. Strategi ini ditujukan untuk mendukung pencapaian target tahunan, memperkuat likuiditas, serta meningkatkan produktivitas dan efisiensi dalam jangka pendek. Dalam rangka penguatan Dana Pihak Ketiga (DPK), Bank melakukan optimalisasi produk tabungan dan deposito khususnya untuk segmen ritel, mengaktifkan kembali nasabah *existing* melalui program *win-back*, serta memperluas akuisisi dana melalui pemanfaatan ekosistem pensiunan seperti *Family Banking Program*. Selain itu, Bank juga meluncurkan program VIP untuk mengoptimalkan dana nasabah pareto, memperluas kanal distribusi melalui sinergi dengan Agen Bank Mandiri dan strategi open booth, serta mengoptimalkan aplikasi *leads funding* guna mempercepat akuisisi dana ritel.

Di sisi penyaluran kredit, Bank terus meningkatkan pertumbuhan kredit secara *prudent* dengan memperluas kredit pensiunan melalui proses yang lebih fleksibel dan cepat, termasuk melalui *mobile banking*. Penyaluran Kredit Mantap Auto Loan juga didorong secara agresif namun selektif melalui program pemasaran yang masif, didukung oleh implementasi aplikasi *leads management* yang terintegrasi dengan sistem MONA untuk mempercepat proses pengajuan hingga pencairan kredit. Dalam rangka mitigasi risiko, Bank juga melakukan evaluasi dan penguatan *credit scoring* serta verifikasi kesehatan debitur.

Transformasi digital menjadi salah satu fokus utama melalui penguatan fitur *mobile banking* yang lebih ramah bagi nasabah senior serta implementasi *core banking system* baru untuk mendukung operasional yang lebih andal. Sejalan dengan itu, Bank juga terus mendorong efisiensi operasional melalui otomatisasi proses *back-office* dan *shared services*, peningkatan efektivitas akuisisi debitur secara selektif, serta peninjauan ulang proses bisnis guna mengoptimalkan biaya. Pemanfaatan media digital seperti *e-learning* dan *e-office* turut diperluas untuk meningkatkan efisiensi, disertai dengan penguatan keamanan teknologi informasi melalui pendekatan *multi-layered security*, peningkatan manajemen identitas dan akses, serta proteksi data guna mengantisipasi ancaman siber yang semakin kompleks.

Lebih lanjut, Bank juga memperkuat ekosistem kemitraan dan sinergi dengan induk perusahaan untuk memperluas jangkauan layanan dan meningkatkan daya saing produk. Kerja sama strategis dengan komunitas pensiunan dan institusi pemerintah terus dikembangkan guna memperluas basis nasabah dan meningkatkan *engagement*, sekaligus memberikan nilai tambah melalui berbagai program kemitraan, termasuk insentif khusus dan layanan berbasis komunitas bagi nasabah pensiunan.

Strategy and Strategic Policy Applied by Bank

To support the achievement of the established performance targets, Bank Mandiri Taspen establish various strategic strategies and policies with the main focus on accelerating the growth of third-party funds and credit, as well as optimizing operations quickly and efficiently. This strategy is aimed at supporting the achievement of annual targets, strengthening liquidity, and increasing productivity and efficiency in the short term. In order to strengthen Third Party Funds (TPF), the Bank is optimizing savings and deposit products, especially for the retail segment, reactivating existing customers through a *win-back* program, and expanding fund acquisition through the utilization of pension ecosystems such as the *Family Banking Program*. In addition, the Bank has also launched a VIP program to optimize Pareto customer funds, expanded distribution channels through synergies with Bank Mandiri Agents and an open booth strategy, and optimized the lead funding application to accelerate retail fund acquisition.

In terms of lending, the Bank continues to prudently increase credit growth by expanding pension loans through a more flexible and faster process, including through mobile banking. The distribution of Mantap Auto Loans is also being aggressively yet selectively promoted through a massive marketing program, supported by the implementation of a lead management application integrated with the MONA system to expedite the loan application and disbursement process. To mitigate risk, the Bank also evaluates and strengthens credit scoring and verifies debtor health.

Digital transformation is a key focus, with the strengthening of mobile banking features that are more user-friendly for senior customers and the implementation of a new core banking system to support more reliable operations. In line with this regard, the Bank also continues to drive operational efficiency through automation of back-office processes and shared services, increasing the effectiveness of selective debtor acquisition, and reviewing business processes to optimize costs. The use of digital media such as *e-learning* and *e-office* is also being expanded to increase efficiency, accompanied by strengthening information technology security through a multi-layered security approach, improving identity and access management, and data protection to anticipate increasingly complex cyber threats.

Furthermore, the Bank affirms its partnership ecosystem and synergy with its holding company to expand its service reach and enhance product competitiveness. Strategic collaborations with retirement communities and government institutions are continuously being developed to expand the customer base and increase engagement, while also providing added value through various partnership programs, including special incentives and community-based services for retirement customers.

Peranan Direksi dalam Perumusan Strategi dan Kebijakan Strategis

Dalam perumusan strategi dan kebijakan strategis Bank, Direksi secara aktif melakukan analisis terhadap kondisi internal dan eksternal, termasuk dinamika industri perbankan, perkembangan ekonomi makro, serta perubahan regulasi, sebagai dasar dalam penyusunan strategi yang adaptif dan responsif terhadap tantangan maupun peluang yang ada. Proses perumusan strategi dilakukan secara terstruktur melalui pembahasan yang komprehensif oleh Direksi dengan melibatkan seluruh fungsi terkait, guna memastikan keselarasan antara visi, misi, dan rencana bisnis Bank. Dalam penyusunan Rencana Bisnis Bank (RBB) dan kebijakan strategis lainnya, Direksi berperan dalam menetapkan prioritas utama, mengalokasikan sumber daya secara optimal, serta memastikan implementasi strategi dapat berjalan secara efektif dan terukur. Direksi juga menjalin komunikasi yang efektif dengan Dewan Komisaris dalam rangka memperoleh arahan dan masukan strategis, sehingga tercipta sinergi yang kuat dalam pengelolaan Bank.

Proses yang Dilakukan Direksi untuk Memastikan Implementasi Strategi

Dalam memastikan implementasi strategi berjalan efektif dan sesuai dengan rencana yang telah ditetapkan, Direksi menerapkan proses pengelolaan yang terstruktur, terukur, dan berkelanjutan. Direksi menetapkan rencana kerja dan indikator kinerja utama (*Key Performance Indicators/KPI*) yang jelas sebagai acuan bagi seluruh unit kerja dalam menjalankan strategi Bank. Pelaksanaan strategi dimonitor secara berkala melalui rapat manajemen dan forum evaluasi kinerja, di mana Direksi melakukan penelaahan terhadap capaian, mengidentifikasi kendala, serta menetapkan langkah tindak lanjut yang diperlukan. Proses ini didukung oleh sistem pelaporan manajemen yang terintegrasi, sehingga memungkinkan pengambilan keputusan yang cepat dan tepat berbasis data.

Selain itu, Direksi memastikan adanya koordinasi yang efektif antar fungsi serta penguatan peran unit pengendalian internal untuk menjaga kualitas implementasi strategi. Pengawasan juga dilakukan melalui penerapan manajemen risiko dan kepatuhan yang ketat guna memastikan setiap inisiatif strategis berjalan sesuai dengan prinsip kehati-hatian dan ketentuan yang berlaku. Direksi secara konsisten melakukan penyesuaian strategi apabila terdapat perubahan kondisi internal maupun eksternal, sehingga Bank tetap adaptif dan mampu menjaga kinerja secara optimal.

Roles of The Board of Directors in Formulating Strategy and Strategic Policy

Formulating its strategic strategies and policies, the Board of Directors actively analyzes internal and external conditions, including the dynamics of the banking industry, macroeconomic developments, and regulatory changes, as a basis for developing strategies that are adaptive and responsive to existing challenges and opportunities. The strategy formulation process is carried out in a structured manner through comprehensive discussions by the Board of Directors involving all relevant functions, to ensure alignment between the Bank's vision, mission, and business plan. In preparing the Bank's Business Plan (RBB) and other strategic policies, the Board of Directors plays a role in determining key priorities, allocating resources optimally, and ensuring that strategy implementation can run effectively and measurably. The Board of Directors also establishes effective communication with the Board of Commissioners in order to obtain strategic direction and input, thereby creating strong synergy in the management of the Bank.

Process Performed by The Board of Directors to Ensure Strategy Implementation

To ensure effective strategy implementation and in accordance with established plans, the Board of Directors implements a structured, measurable, and sustainable management process. The Board of Directors establishes a clear work plan and Key Performance Indicators (KPIs) as a reference for all work units in implementing the Bank's strategy. Strategy implementation is monitored periodically through management meetings and performance evaluation forums, where the Board of Directors reviews achievements, identifies obstacles, and determines necessary follow-up steps. This process is supported by an integrated management reporting system, enabling rapid and accurate data-driven decision-making.

Moreover, the Board of Directors ensures effective coordination between functions and strengthens the role of the internal control unit to maintain the quality of strategy implementation. Supervisory control is also performed through the implementation of strict risk management and compliance to ensure that every strategic initiative is conducted in accordance with prudent principles and applicable regulations. The Board of Directors consistently adjusts the strategy when there are changes in internal and external conditions, ensuring that the Bank remains adaptive and able to maintain optimal performance.

Information Technology

Meanwhile, in terms of digital transformation, it is marked by the successful implementation of the *New Core Banking System* (NCBS) as the key foundation for modernizing the banking system. This implementation has been applied comprehensively across all banking services, thus becoming a significant milestone in strengthening the Bank's digital capabilities. Through NCBS, Bank Mandiri Taspen can provide faster, more efficient, more reliable, and more secure services, while simultaneously improving the quality of the customer experience in accessing banking services. Furthermore, this transformation also contributes to optimizing information technology infrastructure, increasing data security, and overall operational efficiency. Thus, the implementation of NCBS is not only a system update, but also a strategic step for the Bank in strengthening its competitiveness and readiness to face the increasingly evolving digital banking era.

Human Capital

Pengembangan kompetensi SDM menjadi salah satu pendorong utama kinerja Bank Mandiri Taspen sepanjang tahun 2025. Bank secara konsisten melaksanakan program pelatihan dan pengembangan secara komprehensif melalui metode luring dan daring, dengan melibatkan penyelenggara internal maupun eksternal, serta memberikan kesempatan yang setara bagi seluruh pegawai. Implementasi program ini tercermin dari partisipasi 1.009 pegawai pada pengembangan *leadership*, 603 pegawai pada kompetensi non-teknis, serta 3.767 pegawai pada peningkatan kompetensi lainnya sesuai kebutuhan unit kerja. Selain itu, penguatan profesionalisme juga dilakukan melalui sertifikasi, dengan 1.153 pegawai mengikuti sertifikasi berbasis SKKNI dan 54 pegawai pada sertifikasi non-SKKNI. Seluruh inisiatif tersebut dievaluasi secara berkala guna memastikan efektivitasnya, sehingga mampu mendukung peningkatan produktivitas, kualitas kinerja, serta pencapaian target Bank secara berkelanjutan.

Perbandingan Antara Hasil yang Dicapai dengan yang Ditargetkan

Berdasarkan strategi yang telah diterapkan, Bank Mandiri Taspen berhasil mencatatkan kinerja yang baik pada tahun 2025 dengan pencapaian yang umumnya melampaui target dalam Rencana Bisnis Bank (RBB). Hal ini tercermin dari realisasi aset yang mencapai 100,86% dari target serta ekuitas sebesar 101,96%, didukung oleh peningkatan kinerja Bank. Dari sisi pendanaan, Dana Pihak Ketiga (DPK) juga menunjukkan kinerja yang kuat dengan pencapaian sebesar 104,71%, yang ditopang oleh pertumbuhan tabungan sebesar 107,76% dan deposito sebesar 104,19%. Di tengah tantangan industri perbankan, kinerja ini mencerminkan kemampuan Bank Mandiri Taspen dalam menjaga pertumbuhan yang berkelanjutan serta memperkuat posisinya di segmen bisnis yang dilayani.

Kendala-Kendala yang Dihadapi oleh Bank dan Langkah-Langkah Penyelesaiannya

Dalam menjalankan kegiatan operasionalnya, Bank Mandiri Taspen menyadari bahwa Bank tidak terlepas dari berbagai kendala. Kendala tersebut antara lain, perlunya peningkatan kapabilitas bisnis Bank untuk dapat *tapping* ke segmen di luar Pensiunan baik *lending* maupun *funding* sehingga bisnis Bank tetap relevan. Untuk mengatasi kendala tersebut, Bank Mandiri Taspen memperkuat akuisisi nasabah ritel melalui optimalisasi produk tabungan dan deposito, program aktivasi dan *win-back*, serta pemanfaatan ekosistem seperti *Family Banking* dan kanal distribusi Agen Bank Mandiri. Di sisi pembiayaan, Bank memperluas portofolio kredit secara selektif, termasuk melalui Kredit Mantap Auto Loan, serta didukung sistem digital untuk

Human Capital

Human resource competency development was one of the key drivers of Bank Mandiri Taspen's performance throughout 2025. The Bank consistently implemented comprehensive training and development programs through offline and online methods, involving both internal and external providers, and providing equal opportunities for all employees. The implementation of this program was reflected in the participation of 1,009 employees in leadership development, 603 employees in non-technical competencies, and 3,767 employees in other competency enhancements according to work unit needs. Furthermore, professionalism was also strengthened through certification, with 1,153 employees participating in SKKNI-based certification and 54 employees in non-SKKNI certification. These initiatives were periodically evaluated to ensure their effectiveness, so it could increase productivity, performance quality, and the sustainable achievement of the Bank's targets.

Comparison Between The Results and The Targets

Based on the applied strategies, Bank Mandiri Taspen successfully recorded good performance in 2025 with achievements that generally exceeded the targets in the Bank Business Plan (RBB). The performance was reflected in the realization of assets that reached 100.86% of the target and equity of 101.96%, supported by the improvement in the Bank's performance. In terms of funding, Third Party Funds (TPF) also showed strong performance with an achievement of 104.71%, supported by savings growth of 107.76% and deposits of 104.19%. In addition, the Bank also recorded positive achievements in the number of TPF and ASN Pension Fund accounts, which reached 104.71% and 104.79% of the target, respectively. Amidst the challenges of the banking industry, this performance reflected Bank Mandiri Taspen's ability to maintain sustainable growth and strengthen its position in the business segments it serves.

Constraints Dealt with Bank and Its Resolving Measures

To perform its operational activities, Bank Mandiri Taspen recognizes that the Bank is not free from various obstacles. These obstacles include the need to improve the Bank's business capabilities to tap into segments beyond Pensioners, both in lending and funding, so that the Bank's business remains relevant. To overcome these obstacles, Bank Mandiri Taspen strengthens retail customer acquisition through optimization of savings and deposit products, activation and win-back programs, and utilization of ecosystems such as Family Banking and Bank Mandiri Agent distribution channels. On the financing side, the Bank is selectively expanding its credit portfolio, including through the Kredit Mantap Auto

mempercepat proses akuisisi. Upaya ini diperkuat melalui sinergi dengan induk perusahaan dan kemitraan strategis guna memperluas jangkauan pasar dan meningkatkan daya saing.

Kendala lainnya yaitu, peningkatan infrastruktur IT khususnya layanan *e-channel* sehingga dapat mendorong pertumbuhan *fee based income recurring* Bank. Untuk mengatasi kendala tersebut, Bank mempercepat inisiasi digitalisasi melalui penguatan fitur *mobile banking* dan implementasi *New Core Banking System* (NCBS) sebagai fondasi operasional yang lebih andal, cepat, dan aman. Upaya ini didukung dengan optimalisasi layanan digital untuk meningkatkan transaksi nasabah, serta efisiensi operasional melalui otomatisasi proses dan pemanfaatan media digital. Selain itu, penguatan keamanan IT melalui *multi-layered security* dan peningkatan manajemen akses memastikan keandalan sistem dalam mendukung pertumbuhan transaksi digital dan *fee based income* secara berkelanjutan.

Hal-Hal Penting yang Diperkirakan Terjadi pada Masa Mendatang dan Prospek Usaha

Perang di Timur Tengah sejak akhir Februari 2026 semakin memperburuk prospek perekonomian global melalui lonjakan harga minyak yang mengganggu rantai pasok perdagangan, menekan pertumbuhan ekonomi dunia, dan meningkatkan inflasi global. Kondisi ini turut memicu volatilitas pasar keuangan, ditandai dengan penguatan dolar AS, kenaikan yield US Treasury, serta arus keluar modal dari negara emerging markets. Tekanan inflasi yang meningkat mempersempit ruang pelonggaran moneter global, termasuk potensi tertundanya penurunan Fed Funds Rate (FFR), sementara defisit fiskal AS yang melebar mendorong kenaikan premi risiko investasi dan pergeseran aliran modal ke aset safe-haven. Dampaknya, mata uang negara emerging markets mengalami tekanan, sehingga memerlukan respons kebijakan fiskal dan moneter yang lebih kuat untuk menjaga stabilitas ekonomi domestik.

Di tengah tekanan eksternal global, momentum pertumbuhan ekonomi Indonesia tetap terjaga dengan dukungan permintaan domestik dan stabilitas makroekonomi, di mana pada Triwulan I 2026 pertumbuhan didorong oleh peningkatan konsumsi rumah tangga saat periode HBKN yang didukung THR, belanja sosial, dan insentif fiskal, serta investasi yang tetap tumbuh seiring akselerasi program Pemerintah seperti KDKMP dan Danantara. Sinergi kebijakan Pemerintah dan Bank Indonesia terus diperkuat untuk menjaga stabilitas, dengan prospek pertumbuhan ekonomi 2026 diperkirakan berada pada kisaran 4,9%–5,7%, didukung keyakinan pelaku ekonomi dan berbagai program penciptaan lapangan kerja, sementara bauran kebijakan moneter, makroprudensial, dan sistem pembayaran diarahkan untuk menjaga stabilitas nilai tukar Rupiah yang

Loan, and is supported by a digital system to accelerate the acquisition process. These efforts are strengthened through synergies with the parent company and strategic partnerships to expand market reach and increase competitiveness.

Another challenge is improving IT infrastructure, particularly *e-channel* services, to drive the growth of the Bank's recurring *fee-based income*. To address this challenge, the Bank is accelerating its digitalization initiatives by strengthening mobile banking features and implementing the *New Core Banking System* (NCBS) as a more reliable, faster, and more secure operational foundation. These efforts are supported by optimizing digital services to increase customer transactions and operational efficiency through process automation and the use of digital media. Furthermore, strengthening IT security through *multi-layered security* and improving access management ensures system reliability in supporting the sustainable growth of digital transactions and *fee-based income*.

Important Things and Business Prospects Expected to Occur in The Future

The war in the Middle East since late February 2026 has further worsened the global economic outlook through soaring oil prices that have disrupted trade supply chains, depressed global economic growth, and increased global inflation. This situation has also triggered financial market volatility, marked by a strengthening US dollar, rising US Treasury yields, and capital outflows from emerging market countries. Rising inflationary pressures have narrowed the scope for global monetary easing, including the potential for a delay in lowering the Fed Funds Rate (FFR), while the widening US fiscal deficit has driven up investment risk premiums and shifted capital flows to safe-haven assets. Consequently, emerging market currencies have come under pressure, necessitating stronger fiscal and monetary policy responses to maintain domestic economic stability.

Amidst global external pressures, Indonesia's economic growth momentum remains strong, supported by domestic demand and macroeconomic stability. In the first quarter of 2026, growth was driven by increased household consumption during the National Holidays (HBKN) period, supported by THR (Holiday Holidays), social spending, and fiscal incentives, as well as continued investment growth in line with the acceleration of government programs such as KDKMP and Danantara. The synergy between the government and Bank Indonesia policies continues to be strengthened to maintain stability, with the 2026 economic growth outlook projected to be in the range of 4.9%–5.7%, supported by the confidence of economic actors and various job creation programs. Meanwhile, the mix of monetary, macroprudential, and payment system

sempat melemah ke Rp16.985 per dolar AS pada 16 Maret 2026 atau turun 1,29% dibanding akhir Februari 2026, melalui intervensi di pasar valas baik NDF, spot, maupun DNDF serta optimalisasi instrumen moneter guna menarik aliran modal asing dan menjaga stabilitas pasar keuangan domestik.

Sejalan dengan stabilitas makroekonomi yang tetap terjaga, kinerja industri perbankan nasional menunjukkan ketahanan yang baik. Pertumbuhan kredit perbankan pada Februari 2026 tercatat sebesar 9,37% (yoy), sedikit melambat dibandingkan Januari 2026 sebesar 9,96% (yoy). Berdasarkan kelompok penggunaan, pertumbuhan kredit didukung oleh kredit investasi, kredit modal kerja, dan kredit konsumsi yang masing-masing tumbuh sebesar 20,72% (yoy), 3,88% (yoy), dan 6,34% (yoy). Ke depan, pertumbuhan kredit pada tahun 2026 diprakirakan tetap berada pada kisaran 8%–12%, didukung oleh potensi peningkatan permintaan pembiayaan serta optimalisasi fasilitas kredit yang belum digunakan (*undisbursed loan*) yang masih cukup besar. Dari sisi pendanaan, prospek pertumbuhan Dana Pihak Ketiga (DPK) perbankan Indonesia pada tahun 2026 diproyeksikan tumbuh stabil pada kisaran 7%–9%, sehingga diharapkan dapat menopang kapasitas likuiditas perbankan dalam mendukung ekspansi kredit secara berkelanjutan.

Berdasarkan uraian di atas maka Bank Mandiri Taspen memiliki prospek usaha yang sangat baik di masa yang akan datang. Bank Mandiri Taspen tetap optimis untuk dapat senantiasa meningkatkan kinerjanya dalam jangka panjang. Bank Mandiri Taspen memiliki peluang untuk tumbuh. Peluang yang dimiliki Bank Mandiri Taspen antara lain sebagai berikut:

1. Bank Mandiri Taspen berpeluang masuk ke *new business* Dana Pensiun (Dapen) BUMN dan swasta yang mempunyai karakteristik seperti segmen ASN dan pensiunan.
2. *Branding* mulai dikenal dan dilirik oleh pencari kerja baik *fresh graduate* maupun yang telah berpengalaman.
3. Segmen pembiayaan kredit mikro, Usaha Mikro Kecil Menengah (UMKM), pra pensiun dan pensiunan di Indonesia yang masih memiliki potensi pasar yang besar.
4. Untuk meningkatkan komposisi *funding* retail, Bank Mandiri Taspen juga berpeluang untuk mengoptimalkan potensi segmen *senior citizen* usia > 40 tahun.
5. Segmen pembiayaan kredit pensiunan yang lebih resistance terhadap dampak lesunya perekonomian.
6. Peluang memberikan layanan perbankan yang lebih baik hingga ke berbagai pelosok daerah melalui pemanfaatan jaringan yang dimiliki entitas induk.
7. *Sources* pegawai dari kalangan millennial akan membantu bank dalam mengantisipasi perubahan ke arah digitalisasi.
8. Pada sisi teknologi, tren *AI and machine learning*, *open banking*, dan integrasi API menyediakan peluang bagi Bank Mantap untuk menyederhanakan proses bisnis, meningkatkan efisiensi operasional, serta memperkuat layanan digital bagi nasabah.

policies is aimed at maintaining the stability of the Rupiah exchange rate, which weakened to IDR16,985 per US dollar on March 16, 2026, down 1.29% compared to the end of February 2026, through intervention in the foreign exchange market, including NDF, spot, and DNDF, as well as optimizing monetary instruments to attract foreign capital flows and maintain domestic financial market stability.

In line with maintained macroeconomic stability, the national banking industry's performance demonstrated strong resilience. Bank credit growth in February 2026 was recorded at 9.37% (yoy), a slight slowdown compared to 9.96% (yoy) in January 2026. Based on usage groups, credit growth was supported by investment credit, working capital credit, and consumer credit, which grew by 20.72% (yoy), 3.88% (yoy), and 6.34% (yoy), respectively. Going forward, credit growth in 2026 is projected to remain in the range of 8%–12%, supported by the potential for increased financing demand and the optimization of substantial undisbursed loan facilities. From the funding side, the growth prospects for Third Party Funds (TPF) in Indonesian banks in 2026 are projected to grow steadily in the range of 7%–9%, so it is expected to bolster banking liquidity capacity to support sustainable credit expansion.

Based on the description above, Bank Mandiri Taspen has excellent business prospects for the future. Bank Mandiri Taspen remains optimistic about continuously improving its performance in the long term. Bank Mandiri Taspen has opportunities for growth. These opportunities include the following:

1. Bank Mandiri Taspen has the opportunity to enter the new business of state-owned and private pension funds (Dapen), which have characteristics similar to the civil servant and retiree segments.
2. Its branding is starting to be recognized and sought after by job seekers, both fresh graduates and experienced ones.
3. The microfinance, micro, small, and medium enterprise (MSME), pre-retirement, and retiree segments in Indonesia still hold significant market potential.
4. To increase its retail funding mix, Bank Mandiri Taspen also has the opportunity to optimize the potential of the senior citizen segment aged 40 and over.
5. The pensioner loan financing segment is more resilient to the impact of the economic downturn.
6. The opportunity to provide better banking services to remote areas by leveraging the parent entity's network.
7. Employee sources from the millennial generation will help the bank anticipate the shift towards digitalization.
8. On the technology side, trends in AI and machine learning, open banking, and API integration provide opportunities for Bank Mantap to simplify business processes, improve operational efficiency, and strengthen digital services for customers.

**Komisaris Utama
Independen**

Independent President
Commissioner

Dewan Komisaris menilai Direksi telah menjalankan strategi secara efektif dalam menjaga kinerja, memperkuat manajemen risiko, serta mendorong transformasi digital, yang didukung oleh berbagai inisiatif strategis, khususnya pada segmen pensiunan dan UMKM, serta peningkatan kualitas layanan kepada nasabah.

Pada kesempatan ini, Dewan Komisaris akan menyampaikan laporan pengawasan dan pemberian nasihat kepada Direksi sepanjang tahun 2025. Dalam laporan ini akan kami sampaikan antara lain penilaian kinerja Direksi, pandangan atas prospek usaha yang disusun Direksi, pandangan atas penerapan tata kelola Bank, serta susunan dan perubahan komposisi anggota Dewan Komisaris.

Penilaian Kinerja Direksi

Sepanjang tahun 2025, Dewan Komisaris secara aktif menjalankan fungsi pengawasan dan pemberian nasihat kepada Direksi guna memastikan bahwa pengelolaan Bank telah dilakukan secara profesional, *prudent*, dan sejalan dengan prinsip *Corporate Governance*.

Frekuensi dan Cara Pemberian Nasihat Kepada Direksi

Dalam menjalankan fungsi pengawasan dan pemberian nasihat, Dewan Komisaris telah menjalankan tugas dan tanggung jawabnya sesuai dengan Anggaran Dasar dan peraturan perundang-undangan yang berlaku. Pengawasan dan pemberian nasihat kepada Direksi merupakan tanggung jawab Dewan Komisaris dalam rangka memastikan kinerja Direksi mampu mencapai *key performance indicator* (KPI) yang telah ditetapkan. Pengawasan dan pemberian nasihat kepada Direksi dilakukan melalui Rapat Gabungan Dewan Komisaris mengundang Direksi. Selain itu, pemberian nasihat juga dapat dilaksanakan sewaktu-waktu sesuai keperluan dengan mengundang Dewan Komisaris melalui suatu forum rapat maupun kegiatan lainnya yang dihadiri oleh Dewan Komisaris. Selama tahun 2025, Dewan Komisaris telah melaksanakan 5 (lima) kali Rapat Gabungan dengan Direksi.

Dalam memberikan nasihat kepada Direksi, Dewan Komisaris memberikan arahan, masukan, dan rekomendasi strategis atas kinerja, kebijakan, serta rencana bisnis yang disampaikan oleh Direksi. Dewan Komisaris menerbitkan rekomendasi kepada Direksi bila ada hal-hal yang perlu diingatkan agar Direksi berhati-hati mengambil keputusan yang mengandung risiko dan berupaya memitigasi risiko yang mungkin terjadi. Setiap laporan yang diterima oleh Dewan Komisaris diberikan komentar dengan menerbitkan surat kepada Direksi. Selama tahun 2025 Dewan Komisaris telah menyampaikan

The Board of Commissioners assesses that the Board of Directors has effectively implemented strategies to maintain performance, strengthen risk management, and drive digital transformation, supported by various strategic initiatives, particularly in the pensioner and MSME segments, as well as improvements in service quality for customers.

On this occasion, the Board of Commissioners would like to present its report on supervisory activities and the provision of advice to the Board of Directors throughout 2025. This report includes, among others, an assessment of the performance of the Board of Directors, views on the business prospects prepared by the Board of Directors, perspectives on the implementation of the Bank's governance, as well as the composition and changes in the membership of the Board of Commissioners.

Assessment of The Board of Directors' Performance

Throughout 2025, the Board of Commissioners actively carried out its supervisory and advisory functions to ensure that the Bank was managed in a professional and prudent manner, in line with Corporate Governance principles.

Frequency and Methods of Providing Advice to The Board of Directors

In performing its supervisory and advisory functions, the Board of Commissioners carried out its duties and responsibilities in accordance with the Articles of Association and prevailing laws and regulations. The supervision and provision of advice to the Board of Directors constitute the responsibility of the Board of Commissioners in ensuring that the Board of Directors' performance achieves the established Key Performance Indicators (KPIs). Such supervision and advisory activities were conducted through Joint Meetings of the Board of Commissioners with the Board of Directors. In addition, advice may be provided at any time as deemed necessary through meetings or other forums attended by the Board of Commissioners. Throughout 2025, the Board of Commissioners held 5 (five) Joint Meetings with the Board of Directors.

In providing advice, the Board of Commissioners delivered directions, inputs, and strategic recommendations on performance, policies, and business plans presented by the Board of Directors. The Board of Commissioners also issued recommendations on matters requiring attention, particularly to ensure prudent decision-making on risk-related matters and to encourage effective risk mitigation. Each report received by the Board of Commissioners was followed up with comments through formal correspondence addressed to the Board of Directors. Throughout 2025, the Board of Commissioners

rekomendasi untuk ditindaklanjuti oleh Direksi sebanyak 19 (sembilan belas) kali.

Pengawasan Dewan Komisaris dalam Perumusan dan Implementasi Strategi yang Dilakukan oleh Direksi

Dewan Komisaris juga melaksanakan tugas, kewajiban dan tanggungjawabnya dalam rangka melakukan pengawasan terhadap perumusan strategi dan implementasi strategi Bank sesuai peraturan perundang-undangan yang berlaku dan Anggaran Dasar Bank. Pengawasan Dewan Komisaris dalam perumusan dan implementasi strategi yang dilakukan oleh Direksi dilaksanakan secara aktif dan berkesinambungan untuk memastikan arah kebijakan Bank sejalan dengan kepentingan jangka panjang. Pengawasan terhadap perumusan strategi, dilakukan dengan menelaah Rencana Strategis Bank (RBB) dan Rencana Kerja dan Anggaran Perusahaan (RKAP) Tahunan yang diajukan Direksi, serta memberikan arahan dan rekomendasi guna memastikan strategi yang ditetapkan telah mempertimbangkan kondisi internal, dinamika eksternal, serta prinsip kehati-hatian dan manajemen risiko.

Sedangkan pengawasan terhadap implementasi strategi Dewan Komisaris telah melakukan pengawasan secara periodik atas pelaksanaan RBB dan RKAP yang telah ditetapkan. Dewan Komisaris melakukan pengawasan melalui evaluasi berkala atas kinerja Direksi, termasuk pencapaian target dan pelaksanaan program strategis. Proses ini dilakukan melalui rapat rutin, rapat gabungan, serta pembahasan di tingkat komite untuk memastikan setiap inisiatif berjalan sesuai rencana dan ketentuan yang berlaku. Dewan Komisaris juga memantau efektivitas penerapan manajemen risiko dan pengendalian internal dalam mendukung implementasi strategi.

Selain itu, Dewan Komisaris memberikan arahan tindak lanjut atas hasil pengawasan serta mendorong Direksi untuk melakukan penyesuaian strategi apabila terdapat perubahan kondisi usaha. Dengan pengawasan yang terstruktur dan intensif, Dewan Komisaris memastikan bahwa strategi yang dirumuskan dan dijalankan oleh Direksi dapat memberikan hasil yang optimal serta mendukung keberlanjutan kinerja Bank.

Kondisi Perekonomian yang Secara Langsung Berdampak Terhadap Kinerja Bank

Ketidakpastian global masih tinggi seiring berlanjutnya ketegangan geopolitik, termasuk konflik Rusia-Ukraina dan eskalasi di Timur Tengah, serta meningkatnya kebijakan proteksionisme seperti penerapan tarif impor oleh Amerika Serikat pada tahun 2025. Kondisi ini menekan stabilitas ekonomi global melalui perlambatan perdagangan dan investasi.

issued 19 (nineteen) recommendations for follow-up by the Board of Directors.

Supervision of The Board of Commissioners on The Formulation and Implementation of Strategies by The Board of Directors

The Board of Commissioners also carried out its duties, obligations, and responsibilities in supervising the formulation and implementation of the Bank's strategies in accordance with prevailing laws and regulations and the Bank's Articles of Association. Such supervision was conducted actively and on an ongoing basis to ensure that the Bank's strategic direction remains aligned with its long-term interests. Supervision over strategy formulation was carried out through the review of the Bank Business Plan (RBB) and the Annual Work Plan and Budget (RKAP) proposed by the Board of Directors, as well as by providing directions and recommendations to ensure that the strategies have taken into account internal conditions, external dynamics, and the principles of prudence and risk management.

Meanwhile, supervision over strategy implementation was conducted through periodic monitoring of the execution of the approved RBB and RKAP. The Board of Commissioners performed such supervision through regular evaluations of the Board of Directors' performance, including the achievement of targets and the execution of strategic programs. This process was conducted through regular meetings, joint meetings, and committee-level discussions to ensure that each initiative was implemented in accordance with the established plans and prevailing regulations. The Board of Commissioners also monitored the effectiveness of risk management and internal control systems in supporting strategy implementation.

In addition, the Board of Commissioners provided directions for follow-up actions based on the results of its supervision and encouraged the Board of Directors to adjust strategies in response to changes in business conditions. Through structured and intensive supervision, the Board of Commissioners ensured that the strategies formulated and implemented by the Board of Directors delivered optimal results and supported the Bank's sustainable performance.

Economic Conditions Directly Impacting The Bank's Performance

Global uncertainty remained elevated amid ongoing geopolitical tensions, including the Russia-Ukraine conflict and escalation in the Middle East, as well as increasing protectionist policies such as the implementation of import tariffs by the United States in 2025. These conditions exerted pressure on global economic stability through slower trade

Dampaknya, pertumbuhan ekonomi dunia menunjukkan tren melambat, dari sekitar 3,3% pada 2024 menjadi 3,2% pada 2025, dan diperkirakan turun ke kisaran 3,1% pada 2026, sebagaimana dilaporkan oleh IMF. Hal ini mencerminkan tekanan yang berlanjut akibat fragmentasi perdagangan dan dinamika geopolitik global.

Perekonomian Indonesia tetap menunjukkan tren positif di tengah dinamika global, didukung oleh stabilitas makroekonomi, pemulihan pascapandemi, serta sinergi kebijakan fiskal dan moneter yang menjaga inflasi dan stabilitas sistem keuangan sekaligus mendorong permintaan domestik. Hal ini tercermin dari pertumbuhan ekonomi yang mencapai 5,11% (yoy) pada tahun 2025, meningkat dibandingkan 5,03% (yoy) pada tahun 2024, dengan pertumbuhan Triwulan IV 2025 sebesar 5,39% (yoy), lebih tinggi dari Triwulan sebelumnya sebesar 5,04% (yoy), yang terutama ditopang oleh konsumsi rumah tangga dan investasi serta diikuti dengan perbaikan kualitas ketenagakerjaan.

Dari sisi perbankan, stabilitas sistem keuangan tetap terjaga dengan fungsi intermediasi yang terus meningkat, tercermin dari Indeks Stabilitas Keuangan (ISSK) yang berada di zona normal sepanjang 2025 serta ketahanan perbankan yang kuat dari sisi permodalan, risiko kredit, dan likuiditas. Rasio kecukupan modal (CAR) tercatat tinggi sebesar 25,89% pada Desember 2025, sementara risiko kredit tetap terkendali dengan NPL 2,05% (bruto) dan 0,79% (neto), serta likuiditas yang memadai dengan rasio AL/DPK 28,57% dan LDR 85,35%. Sejalan dengan kondisi tersebut, pertumbuhan kredit juga menunjukkan tren positif dengan kenaikan sebesar 9,69% (yoy) pada akhir 2025.

Kinerja Bank

Di tengah kondisi perekonomian tersebut, Dewan Komisaris berpandangan Direksi mampu menghadapi tantangan dan peluang yang terjadi dengan mencatatkan kinerja yang baik di tahun 2025. Dari sisi operasional, penyaluran kredit meningkat menjadi Rp50,53 triliun atau tumbuh 9,23% dibandingkan tahun sebelumnya sebesar Rp46,26 triliun, sejalan dengan peningkatan Dana Pihak Ketiga (DPK) yang mencapai Rp55,03 triliun atau naik 12,71% dari Rp48,82 triliun.

Kinerja keuangan Bank juga menunjukkan perbaikan yang solid, tercermin dari total aset yang tumbuh 10,25% menjadi Rp73,02 triliun dari Rp66,23 triliun pada tahun 2024, serta penguatan ekuitas sebesar 20,64% menjadi Rp9,39 triliun dari Rp7,79 triliun. Dari sisi profitabilitas, pendapatan bunga neto meningkat 6,51% menjadi Rp3,66 triliun, yang turut mendorong kenaikan laba tahun berjalan menjadi Rp1,58 triliun atau tumbuh 0,22% dibandingkan tahun sebelumnya.

Dari sisi transformasi digital, Bank Mandiri Taspen mencatat pencapaian penting melalui implementasi *New Core Banking*

and investment growth. As a result, global economic growth showed a moderating trend, declining from approximately 3.3% in 2024 to 3.2% in 2025, and is projected to ease further to around 3.1% in 2026, as reported by the IMF. This reflects continued pressure arising from trade fragmentation and global geopolitical dynamics.

Indonesia's economy continued to demonstrate positive performance amid global challenges, supported by macroeconomic stability, post-pandemic recovery, and the synergy of fiscal and monetary policies that maintained inflation and financial system stability while supporting domestic demand. This was reflected in economic growth of 5.11% (yoy) in 2025, higher than 5.03% (yoy) in 2024, with fourth quarter 2025 growth reaching 5.39% (yoy), higher than the previous quarter's 5.04% (yoy), primarily driven by household consumption and investment, along with improvements in employment quality.

From the banking sector perspective, financial system stability remained well maintained, with strengthening intermediation functions as reflected in the Financial System Stability Index (ISSK), which remained within the normal range throughout 2025, as well as strong banking resilience in terms of capital, credit risk, and liquidity. The Capital Adequacy Ratio (CAR) remained high at 25.89% as of December 2025, while credit risk was well managed with Non-Performing Loans (NPL) at 2.05% (gross) and 0.79% (net), and liquidity remained adequate with AL/DPK at 28.57% and LDR at 85.35%. In line with these conditions, credit growth also showed a positive trend, increasing by 9.69% (yoy) by the end of 2025.

BANK PERFORMANCE

Amid these economic conditions, the Board of Commissioners views that the Board of Directors was able to navigate the challenges and opportunities, as reflected in the Bank's solid performance in 2025. From an operational perspective, loan disbursement increased to IDR 50.53 trillion, or grew by 9.23% compared to the previous year of IDR 46.26 trillion, in line with the growth in Third Party Funds (TPF), which reached IDR 55.03 trillion or increased by 12.71% from IDR 48.82 trillion.

The Bank's financial performance also showed solid improvement, as reflected in total assets which grew by 10.25% to IDR 73.02 trillion from IDR 66.23 trillion in 2024, as well as equity strengthening by 20.64% to IDR 9.39 trillion from IDR 7.79 trillion. In terms of profitability, net interest income increased by 6.51% to IDR 3.66 trillion, which also drove profit for the year to IDR 1.58 trillion, or grew by 0.22% compared to the previous year.

In terms of digital transformation, Bank Mandiri Taspen recorded a significant milestone through the implementation of

System (NCBS). Sistem ini telah diterapkan secara menyeluruh pada seluruh layanan, sehingga memperkuat kapabilitas digital Bank. Melalui NCBS, Bank mampu menghadirkan layanan yang lebih cepat, efisien, andal, dan aman, sekaligus meningkatkan kualitas pengalaman nasabah dalam mengakses layanan perbankan. Selain itu, implementasi ini turut mendukung optimalisasi infrastruktur teknologi informasi, memperkuat keamanan data, serta meningkatkan efisiensi operasional secara keseluruhan.

Selain kinerja operasional dan keuangan, tingkat kesehatan bank juga menjadi salah satu pertimbangan Dewan Komisaris dalam melakukan penilaian atas kinerja Direksi. Tingkat kesehatan Bank mencerminkan hasil penilaian kondisi Bank yang dilakukan terhadap risiko dan kinerja Bank yang dapat dilihat dari peringkat akhir hasil penilaian berdasarkan pada Peraturan Otoritas Jasa Keuangan No. POJK Nomor 4/POJK.03/2016 tentang Penilaian Tingkat Kesehatan Bank Umum. Peringkat komposit tingkat kesehatan Bank Mandiri Taspen posisi 31 Desember 2025 berada pada komposit 1 (satu). Analisis berdasarkan tabel di atas mencerminkan kondisi Bank Mandiri Taspen secara umum SANGAT SEHAT, sehingga dinilai mampu menghadapi pengaruh negatif yang signifikan dari perubahan kondisi bisnis dan faktor eksternal lainnya tercermin dari peringkat faktor-faktor penilaian, antara lain Profil Risiko, penerapan GCG, Rentabilitas, dan Permodalan yang secara umum baik. Apabila terdapat kelemahan, maka secara umum kelemahan tersebut kurang bersifat minor dan dapat segera diperbaiki.

Pandangan atas Prospek Usaha yang Disusun Direksi

Perekonomian global pada awal 2026 menghadapi tekanan akibat konflik geopolitik di Timur Tengah yang mendorong kenaikan harga minyak, meningkatkan inflasi, serta memicu volatilitas pasar keuangan yang ditandai penguatan dolar AS, kenaikan yield US Treasury, dan arus keluar modal dari emerging markets. Dampak tersebut turut menekan nilai tukar, termasuk Rupiah yang pada 16 Maret 2026 melemah menjadi Rp16.985 per dolar AS atau turun 1,29% dibanding akhir Februari 2026. Di tengah tekanan tersebut, ekonomi Indonesia tetap menunjukkan ketahanan dengan pertumbuhan yang didorong permintaan domestik, serta prospek 2026 yang diperkirakan berada pada kisaran 4,9%–5,7%.

Dari sisi industri perbankan, kinerja tetap solid dengan pertumbuhan kredit sebesar 9,37% (yoy) pada Februari 2026, didukung kredit investasi 20,72% (yoy), kredit modal kerja 3,88% (yoy), dan kredit konsumsi 6,34% (yoy), sementara pertumbuhan DPK mencapai 13,18% (yoy) dengan likuiditas yang memadai (AL/DPK 27,40%). Ketahanan perbankan juga tercermin dari CAR yang tinggi sebesar 25,87% serta NPL yang terjaga pada 2,14% (bruto) dan 0,82% (neto). Di sisi

the New Core Banking System (NCBS). This system has been fully implemented across all services, thereby strengthening the Bank's digital capabilities. Through NCBS, the Bank is able to deliver faster, more efficient, reliable, and secure services, while enhancing customer experience in accessing banking services. In addition, this implementation supports the optimization of information technology infrastructure, strengthens data security, and improves overall operational efficiency.

In addition to operational and financial performance, the Bank's soundness level also became a key consideration for the Board of Commissioners in assessing the performance of the Board of Directors. The Bank's soundness level reflects the results of an assessment of the Bank's condition based on risks and performance, as stipulated in Financial Services Authority Regulation No. 4/POJK.03/2016 concerning the Assessment of Commercial Bank Soundness Levels. As of December 31, 2025, Bank Mandiri Taspen's composite soundness rating was at Composite 1 (one). Based on this assessment, Bank Mandiri Taspen is generally categorized as VERY SOUND, indicating its ability to withstand significant adverse impacts from changes in business conditions and other external factors, as reflected in the overall strong ratings across key assessment factors, including Risk Profile, Good Corporate Governance (GCG) implementation, Earnings, and Capital. Any identified weaknesses are generally minor and can be promptly addressed.

Views on The Business Prospects Prepared by The Board of Directors

At the beginning of 2026, the global economy faced pressures arising from geopolitical conflicts in the Middle East, which led to rising oil prices, increased inflation, and heightened volatility in financial markets, as reflected in the strengthening of the US dollar, rising US Treasury yields, and capital outflows from emerging markets. These conditions also exerted pressure on exchange rates, including the Rupiah, which depreciated to IDR 16,985 per US dollar on March 16, 2026, or weakened by 1.29% compared to the end of February 2026. Amid these pressures, Indonesia's economy continued to demonstrate resilience, supported by domestic demand, with economic growth in 2026 projected to range between 4.9%–5.7%.

From the banking industry perspective, performance remained solid, with credit growth reaching 9.37% (yoy) as of February 2026, supported by investment loans at 20.72% (yoy), working capital loans at 3.88% (yoy), and consumer loans at 6.34% (yoy). Meanwhile, Third Party Funds grew by 13.18% (yoy), supported by adequate liquidity (AL/DPK at 27.40%). Banking resilience was also reflected in a strong Capital Adequacy Ratio (CAR) of 25.87%, while Non-Performing Loans (NPL)

sistem pembayaran, transaksi digital terus tumbuh kuat dengan volume mencapai 4,67 miliar transaksi atau meningkat 40,35% (yoy), didukung perkembangan QRIS dan BI-FAST yang mencatat 434 juta transaksi senilai Rp1.092 triliun, sementara transaksi BI-RTGS mencapai Rp16.105 triliun, mencerminkan aktivitas ekonomi dan keuangan yang tetap terjaga.

Berdasarkan prediksi kondisi perekonomian dan industri perbankan, Dewan Komisaris berpendapat bahwa prospek usaha yang telah disusun oleh Direksi sudah tepat. Dewan Komisaris berkeyakinan bahwa Bank akan dapat memanfaatkan peluang yang ada di antaranya adalah Bank Mandiri Taspen memiliki peluang pertumbuhan yang kuat melalui ekspansi ke segmen Dana Pensiun (Dapen) BUMN dan swasta serta optimalisasi pasar kredit mikro, UMKM, prapensiun, dan pensiunan yang masih luas. Dari sisi pendanaan, potensi segmen *senior citizen* turut mendukung penguatan *funding* ritel, sementara karakteristik kredit pensiunan yang relatif stabil menjadi keunggulan tersendiri. Selain itu, penguatan *branding*, dukungan talenta milenial, serta pemanfaatan jaringan entitas induk membuka peluang perluasan layanan. Adopsi teknologi seperti AI, *open banking*, dan integrasi API juga mendorong efisiensi dan penguatan layanan digital Bank.

Pandangan Atas Penerapan Tata Kelola Bank

Dewan Komisaris senantiasa memantau dan mengawasi penerapan prinsip-prinsip *Corporate Governance* di seluruh jenjang organisasi Bank Mandiri Taspen guna memastikan pengelolaan Bank berjalan sesuai prinsip *Corporate Governance*. Penerapan *Corporate Governance* secara konsisten diyakini sebagai landasan utama dalam menciptakan tata kelola perusahaan yang sehat, transparan, dan berintegritas, sekaligus mengacu pada seluruh peraturan perundang-undangan yang berlaku. Penerapan *Corporate Governance* tersebut tidak hanya mendukung tercapainya sasaran Bank melalui praktik usaha yang sehat, tetapi juga mampu menciptakan nilai tambah bagi seluruh pemangku kepentingan serta memberikan manfaat nyata dalam menjaga kinerja dan keberlanjutan Bank. Dewan Komisaris berpendapat bahwa Direksi telah menerapkan GCG dengan efektif dan konsisten di 2025. Hal ini dapat terlihat pada komponen-komponen sebagai berikut.

Manajemen Risiko

Penerapan manajemen risiko di Bank Mandiri Taspen dilaksanakan secara terintegrasi sesuai POJK No. 18/POJK.03/2016 dan SEOJK No. 34/SEOJK.03/2016, dengan tujuan memastikan seluruh risiko yang timbul dari kegiatan

remained well maintained at 2.14% (gross) and 0.82% (net). In the payment system, digital transactions continued to grow significantly, reaching a volume of 4.67 billion transactions or increasing by 40.35% (yoy), supported by the expansion of QRIS and BI-FAST, which recorded 434 million transactions with a value of IDR 1,092 trillion, while BI-RTGS transactions reached IDR 16,105 trillion, reflecting sustained economic and financial activity.

Based on the outlook for economic conditions and the banking industry, the Board of Commissioners views that the business prospects prepared by the Board of Directors are appropriate. The Board of Commissioners believes that the Bank will be able to capitalize on existing opportunities, including strong growth potential through expansion into the pension fund (Dapen) segment of state-owned and private institutions, as well as optimization of the still sizable microcredit, MSME, pre-retirement, and pensioner markets. From a funding perspective, the senior citizen segment also provides potential to strengthen retail funding, while the relatively stable nature of pensioner loans remains a key advantage. In addition, strengthened branding, support from millennial talent, and the utilization of the parent entities' network create opportunities for service expansion. The adoption of technologies such as artificial intelligence, open banking, and API integration further supports efficiency and enhances the Bank's digital services.

Views on The Implementation of Bank Governance

The Board of Commissioners continuously monitored and supervised the implementation of Corporate Governance principles across all levels of Bank Mandiri Taspen's organization to ensure that the Bank's management was conducted in accordance with Corporate Governance principles. The consistent implementation of Corporate Governance is regarded as the primary foundation for establishing a sound, transparent, and integrity-driven governance structure, while also complying with prevailing laws and regulations. The implementation of Corporate Governance not only supports the achievement of the Bank's objectives through sound business practices but also creates added value for all stakeholders and contributes to maintaining the Bank's performance and sustainability. The Board of Commissioners views that the Board of Directors has implemented Good Corporate Governance (GCG) effectively and consistently in 2025, as reflected in the following components.

RISK MANAGEMENT

Risk management at Bank Mandiri Taspen was implemented in an integrated manner in accordance with POJK No. 18/POJK.03/2016 and SEOJK No. 34/SEOJK.03/2016, with the objective of ensuring that all risks arising from the Bank's

usaha bank dapat diidentifikasi, diukur, dipantau, dan dikendalikan secara efektif serta mendukung pertumbuhan bisnis yang sehat dan berkelanjutan. Manajemen risiko diterapkan melalui kerangka kerja yang komprehensif yang mencakup delapan jenis risiko utama, yaitu risiko kredit, pasar, likuiditas, operasional, hukum, reputasi, strategik, dan kepatuhan. Pengelolaannya dilakukan secara berlapis melalui *three lines of defense*, dengan unit bisnis sebagai lini pertama, fungsi manajemen risiko dan kepatuhan sebagai lini kedua, serta audit internal sebagai lini ketiga yang memberikan *assurance independent*.

Secara organisasi, penerapan manajemen risiko didukung oleh Satuan Kerja Manajemen Risiko serta komite-komite terkait seperti Komite Manajemen Risiko, ALCO, dan Komite Kebijakan Perkreditan. Bank juga secara rutin menyusun profil risiko triwulanan serta penilaian Tingkat Kesehatan Bank (RBBR) setiap semester sebagai bentuk pelaporan kepada regulator. Proses manajemen risiko mencakup identifikasi risiko secara proaktif, pengukuran secara kualitatif dan kuantitatif, pemantauan berbasis limit, serta pengendalian risiko melalui kebijakan, prosedur, dan sistem informasi manajemen risiko yang terintegrasi. Implementasinya didukung oleh sistem informasi risiko, stress testing, serta berbagai alat monitoring seperti RCSA, RTTA, dan dashboard risiko.

Secara keseluruhan, hasil evaluasi menunjukkan bahwa profil risiko Bank Mandiri Taspen berada pada level yang terkendali dengan peringkat komposit "2", yang mencerminkan bahwa risiko dapat dikelola dengan baik dan mendukung keberlanjutan bisnis bank secara *prudent*. Dewan Komisaris dan Direksi bertanggung jawab atas penerapan manajemen risiko di Bank Mandiri Taspen. Pengawasan Aktif Dewan Komisaris Bank Mandiri Taspen tercermin dari persetujuan atas Kebijakan Manajemen Risiko yang disusun oleh Direksi, serta evaluasi pelaksanaan kebijakan manajemen risiko melalui forum rapat Direksi dan Komisaris secara berkala, dalam pelaksanaannya pengawasan aktif Dewan Komisaris didukung oleh Komite Pemantau Risiko. Berdasarkan hasil evaluasi atas sistem manajemen risiko pada tahun 2025, Dewan Komisaris menilai bahwa kecukupan sistem manajemen risiko telah berjalan memadai.

Sistem Pengendalian Internal

Sistem Pengendalian Internal Bank Mandiri Taspen mengacu pada SEOJK No. 35/SEOJK.03/2017 dan diimplementasikan secara menyeluruh untuk memastikan kepatuhan terhadap ketentuan, keandalan pelaporan keuangan, efektivitas dan efisiensi operasional, serta penguatan budaya risiko di seluruh organisasi. Sistem Pengendalian Internal Bank Mandiri Taspen disusun berdasarkan tiga pilar kebijakan utama, yaitu Kebijakan Internal Audit, Kebijakan Kepatuhan dan Hukum, serta Kebijakan Manajemen Risiko. Ketiganya menjadi fondasi

business activities are identified, measured, monitored, and controlled effectively, while supporting sustainable business growth. Risk management was implemented through a comprehensive framework covering eight main types of risk, namely credit, market, liquidity, operational, legal, reputational, strategic, and compliance risks. The management of these risks was conducted through a layered approach based on the three lines of defense, with business units as the first line, risk management and compliance functions as the second line, and internal audit as the third line providing independent assurance.

Organizationally, the implementation of risk management was supported by the Risk Management Unit and relevant committees, including the Risk Management Committee, Asset Liability Committee (ALCO), and Credit Policy Committee. The Bank also regularly prepared quarterly risk profiles and conducted Bank Soundness assessments (RBBR) on a semi-annual basis as part of its reporting to the regulator. The risk management process encompassed proactive risk identification, qualitative and quantitative measurement, limit-based monitoring, and risk control through policies, procedures, and integrated risk management information systems. Its implementation was supported by risk information systems, stress testing, and various monitoring tools such as RCSA, RTTA, and risk dashboards.

Overall, the evaluation results indicated that Bank Mandiri Taspen's risk profile remained under control, with a composite rating of "2", reflecting that risks were well managed and supported the Bank's business sustainability in a prudent manner. The Board of Commissioners and the Board of Directors are responsible for the implementation of risk management at Bank Mandiri Taspen. The active supervision of the Board of Commissioners was reflected in the approval of Risk Management Policies prepared by the Board of Directors, as well as in the evaluation of their implementation through regular meetings of the Board of Directors and the Board of Commissioners. In carrying out its supervisory role, the Board of Commissioners was supported by the Risk Monitoring Committee. Based on the evaluation of the risk management system in 2025, the Board of Commissioners assessed that the adequacy of the risk management system was satisfactory.

Internal Control System

The Internal Control System of Bank Mandiri Taspen refers to SEOJK No. 35/SEOJK.03/2017 and was implemented comprehensively to ensure compliance with regulations, reliability of financial reporting, effectiveness and efficiency of operations, and the strengthening of risk culture across the organization. The Internal Control System was established based on three main policy pillars, namely the Internal Audit Policy, Compliance and Legal Policy, and Risk Management Policy. These pillars serve as the foundation for ensuring

dalam memastikan penerapan tata kelola yang baik, kepatuhan terhadap regulasi, serta pengelolaan risiko yang efektif di seluruh aktivitas bank.

Implementasi Sistem Pengendalian Internal dijalankan melalui lima komponen utama sesuai kerangka COSO, yakni lingkungan pengendalian, penilaian risiko, aktivitas pengendalian, informasi dan komunikasi, serta aktivitas pemantauan. Pengendalian ini diperkuat dengan pendekatan *three lines of defense* yang melibatkan unit bisnis sebagai lini pertama, fungsi manajemen risiko dan kepatuhan sebagai lini kedua, serta audit internal sebagai lini ketiga yang memberikan *assurance* independen.

Selain itu, Bank juga menerapkan pengendalian pada aspek sistem informasi, aset fisik, pemisahan fungsi (*four-eyes principle*), serta dokumentasi yang memadai untuk memastikan transparansi dan akuntabilitas proses operasional. Pengawasan dilakukan secara berjenjang oleh Direksi dan Dewan Komisaris melalui review berkala, serta didukung evaluasi internal audit dan pengawasan eksternal dari regulator dan auditor independen. Dalam aspek pelaporan keuangan, Bank juga telah mengimplementasikan *Internal Control over Financial Reporting* (ICoFR) untuk memastikan integritas dan keandalan laporan keuangan sesuai standar akuntansi yang berlaku.

Secara keseluruhan, Sistem Pengendalian Internal Bank Mandiri Taspen telah berjalan secara komprehensif, terintegrasi, dan berkesinambungan untuk mendukung terciptanya tata kelola yang sehat, mitigasi risiko yang efektif, serta keberlanjutan kinerja bank. Dalam pengawasan terhadap penerapan sistem pengendalian internal, Direksi dan Dewan Komisaris dibantu oleh Internal Audit yang merupakan Satuan Kerja dalam organisasi dan Komite Audit. Dalam menjalankan tugasnya, Internal Audit berkomunikasi langsung dengan Dewan Komisaris melalui Komite Audit untuk menginformasikan berbagai hal yang berhubungan dengan Aktivitas Internal Audit. Direksi dan Dewan Komisaris berpandangan bahwa penerapan sistem pengendalian internal selama tahun 2025 sudah berjalan dengan baik.

Whistleblowing System

Penyelesaian pengaduan pelanggaran oleh Bank merupakan salah satu bentuk peningkatan perlindungan *stakeholders* dalam rangka menjamin hak-haknya dalam berhubungan dengan Bank dan menjamin penanganan yang memenuhi ketentuan dan persyaratan yang ditetapkan oleh Bank, Pemerintah dan Aparat Berwajib. Untuk itu maka perlu dirumuskan kebijakan, sistem dan prosedur penanganan yang selaras untuk mengatur penyelesaian pengaduan pelanggaran bagi *stakeholders* dalam suatu Kebijakan Pengelolaan Pengaduan Pelanggaran. Dalam rangka penerapan Strategi *Anti Fraud*, Divisi Internal Audit ditunjuk sebagai unit kerja koordinator penerapan dan pelaksanaan Strategi *Anti Fraud* di Bank Mandiri Taspen.

sound governance implementation, regulatory compliance, and effective risk management across all Bank activities.

The implementation of the Internal Control System follows five key components in accordance with the COSO framework, namely control environment, risk assessment, control activities, information and communication, and monitoring activities. This system was further strengthened by the three lines of defense approach, involving business units as the first line, risk management and compliance functions as the second line, and internal audit as the third line providing independent assurance.

In addition, the Bank implemented controls over information systems, physical assets, segregation of duties (*four-eyes principle*), and adequate documentation to ensure transparency and accountability in operational processes. Supervision was carried out in stages by the Board of Directors and the Board of Commissioners through periodic reviews, supported by internal audit evaluations and external oversight from regulators and independent auditors. In terms of financial reporting, the Bank has also implemented Internal Control over Financial Reporting (ICoFR) to ensure the integrity and reliability of financial statements in accordance with applicable accounting standards.

Overall, the Internal Control System of Bank Mandiri Taspen has been implemented in a comprehensive, integrated, and continuous manner to support sound governance, effective risk mitigation, and sustainable business performance. In supervising the implementation of the internal control system, the Board of Directors and the Board of Commissioners were supported by the Internal Audit function and the Audit Committee. In carrying out its duties, Internal Audit communicated directly with the Board of Commissioners through the Audit Committee to report matters related to internal audit activities. The Board of Directors and the Board of Commissioners viewed that the implementation of the internal control system throughout 2025 has been effective.

Whistleblowing System

The handling of violation reports by the Bank represents one of the efforts to enhance stakeholder protection, ensuring their rights in their interactions with the Bank, as well as ensuring that complaint handling complies with the provisions and requirements set by the Bank, the Government, and relevant authorities. Accordingly, policies, systems, and procedures have been established to regulate the resolution of violation reports through a structured Whistleblowing Management Policy. In implementing the Anti-Fraud Strategy, the Internal Audit Division has been designated as the coordinating unit responsible for the implementation and execution of the Anti-Fraud Strategy at Bank Mandiri Taspen.

Untuk pengelolaan sarana pengaduan, Bank Mandiri Taspen telah mengimplementasikan *Whistleblowing System* (WBS) dengan menggunakan jasa provider eksternal (independen) yang berkoordinasi dengan pengelola internal WBS-LTC, hal ini bertujuan sebagai upaya deteksi fraud dan pencegahan fraud melalui efek gentar calon fraudster serta memberikan rasa aman dan nyaman bagi pelapor serta untuk meningkatkan efektivitas penerapan sistem pengendalian fraud dengan menitikberatkan pada pengungkapan dari pengaduan.

Atas setiap Laporan WBS yang masuk, Bank berkewajiban untuk melindungi pelapor dan terlapor. Perlindungan pelapor memiliki manfaat atas kepastian perlakuan terhadap pelapor dan atas kerahasiaan pelapor sehingga mendorong keberanian untuk melaporkan pelanggaran. Semua laporan pelanggaran akan dijamin kerahasiaan dan keamanannya oleh Bank dan pelapor dijamin haknya untuk memperoleh informasi mengenai tindak lanjut atas laporannya.

Setiap pengaduan pelanggaran yang masuk akan dikelola oleh Divisi Internal Audit, selanjutnya Divisi Internal Audit akan melakukan investigasi atas laporan yang diterima. Divisi Internal Audit harus bersifat *Netral*, *Independency*, dan *Profesionalisme* dalam menerima pengaduan pelanggaran dengan menggunakan asas Praduga Tak Bersalah atau "*Presumption of Innocence*" yaitu asas dimana seseorang dinyatakan tidak bersalah hingga dinyatakan bersalah. Dewan Komisaris melalui Komite Audit berperan dalam mereview pelaksanaan tanggung jawab Divisi Internal Audit terkait dengan penerapan WBS. Divisi Internal Audit memiliki tanggung jawab mengevaluasi dan menyampaikan hasil tindak lanjut laporan pengaduan, melakukan proses investigasi serta membuat laporan hasil investigasi. Dewan Komisaris berpandangan bahwa penerapan WBS di Bank telah berjalan dengan baik. Namun demikian, Dewan Komisaris memberikan arahan agar ke depannya penerapan WBS lebih ditingkatkan lagi efektivitasnya.

Tata Kelola Keberlanjutan

Bank Mandiri Taspen berkomitmen untuk mendukung penerapan keuangan berkelanjutan yang merupakan implementasi atas visi dan misi Bank. Dalam hal ini, Bank Mandiri Taspen mengedepankan prinsip *triple bottom line* (ekonomi, sosial dan lingkungan) dengan menyelaraskan aspek Lingkungan, Sosial dan Tata Kelola (LST) dalam kegiatan usaha Bank. Oleh karenanya, Bank Mandiri Taspen diharuskan untuk menyalurkan pembiayaan pada nasabah dengan menghindarkan pada kegiatan usaha yang dapat merusak lingkungan hidup.

To manage reporting channels, Bank Mandiri Taspen has implemented a *Whistleblowing System* (WBS) in collaboration with an independent external provider, coordinated with the internal WBS-LTC management. This initiative aims to enhance fraud detection and prevention, create a deterrent effect for potential fraud perpetrators, and provide a secure and comfortable reporting mechanism for whistleblowers, while improving the effectiveness of fraud control systems with a focus on disclosure through reporting.

For every WBS report received, the Bank is committed to protecting both the whistleblower and the reported party. Protection of whistleblowers ensures certainty of treatment and confidentiality, thereby encouraging the reporting of violations. All reports are guaranteed confidentiality and security, and whistleblowers are entitled to obtain information regarding the follow-up of their reports.

All reported violations are managed by the Internal Audit Division, which conducts investigations on the reports received. In performing its duties, the Internal Audit Division upholds neutrality, independence, and professionalism, and applies the principle of presumption of innocence, whereby an individual is considered not guilty until proven otherwise. The Board of Commissioners, through the Audit Committee, reviews the implementation of the Internal Audit Division's responsibilities in relation to the WBS. The Internal Audit Division is responsible for evaluating and reporting follow-up actions, conducting investigations, and preparing investigation reports. The Board of Commissioners views that the implementation of the WBS has been effective. Nevertheless, the Board of Commissioners has provided direction for further enhancement of its effectiveness going forward.

Sustainability Governance

Bank Mandiri Taspen is committed to supporting the implementation of sustainable finance as part of the realization of the Bank's vision and mission. In this regard, the Bank prioritizes the triple bottom line principles (economic, social, and environmental) by aligning Environmental, Social, and Governance (ESG) aspects in its business activities. Accordingly, Bank Mandiri Taspen ensures that financing is directed to customers while avoiding business activities that may harm the environment.

Bank telah berkomitmen dalam mendukung penerapan keuangan berkelanjutan pada setiap aktivitas bisnisnya, dengan mengembangkan praktik manajemen risiko, serta berupaya secara maksimal dalam implementasi prinsip 3P. Komitmen tersebut diwujudkan dengan menyusun dan menerapkan Rencana Aksi Keuangan Berkelanjutan (RAKB) yang disetujui oleh Dewan Komisaris. Implementasi RAKB sekaligus merupakan bentuk partisipasi aktif Bank Mandiri Taspen dalam upaya mengantisipasi perubahan iklim.

Tata Kelola Terintegrasi

Sesuai dengan POJK No. 18/POJK.03/2014 dan SEOJK No. 15/SEOJK.03/2015, Bank Mandiri sebagai Entitas Utama dalam konglomerasi keuangan telah menerapkan Tata Kelola Terintegrasi (TKT) secara menyeluruh yang mencakup pengaturan struktur, fungsi, dan tanggung jawab Direksi dan Dewan Komisaris Entitas Utama, komite-komite terintegrasi, fungsi kepatuhan dan audit intern terintegrasi, serta penerapan manajemen risiko terintegrasi.

Dalam implementasinya, TKT tetap menegaskan bahwa setiap Perusahaan Anak, termasuk Bank Mandiri Taspen, merupakan entitas hukum yang independen dan dikelola secara profesional tanpa intervensi operasional dari Entitas Utama, namun tetap selaras dalam kerangka grup. Seluruh perusahaan dalam konglomerasi wajib menerapkan prinsip-prinsip tata kelola yang baik, yaitu transparansi, akuntabilitas, tanggung jawab, independensi, serta kewajaran.

Sebagai bagian dari konglomerasi keuangan, Bank Mandiri Taspen telah memiliki kerangka tata kelola perusahaan yang mengacu pada Pedoman Tata Kelola Terintegrasi, sehingga penerapan GCG di tingkat bank anak tetap selaras, konsisten, dan mendukung penguatan tata kelola secara grup yang berkesinambungan.

Penilaian Kinerja Komite-Komite di Bawah Dewan Komisaris

Dalam rangka meningkatkan peran Dewan Komisaris dalam menjalankan fungsi pengawasan, Dewan Komisaris telah membentuk 3 (tiga) komite yaitu:

1. Komite Audit
2. Komite Remunerasi dan Nominasi
3. Komite Pemantau Risiko

Dewan Komisaris secara periodik (tahunan) melakukan penilaian atas efektivitas kinerja komite-komite di bawah Dewan Komisaris. Masing-masing komite dinilai berdasarkan rencana kerja serta Piagam dari masing-masing Komite dengan indikator penilaian mencakup jumlah pelaksanaan

The Bank has consistently demonstrated its commitment to sustainable finance across all business activities by strengthening risk management practices and optimizing the implementation of the 3P principles. This commitment is realized through the preparation and implementation of the Sustainable Finance Action Plan (RAKB), which has been approved by the Board of Commissioners. The implementation of the RAKB also reflects the Bank's active participation in addressing climate change.

Integrated Governance

In accordance with POJK No. 18/POJK.03/2014 and SEOJK No. 15/SEOJK.03/2015, Bank Mandiri, as the Main Entity within the financial conglomeration, has implemented Integrated Governance (Tata Kelola Terintegrasi/TKT) comprehensively, covering the structure, functions, and responsibilities of the Board of Directors and Board of Commissioners of the Main Entity, integrated committees, integrated compliance and internal audit functions, as well as integrated risk management implementation.

In its implementation, Integrated Governance emphasizes that each Subsidiary, including Bank Mandiri Taspen, remains an independent legal entity managed professionally without operational intervention from the Main Entity, while remaining aligned within the group framework. All entities within the conglomeration are required to implement good governance principles, namely transparency, accountability, responsibility, independence, and fairness.

As part of the financial conglomeration, Bank Mandiri Taspen has established a governance framework that refers to the Integrated Governance Guidelines, ensuring that the implementation of Good Corporate Governance (GCG) at the subsidiary level remains aligned, consistent, and supportive of sustainable governance strengthening at the group level.

Performance Assessment of Committees Under The Board of Commissioners

To enhance the role of the Board of Commissioners in performing its supervisory function, the Board of Commissioners has established 3 (three) committees, namely:

1. Audit Committee
2. Remuneration and Nomination Committee
3. Risk Monitoring Committee

The Board of Commissioners conducts periodic (annual) assessments of the effectiveness of the committees under its supervision. Each committee is evaluated based on its work plan and charter, with assessment indicators including the number of meetings held, attendance rates, matters discussed during

rapat, kehadiran rapat, materi-materi yang dibahas dalam rapat, kunjungan ke kantor wilayah serta penugasan lainnya oleh Dewan Komisaris. Dewan Komisaris menilai bahwa selama tahun 2025 komite-komite telah menjalankan tugas dan tanggung jawabnya dengan baik dan telah sesuai dengan ketentuan yang berlaku.

Inovasi Outlet dan ATM

Sejalan dengan pengembangan bisnis yang telah direncanakan Bank Mandiri Taspen terus berupaya meningkatkan strategi pemasarannya dengan melakukan terobosan dan inovasi dari segi produk maupun pelayanan dengan berusaha mengakomodir segala kebutuhan nasabah. Salah satu terobosan Bank Mandiri Taspen yaitu melaksanakan inovasi *outlet*.

Dari segi tampilan *outlet* Bank Mandiri Taspen mengalami transformasi yang signifikan dibandingkan sebelumnya dengan menyesuaikan pada target nasabahnya, salah satunya nasabah pensiunan, sehingga *outlet* di desain menyesuaikan kebutuhan pensiunan. Bank Mandiri Taspen telah memberikan layanan ruang kesehatan yang dilengkapi dengan tempat tidur periksa, kursi roda, tabung oksigen, obat-obatan dan sarana kesehatan lainnya untuk melayani nasabah pada waktu tertentu. Di samping itu, *design furniture* menggunakan *soft tase color*, desain ergonomis, kursi tidak terlalu rendah dan empuk sehingga memudahkan nasabah pensiunan untuk beraktivitas dan memberikan rasa nyaman.

Outlet and ATM Innovation

In line with the business development that has been planned, Bank Mandiri Taspen continues to improve its marketing strategy by making breakthroughs and innovations in terms of products and services by trying to accommodate all customer needs. One of Bank Mandiri Taspen's breakthroughs is implementing outlet innovation.

In terms of appearance, Bank Mandiri Taspen outlets experiences a significant transformation compared to the previous one by adjusting their target customers, one of whom is pension customers, so that the outlet is designed to adjust the needs of pensioners. Bank Mandiri Taspen has provided health room services equipped with check beds, wheelchairs, oxygen cylinders, medicines and other health facilities to serve customers at certain times. In addition, the design of furniture uses a soft tase color, ergonomic design, the chair which is not too low and soft, making it easier for pension customers to move and provide comfort.

Bank Mandiri Taspen juga menyiapkan fasilitas Graha Mantap, yaitu berupa fasilitas tempat yang disediakan bagi para pensiunan untuk melakukan kegiatan otentifikasi dengan nyaman dan bisa dimanfaatkan sebagai tempat kegiatan-kegiatan para pensiunan.

Bank Mandiri Taspen juga telah menyediakan toilet disabilitas yang didesain bagi nasabah yang berkebutuhan khusus. Toilet didesain dengan lebar, akses sesuai ukuran kursi roda dan pendamping, dilengkapi dengan railing pengaman di dinding.

Terkait dengan jaringan ATM, sejak tahun 2016 Bank Mandiri Taspen bekerja sama dengan Bank Mandiri untuk memanfaatkan jaringan ATM Bank Mandiri, dengan demikian nasabah Bank Mandiri Taspen dapat menggunakan Switching Bank Mandiri agar Pemegang kartu ATM Bank Mandiri Taspen (*Issuer*) dapat bertransaksi di mesin ATM BMRI (*Acquirer*) yang berjumlah 15.344 buah di seluruh Indonesia dan Terdapat 78 cabang Bank Mandiri Taspen yang difasilitasi dengan Mesin ATM Bank Mandiri, Sedangkan untuk Transaksi bisa menggunakan seluruh Jaringan ATM Mandiri, ATMB dan ATM Merah putih. Dasar perjanjian kerjasama tersebut tertuang dalam perjanjian No. DBT.TBR/PKS/011/2016 dan No. DIR. PKS/021B/IV/2016 tanggal 4 April 2016 dan terakhir di addendum dengan Perjanjian Kerja Sama No. DIR.ADD/006/IV/2021 dan No. JRB.TBR/PKS/TBB.147/2021 tanggal 05 April 2021. Dengan adanya sinergi tersebut Bank Mandiri Taspen menutup seluruh ATM Bank Mandiri Taspen.

Saat ini seluruh nasabah Bank Mandiri Taspen yang telah memiliki kartu debit dengan lokasi jauh dari Cabang dapat memanfaatkan jaringan Mandiri Agen kelolaan Bank Mandiri untuk bertransaksi keuangan seperti tarik tunai, transfer, serta pembayaran dan pembelian.

Bank Mandiri Taspen also prepares Graha Mantap facilities, which was a place provided for retirees to carry out authentication activities comfortably and can be used as a venue for retirees' activities.

Bank Mandiri Taspen has also provided disability toilets designed for customers with special needs. The toilet is designed with a wide, access to the size of a wheelchair and companion, equipped with a safety railing on the wall.

With regard to the ATM network, since 2016, Bank Mandiri Taspen has collaborated with Bank Mandiri to utilize Bank Mandiri's ATM network. Accordingly, Bank Mandiri Taspen customers were able to use Bank Mandiri's switching system, enabling holders of Bank Mandiri Taspen ATM cards (*Issuer*) to conduct transactions at Bank Mandiri ATM machines (*Acquirer*), totaling 15,344 units across Indonesia. In addition, 78 Bank Mandiri Taspen branches were equipped with Bank Mandiri ATM machines. Transactions could also be conducted through the entire Bank Mandiri ATM network, ATM Bersama, and ATM Merah Putih networks. The basis for this collaboration was set out in Cooperation Agreements No. DBT.TBR/PKS/011/2016 and No. DIR.PKS/021B/IV/2016 dated April 4, 2016, and most recently amended through Addendum Cooperation Agreements No. DIR.ADD/006/IV/2021 and No. JRB.TBR/PKS/TBB.147/2021 dated April 5, 2021. Through this synergy, Bank Mandiri Taspen subsequently closed all of its own ATM machines.

Mandiri Agent

Mandiri Agent is a collaboration with Bank Mandiri in providing financial services and easy access to transactions through Mandiri Agent for Bank Mandiri Taspen customers. The target users of this Mandiri Agent are Bank Mandiri Taspen customers who have Debit Cards. Implementation areas of Mandiri Agents include all Mandiri Agents throughout Indonesia. Currently, all Bank Mandiri Taspen customers who have a debit card with a remote location from the branch can utilize the Mandiri Agent network managed by Bank Mandiri for financial transactions such as cash withdrawals, transfers, and payments and purchases.

Tinjauan Perekonomian

Analisis Perekonomian Global

Dunia terus bergejolak dengan ketidakpastian yang tinggi. Ketegangan geopolitik dunia berlanjut dengan perang Rusia dan Ukraina di Eropa yang belum selesai serta ketegangan geopolitik di Timur Tengah yang semakin memanas sejalan dengan meningkatnya serangan Israel ke Palestina. Di bidang ekonomi, perang dagang dilancarkan Presiden Amerika Serikat (AS) Donald Trump pada 2 April 2025 dengan pengenaan tarif impor universal sebesar 10% atas semua barang yang masuk ke AS, ditambah tarif resiprokal yang tinggi kepada 57 negara mitra dagang, termasuk Tiongkok, Kanada, Meksiko, dan Uni Eropa. Rangkaian ketegangan geopolitik dan kebijakan proteksionisme tersebut menjadi faktor utama yang meningkatkan ketidakpastian ekonomi global.

Berbagai dinamika geopolitik dan kebijakan perdagangan tersebut memberikan tekanan signifikan terhadap stabilitas dan prospek perekonomian global. Sebagai dampaknya, aktivitas perdagangan dan investasi global mengalami perlambatan yang pada akhirnya menekan pertumbuhan ekonomi dunia. Berdasarkan data dari International Monetary Fund, pertumbuhan ekonomi global tercatat sekitar 3,3% pada tahun 2024, melambat menjadi sekitar 3,2% pada tahun 2025, serta diperkirakan berada di kisaran 3,1% pada tahun 2026, mencerminkan meningkatnya tekanan dari fragmentasi perdagangan, kebijakan proteksionisme, serta berlanjutnya ketegangan geopolitik global.

Perlambatan pertumbuhan ekonomi global tersebut terutama dipicu oleh dampak lanjutan dari kebijakan tarif sepihak AS dan meningkatnya ketegangan geopolitik, yang mendorong fragmentasi antarnegara semakin melebar. Kebijakan tarif menurunkan volume dan nilai perdagangan global serta memperparah gangguan rantai pasok dunia yang telah terjadi sejak tahun 2024. Selain berdampak pada perdagangan, kebijakan tersebut juga meningkatkan biaya produksi dan harga komoditas global, termasuk kenaikan harga emas serta sejumlah komoditas pangan dan jasa. Tekanan pada perdagangan dan biaya produksi tersebut selanjutnya berdampak pada dinamika inflasi global. Akibatnya, penurunan inflasi dunia berjalan lebih lambat dari prakiraan sebelumnya, dengan inflasi global diperkirakan mencapai sekitar 3,8% pada tahun 2026. Pada periode yang sama, inflasi negara maju diperkirakan sekitar 2,4%, sementara inflasi emerging economies berada pada kisaran 4,7%-4,8% pada tahun 2026.

Global Economic Analysis

Global conditions had remained volatile amid heightened uncertainty. Geopolitical tensions had persisted, with the ongoing Russia–Ukraine War in Europe remaining unresolved, alongside escalating tensions in the Middle East, particularly with intensified Israeli attacks on Palestine. On the economic front, a trade war had been initiated by United States President Donald Trump on 2 April 2025, marked by the imposition of a universal import tariff of 10% on all goods entering the United States, along with high reciprocal tariffs imposed on 57 trading partner countries, including China, Canada, Mexico, and the European Union. These geopolitical tensions and protectionist policies had become key factors contributing to increased global economic uncertainty.

Various geopolitical developments and trade policy measures had exerted significant pressure on global economic stability and prospects. As a result, global trade and investment activities had slowed, ultimately weighing on global economic growth. Based on data from the International Monetary Fund, global economic growth was recorded at approximately 3.3% in 2024, slowing to around 3.2% in 2025, and was projected to reach approximately 3.1% in 2026. This trend reflected increasing pressures from trade fragmentation, protectionist policies, and ongoing global geopolitical tensions.

The slowdown in global economic growth had been primarily driven by the continued impact of unilateral tariff policies imposed by the United States and escalating geopolitical tensions, which had further widened fragmentation among countries. These tariff measures had reduced both the volume and value of global trade and exacerbated global supply chain disruptions that had persisted since 2024. In addition to affecting trade, such policies had also increased production costs and global commodity prices, including rising prices of gold and several food commodities and services. The pressures on trade and production costs had subsequently influenced global inflation dynamics. As a result, the decline in global inflation had progressed more slowly than previously projected, with global inflation estimated to reach approximately 3.8% in 2026. During the same period, inflation in advanced economies was projected at around 2.4%, while inflation in emerging economies was estimated to range between 4.7%–4.8% in 2026.

Seiring dengan meningkatnya ketidakpastian global tersebut, terdapat sejumlah faktor struktural yang berpotensi memperburuk prospek perekonomian dunia dalam jangka menengah. Setidaknya terdapat lima kecenderungan utama yang perlu diwaspadai. Pertama, berlanjutnya konflik geopolitik dan meningkatnya polarisasi perdagangan serta investasi antarnegara dalam mengatasi ketidakseimbangan perdagangan global. Kebijakan tarif sepihak bukanlah yang pertama kali ditempuh Pemerintah AS dalam mengatasi defisit neraca perdagangan akibat rendahnya daya saing. Pengalaman historis menunjukkan bahwa kebijakan proteksionisme cenderung berulang dan dapat mempercepat fragmentasi ekonomi global, meskipun sering mendapat tentangan dalam kerja sama multilateral. Dengan demikian, polarisasi perdagangan diperkirakan akan terus meningkat, yang mendorong negara-negara untuk lebih mengutamakan kerja sama bilateral dan regional dibandingkan kerja sama multilateral di bawah World Trade Organization.

Kedua, perlambatan pertumbuhan ekonomi global diperkirakan akan berlanjut seiring meningkatnya hambatan perdagangan dan gangguan rantai pasok. Volume perdagangan dunia diperkirakan menurun dari sekitar 4,1% pada tahun 2025 menjadi 2,6% pada tahun 2026, yang berdampak pada stagnasi pertumbuhan ekonomi global di kisaran sekitar 3%. Ekonomi AS diperkirakan tumbuh terbatas di kisaran sekitar 2%, dengan risiko resesi yang meningkat akibat lemahnya daya saing industri dan tekanan inflasi. Sementara itu, ekonomi Tiongkok yang terdampak kebijakan tarif tinggi diperkirakan mengalami perlambatan pertumbuhan menuju kisaran sekitar 4%, meskipun terdapat upaya pengalihan perdagangan (*trade diversion*).

Ketiga, meningkatnya beban utang publik global yang semakin berat, baik di negara maju maupun emerging economies. Total utang pemerintah dunia kini telah menembus 110,9 triliun dolar AS (94,6% terhadap PDB), dengan sekitar dua pertiganya atau sebesar 74,8 triliun dolar AS berada di negara maju. Kondisi ini menunjukkan meningkatnya risiko fiskal global yang dapat membatasi ruang stimulus ekonomi di masa mendatang.

Keempat, pasar keuangan global menghadapi kerentanan yang tinggi, khususnya dari lembaga keuangan nonbank (*Non-Bank Financial Institutions/NBFIs*). Pengalaman krisis keuangan global sebelumnya menunjukkan bahwa inovasi produk derivatif yang tidak diimbangi dengan pengawasan yang memadai dapat memicu risiko sistemik, sebagaimana terjadi pada krisis *sub-prime mortgage*.

Amid heightened global uncertainty, several structural factors had the potential to further weaken global economic prospects over the medium term. At least five key trends warranted close attention. First, the continuation of geopolitical conflicts and the increasing polarization of trade and investment among countries in addressing global trade imbalances. Unilateral tariff policies were not the first measures undertaken by the United States Government to address trade balance deficits arising from limited competitiveness. Historical experience had shown that protectionist policies tended to recur and could accelerate global economic fragmentation, despite opposition within multilateral cooperation frameworks. Accordingly, trade polarization was expected to continue increasing, encouraging countries to prioritize bilateral and regional cooperation over multilateral arrangements under the World Trade Organization.

Second, the slowdown in global economic growth was expected to persist amid rising trade barriers and ongoing supply chain disruptions. Global trade volume was projected to decline from approximately 4.1% in 2025 to 2.6% in 2026, resulting in global economic growth stagnating at around 3%. The United States economy was projected to grow at a limited pace of around 2%, with increasing recession risks driven by weakening industrial competitiveness and inflationary pressures. Meanwhile, the China economy, affected by high tariff policies, was expected to experience a slowdown toward approximately 4% growth, despite ongoing trade diversion efforts.

Bottom of Form

Third, global public debt levels continue to rise significantly, posing increasing fiscal burdens across both advanced and emerging economies. Total global government debt has reached USD110.9 trillion, equivalent to 94.6% of global GDP, with approximately two-thirds (USD74.8 trillion) attributable to advanced economies. This reflects the cumulative impact of expansionary fiscal policies and economic stimulus measures implemented over the past decade.

Fourth, global financial markets remain exposed to heightened vulnerabilities, particularly from non-bank financial institutions (NBFIs). Lessons from the global financial crisis highlight the systemic risks associated with complex derivative products, particularly those linked to housing debt instruments, as observed during the Subprime mortgage crisis, which triggered widespread systemic disruption.

Kelima, kerentanan pasar keuangan global semakin meningkat seiring dengan maraknya penerbitan dan perdagangan mata uang serta aset digital oleh pihak swasta. Perkembangan pesat instrumen seperti cryptocurrency, stablecoin, dan tokenisasi aset meningkatkan kompleksitas risiko keuangan global, terutama karena belum adanya pengaturan dan pengawasan yang sepenuhnya setara dengan lembaga keuangan konvensional. Berbeda dengan Central Bank Digital Currency (CBDC) yang diterbitkan secara resmi oleh bank sentral, berbagai aset digital swasta tersebut berpotensi meningkatkan risiko pencucian uang serta menimbulkan tantangan dalam perlindungan konsumen.

Analisis Perekonomian Nasional

Ekonomi Indonesia tetap menunjukkan kinerja yang baik dan berdaya tahan di tengah tingginya gejolak serta ketidakpastian global. Ketahanan tersebut didukung oleh stabilitas makroekonomi yang tetap terjaga, pemulihan ekonomi pascapandemi COVID-19 yang terus berlanjut, serta koordinasi kebijakan yang erat antara Pemerintah dan Bank Indonesia dalam menjaga keseimbangan antara stabilitas dan pertumbuhan ekonomi. Sinergi kebijakan fiskal dan moneter yang dilakukan secara konsisten mampu mendorong permintaan domestik sekaligus menjaga stabilitas inflasi dan sistem keuangan.

Selain faktor stabilitas makroekonomi, ketahanan ekonomi Indonesia juga diperkuat oleh komitmen berkelanjutan dalam transformasi ekonomi nasional. Upaya perbaikan iklim investasi, percepatan pembangunan infrastruktur, serta hilirisasi sumber daya alam terus dilakukan untuk meningkatkan nilai tambah domestik dan memperkuat struktur ekonomi nasional. Perbaikan di berbagai sektor ekonomi tersebut mendorong peningkatan kapasitas produksi dan memperkuat sisi penawaran dalam mendukung pertumbuhan ekonomi yang berkelanjutan. Di tingkat global, kepemimpinan Indonesia dalam berbagai forum internasional turut memperkuat posisi ekonomi nasional. Keberhasilan Indonesia dalam memimpin Group of Twenty pada tahun 2022 serta peran aktif dalam Association of Southeast Asian Nations tahun 2023 mencerminkan kontribusi Indonesia dalam menjaga stabilitas ekonomi global dan kawasan.

Kinerja ekonomi Indonesia terus menunjukkan tren yang positif. Pertumbuhan ekonomi pada Triwulan IV 2025 tercatat sebesar 5,39% (yoy), meningkat dibandingkan Triwulan sebelumnya sebesar 5,04% (yoy). Peningkatan tersebut terutama didorong oleh permintaan domestik, khususnya konsumsi rumah tangga

Fifth, vulnerabilities in global financial markets had further increased alongside the rapid issuance and trading of privately issued digital currencies and assets. The rapid development of instruments such as cryptocurrency, stablecoin, and asset tokenization had added complexity to global financial risks, particularly due to the absence of regulatory and supervisory frameworks fully equivalent to those applied to conventional financial institutions. In contrast to Central Bank Digital Currency, which was officially issued by central banks, these private digital assets had the potential to increase money laundering risks and posed challenges in consumer protection.

National Economic Analysis

Indonesia's economy continued to demonstrate solid performance and resilience amid elevated global volatility and uncertainty. This resilience was supported by maintained macroeconomic stability, the ongoing post-pandemic economic recovery following COVID-19, as well as close policy coordination between the Government and Bank Indonesia in preserving the balance between economic stability and growth. The consistent policy synergy between fiscal and monetary authorities had been effective in driving domestic demand while at the same time maintaining inflation stability and safeguarding financial system stability.

In addition to macroeconomic stability factors, the resilience of the Indonesian economy had also been strengthened by the ongoing commitment to national economic transformation. Efforts to improve the investment climate, accelerate infrastructure development, and promote downstream processing of natural resources had continued to be implemented to enhance domestic value added and strengthen the national economic structure. Improvements across various economic sectors had contributed to increased production capacity and reinforced the supply side in supporting sustainable economic growth. At the global level, Indonesia's leadership in various international forums had further strengthened the national economic position. Indonesia's successful presidency of the Group of Twenty in 2022, as well as its active role in the Association of Southeast Asian Nations in 2023, had reflected the country's contribution to maintaining global and regional economic stability.

The Indonesian economy had continued to demonstrate a positive growth trend. Economic growth in the fourth quarter of 2025 was recorded at 5.39% (yoy), increasing from 5.04% (yoy) in the previous quarter. This improvement was primarily driven by domestic demand, particularly household

dan investasi, sejalan dengan dampak positif berbagai stimulus kebijakan Pemerintah dan bauran kebijakan Bank Indonesia. Secara keseluruhan, pertumbuhan ekonomi tahun 2025 tercatat sebesar 5,11% (yoy), lebih tinggi dibandingkan tahun 2024 sebesar 5,03% (yoy), serta diikuti dengan perbaikan kualitas ketenagakerjaan.

Momentum pertumbuhan ekonomi tersebut diperkirakan berlanjut pada awal tahun 2026. Konsumsi rumah tangga diperkirakan tetap meningkat, didukung oleh berbagai program stimulus Pemerintah, pelonggaran kebijakan moneter, ekspektasi konsumen yang membaik, serta meningkatnya aktivitas ekonomi pada periode Hari Besar Keagamaan Nasional (HBKN) seperti Tahun Baru Imlek, Hari Suci Nyepi, dan Idulfitri 1447 H. Investasi juga diperkirakan tumbuh lebih tinggi, didorong oleh peningkatan belanja dan investasi Pemerintah, termasuk melalui program hilirisasi sumber daya alam, serta membaiknya keyakinan pelaku usaha.

Ke depan, penguatan sinergi kebijakan ekonomi nasional antara Pemerintah dan Bank Indonesia menjadi faktor penting untuk menjaga momentum pertumbuhan ekonomi. Dari sisi fiskal, percepatan realisasi belanja Pemerintah sesuai Anggaran Pendapatan dan Belanja Negara (APBN) diharapkan mampu mendorong permintaan domestik melalui berbagai program prioritas, termasuk program sosial seperti Makan Bergizi Gratis (MBG), Sekolah Rakyat, Perumahan Rakyat, dan Koperasi Desa Merah Putih (KDMP), serta proyek strategis nasional di bidang ketahanan pangan, energi, pertahanan, dan keamanan. Dari sisi penawaran, percepatan hilirisasi sumber daya alam dan reformasi struktural diharapkan dapat meningkatkan kapasitas produksi dan menciptakan lapangan kerja baru. Sementara itu, Bank Indonesia terus memperkuat bauran kebijakan moneter, makroprudensial, dan sistem pembayaran melalui pelonggaran likuiditas, peningkatan insentif makroprudensial, serta percepatan digitalisasi ekonomi dan keuangan.

Kinerja ekonomi yang solid juga tercermin dari pertumbuhan ekonomi yang relatif merata di berbagai wilayah Indonesia. Pada Triwulan IV 2025, pertumbuhan ekonomi tertinggi tercatat di wilayah Sulawesi, Maluku, dan Papua (Sulampua) sebesar 5,83% (yoy), diikuti Bali dan Nusa Tenggara (Balinusra) sebesar 5,82% (yoy), Jawa sebesar 5,30% (yoy), Sumatra sebesar 4,81% (yoy), dan Kalimantan sebesar 4,80% (yoy). Dari sisi lapangan usaha, pertumbuhan di wilayah Jawa didorong oleh peningkatan kapasitas industri dan produksi pertanian, sementara di Kawasan Timur Indonesia didukung oleh pengembangan industri hilirisasi mineral seperti nikel, bauksit, dan tembaga.

Dari sisi pengeluaran, investasi menjadi penopang utama pertumbuhan di berbagai wilayah, terutama investasi industri pada Kawasan Industri (KI) dan Kawasan Ekonomi Khusus

consumption and investment, in line with the positive impact of various Government policy stimuli and Bank Indonesia's policy mix. Overall, economic growth in 2025 was recorded at 5.11% (yoy), higher than 5.03% (yoy in 2024, and was accompanied by improvements in employment quality.

The economic growth momentum was expected to continue into early 2026. Household consumption was projected to remain strong, supported by various Government stimulus programs, monetary policy easing, improved consumer expectations, and increased economic activity during national holiday periods such as Chinese New Year, Nyepi (Hindu Day of Silence), and Eid al-Fitr 1447 H. Investment was also projected to grow higher, driven by increased Government spending and investment, including through natural resource downstreaming programs, as well as improving business confidence.

Going forward, the strengthening of national economic policy synergy between the Government and Bank Indonesia was expected to remain a key factor in maintaining economic growth momentum. On the fiscal side, the acceleration of Government spending realization in accordance with the State Budget (APBN) was expected to stimulate domestic demand through various priority programs, including social programs such as Free Nutritious Meals (Makan Bergizi Gratis/MBG), People's Schools (Sekolah Rakyat), Public Housing (Perumahan Rakyat), and the Red and White Village Cooperatives (KDMP), as well as national strategic projects in food security, energy, defense, and security. On the supply side, the acceleration of natural resource downstreaming and structural reforms was expected to increase production capacity and create new employment opportunities. Meanwhile, Bank Indonesia continued to strengthen its monetary, macroprudential, and payment system policy mix through liquidity easing, enhanced macroprudential incentives, and accelerated digitalization of the economy and financial system.

Solid economic performance was also reflected in relatively balanced growth across regions in Indonesia. In the fourth quarter of 2025, the highest economic growth was recorded in Sulawesi, Maluku, and Papua (Sulampua) at 5.83% (yoy), followed by Bali and Nusa Tenggara (Balinusra) at 5.82% (yoy), Java at 5.30% (yoy), Sumatra at 4.81% (yoy), and Kalimantan at 4.80% (yoy). From the production side, growth in Java was driven by increased industrial capacity and agricultural production, while in Eastern Indonesia it was supported by the development of mineral downstream industries such as nickel, bauxite, and copper.

From the expenditure side, investment was the main growth driver across regions, particularly industrial investment in Industrial Estates and Special Economic Zones (SEZs), such

(KEK), seperti di Batang, Kendal, dan Gresik di Jawa serta kawasan hilirisasi mineral di wilayah Sulampua. Dari sisi eksternal, kinerja ekspor didukung oleh komoditas logam di Jawa, minyak kelapa sawit (*crude palm oil/CPO*) dari Sumatra, serta besi dan baja dari Sulampua, sementara ekspor batu bara dari Kalimantan mengalami tekanan akibat penurunan permintaan global.

Dengan perkembangan tersebut, pada tahun 2025 perekonomian wilayah Sumatra (4,8%–5,2%), Jawa (4,7%–5,5%), Kalimantan (4,3%–5,1%), Bali–Nusa Tenggara (4,2%–5,0%), dan Sulawesi, Maluku, dan Papua/Sulampua (4,2%–4,8%) masing-masing menunjukkan pertumbuhan yang relatif stabil. Secara umum, pada tahun 2026 pertumbuhan ekonomi di berbagai wilayah tersebut diperkirakan meningkat, yaitu Sumatra (4,9%–5,3%), Jawa (4,7%–5,5%), Kalimantan (4,6%–5,4%), Bali–Nusa Tenggara (5,5%–6,3%), dan Sulampua (5,6%–6,4%), yang mencerminkan prospek ekonomi domestik yang tetap solid meskipun dihadapkan pada ketidakpastian global.

Analisis Industri Perbankan

Stabilitas sistem keuangan tetap baik dengan fungsi intermediasi yang melanjutkan peningkatan. Indeks Stabilitas Keuangan (ISSK) tetap rendah dan terjaga di zona normal-stabil sepanjang tahun 2025. Ketahanan sistem keuangan, khususnya perbankan, tetap terjaga baik dari sisi permodalan, risiko kredit, maupun likuiditas. Permodalan perbankan tetap kuat dengan rasio kecukupan modal (*Capital Adequacy Ratio/CAR*) pada Desember 2025 tetap tinggi sebesar 25,89% sejalan dengan semakin naiknya komponen modal dari akumulasi keuntungan maupun Aktiva Tertimbang Menurut Risiko (ATMR). Seiring dengan kuatnya permodalan, risiko kredit tetap terkendali yang tercermin dari rasio kredit bermasalah (*Non Performing Loan, NPL*) pada Desember 2025 yang tercatat 2,05% (bruto) dan 0,79% (neto). Hal ini menunjukkan Cadangan Kerugian Penurunan Nilai (CKPN) yang telah dibentuk perbankan mencukupi dalam memitigasi risiko kredit. Risiko likuiditas perbankan terjaga dengan tingginya kecukupan likuiditas. Per Desember 2025, rasio AL/DPK dan LDR perbankan tercatat masing-masing sebesar 28,57% dan 85,35%, dan karenanya secara keseluruhan menunjukkan likuiditas perbankan yang longgar. Pertumbuhan kredit terus melanjutkan peningkatan positif sepanjang tahun 2025, hingga tumbuh 9,69% pada Desember 2025, seiring dengan perbaikan kondisi permintaan dan penawaran.

Nilai transaksi ekonomi dan keuangan digital di Indonesia terus tumbuh meningkat di tengah kembalinya pola berbelanja *offline*. Transaksi *e-commerce*, transaksi uang elektronik (UE) dan transaksi *digital banking* tumbuh pesat, pertumbuhan yang persisten ini akan terus berlanjut, khususnya di area *e-commerce*

as Batang, Kendal, and Gresik in Java, as well as mineral downstream areas in Sulampua. From the external side, export performance was supported by metal commodities from Java, crude palm oil (CPO) from Sumatra, and iron and steel from Sulampua, while coal exports from Kalimantan experienced pressure due to declining global demand.

In line with these developments, in 2025 regional economies in Sumatra (4.8%–5.2%), Java (4.7%–5.5%), Kalimantan (4.3%–5.1%), Bali–Nusa Tenggara (4.2%–5.0%), and Sulawesi, Maluku, and Papua/Sulampua (4.2%–4.8%) each showed relatively stable growth. Overall, in 2026 economic growth across these regions was projected to increase, namely Sumatra (4.9%–5.3%), Java (4.7%–5.5%), Kalimantan (4.6%–5.4%), Bali–Nusa Tenggara (5.5%–6.3%), and Sulampua (5.6%–6.4%), reflecting a solid domestic economic outlook despite continued global uncertainty.

Banking Industry Analysis

Financial system stability remained well maintained, supported by a strengthening intermediation function. The Financial System Stability Index (ISSK) remained low and consistently within the normal-stable range throughout 2025. The resilience of the financial system, particularly the banking sector, was sustained across capital adequacy, credit risk, and liquidity indicators. Banking capital remained strong, with the Capital Adequacy Ratio (CAR) as of December 2025 staying at a high level of 25.89%, in line with the increase in capital components derived from accumulated profits as well as Risk-Weighted Assets (RWA). In line with robust capitalization, credit risk remained manageable, as indicated by the Non-Performing Loan (NPL) ratio as of December 2025, which stood at 2.05% (gross) and 0.79% (net). This condition reflects adequate Loan Loss Provisions (CKPN) established by banks to mitigate potential credit risks. Liquidity risk was also well contained, supported by ample liquidity buffers. As of December 2025, the ratios of Liquid Assets to Third-Party Funds (AL/DPK) and Loan to Deposit Ratio (LDR) were recorded at 28.57% and 85.35%, respectively, indicating overall ample banking system liquidity. Credit growth continued its positive trajectory throughout 2025, reaching 9.69% (yoy) in December 2025, in line with improving demand and supply conditions.

Digital economic and financial transactions in Indonesia continued to expand, despite the normalization of offline consumption patterns. E-commerce transactions, electronic money (e-money) transactions, and digital banking activities recorded strong growth, with this trend expected to persist,

yang diprediksi tetap tumbuh positif di tengah peningkatan mobilitas masyarakat seiring dengan makin longgarnya kebijakan pembatasan mobilitas. Kehadiran QRIS sebagai standar QR Pembayaran Nasional terbukti mempercepat perluasan ekosistem merchant digital, pengguna, serta interoperabilitas pembayaran digital. Jumlah merchant QRIS kini mencapai 42 juta tersebar di seluruh provinsi, dengan jumlah pengguna lebih dari 59 juta yang menggunakan baik dengan sumber dana uang elektronik, rekening tabungan, maupun kartu kredit yang diselenggarakan bank dan fintech. Transaksi QRIS tumbuh akseleratif mencapai 140% (yoy) dengan pangsa transaksi off us yang terus meningkat yang menunjukkan makin terciptanya interoperabilitas di dalam industri. Jumlah merchant UMKM mendominasi yang mengindikasikan QRIS sebagai jalan pembuka inklusi keuangan bagi UMKM. QRIS juga mendorong penyelenggara jasa pembayaran khususnya bank melakukan adopsi *mobile apps* untuk dapat bergabung pada ekosistem QRIS yang terus meluas.

Kinerja transaksi ekonomi dan keuangan digital tetap kuat didukung oleh sistem pembayaran yang aman, lancar, dan andal. Dari sisi nilai besar, transaksi BI-RTGS pada Triwulan IV 2025 meningkat 31,04% (yoy) sehingga mencapai Rp65.069,78 triliun. Dari sisi ritel, volume transaksi BI-FAST tumbuh 30,44% (yoy) mencapai 1.358,65 juta transaksi. Transaksi digital payment tercatat 14,26 miliar transaksi atau tumbuh sebesar 39,21% (yoy). Transaksi QRIS terus tumbuh pesat sebesar 139,99% (yoy), dengan jumlah pengguna mencapai 59,53 juta dan jumlah merchant 42,75 juta⁵. Sementara dari pengelolaan uang Rupiah, jumlah Uang Kartal Yang Diedarkan (UYD) tumbuh 12,90% (yoy) menjadi Rp1.359,94 triliun. Stabilitas sistem pembayaran tetap terjaga, ditopang oleh infrastruktur yang berdaya tahan dan struktur yang membaik. Dari sisi infrastruktur, kelancaran dan keandalan Sistem Pembayaran Bank Indonesia (SPBI) tetap terjaga dengan baik. Dari sisi struktur industri, interkoneksi sistem pembayaran dan perluasan ekosistem Ekonomi Keuangan Digital (EKD) terus meningkat. Transaksi pembayaran berbasis Standar Nasional Open API Pembayaran (SNAP) juga meningkat sejalan adopsi SNAP yang meluas.

Analisis Posisi Bank Mandiri Taspen dalam Industri Perbankan

Dalam rangka mengakomodir perkembangan industri perbankan, regulator melakukan penyesuaian terhadap pengelompokan modal inti bank berdasarkan Peraturan OJK Nomor 12/POJK. 03/2021. Bank Mandiri Taspen yang sebelumnya dalam kategori BUKU II menjadi KBMI II (Bank dengan Modal inti kurang dari Rp6 triliun).

particularly in the e-commerce segment, supported by increased mobility following the relaxation of mobility restriction policies. The implementation of QRIS as the national QR payment standard has significantly accelerated the expansion of the digital merchant ecosystem, user adoption, and payment interoperability. The number of QRIS merchants reached approximately 42 million across all provinces, with more than 59 million users utilizing various funding sources, including electronic money, savings accounts, and credit cards provided by banks and fintech institutions. QRIS transactions recorded strong growth of 140% (yoy), with an increasing share of off-us transactions, indicating enhanced interoperability within the payment system industry. Micro, Small, and Medium Enterprises (MSMEs) dominate the merchant base, underscoring QRIS as a key enabler of financial inclusion. Furthermore, QRIS has encouraged payment service providers, particularly banks, to accelerate the adoption of mobile applications to participate in the expanding QRIS ecosystem.

The performance of digital economic and financial transactions remained robust, supported by a payment system that is secure, efficient, and reliable. On the high-value transaction side, transactions processed through BI-RTGS increased by 31.04% (yoy) in the fourth quarter of 2025, reaching IDR65,069.78 trillion. On the retail side, transaction volumes through BI-FAST grew by 30.44% (yoy), reaching 1,358.65 million transactions. Digital payment transactions reached 14.26 billion transactions, representing growth of 39.21% (yoy). QRIS transactions continued to grow significantly by 139.99% (yoy), with total users reaching 59.53 million and merchants reaching 42.75 million. In terms of Rupiah currency management, Currency in Circulation increased by 12.90% (yoy) to IDR1,359.94 trillion. Payment system stability remained well maintained, supported by resilient infrastructure and an improving industry structure. From an infrastructure perspective, the reliability and operational continuity of the Bank Indonesia Payment System (SPBI) were well preserved. From a structural perspective, interconnectivity within the payment system and the expansion of the Digital Economy and Finance (EKD) ecosystem continued to strengthen. Transactions based on the National Standard for Open API Payments (SNAP) also increased, in line with broader adoption across the industry.

Analysis of Bank Mandiri Taspen Position in the Banking Industry

In order to accommodate developments in the banking industry, the regulator made adjustments to the grouping of bank core capital based on OJK Regulation Number 12/POJK. 03/2021. Bank Mandiri Taspen, which was previously in the BUKU II category, became KBMI II (a bank with a core capital of IDR1 trillion to IDR6 trillion).

Berdasarkan perbandingan kinerja Bank Mandiri Taspen dibandingkan dengan rata-rata industri perbankan, per Desember 2025 Bank Mandiri Taspen berhasil mencetak pertumbuhan Aset, Kredit, dan DPK masing-masing sebesar 10,25%, 9,23% dan 12,71%. Pertumbuhan Aset berada di atas pertumbuhan Industri Perbankan sedangkan Pertumbuhan Kredit dan DPK lebih rendah dari pertumbuhan industri perbankan. Pertumbuhan Aset, Kredit, dan DPK per Desember 2025 Industri Perbankan tercatat masing-masing sebesar 9,51%, 11,07% dan 13,81%. Sedangkan untuk laba per Desember 2025 Bank Mandiri Taspen mengalami pertumbuhan positif sebesar 0,22%, lebih rendah dibandingkan industri perbankan sebesar 2,74% dan KBMI II yang sebesar -4,97%. Hal ini disebabkan oleh pendapatan operasional selain bunga *non recurring* atas *recovery* pembayaran asuransi yang tidak tercapai target di kuartal empat ini.

Perbandingan kinerja Bank Mandiri Taspen terhadap KBMI II dan Industri Perbankan, disajikan sebagai berikut.

Based on a comparative assessment of the performance of Bank Mandiri Taspen against the average performance of the national banking industry, as of December 31, 2025, the Bank recorded growth in total assets, loans, and third-party funds (DPK) of 10.25%, 9.23%, and 12.71%, respectively. Asset growth was above the banking industry growth, while loan and third-party funds (DPK) growth was lower than the banking industry growth. As of December 2025, the banking industry recorded asset, loan, and DPK growth of 9.51%, 11.07%, and 13.81%, respectively. Meanwhile, as of December 2025, Bank Mandiri Taspen's profit grew positively by 0.22%, lower than the banking industry at 2.74% and KBMI II at -4.97%. This was attributable to non-recurring other operating income from insurance claim recoveries that did not meet the target in the fourth quarter.

A comparison of the performance of Bank Mandiri Taspen against KBMI II and the Banking Industry is presented as follows.

Penyaluran Kredit Mikro tahun 2025 meningkat sebesar 45,61% atau Rp193,14 miliar, atau naik dari Rp423,47 miliar di tahun 2024 menjadi Rp616,61 miliar di tahun 2025. Hal tersebut dipengaruhi oleh meningkatnya kinerja produk KKB, KUR, dan KSM yang tumbuh masing-masing sebesar 100%, 17,11%, dan 5,51%.

Micro

Micro loan products consist of Micro Business Loan (KUM), Mantap Multipurpose Loan (KSM), and Mantap Community Loan (KKM), Channeling, Micro Business Loan (KUR), and Motorized Vehicle Loan (KKB). A description of the growth in performance of micro loan products is described as follows.

Micro loan disbursement in 2025 increased by 45.61% or IDR193.14 billion, rising from IDR423.47 billion in 2024 to IDR616.61 billion in 2025. This increase was driven by improved performance of KKB, KUR, and KSM products, which grew by 100%, 17.11%, and 5.51%, respectively.

Retail

Pertumbuhan kredit retail masih terkoreksi sebesar 34,97% atau sebesar Rp44,83 miliar, turun dari Rp128,19 miliar di tahun 2024 menjadi Rp83,37 miliar di tahun 2025. Hal tersebut dipengaruhi oleh tertekannya kinerja produk kredit modal kerja ritel pada tahun 2025.

Retail

Retail loan growth experienced a contraction of 34.97% or IDR44.83 billion, declining from IDR128.19 billion in 2024 to IDR83.37 billion in 2025. This decrease was mainly attributable to weakened performance in retail working capital loan products during 2025.

Pensiun

Kinerja produk pensiun tumbuh 9,02% atau Rp4,12 triliun, dari Rp45,71 di tahun 2024 menjadi 49,83 di tahun 2025. Hal ini sejalan dengan usaha bisnis Bank Mandiri Taspen yang berfokus untuk menyalurkan kredit pensiun baik di wilayah Bali maupun di luar wilayah Bali dan disebabkan oleh peningkatan produktivitas pada segmen kredit pensiunan yang didukung oleh kemitraan strategis serta aliansi dan sinergi dengan group usaha dalam rangka penyaluran kredit dan pelayanan kepada nasabah pensiunan.

Pension

The performance of pension products grew by 9.02% or IDR4.12 trillion, increasing from IDR45.71 trillion in 2024 to IDR49.83 trillion in 2025. This growth is aligned with the Bank's strategic focus on pension loan disbursement across both Bali and non-Bali regions. The improvement was driven by higher productivity within the pension loan segment, supported by strategic partnerships, as well as alliances and synergies within the business group to enhance loan distribution and service delivery to pensioner customers.

Jumlah rekening Dana Pihak Ketiga (DPK) yang berhasil dihimpun oleh Bank Mandiri Taspen pada tahun 2025 tercatat sebanyak 1.088.565 unit rekening, mengalami penurunan sebesar 153.966 unit rekening atau 12,39% dibandingkan tahun 2024 yang mencapai 1.242.531 unit rekening. Penurunan ini terutama disebabkan oleh berkurangnya jumlah rekening tabungan, yang mengalami penurunan sebesar 163.866 unit rekening atau 14,11%. Penurunan tersebut terjadi sebagai dampak dari penyesuaian rekening tabungan terkait proses migrasi ke sistem New Core Banking System di Bank Mandiri Taspen. Dengan demikian, penurunan jumlah rekening pada tahun 2025 bukan disebabkan oleh penurunan akuisisi nasabah, melainkan lebih dipengaruhi oleh proses penyesuaian sistem internal perbankan.

The total number of third-party fund accounts mobilized by Bank Mandiri Taspen in 2025 was recorded at 1,088,565 accounts, representing a decrease of 153,966 accounts or 12.39% compared to 1,242,531 accounts in 2024. The decline was primarily attributable to a reduction in savings accounts, which decreased by 163,866 accounts or 14.11%. This decrease was mainly driven by adjustments to savings accounts in relation to the migration process to the New Core Banking System implemented by the Bank. Accordingly, the reduction in the number of accounts in 2025 was not indicative of a decline in customer acquisition, but rather reflected internal system adjustments associated with the Bank's core banking transformation.

Net cash generated from financing activities amounted to IDR537.50 billion in 2025, increasing by IDR326.90 billion compared to IDR210.61 billion in 2024. The increase was primarily driven by proceeds from borrowings and issuance of debt securities.

Kemampuan Membayar Utang dan Kolektibilitas Piutang

Secara keseluruhan kemampuan Bank Mandiri Taspen dalam membayar utang dan menjaga kolektibilitas piutang masih dapat terjaga dengan baik. Hal ini ditunjukkan dari rasio kecukupan modal Bank yang sangat jauh dari ketentuan regulator sesuai dengan profil risiko.

Rasio kecukupan modal Bank posisi akhir tahun 2025 mencapai 30,47% jauh lebih tinggi dari ketentuan regulator untuk Bank dengan Profil Risiko (peringkat komposit 2) di kisaran 14%. Kolektibilitas Bank juga masih sangat baik yang merupakan hasil dari *prudential banking* yang telah dijalankan selama tahun 2025. Rasio Non Performing Loan (NPL) Net dapat dijaga di angka 0,32%.

Kemampuan Membayar Utang

Kemampuan Bank Mandiri Taspen dalam memenuhi seluruh kewajiban baik kewajiban jangka panjang maupun jangka pendek, diukur melalui beberapa rasio, antara lain rasio likuiditas, rasio solvabilitas, dan rasio rentabilitas serta pemenuhan hak-hak kreditur dan kemampuan membayar utang dari efek yang diterbitkan.

Perlindungan Hak Kreditur

Pemenuhan hak-hak kreditur di Bank Mandiri Taspen tertuang dalam Standar Prosedur Asset and Liability Management dan Petunjuk Teknis Penerbitan Obligasi, Petunjuk Teknis Penghimpunan Bilateral Loan, dan Petunjuk Teknis Penerbitan Sertifikat Deposito Tanpa Warkat (Negotiable Certificate of Deposito-NCD Scripless). Pemenuhan hak-hak kreditur digunakan sebagai pedoman dalam melakukan pinjaman kepada kreditur untuk menjaga terpenuhinya hak-hak dan menjaga kepercayaan kreditur terhadap Bank Mandiri Taspen.

Kemampuan Membayar Utang Jangka Pendek (Likuiditas Bank)

Loan to Funding Ratio (LFR) merupakan rasio likuiditas yang digunakan untuk mengukur kemampuan Bank dalam memenuhi kewajiban jangka pendek melalui keseimbangan antara penyaluran kredit dan sumber pendanaan, yaitu perbandingan antara total kredit dengan total dana pihak ketiga dan sumber pendanaan lainnya. Berdasarkan ketentuan OJK melalui POJK No. 42/POJK.03/2016 sebagaimana telah diubah terakhir dengan POJK No. 27/POJK.03/2020, kisaran target LFR bagi bank umum berada pada rentang 78% hingga 92%, yang mencerminkan keseimbangan antara fungsi intermediasi dan kecukupan likuiditas guna mendukung pertumbuhan kredit secara berkelanjutan dengan tetap menjaga stabilitas likuiditas.

Ability to Pay Debt and Receivables Collectibility

Overall, the Bank's capacity to meet its obligations and maintain receivables collectibility remained well preserved. This is reflected in the Bank's capital adequacy ratio, which remains significantly above regulatory requirements in line with its risk profile.

As of year-end 2025, the Capital Adequacy Ratio (CAR) stood at 30.47%, substantially higher than the regulatory minimum requirement of approximately 14% for banks with a Composite Risk Rating of 2. In addition, asset quality remained strong, supported by prudent banking practices implemented throughout 2025, with net Non-Performing Loan (NPL) maintained at 0.32%.

Ability to Pay Debt

Mandiri Taspen's ability to fulfill all obligations, both long-term and short-term, is measured through several ratios, including the liquidity ratio, solvency ratio, and profitability ratio also the fulfillment of the rights of creditors and the ability to pay debts of the securities issued.

Protection of Creditors' Rights

The fulfillment of creditors' rights is governed under internal policies, including Asset and Liability Management Standard Procedures, Technical Guidelines for Bond Issuance, Bilateral Loan Arrangements, and issuance of Negotiable Certificates of Deposit (NCD) Scripless. These frameworks serve as operational guidelines to ensure the protection of creditors' rights and to maintain creditor confidence in the Bank.

Ability to Pay Short-Term Debt (Bank Liquidity)

The Loan to Funding Ratio (LFR) had represented a liquidity ratio used to measure the Bank's ability to meet its short-term obligations through a balance between loan disbursement and funding sources, namely the comparison between total loans and total third-party funds (DPK) and other funding sources. Based on the provisions issued by the Financial Services Authority (OJK) under Regulation No. 42/POJK.03/2016, as most recently amended by Regulation No. 27/POJK.03/2020, the target LFR range for commercial banks had been set at 78% to 92%. This range reflected a balance between the intermediation function and liquidity adequacy, in order to support sustainable credit growth while maintaining liquidity stability.

Rasio Likuiditas	2025	2024	Perubahan Changes	Liquidity Ratio
Loan to Funding Ratio (LFR)	88.96%	93.09%	(4.13%)	Loan to Funding Ratio (LFR)

Pada tahun 2025 tingkat likuiditas Bank Mandiri Taspen sangat terjaga yang diukur melalui Loan to Funding Ratio (LFR) yang stabil pada angka 88,96%, mengalami penurunan dibandingkan LFR tahun 2024 sebesar 93,09%. Posisi LFR tahun 2025 yang sebesar 88,96% tersebut berada dalam kisaran yang ditetapkan oleh OJK melalui POJK No. 27/POJK.03/2020, yaitu sebesar 78% hingga 92%, sehingga mencerminkan keseimbangan yang baik antara penyaluran kredit dan penghimpunan dana pihak ketiga. Penurunan LFR pada tahun 2025 juga mengindikasikan perbaikan posisi likuiditas yang memberikan ruang lebih memadai bagi Bank untuk mendukung ekspansi kredit secara selektif dengan tetap mengedepankan prinsip kehati-hatian.

In 2025, Bank Mandiri Taspen's liquidity position had remained well maintained, as reflected in its Loan to Funding Ratio (LFR), which stood at a stable level of 88.96%, decreasing from 93.09% in 2024. The 2025 LFR position of 88.96% was within the range stipulated by the Financial Services Authority (OJK) under Regulation No. 27/POJK.03/2020, namely 78% to 92%, thereby reflecting a sound balance between loan disbursement and the mobilization of third-party funds (DPK). The decline in LFR in 2025 also indicated an improvement in the Bank's liquidity position, providing greater capacity for the Bank to support selective credit expansion while continuing to uphold prudential principles.

Kemampuan Membayar Utang Jangka Panjang (Solvabilitas Bank)

Bank Mandiri Taspen mengukur solvabilitas melalui rasio permodalan Bank. Bank Mandiri Taspen memastikan kecukupan modal Bank untuk dapat memenuhi risiko kredit, risiko pasar dan risiko operasional yang tercermin dari Rasio Kecukupan Modal (Capital Adequacy Ratio/CAR).

Rasio Keuangan Lain

Rasio keuangan lain Bank Mandiri Taspen antara lain adalah rasio rentabilitas. Rentabilitas adalah sebuah kemampuan yang dimiliki Bank Mandiri Taspen untuk menghasilkan laba. Rasio rentabilitas diukur melalui rasio-rasio berikut ini:

Tabel Rasio Rentabilitas
Table of Rentability Ratio

(dalam % / in %)

Rasio Rentabilitas	2025	2024	Perubahan Changes	Rentability Ratio
Return on Assets (ROA)	2.98%	3.26%	(0.28%)	Return on Assets (ROA)

Beban Operasional terhadap Pendapatan Operasional (BOPO)	70.85%	69.02%	1.83%	Operational Cost of Operating Income (BOPO)

Return on Assets (ROA)

Rasio Return on Asset (ROA) turun pada posisi bulan Desember 2025 sebesar 0,28% atau ke posisi sebesar 2,98% dibanding periode yang sama di tahun 2024 sebesar 3,26%. Hal ini disebabkan karena tahun 2025 realisasi laba yang tidak mencapai target.

Return on Equity (ROE)

Rasio Return on Equity (ROE) mengalami penurunan 3,99% menjadi sebesar 18,90% dibandingkan periode yang sama tahun 2024 sebesar 22,89%. Hal ini disebabkan oleh pendapatan operasional selain bunga non recurring atas recovery pembayaran asuransi yang belum tercapai target di kuartal empat ini.

Net Interest Margin (NIM)

Rasio Net Interest Margin (NIM) mengalami penurunan pada posisi bulan Desember 2025 sebesar 0,14% atau ke posisi sebesar 5,42% dibandingkan periode yang sama tahun 2024 sebesar 5,56%. Hal ini dikarenakan penurunan pendapatan bunga terhadap aset produktif Bank Mandiri Taspen cukup tinggi sehingga belum mampu menjaga pertumbuhan NIM.

Beban Operasional Terhadap Pendapatan Operasional (BOPO)

Rasio BOPO pada posisi bulan Desember 2025 sebesar 70,85% meningkat sebesar 1,83% dari periode yang sama tahun 2024 sebesar 69,02%. Peningkatan tersebut disebabkan beban operasional tahun berjalan lebih besar dari tahun lalu.

Other Financial Ratios

Other financial ratios of Bank Mandiri Taspen include the rentability ratio. Rentability is an ability possessed by Bank Mandiri Taspen to generate profit. The rentability ratio is measured through the following ratios:

Return on Assets (ROA)

ROA decreased by 0.28% to 2.98% as of December 2025, compared to 3.26% in 2024. This decrease was attributable to profit realization in 2025 that did not meet the established target.

Return on Equity (ROE)

ROE decreased by 3.99% to 18.90% compared to 22.89% in 2024. This was attributable to non-recurring other operating income from insurance claim recoveries that did not meet the target in the fourth quarter.

Net Interest Margin (NIM)

NIM declined by 0.14% to 5.42% as of December 2025, compared to 5.56% in 2024. The decrease was due to a decline in interest income relative to earning assets, which constrained NIM growth.

Operational Cost of Operating Income (BOPO)

BOPO ratio as of December 2025 was recorded at 70.85%, representing an increase of 1.83% compared to the same period in 2024 of 69.02%. The increase was attributable to higher operating expenses in the current year compared to the previous year.

Kolektibilitas Piutang

Kolektibilitas Kredit Bank terlihat dari total kredit bermasalah (Non Performing Loan/NPL). Rasio Kredit Bermasalah atau NPL gross dan NPL nett akhir tahun 2025 masing-masing sebesar 0,63% dan 0,32% meningkat dari tahun 2024 yaitu sebesar 0,38% dan 0,14%, namun demikian kualitas kredit Bank masih jauh dari ketentuan regulator sebesar maksimal 5%, sesuai POJK Nomor 15/POJK.03/2017 tentang Penetapan Status dan Tindak Lanjut Pengawasan Bank Umum.

Tabel Rasio Non Performing Loan (NPL)
Table of Non Performing Loan (NPL) Ratio

(dalam % / in %)

Rasio	2025	2024	Perubahan Changes	Ratio

Non Performing Loan (NPL) Nett	0.32%	0.14%	0.18%	Non Performing Loan (NPL) Nett

Kualitas kredit Bank dibagi berdasarkan tingkat kolektibilitasnya, yaitu ke dalam kelompok lancar, dalam perhatian khusus, kurang lancar, diragukan, dan macet. Adapun, tujuan dari pengklasifikasian kredit tersebut adalah agar bank dapat secara rutin melakukan monitoring terhadap kredit-kredit yang telah disalurkan.

The quality of the Bank's loans is divided based on their collectability, namely current, special mention, substandard, doubtful, and loss groups. The purpose of classifying loans is so that banks can routinely monitor the loans that have been disbursed.

Kualitas kredit yang diberikan berdasarkan kolektibilitas sesuai peraturan Bank Indonesia dan Otoritas Jasa Keuangan diuraikan sebagai berikut.

The quality of credit provided based on collectability in accordance with Bank Indonesia and Financial Services Authority regulations is described as follows.

Suku Bunga Dasar Kredit

Suku Bunga Dasar Kredit (SBDK) digunakan sebagai dasar penetapan suku bunga kredit yang akan dikenakan oleh kepada nasabah. SBDK belum memperhitungkan komponen estimasi premi risiko yang besarnya tergantung dari penilaian Bank terhadap risiko masing-masing debitur atau kelompok debitur. Dengan demikian, besarnya suku bunga kredit yang dikenakan kepada debitur belum tentu sama dengan SBDK. Dalam kredit Konsumsi non KPR tidak termasuk penyediaan dana melalui kartu kredit dan kredit tanpa agunan (KTA).

Prime Lending Rate

The Prime Lending Rate is used as the basis for determining the credit interest rate that will be charged to customers. SBDK has not taken into account the estimated risk premium component, the amount of which depends on the Bank's assessment of the risk of each debtor or group of debtors. Thus, the amount of loan interest charged to debtors is not necessarily the same as the prime lending rate. Non-KPR consumption credit does not include providing funds through credit cards and unsecured loans (KTA).

Informasi dan Fakta Material Setelah Tanggal Laporan Akuntan

Setelah tanggal laporan akuntan, terdapat peristiwa material berupa penetapan masa efektif pengurus Bank Mandiri Taspen yang telah memperoleh persetujuan melalui mekanisme Penilaian Kemampuan dan Kepatutan (PKK) oleh Otoritas Jasa Keuangan. Sejumlah pengurus dinyatakan efektif menjabat setelah dinyatakan lulus PKK dalam periode 4 Februari 2026 sampai dengan 30 April 2026. Adapun pengurus Perseroan yang telah efektif menjabat dalam periode tersebut antara lain sebagai berikut:

Dewan Komisaris

1. Junaidi Hisom sebagai Komisaris Utama Independen, efektif sejak 6 Maret 2026.
2. Suwartini sebagai Komisaris Independen, efektif sejak 13 Maret 2026.
3. Prasetyo sebagai Komisaris Independen, efektif sejak 31 Maret 2026.

Information and Material Facts After The Date of the Accountant's Report

Subsequent to the auditor's report date, a material event occurred in the form of the determination of the effective tenure of the management of Bank Mandiri Taspen, which had obtained approval through the Fit and Proper Test (PKK) mechanism conducted by the Otoritas Jasa Keuangan. Several members of management were declared effective in their positions upon passing the PKK during the period from February 4, 2026 to April 30, 2026. The Company's management who became effective during this period included the following:

Board of Commissioners

1. Junaidi Hisom as President Independent Commissioner, effective since March 6, 2026.
2. Suwartini as Independent Commissioner, effective since March 13, 2026.
3. Prasetyo as Independent Commissioner, effective since March 31, 2026.

Direksi

1. Rio Lanasier sebagai Direktur Compliance & Human Resource, efektif sejak 13 Maret 2026.

Penetapan masa efektif pengurus tersebut merupakan bagian dari upaya Bank Mandiri Taspen dalam memperkuat struktur tata kelola perusahaan serta memastikan bahwa seluruh pengurus yang menjabat telah memenuhi persyaratan kompetensi, integritas, dan reputasi keuangan sesuai dengan ketentuan yang berlaku. Dari sisi kinerja, efektifnya pengurus baru diharapkan dapat meningkatkan efektivitas pengambilan keputusan strategis, memperkuat pelaksanaan arah dan kebijakan bisnis, serta mendorong pencapaian target Bank Mandiri Taspen secara berkelanjutan. Selain itu, keberadaan pengurus yang telah lulus PKK juga diharapkan mampu meningkatkan kualitas pengawasan dan memberikan nilai tambah dalam pengelolaan Bank Mandiri Taspen.

Sementara itu, dari sisi risiko usaha, perubahan masa efektif pengurus tidak menimbulkan dampak negatif yang material terhadap profil risiko Bank Mandiri Taspen. Perseroan telah memastikan bahwa proses transisi kepengurusan dilakukan secara terencana, terstruktur, dan sesuai dengan prinsip tata kelola perusahaan yang baik (Good Corporate Governance), sehingga kesinambungan operasional tetap terjaga. Fungsi pengendalian internal, manajemen risiko, dan kepatuhan juga tetap berjalan secara efektif untuk mengantisipasi potensi risiko yang mungkin timbul selama masa transisi. Sampai dengan tanggal penyusunan Laporan Tahunan ini, tidak terdapat dampak material yang merugikan terhadap kinerja maupun profil risiko Bank Mandiri Taspen.

Prospek Usaha dan Strategi ke Depan Tahun 2026

Perang di Timur Tengah sejak akhir Februari 2026 telah memperburuk kondisi dan prospek perekonomian global. Lonjakan harga minyak dunia akibat konflik tersebut berdampak negatif terhadap rantai pasok perdagangan antarnegara, sehingga menurunkan prospek pertumbuhan ekonomi dunia dan meningkatkan tekanan inflasi global. Kondisi ini turut memicu memburuknya pasar keuangan global yang ditandai dengan menguatnya mata uang dolar Amerika Serikat (AS), meningkatnya yield US Treasury, serta terjadinya arus modal keluar dari negara-negara emerging markets.

Peningkatan tekanan inflasi global mempersempit ruang pelonggaran kebijakan moneter global, termasuk kemungkinan tertundanya penurunan Fed Funds Rate (FFR). Selain itu, meningkatnya defisit fiskal AS, termasuk akibat pembiayaan perang, mendorong kenaikan yield US Treasury dan meningkatkan premi risiko investasi global. Kondisi tersebut mengakibatkan pergeseran aliran modal ke aset safe-haven,

Board of Directors

1. Rio Lanasier as Director of Compliance & Human Resources, effective since March 13, 2026.

The determination of the effective tenure of the management formed part of Bank Mandiri Taspen's efforts to strengthen its corporate governance structure and to ensure that all appointed members of management had met the required standards of competency, integrity, and financial reputation in accordance with prevailing regulations. From a performance perspective, the effectiveness of the new management was expected to enhance the effectiveness of strategic decision-making, strengthen the implementation of business directions and policies, and support the sustainable achievement of the Bank's targets. Furthermore, the appointment of management members who had passed the Fit and Proper Test (PKK) was expected to improve the quality of oversight and provide added value in the management of Bank Mandiri Taspen.

From a business risk perspective, the changes in the effective tenure of management did not result in any material adverse impact on the risk profile of Bank Mandiri Taspen. The Company ensured that the transition process was conducted in a well-planned, structured manner and in accordance with Good Corporate Governance principles, thereby maintaining operational continuity. Internal control, risk management, and compliance functions continued to operate effectively to anticipate potential risks that might arise during the transition period. As of the date of this Annual Report, no material adverse impact on the Bank's performance or risk profile had been identified.

Business Prospects and Strategies for 2026

The conflict in the Middle East since the end of February 2026 had further deteriorated global economic conditions and prospects. The surge in global oil prices resulting from the conflict had adversely affected cross-border supply chains, thereby weakening global economic growth prospects and increasing global inflationary pressures. These conditions had also triggered a deterioration in global financial markets, as reflected in the strengthening of the United States dollar, rising US Treasury yields, and capital outflows from emerging market economies.

The escalation of global inflationary pressures had narrowed the scope for global monetary easing, including the potential delay in the reduction of the Fed Funds Rate (FFR). In addition, the widening fiscal deficit of the United States, partly driven by war financing, had contributed to higher US Treasury yields and increased global investment risk premiums. These developments had led to a shift in capital flows toward safe-haven assets, particularly in the US

khususnya pasar keuangan AS, yang tercermin dari penguatan indeks dolar AS (DXY). Akibatnya, pelemahan mata uang *emerging markets* semakin sulit dihindari, sehingga menuntut penguatan respons kebijakan fiskal dan moneter di berbagai negara untuk menjaga stabilitas ekonomi domestik.

Di tengah tekanan eksternal tersebut, momentum pertumbuhan ekonomi Indonesia tetap perlu dijaga melalui penguatan permintaan domestik dan stabilitas makroekonomi. Pada Triwulan I 2026, pertumbuhan ekonomi Indonesia menunjukkan peningkatan yang terutama didukung oleh permintaan domestik. Konsumsi rumah tangga meningkat seiring dengan perayaan Hari Besar Keagamaan Nasional (HBKN), yang didukung oleh pemberian Tunjangan Hari Raya (THR), peningkatan belanja sosial Pemerintah, serta berbagai insentif fiskal lainnya. Selain itu, investasi diperkirakan tetap tumbuh positif, didorong oleh akselerasi investasi Pemerintah, termasuk melalui program Koperasi Desa/Kelurahan Merah Putih (KDKMP) dan investasi Danantara.

Untuk menjaga stabilitas ekonomi di tengah dinamika global, sinergi kebijakan antara Pemerintah dan Bank Indonesia terus diperkuat. Prospek pertumbuhan ekonomi Indonesia pada tahun 2026 diperkirakan tetap terjaga dalam kisaran 4,9%–5,7%, didukung oleh terjalanya keyakinan pelaku ekonomi serta berlanjutnya berbagai program Pemerintah yang mendorong pertumbuhan ekonomi dan penyerapan tenaga kerja dengan tetap menjaga ketahanan fiskal. Selain itu, bauran kebijakan moneter, makroprudensial, dan sistem pembayaran terus diperkuat untuk menjaga stabilitas nilai tukar Rupiah serta mendukung pertumbuhan ekonomi yang berkelanjutan.

Tekanan global juga berdampak pada nilai tukar Rupiah yang mengalami pelemahan seiring keluarnya arus modal dari negara-negara *emerging markets*. Nilai tukar Rupiah pada 16 Maret 2026 tercatat sebesar Rp16.985 per dolar AS, melemah sebesar 1,29% dibandingkan posisi akhir Februari 2026. Untuk menjaga stabilitas nilai tukar, Bank Indonesia terus meningkatkan intensitas intervensi di pasar valuta asing, baik melalui transaksi *Non-Deliverable Forward* (NDF) di pasar luar negeri maupun transaksi *spot* dan *Domestic Non-Deliverable Forward* (DNDF) di pasar domestik. Selain itu, optimalisasi instrumen moneter dilakukan untuk meningkatkan aliran masuk modal asing dan menjaga stabilitas pasar keuangan domestik.

Sejalan dengan stabilitas makroekonomi yang tetap terjaga, kinerja industri perbankan nasional menunjukkan ketahanan yang baik. Pertumbuhan kredit perbankan pada Februari 2026 tercatat sebesar 9,37% (yoy), sedikit melambat dibandingkan Januari 2026 sebesar 9,96% (yoy). Berdasarkan kelompok penggunaan, pertumbuhan kredit didukung oleh kredit investasi, kredit modal kerja, dan kredit konsumsi yang masing-masing tumbuh sebesar 20,72% (yoy), 3,88% (yoy), dan 6,34% (yoy).

financial markets, as reflected in the strengthening of the US Dollar Index (DXY). As a result, currency depreciation in *emerging markets* had become increasingly difficult to avoid, thereby necessitating stronger fiscal and monetary policy responses across countries to maintain domestic economic stability.

Amid these external pressures, Indonesia's economic growth momentum needed to be maintained through the strengthening of domestic demand and macroeconomic stability. In the first quarter of 2026, Indonesia's economic growth showed an improvement, primarily supported by domestic demand. Household consumption had increased in line with national religious holiday periods (HBKN), supported by the disbursement of the Religious Holiday Allowance (THR), higher Government social spending, and various fiscal incentives. In addition, investment was projected to remain positive, driven by accelerated Government investment, including through the Red and White Village/Sub-district Cooperative Program (KDKMP) and Danantara investment initiatives.

To maintain economic stability amid global dynamics, policy synergy between the Government and Bank Indonesia had continued to be strengthened. Indonesia's economic growth outlook for 2026 was projected to remain within the range of 4.9%–5.7%, supported by sustained confidence among economic agents and the continuation of Government programs aimed at driving economic growth and employment absorption while maintaining fiscal resilience. Furthermore, the policy mix of monetary, macroprudential, and payment system policies had continued to be reinforced to maintain Rupiah exchange rate stability and support sustainable economic growth.

Global pressures had also affected the Rupiah exchange rate, which had depreciated in line with capital outflows from *emerging market* economies. As of 16 March 2026, the Rupiah stood at IDR 16,985 per US dollar, weakening by 1.29% compared to the end of February 2026. To maintain exchange rate stability, Bank Indonesia had intensified its intervention in the foreign exchange market, both through *Non-Deliverable Forward* (NDF) transactions in offshore markets and *spot* and *Domestic Non-Deliverable Forward* (DNDF) transactions in the domestic market. In addition, the optimization of monetary instruments had been undertaken to encourage foreign capital inflows and maintain domestic financial market stability.

In line with maintained macroeconomic stability, the performance of the national banking industry had demonstrated strong resilience. Banking credit growth in February 2026 was recorded at 9.37% (yoy), slightly moderating from 9.96% (yoy) in January 2026. By type of use, credit growth had been supported by investment loans, working capital loans, and consumer loans, which grew by 20.72% (yoy), 3.88% (yoy), and 6.34% (yoy), respectively.

Ke depan, pertumbuhan kredit pada tahun 2026 diperkirakan tetap berada pada kisaran 8%–12%, didukung oleh potensi peningkatan permintaan pembiayaan serta optimalisasi fasilitas kredit yang belum digunakan (*undisbursed loan*) yang masih cukup besar. Dari sisi pendanaan, prospek pertumbuhan Dana Pihak Ketiga (DPK) perbankan Indonesia pada tahun 2026 diproyeksikan tumbuh stabil pada kisaran 7%–9%, sehingga diharapkan dapat menopang kapasitas likuiditas perbankan dalam mendukung ekspansi kredit secara berkelanjutan.

Dari sisi penawaran, kapasitas pembiayaan perbankan tetap memadai yang tercermin dari rasio Alat Likuid terhadap Dana Pihak Ketiga (AL/DPK) sebesar 27,40%, serta pertumbuhan DPK sebesar 13,18% (yoy) pada Februari 2026. Selain itu, minat penyaluran kredit perbankan tetap terjaga, yang tercermin dari persyaratan pemberian kredit yang relatif longgar. Meskipun demikian, pada segmen kredit konsumsi dan UMKM tetap dilakukan penguatan mitigasi risiko seiring masih tingginya risiko kredit pada kedua segmen tersebut.

Ketahanan industri perbankan nasional juga tetap kuat, sehingga mampu memitigasi risiko dari dampak rambatan gejolak global. Kondisi ini tercermin dari likuiditas perbankan yang memadai, kapasitas permodalan yang kuat, serta risiko kredit yang tetap terkendali. Rasio kecukupan modal (*Capital Adequacy Ratio/CAR*) perbankan pada Januari 2026 tercatat sebesar 25,87%, yang menunjukkan kemampuan perbankan dalam menyerap potensi risiko dan mendukung ekspansi kredit. Sementara itu, rasio kredit bermasalah (*Non-Performing Loan/NPL*) tetap terjaga pada level rendah sebesar 2,14% (bruto) dan 0,82% (neto). Hasil stress test menunjukkan bahwa ketahanan perbankan tetap solid dalam menghadapi berbagai risiko, termasuk dampak rambatan gejolak global.

Di sisi lain, perkembangan sistem pembayaran dan transaksi ekonomi digital menunjukkan tren pertumbuhan yang kuat, yang turut mendukung aktivitas ekonomi nasional. Pada Februari 2026, volume transaksi pembayaran digital mencapai 4,67 miliar transaksi atau tumbuh 40,35% (yoy), didukung oleh perluasan akseptasi pembayaran digital serta peningkatan jumlah pengguna dan merchant. Transaksi QRIS menunjukkan pertumbuhan yang sangat tinggi, sementara volume transaksi ritel melalui BI-FAST mencapai 434 juta transaksi dengan nilai Rp1.092 triliun. Selain itu, nilai transaksi melalui sistem BI-RTGS tetap tumbuh sebesar 9,19% (yoy) menjadi Rp16.105 triliun, yang mencerminkan aktivitas ekonomi dan keuangan yang tetap terjaga. Dari sisi pengelolaan uang Rupiah, Uang Kartal Yang Diedarkan (UYD) tercatat tumbuh 15,78% (yoy) menjadi Rp1.287 triliun, menunjukkan meningkatnya kebutuhan likuiditas masyarakat dalam mendukung aktivitas ekonomi.

Looking ahead, credit growth in 2026 was projected to remain within the range of 8%–12%, supported by potential increases in financing demand and the optimization of still-significant undisbursed loan facilities. On the funding side, the growth of third-party funds (DPK) in Indonesia's banking sector was projected to remain stable within the range of 7%–9% in 2026, thereby supporting banking sector liquidity capacity in sustaining credit expansion.

From the supply side, banking financing capacity had remained adequate, as reflected in the Liquid Assets to Third-Party Funds (AL/DPK) ratio of 27.40%, along with third-party funds (DPK) growth of 13.18% (yoy) as of February 2026. In addition, banks' lending appetite had remained intact, as indicated by relatively accommodative credit underwriting standards. Nevertheless, risk mitigation had continued to be strengthened in the consumer and MSME segments, given the still-elevated credit risk in both segments.

The resilience of the national banking industry had also remained strong, enabling it to mitigate spillover risks from global volatility. This condition was reflected in adequate liquidity, strong capital capacity, and well-maintained credit risk. The banking sector's Capital Adequacy Ratio (CAR) as of January 2026 stood at 25.87%, indicating the sector's ability to absorb potential risks and support credit expansion. Meanwhile, the Non-Performing Loan (NPL) ratio remained at a low level of 2.14% (gross) and 0.82% (net). Stress test results indicated that the banking sector's resilience had remained solid in facing various risks, including spillover effects from global economic volatility.

On the other hand, developments in payment systems and digital economic transactions had shown a strong growth trend, which had also supported national economic activity. In February 2026, the volume of digital payment transactions reached 4.67 billion transactions, growing by 40.35% (yoy), supported by the expansion of digital payment acceptance as well as an increase in the number of users and merchants. QRIS transactions recorded very strong growth, while the volume of retail transactions through BI-FAST reached 434 million transactions with a total value of IDR 1,092 trillion. In addition, the transaction value through the BI-RTGS system continued to grow by 9.19% (yoy) to IDR 16,105 trillion, reflecting sustained economic and financial activity. From the currency management perspective, Currency in Circulation (UYD) grew by 15.78% (yoy) to IDR 1,287 trillion, indicating increased public liquidity needs in supporting economic activities.

3. Segmen pembiayaan kredit mikro, Usaha Mikro Kecil Menengah (UMKM), pra pensiun dan pensiunan di Indonesia yang masih memiliki potensi pasar yang besar.
4. Untuk meningkatkan komposisi *funding retail*, Bank Mandiri Taspen juga berpeluang untuk mengoptimalkan potensi segmen *senior citizen* usia > 40 tahun.
5. Segmen pembiayaan kredit pensiunan yang lebih *resistance* terhadap dampak lesunya perekonomian.
6. Peluang memberikan layanan perbankan yang lebih baik hingga ke berbagai pelosok daerah melalui pemanfaatan jaringan yang dimiliki entitas induk.
7. *Sources* pegawai dari kalangan *millennial* akan membantu bank dalam mengantisipasi perubahan ke arah digitalisasi.
8. Pada sisi teknologi, tren *AI and machine learning*, *open banking*, dan integrasi *API* menyediakan peluang bagi Bank Mantap untuk menyederhanakan proses bisnis, meningkatkan efisiensi operasional, serta memperkuat layanan digital bagi nasabah.

Kekuatan Bank Mandiri Taspen khususnya adalah memiliki entitas induk dengan keunggulannya masing-masing yang berfungsi untuk mengembangkan bisnis Bank Mandiri Taspen. Adapun kekuatan Bank Mandiri Taspen antara lain diuraikan sebagai berikut:

1. Bank Mandiri Taspen memiliki entitas induk dengan keunggulannya masing-masing yang berfungsi untuk mengembangkan bisnis Bank Mandiri Taspen yaitu:
 - a. Bank Mandiri sebagai bank terbesar di Indonesia yang memiliki *expertise* dalam pengelolaan operasional dan layanan bank.
 - b. PT Taspen memiliki akses kepada *captive market* pensiunan sehingga dapat menambah database calon debitur pensiunan.
 - c. Dukungan pendanaan dari grup Pemegang Saham.
2. Kerjasama dengan PT ASABRI yang merupakan BUMN pengelola asuransi dan pembayaran pensiun khusus untuk Prajurit TNI, Anggota Polri, PNS Kementerian Pertahanan Republik Indonesia dan Polri.
3. Kerjasama dengan Dapen BUMN sebagai institusi pengelola pembayaran pensiun pensiunan pegawai BUMN.

Based on the description above, Bank Mandiri Taspen has very good business prospects in the future. Bank Mandiri Taspen remains optimistic about being able to continue improving its performance in the long term. This is supported by the opportunities and strengths possessed by Bank Mandiri Taspen.

Bank Mandiri Taspen has the opportunity to grow. Opportunities that Bank Mandiri Taspen has include the following:

1. Bank Mandiri Taspen has the opportunity to enter the *new business* of state-owned and private pension funds (Dapen) which have characteristics such as the ASN and pensioner segments.
2. *Branding* is starting to be recognized and noticed by job seekers, both *fresh graduates* and those with experience.
3. Micro credit financing segment, Micro, Small and Medium Enterprises (MSMEs), pre-retirement and retirees in Indonesia which still have large market potential.
4. To improve the composition of retail funding, Bank Mandiri Taspen also has the opportunity to optimize the potential of the *senior citizen* segment aged > 40 year.
5. The pension credit financing segment is more resistant to the impact of a sluggish economy.
6. Opportunities to provide better banking services to various remote areas through utilizing the network owned by the parent entity.
7. *Millennial* employee sources will help banks anticipate changes towards digitalization.
8. On the technology side, trends in *AI and machine learning*, *open banking*, and *API* integration provide opportunities for Bank Mantap to simplify business processes, improve operational efficiency, and strengthen digital services for customers

Bank Mandiri Taspen's strength in particular is having parent entities with their respective advantages that function to develop Bank Mandiri Taspen's business. The strengths of Bank Mandiri Taspen are described as follows:

1. Bank Mandiri Taspen has parent entities with their respective advantages that function to develop Bank Mandiri Taspen's business, namely:
 - a. Bank Mandiri as the largest bank in Indonesia has *expertise* in operational management and bank services.
 - b. PT Taspen has access to the pensioner *captive market* so that it can add to the database of prospective retired debtors.
 - c. Funding support from Shareholders group.
2. Collaboration with PT ASABRI, which is a BUMN that manages insurance and special pension payments for TNI Soldiers, Police Members, Civil Servants of the Ministry of Defense of the Republic of Indonesia and the National Police.
3. Collaboration with state-owned penitentiary as an institution managing the payment of state-owned employee pensions.

4. Risiko pembiayaan kredit segmen pensiunan relatif lebih rendah karena sumber utama pembayaran angsuran kredit adalah dari manfaat pensiun debitur yang dipotong secara langsung.
5. Dalam aspek teknologi, Bank Mantap telah menerapkan standarisasi Risk Assessment Criteria (RAC) yang komprehensif yang didukung oleh tools teknologi yang memumpuni, termasuk verifikasi kesehatan calon nasabah guna meminimalkan risiko mortalitas. Selain itu, Bank Mantap telah menggunakan sistem core banking Maestro yang memiliki kapabilitas setara dengan sistem yang digunakan oleh bank-bank KBMI 4, sehingga mendukung efisiensi operasional dan skalabilitas bisnis.
6. Budaya kerja Bank Mandiri Taspen yang kuat.
7. Branding yang mencerminkan keunggulan masing-masing induk dan founder Bank Mandiri Taspen.
8. Mengutamakan SDM berasal dari wilayah setempat, sehingga penguasaan wilayah lebih optimal.
9. Mengembangkan pendidikan calon pegawai yang dipersiapkan sebagai suksesor dalam jangka panjang.
10. Produk unggulan 3 (tiga) pilar Mantap (Mantap Sehat, Mantap Aktif dan Wirausaha Mantap Sejahtera) sebagai *unique value proposition* Bank Mandiri Taspen dibanding kompetitor.

Bank Mandiri Taspen tetap harus waspada dan mawas diri karena di tahun 2026-2028 masih akan dipenuhi berbagai tantangan yang *challenging*, khususnya dari aspek pencapaian *market share*, profitabilitas dan nilai kapitalisasi pasar. Selanjutnya untuk terus dapat memberikan pertumbuhan positif, Bank Mandiri Taspen harus dapat menciptakan nilai tambah secara berkesinambungan, baik dari segi *business unit* maupun *supporting unit*, yaitu dengan selalu berorientasi kepada pencapaian laba perusahaan dan pertumbuhan bisnis secara berkelanjutan serta peningkatan produktivitas melalui Kebijakan Manajemen di tahun 2026, yang meliputi sebagai berikut:

1. **Pertumbuhan Kredit, Dengan Portfolio Kredit Pensiunan Yang Meningkat**
Secara keseluruhan target pertumbuhan kredit Bank Mandiri sesuai dengan target untuk terus menaikkan pangsa pasar kredit, serta upaya untuk meningkatkan komposisi kredit segmen pensiunan.
2. **Pengelolaan Sumber Pendapatan**
Sumber pendapatan utama di tahun 2026 masih berupa pendapatan bunga kredit. Kontribusi pendapatan lain bersumber dari *fee based income* seperti *admin deposit*, *payment point*, *rebate asuransi*, *administrasi kredit*, *fee e-channel* dan jasa layanan bank lainnya.
3. **Pengendalian Kualitas Aktiva Produktif**
Pengendalian kualitas aktiva produktif dilaksanakan melalui beberapa tahapan untuk memastikan *risk exposure*

4. The credit financing risk for the pensioner segment is relatively lower because the main source of credit installment payments is from the debtor's pension benefits, which were deducted directly.
5. In terms of technology, Bank Mantap has implemented comprehensive Risk Assessment Criteria (RAC) standardization supported by advanced technological tools, including health verification of prospective customers to minimize mortality risk. Furthermore, Bank Mantap has utilized the Maestro core banking system, which has capabilities equivalent to those used by KBMI 4 banks, thus supporting operational efficiency and business scalability.
6. The work culture of Bank Mandiri Taspen is strong.
7. Branding that reflects the excellence of each parent and founder of Bank Mandiri Taspen.
8. Prioritizing human resources from the local area, so that regional control is more optimal.
9. Developing education for prospective employees who were prepared as long-term successors.
10. Excellent product 3 (three) Steady pillars (Stay Healthy, Steady Active and Mantap Prosperous Entrepreneur) as a *unique value proposition* for Bank Mandiri Taspen compared to competitors.

Bank Mandiri Taspen still has to be alert and introspective because in 2026-2028 it will still be filled with various challenging challenges, especially in terms of achieving *market share*, profitability and market capitalization value. Furthermore, to continue to be able to provide positive growth, Bank Mandiri Taspen must be able to create added value on an ongoing basis, both in terms of *business units* and *supporting units*, namely by always being oriented towards achieving company profits and sustainable business growth as well as increasing productivity through Management Policy in 2026, which includes the following:

1. **Credit Growth, With Pensioner Credit Portfolios Increasing**
Overall, Bank Mandiri's credit growth target is in line with the target to continue to increase its credit market share, as well as efforts to increase the credit composition of the retiree segment.
2. **Management of Income Sources**
The main source of income in 2026 will still be credit interest income. Other income contributions come from *fee based income* such as *admin deposits*, *payment points*, *insurance rebates*, *credit administration*, *e-channel fees* and other bank services.
3. **Controlling the Quality of Productive Assets**
Productive asset quality control is carried out through several stages to ensure *risk exposure* is always identified,

senantiasa teridentifikasi, terukur, termonitor, dan termitigasi. Tahapan-tahapan tersebut mulai dari penerapan pendekatan proses bisnis yang efektif dan prudent (*four eyes principle* dan Rapat Komite), variasi tools yang tepat guna, sumber daya profesional dan efektif, *monitoring* dan *review* dan ditekankan pada penguatan aktivitas *collection*. Bank Mandiri Taspen akan sangat selektif dalam menjaga pertumbuhan, khususnya kredit di Provinsi Bali serta akan fokus pada pengembangan kredit di segmen pensiunan.

4. Pertumbuhan Dana

Pertumbuhan dana sebesar 4,5% untuk mempertahankan *Loan to Funding Ratio* (LFR) pada level 86%-92% yang didorong dari peningkatan Dana Pihak Ketiga (DPK), adanya obligasi existing, kerja sama *bilateral loan* serta alternatif pendanaan maupun dukungan pendanaan dari grup usaha.

measured, monitored and mitigated. These stages start from implementing an effective and prudent business process approach (*four eyes principle* and Committee Meetings), a variety of appropriate tools, professional and effective resources, monitoring and review and an emphasis on strengthening collection activities. Bank Mandiri Taspen will be very selective in maintaining growth, especially credit in Bali Province and will focus on credit development in the retiree segment.

4. Pertumbuhan Dana

Fund growth was 4.5% to maintain the *Loan to Funding Ratio* (LFR) at the level of 86%-92% which was driven by an increase in Third Party Funds (TPF), the existence of existing bonds, bilateral loan cooperation as well as alternative funding and funding support from the group business.

Pencapaian Target dan Target Ke Depan

Pencapaian Target

Secara umum, pencapaian target Bank di 2025 telah menunjukkan hasil yang baik. Uraian terkait perbandingan target dan realisasi keuangan, struktur modal, pengembangan SDM dan pemasaran disajikan sebagai berikut.

Perbandingan Target dan Realisasi Keuangan

Pencapaian target Bank Mandiri Taspen pada umumnya melampaui target yang telah ditetapkan dalam Rencana Bisnis Bank (RBB) tahun 2025. Bank Mandiri Taspen belum berhasil melampaui target laba tahun berjalan di tahun 2025 yaitu sebesar 93,92% dan pendapatan operasional lainnya sebesar 80,68%. Hal ini disebabkan oleh pendapatan operasional selain bunga *non recurring* atas *recovery* pembayaran asuransi yang belum tercapai target di kuartal empat ini. Ekuitas di atas target yaitu sebesar 101,96% yang disebabkan peningkatan laba tahun berjalan. Pencapaian aset berhasil melampaui target sebesar 100,86% dan ekuitas yang mencapai target yang ditetapkan yakni sebesar 101,96%. Demikian pula dengan pencapaian target dana pihak ketiga tahun 2025 yang sebesar 104,71% yang didukung dengan pencapaian target giro, tabungan dan deposito masing-masing sebesar 79,08%, 107,76% dan 104,19%. Bank Mandiri Taspen akan senantiasa melakukan evaluasi pelaksanaan strategi yang telah ditetapkan, sehingga kinerja Bank Mandiri Taspen di masa yang akan datang akan mengalami peningkatan secara berkelanjutan.

Target Achievement and Future Targets

Target Achievement

In general, the achievement of the Bank's targets in 2025 has shown good results. The description regarding the comparison of financial targets and realization, capital structure, HR development and marketing is presented as follows.

Target Comparison and Financial Realization

Bank Mandiri Taspen's target achievement generally exceeded the targets set in the Bank's Business Plan (RBB) for 2025. Bank Mandiri Taspen has not yet succeeded in exceeding the current year's profit target in 2025, which was 93.92% and other operating income of 80.68%. This is due to operating income other than non-recurring interest on insurance payment recovery that has not reached the target in the fourth quarter. Equity is above the target of 101.96% due to an increase in current year's profit. The achievement of assets successfully exceeded the target of 100.86% and equity reached the set target of 101.96%. Likewise, the achievement of the third party fund target for 2025 was 104.71% supported by the achievement of current account, savings and time deposit targets of 79.08%, 107.76% and 104.19%, respectively. Bank Mandiri Taspen will continuously evaluate the implementation of the established strategies, so that Bank Mandiri Taspen's performance in the future will experience continuous improvement.

Capital Structure Projections

A description of the projected capital structure for 2026 is as follow:

Proyeksi Kebijakan Dividen

Berdasarkan kebijakan dividen Bank Mandiri Taspen, yaitu apabila Bank Mandiri Taspen mempunyai saldo laba positif, setelah dikurangi penyisihan untuk cadangan, Bank Mandiri Taspen dapat membagikan dividen dengan besaran dan tata cara pembagiannya sesuai kesepakatan Pemegang Saham serta setelah memperoleh keputusan Rapat Umum Pemegang saham.

Tahun Buku yang berakhir tanggal 31 Desember 2025, Bank Mandiri Taspen berhasil membukukan laba setelah pajak mencapai Rp1.581.080 juta atau 93,92% dari target sebesar Rp1.683.381 juta dan tumbuh sebesar 0,22% jika dibandingkan periode yang sama tahun 2024 sebesar Rp1.577.550 juta.

Atas dasar hal tersebut, pada tahun 2025 Bank Mandiri Taspen memproyeksikan untuk membagikan dividen kepada pemegang saham dengan payout ratio $\pm 10\%$ dari laba setelah pajak. Pembagian dividen tersebut dimaksudkan karena Tahun Buku 2024 Bank Mandiri Taspen telah memperoleh saldo laba yang positif sehingga memberikan return yang optimal kepada pemegang saham atas modal yang telah ditempatkan dan disetor penuh kepada Bank Mandiri Taspen. Namun demikian, pembagian dividen yang akan dilakukan juga dengan mempertimbangkan rencana pengembangan bisnis beserta pendukungnya antara lain seperti pengembangan teknologi informasi dan pengembangan sumber daya manusia.

Proyeksi Pemasaran

Seiring dengan mulai membaiknya kondisi perekonomian di tahun 2025 yang didorong oleh program-program stimulus yang dikeluarkan oleh Pemerintah, meskipun terdapat trend peningkatan suku bunga dana yang challenging di tahun 2025,

Dividen Policy Projection

Based on Bank Mandiri Taspen's dividend policy, if Bank Mandiri Taspen has a positive retained earnings balance, after deducting reserves, Bank Mandiri Taspen can distribute dividends in an amount and manner agreed upon by the Shareholders and after obtaining a resolution from the General Meeting of Shareholders.

For the fiscal year ending December 31, 2025, Bank Mandiri Taspen successfully posted a profit after tax of Rp1,581,080 million, or 93.92% of the target of Rp1,683,381 million, a 0.22% increase compared to the same period in 2024 of Rp1,577,550 million.

Based on this, Bank Mandiri Taspen projects to distribute dividends to shareholders in 2025 with a payout ratio of approximately 10% of the net profit after tax. This dividend distribution is intended because Bank Mandiri Taspen achieved a positive retained earnings balance in Fiscal Year 2024, thus providing an optimal return to shareholders on the capital invested and fully paid into Bank Mandiri Taspen. However, the distribution of dividends will also be carried out by taking into account business development plans and their supporting elements, including information technology development and human resource development.

Marketing Projections

As economic conditions began to improve in 2025, driven by stimulus programs issued by the Government, even though there is a challenging trend of increasing funding interest rates in 2025, Bank Mandiri Taspen remains optimistic about being

Bank Mandiri Taspen tetap optimis untuk dapat terus tumbuh sustain dan terus berkinerja optimal. Kinerja pemasaran kami proyeksikan terus tumbuh positif di tahun 2026, yakni sebagai berikut:

able to continue to grow sustainably and continue to perform optimally. We project marketing performance to continue to grow positively in 2026, namely as follows:

Proyeksi Pengembangan Sumber Daya Manusia (SDM)

Dalam menghadapi tantangan bisnis di tahun 2026, Bank telah menetapkan prioritas pelaksanaan *training* di bidang teknis dan bidang non teknis secara daring dan/atau luring melalui program sebagai berikut:

1. Sertifikasi Kompetensi Kerja Sesuai SKKNI (Standar Kompetensi Kerja Nasional Indonesia)

Merupakan sertifikasi kompetensi yang mengacu pada standar kompetensi yang ditetapkan secara nasional (SKKNI), yang diwajibkan atau relevan dengan tugas-tugas khusus pegawai di sektor perbankan, seperti Manajemen Risiko, General Banking, Audit Intern Bank, Kepatuhan, Anti Pencucian Uang dan Pencegahan Pendanaan Terorisme (APU-PPT), Sistem Pembayaran, dan Wakil Agen Penjual Efek Reksa Dana (WAPERD). Sertifikasi ini bertujuan meningkatkan kredibilitas dan profesionalisme pegawai dalam melaksanakan tugasnya sehari-hari secara efektif sesuai standar nasional.

2. Sertifikasi Kompetensi Kerja Non SKKNI

Merupakan sertifikasi kompetensi yang tidak mengacu langsung pada SKKNI tetapi relevan dengan kebutuhan organisasi dan industri jasa keuangan, seperti sertifikasi dalam bidang Human Capital, IT & Security, pengadaan barang dan jasa, maupun bidang lainnya sesuai dengan kebutuhan spesifik organisasi untuk mendukung efektivitas operasional dan strategis Bank.

3. Training Peningkatan Kompetensi Lainnya

Merupakan program pelatihan yang bertujuan meningkatkan pemahaman serta keterampilan teknis pegawai di luar sertifikasi formal, mencakup aspek bisnis, operasional, serta kesadaran risiko (*business, operation, and risk awareness knowledge*). Program ini diberikan baik melalui LaunchPad Program (program *onboarding* untuk pegawai baru) maupun pelatihan berkala atau refreshment untuk seluruh pegawai existing, guna memastikan pegawai memiliki kompetensi yang senantiasa relevan dengan perkembangan bisnis dan regulasi.

4. Training Soft Skill

Merupakan program pelatihan yang bertujuan mengembangkan keterampilan non-teknis (*soft skills*) pegawai, seperti kemampuan komunikasi, kolaborasi, membangun hubungan kerja yang efektif, serta keterampilan penyelesaian konflik. Pelatihan ini diselenggarakan melalui workshop secara daring dan/atau luring, serta dioptimalkan melalui platform pembelajaran digital seperti *LinkedIn Learning* untuk memperluas akses konten pembelajaran ke seluruh divisi, guna mempercepat peningkatan kompetensi pegawai secara fleksibel dan efisien.

Human Resources (HR) Development Projections

In facing business challenges in 2026, the Bank has prioritized the implementation of training in technical and non-technical fields online and/or offline through the following program:

1. Certification of Work Competencies in accordance with SKKNI (Indonesian National Work Competency Standards)

Competency certification that refers to nationally established competency standards (SKKNI), which are required or relevant to the specific tasks of employees in the banking sector, such as Risk Management, General Banking, Bank Internal Audit, Compliance, Anti-Money Laundering and Prevention of Financing of Terrorism (APU-PPT), Payment Systems, and Deputy Selling Agent for Mutual Fund Securities (WAPERD). This certification aims to enhance the credibility and professionalism of employees in carrying out their daily duties effectively according to national standards.

2. Non SKKNI Work Competency Certification

Competency certification that does not refer directly to SKKNI but is relevant to the needs of the organization and the financial services industry, such as certification in the fields of Human Capital, IT & Security, procurement of goods and services, and other fields in accordance with the specific needs of the organization to support the operational and strategic effectiveness of the Bank.

3. Other Competency Improvement Training

Training program that aimed at improving employees' understanding and technical skills beyond formal certification, covering aspects of business, operations, and risk awareness knowledge. This program is provided both through the LaunchPad Program (*onboarding* program for new employees) and periodic training or refreshment for all existing employees, to ensure employees have competencies that are always relevant to business and regulatory developments.

4. Training Soft Skill

Training program that aims to develop employees' soft skills, such as communication, collaboration, building effective working relationships, and conflict resolution skills. This training is organized through online and/or offline workshops, and optimized through digital learning platforms such as *LinkedIn Learning* to expand access to learning content to all divisions, in order to accelerate employee competency improvement in a flexible and efficient manner.

5. Training Kepemimpinan (Leadership)

Merupakan program pelatihan yang bertujuan membangun kompetensi kepemimpinan, meliputi kemampuan pengambilan keputusan strategis, pengelolaan risiko, serta keterampilan mengarahkan, membina, dan memotivasi tim kerja. Program ini bertujuan mempersiapkan dan mengembangkan pemimpin yang efektif, visioner, dan mampu mendukung tercapainya tujuan strategis organisasi di sektor jasa keuangan. Adapun penerapannya diharapkan dapat mewujudkan *leadership model "BANKER"* pada diri setiap leader Bank:

- Bold**, yang memiliki arti berani menyampaikan pendapat untuk memotivasi, menginspirasi, dan membimbing orang lain menuju kebaikan yang lebih besar.
- Adaptive**, yang memiliki arti bersedia dan mampu beradaptasi, terutama saat menghadapi situasi yang tidak biasa.
- Nimble**, yang memiliki arti memiliki kemampuan untuk bereaksi dengan cepat dan berani mengambil keputusan secara efisien dengan risiko yang terukur.
- Knowledgable**, yang memiliki arti memiliki pengetahuan yang luas dan bersedia untuk berbagi informasi kepada rekan kerja.
- Empathetic**, yang memiliki arti mampu memahami keberagaman, menciptakan *culture* yang positif dan suportif di lingkungan kerja untuk meningkatkan produktifitas.
- Resilience**, yang memiliki arti mampu untuk mengatasi tantangan, menghadapi ketidakpastian, dan pulih dari kesulitan dengan cepat dan efektif.

Di tahun 2026, Bank akan melakukan training *leadership* meliputi:

1. Officer Development Program (ODP)

ODP merupakan program pengembangan yang dirancang khusus untuk fresh graduate atau lulusan baru yang potensial, dengan tujuan mempersiapkan mereka menjadi calon pemimpin masa depan di bank. Peserta ODP biasanya menjalani rangkaian pelatihan yang sistematis, intensif, dan komprehensif yang mencakup pelatihan teknis perbankan (operasi, kredit, funding, risk management, dll.), pelatihan soft skill, pelatihan kepemimpinan, serta rotasi tugas (job rotation) di berbagai unit kerja. Setelah menyelesaikan program ini, peserta diharapkan siap ditempatkan dalam berbagai posisi strategis sebagai officer dan calon pemimpin bank.

2. Staff Development Program (SDP)

SDP adalah program pengembangan yang dirancang khusus untuk posisi staf yang memiliki potensi dan kinerja baik untuk dipersiapkan ke jenjang tanggung jawab yang lebih tinggi atau untuk mengembangkan spesialisasi tertentu sesuai kebutuhan organisasi. SDP bertujuan

5. Leadership Training

Training program that aims to build leadership competencies, including strategic decision-making skills, risk management, as well as skills to direct, coach, and motivate work teams. This program aims to prepare and develop leaders who are effective, visionary, and able to support the achievement of organizational strategic goals in the financial services sector. The implementation is expected to realize the "BANKER" leadership model in every leader of the Bank:

- Bold**, which means dare to express opinions to motivate, inspire and guide others towards the greater good.
- Adaptive**, which means Able to adapt to developments in the digital Era.
- Nimble**, which means having the ability to react quickly and dare to make decisions efficiently with measurable risks.
- Knowledgable**, which means Extensive knowledge and can always be relied on in all conditions.
- Empathetic**, which means Able to understand diversity, create a positive and supportive culture in the work environment to increase productivity.
- Resilience**, which means having the ability to provide services that can captivate customers.

In 2026, the Bank will conduct leadership training including:

1. Officer Development Program (ODP)

ODP is a development program specifically designed for fresh graduates or potential new graduates, with the aim of preparing them to become future leaders in the bank. ODP participants usually undergo a series of systematic, intensive, and comprehensive training that includes technical banking training (operations, credit, funding, risk management, etc.), soft skills training, leadership training, and job rotation in various work units. After completing this program, participants are expected to be ready to be placed in various strategic positions as officers and prospective bank leaders.

2. Staff Development Program (SDP)

SDP is a development program specifically designed for staff positions that have good potential and performance to be prepared for higher levels of responsibility or to develop certain specializations according to organizational needs. SDP aims to strengthen the technical capabilities,

memperkuat kemampuan teknis, kompetensi operasional, serta soft skill para peserta melalui pelatihan khusus yang disesuaikan dengan kebutuhan bisnis bank. Peserta program ini umumnya adalah pegawai yang sudah memiliki pengalaman kerja tertentu di bank, dengan tujuan agar mereka dapat meningkatkan produktivitas serta siap untuk mengemban tanggung jawab lebih besar.

3. L3 Series Program (Learn, Leap, and Lead)

L3 Series Program adalah rangkaian program pelatihan kepemimpinan yang dirancang secara bertahap untuk pegawai di berbagai jenjang manajerial, guna meningkatkan kompetensi leadership secara sistematis dan terstruktur sesuai dengan tingkatan jabatan masing-masing. Program ini terdiri dari tiga tingkatan utama:

a. Leadership Essentials for Achieving Resilient and Empowerment (Learn)

Program ini ditujukan bagi para *First Line Managers* (misalnya *Business Manager* dan *Funding Transaction Manager/FTM*), yang berfokus pada penguatan fondasi kepemimpinan dasar. Tujuan utama *Learn* adalah membangun kompetensi esensial untuk memimpin diri sendiri dan tim secara efektif, meningkatkan resiliensi dalam menghadapi tantangan, serta memberdayakan tim melalui keterampilan dasar kepemimpinan.

b. Leadership Empowerment Acceleration Program (Leap)

Program ini diperuntukkan bagi *Middle Managers* (misalnya *Operational Manager*, *Team Leader*, *Spoke Manager*, dan *Supervisor*) yang sudah memiliki pengalaman manajerial dan perlu dikembangkan lebih lanjut. Tujuan utama *Leap* adalah mempercepat pengembangan kemampuan manajerial dan keterampilan kepemimpinan lanjutan, memberdayakan kemampuan mengambil keputusan taktis, mengelola tim secara optimal, serta meningkatkan efektivitas komunikasi antar level dan lintas fungsi di organisasi.

c. Leadership Excellence for Advancement Development (Lead)

Program ini dirancang khusus bagi *Senior Managers* atau posisi strategis (*Department Head*, *Office Head*, *Kepala Cabang*, *FTH*, dan lain sebagainya), yang bertujuan menyiapkan pemimpin senior yang mampu berpikir secara strategis dan visioner. Tujuan utama *Lead* adalah mengembangkan pemimpin senior yang mampu membuat keputusan strategis secara efektif, mendorong transformasi organisasi, mengelola risiko secara bijaksana, serta memimpin perubahan secara visioner, sehingga mendukung pencapaian tujuan bisnis secara berkelanjutan.

operational competencies, and soft skills of the participants through specialized training tailored to the bank's business needs. Participants of this program are generally employees who already have certain work experience in the bank, with the aim that they can increase productivity and be ready to take on greater responsibility.

3. L3 Series Program (Learn, Leap, and Lead)

L3 Series Program is a series of leadership training programs designed in stages for employees at various managerial levels, in order to improve leadership competencies in a systematic and structured manner according to the level of each position. The program consists of three main levels:

a. Leadership Essentials for Achieving Resilient and Empowerment (Learn)

This program is aimed at *First Line Managers* (e.g. *Retired Relationship Officer/ROP* and *Funding Transaction Manager/FTM*), focusing on strengthening basic leadership foundations. *Learn's* main objective is to build essential competencies to effectively lead yourself and your team, increase resilience in the face of challenges, and empower your team through basic leadership skills.

b. Leadership Empowerment Acceleration Program (Leap)

This program is intended for *Middle Managers* (e.g. *Operational Managers*, *Team Leaders*, *Spoke Managers*, and *Supervisors*) who already have managerial experience and need to be developed further. The main objective of *Leap* is to accelerate the development of managerial abilities and advanced leadership skills, empower the ability to make tactical decisions, manage teams optimally, and improve the effectiveness of communication between levels and across functions in the organization.

c. Leadership Excellence for Advancement Development (Lead)

This program is specifically designed for *Senior Managers* or strategic positions (*Department Head*, *Office Head*, *Branch Head*, *FTH*, etc.), which aims to prepare senior leaders who are able to think strategically and visionarily. The main objective of *Lead* is to develop senior leaders who are able to make strategic decisions effectively, drive organizational transformation, manage risk wisely, and lead change visionarily, thus supporting the achievement of business goals in a sustainable manner.

Rujukan Pengungkapan dalam Laporan Keuangan

Rincian nama pihak terkait realisasi (nilai) transaksi pihak berelasi disajikan pada Catatan atas Laporan Keuangan Nomor 36 yang terlampir pada Laporan Tahunan ini. Transaksi berelasi tersebut merupakan kegiatan usaha yang dijalankan dalam rangka menghasilkan pendapatan usaha dan dijalankan secara rutin, berulang, dan/atau berkelanjutan.

Kewajaran dan Alasan Dilakukannya Transaksi

Transaksi dilakukan atas dasar alasan kebutuhan Bank Mandiri Taspen dan bebas dari konflik kepentingan. Selama tahun 2025, semua transaksi dilakukan secara wajar berdasarkan prinsip *arm's length principle* sesuai dengan mekanisme yang telah ditetapkan. Di samping itu, selama tahun 2025 tidak terdapat pelanggaran atas peraturan perundang-undangan terkait dengan transaksi dengan pihak berelasi serta tidak terdapat transaksi yang mengandung benturan kepentingan.

Pemenuhan Peraturan dan Ketentuan Terkait

Bank Mandiri Taspen memiliki kebijakan mengenai transaksi yang mengandung benturan kepentingan dan/atau transaksi dengan pihak berelasi. Transaksi material senantiasa dilakukan dengan memperhatikan prinsip kehati-hatian, serta telah memenuhi ketentuan Otoritas Jasa Keuangan maupun peraturan perundang-undangan lain yang berlaku.

Disclosure Reference in Financial Statements

Details of the names of parties related to the realization (value) of related party transactions were presented in the notes to Financial Statements Number 36 attached to this Annual Report. The related party transactions were business activities engaged in order to generate business income and conducted routinely, repeatedly, and/or sustainably.

Reasonableness and Rationale of the Transaction

Transactions are conducted based on the needs of Bank Mandiri Taspen and are free from conflicts of interest. During 2025, all transactions were conducted fairly based on the Arm's Length Transaction principle in accordance with the established mechanism. In addition, during 2025 there were no violations of laws and regulations related to transactions with related parties and no transactions containing conflicts of interest.

Compliance with Related Regulations and Provisions

Bank Mandiri Taspen has a policy regarding transactions that contain conflicts of interest and/or transactions with related parties. Material transactions are decided by the Board of Commissioners and are always carried out with due regard to the precautionary principle, and comply with the provisions of the Financial Services Authority and other applicable laws and regulations.

Pernyataan Direksi Terkait Transaksi Pihak Berelasi

Direksi menyatakan bahwa transaksi telah melalui prosedur yang memadai, dilaksanakan sesuai praktik bisnis yang berlaku umum, serta memenuhi prinsip transaksi yang wajar (*arm's length principle*). Transaksi material diputuskan oleh Dewan Komisaris dan senantiasa dilakukan dengan memperhatikan prinsip kehati-hatian, serta telah memenuhi ketentuan Otoritas Jasa Keuangan maupun peraturan perundang-undangan lain yang berlaku.

Kebijakan Mekanisme Penelaahan dan Persetujuan serta Peran Dewan Komisaris dan Komite Audit Terkait Transaksi Pihak Berelasi

Bank Mandiri Taspen menetapkan kebijakan penelaahan dan persetujuan transaksi pihak berelasi dan atau/afiliasi untuk memastikan setiap transaksi dilaksanakan secara wajar (*arms' length*) serta mengutamakan kepentingan terbaik Bank Mandiri Taspen dan Pemegang Saham. Setiap transaksi pihak berelasi dan atau/afiliasi yang bersifat material terlebih dahulu ditelaah oleh Komite Audit guna menilai kewajaran transaksi dan mengidentifikasi potensi benturan kepentingan. Hasil penelaahan tersebut menjadi dasar bagi Dewan Komisaris dalam memberikan persetujuan secara independen atas transaksi material dimaksud.

Dalam hal transaksi pihak berelasi dan atau/afiliasi terkait dengan pemberian kredit, mekanisme persetujuan mengacu pada Keputusan Direksi No. KEP.DIR/010/V/2024 tanggal 16 Mei 2024 tentang Kewenangan Memutus Kredit PT Bank Mandiri Taspen. Setiap pemberian kredit kepada pihak berelasi dan atau/afiliasi diproses sesuai batas kewenangan yang ditetapkan dengan tetap memperhatikan prinsip kehati-hatian, independensi, dan pengelolaan risiko.

Apabila transaksi pihak berelasi dan atau/afiliasi memerlukan persetujuan Rapat Umum Pemegang Saham (RUPS), keputusan dilakukan oleh Pemegang Saham yang tidak memiliki kepentingan terhadap transaksi tersebut. Pada tahun 2025, tidak terdapat transaksi pihak berelasi dan atau/afiliasi yang memerlukan persetujuan RUPS.

Sebagai bagian dari penerapan transparansi dan kepatuhan terhadap ketentuan akuntansi yang berlaku, Bank Mandiri Taspen melakukan identifikasi, pencatatan, dan pengungkapan transaksi pihak berelasi sesuai dengan PSAK 224 tentang Pengungkapan Pihak-Pihak Berelasi, termasuk pengungkapan nama pihak berelasi, hubungan dengan Bank, sifat transaksi, serta nilai transaksi dalam laporan yang relevan.

Statement of the Board of Directors Regarding Related Party Transactions

The Board of Directors declared that the transaction that had passed through sufficient procedures was conducted in accordance with generally accepted business practices, and complied with the arm's length principle. Material transactions were decided by the Board of Commissioners and always conducted by considering the principle of prudence, and had complied with the provisions of the Financial Services Authority and other applicable laws and regulations.

Policy on review and approval Mechanisms and the Roles of the Board of Commissioners and the Audit Committee in Related Party Transactions

Bank Mandiri Taspen had established policies on the review and approval of related party and/or affiliated transactions to ensure that all transactions were conducted on an arm's length basis and prioritized the best interests of Bank Mandiri Taspen and its shareholders. All material related party and/or affiliated transactions had first been reviewed by the Audit Committee to assess their fairness and identify potential conflicts of interest. The results of such reviews had served as the basis for the Board of Commissioners in providing independent approval of the respective material transactions.

With respect to related party and/or affiliated transactions involving lending, the approval mechanism referred to the Board of Directors' Decree No. KEP.DIR/010/V/2024 dated May 16, 2024 concerning Credit Approval Authority of Bank Mandiri Taspen. All lending to related parties and/or affiliates was processed in accordance with the established authority limits, while adhering to prudential principles, independence, and sound risk management practices.

In the event that related party and/or affiliated transactions required approval from the General Meeting of Shareholders (GMS), decisions had been made by shareholders who did not have any interest in the transactions. In 2025, there had been no related party and/or affiliated transactions requiring GMS approval.

As part of implementing transparency and compliance with applicable accounting standards, Bank Mandiri Taspen had conducted the identification, recording, and disclosure of related party transactions in accordance with PSAK 224 on Related Party Disclosures, including disclosure of the names of related parties, their relationships with the Bank, the nature of the transactions, and the transaction values in the relevant reports.

Kebijakan Pemberian Pinjaman Bagi Dewan Komisaris/Direksi

Bank Mandiri Taspen telah memiliki kebijakan terkait penyediaan dana kepada pihak terkait atau penyediaan dana besar dan atau penyediaan dana kepada pihak lain yang memiliki kepentingan terhadap Bank yang diatur dalam Kebijakan Perkreditan dengan pembaharuan terakhir tanggal 1 Oktober 2024 dan Standar Prosedur Penerapan Manajemen Risiko Tahun 2025.

Pemberian kredit kepada Direksi dan Komisaris termasuk ke dalam penyediaan kepada pihak terkait, dan hal ini wajib mendapat persetujuan kepada Dewan Komisaris. Pendanaan kepada pihak terkait telah diatur oleh Otoritas Jasa Keuangan (OJK) dan ketentuan Perseroan yaitu Kebijakan Batas Minimum Pemberian Kredit Bank Mandiri Taspen. Ketentuan dan prosedur pemberian kredit kepada Direksi dan Dewan Komisaris berlaku sama seperti pemberian kredit kepada calon debitur Bank Mandiri Taspen pada umumnya dan diberikan sesuai bunga pasar (market rate) dan wajar (arm's length basis) dengan tetap memperhatikan prinsip kehati-hatian.

Loans Provision Policy for the Board of Commissioners/Directors

Bank Mandiri Taspen has a policy regarding the provision of funds to related parties or the provision of large funds and/or the provision of funds to other parties who have an interest in the Bank which is regulated in the Credit Policy, last updated on 1 October 2024, and the Standard Procedures for the Implementation of Risk Management for 2025.

The loans provision to the Board of Directors and Commissioners was included in the provision to related parties, and this provision had to be approved by the Board of Commissioners. Funding to related parties had been regulated by the Financial Services Authority (OJK) and the Company's provisions, such as the Minimum Loans Limit Policy of Bank Mandiri Taspen. The provisions and procedures for loans provision to the Board of Directors and Board of Commissioners applied the same as loans provision to prospective debtors of Bank Mandiri Taspen in general and were granted according to market interest rates and arm's length basis, while considering the principle of prudence.

financial partner for pension customers, in order to sustain CASA growth without compromising profitability. In this regard, the Bank had developed various innovations in features and facilities within its digital banking service infrastructure, including the expansion of Smart Branches across its network to accelerate banking transactions and support the mobilization of low-cost funds.

To enhance its customer funding base, particularly in the retail segment, Bank Mandiri Taspen had continued to optimize the utilization of existing e-channels, including through its mobile banking platform, which had been continuously enhanced with new features. These included health consultation services in collaboration with KlikDokter, online registration and activation, biometric login, standby loan facilities, online onboarding, e-money top-up, debit card blocking, additional bill payment and purchase services, password recovery features, merchant payments at Indomaret, Omni Channel biller services, cardless cash withdrawal through ATM Jalin (LINK), cash-in services via Indomaret merchants, QRIS customer-presented mode, and the addition of billers in mobile banking. With these feature enhancements, the Bank had continued to optimize mobile banking user acquisition, reaching a total of 446,986 users as of December 2025.

Management Assessment of Matters that Have the Potentially Significant Effect on Business Continuity

Management routinely conducts evaluations and assessments related to the ability and achievement of performance targets of all units in accordance with the bank's business plan that has been prepared. Evaluation is carried out periodically for each level covering productivity, profitability and the main indicators contained in the work unit's Key Performance Indicator (KPI). Based on the results of regular assessments and evaluations, the Bank's Management believes that the Bank has the resources to carry out business activities in the future. The Bank does not have material uncertainties that could raise significant doubts about the ability of Bank Mandiri Taspen to maintain business continuity.

Assumptions Used in Conducting the Assessment

In carrying out the assessment of the ability of Bank Mandiri Taspen to continue business continuity in the future, several assumptions and considerations are used. These assumptions and considerations include financial performance, level of capital adequacy, liquidity, solvency, profitability and efficiency of Bank Mandiri Taspen, internal problems and lawsuits faced by Bank Mandiri Taspen, as well as current and future micro and macroeconomic conditions come.

Kerangka Governansi, Pengelolaan dan Pengendalian Aspek Perpajakan

Bank Mandiri Taspen telah membangun kebijakan dan strategi pajak yang disetujui dan ditinjau oleh Direktur Keuangan dalam pelaporan SPT Tahunan PPh Badan. Strategi pajak ini ditinjau setiap tahun oleh Direktur Keuangan. Pendekatan Bank Mandiri Taspen terhadap pajak didasari oleh kepatuhan pada seluruh peraturan perpajakan yang berlaku. Pembayaran pajak sejalan dengan komitmen Bank Mandiri Taspen dalam mendukung optimalisasi penerimaan negara serta keberlanjutan pembangunan nasional.

Dalam pelaksanaan tata kelola dan pengontrolan pajak, Bank Mandiri Taspen telah menetapkan proses yang komprehensif dan terstruktur, seperti:

1. Badan tata kelola (eksekutif) yang bertanggung jawab untuk menerapkan strategi pajak adalah Direktur Keuangan.
2. Pendekatan terhadap pajak ditanamkan dalam perusahaan melalui tersedianya Standar Prosedur Perpajakan, mengembangkan sistem aplikasi yang embedded dengan proses perpajakan, dan peningkatan kesadaran perpajakan melalui sarana training dan sosialisasi.
3. Mengidentifikasi, mengelola, dan memonitor risiko pajak melalui monitoring dan rekonsiliasi berkesinambungan yang dilakukan oleh Divisi SPM & Accounting dan unit kerja terkait serta monitoring dan review berkala oleh Senior Operational Risk (SOR), audit internal, dan audit eksternal (Kantor Akuntan Publik).
4. Evaluasi kepatuhan pada tata kelola pajak dan pengontrolannya dilakukan dengan cara melakukan monitoring secara kontinyu oleh Divisi SPM & Accounting dan unit kerja terkait serta monitoring dan evaluasi berkala oleh SOR dan audit internal. Bank Mandiri Taspen tidak menggunakan asurer dalam pengontrolan pajak.

Pemangku kepentingan yang terpenting dalam hal perpajakan adalah pemerintah melalui kantor pajak. Untuk itu, Bank Mandiri Taspen senantiasa membina hubungan baik dengan otoritas perpajakan, namun tanpa terlibat dalam advokasi kebijakan publik terkait perpajakan, maupun upaya-upaya lain untuk mempengaruhi otoritas perpajakan. Langkah ini didukung dengan penerapan kebijakan internal, strategi, dan praktik perpajakan, serta memperhatikan umpan balik dari para pemangku kepentingan eksternal.

Bank Mandiri Taspen hanya beroperasi di Indonesia, untuk itu laporan perpajakan hanya dilakukan untuk Indonesia. Informasi lebih lanjut mengenai Profil Bank Mandiri Taspen telah disajikan secara komprehensif pada Bab Profil Perusahaan, sementara informasi keuangan, termasuk perpajakan telah diuraikan pada Bab Analisis dan Pembahasan Manajemen dalam Laporan Tahunan ini dan Laporan Keuangan.

Governance Framework, Management and Control Aspect of Taxation

Bank Mandiri Taspen has established tax policies and strategies that are reviewed and approved by the Finance Director in relation to the filing of the Annual Corporate Income Tax Return (SPT Tahunan PPh Badan). These tax strategies are reviewed annually by the Finance Director. Bank Mandiri Taspen's approach to taxation is founded on compliance with all applicable tax laws and regulations. The payment of taxes reflects Bank Mandiri Taspen's commitment to supporting the optimization of state revenue and the sustainability of national development.

Analisis Kualitatif Qualitative Analysis

Pada kerangka risiko kredit dilihat dari potensi risiko yang dapat terjadi dikemudian hari jika terjadi default, sedangkan surat berharga pada risiko pasar dilihat dari surat berharga trading yang dihitung berdasarkan risiko suku bunga dan risiko spesifik.

Within the credit risk framework, the assessment focuses on potential risks that may arise in the future in the event of default, whereas securities under market risk are assessed based on trading securities, which are measured in relation to interest rate risk and specific risk.

a. Perbedaan antara nilai tercatat dalam Publikasi Laporan Keuangan dan nilai tercatat dalam prinsip kehati-hatian a. Differences between carrying amounts in the Published Financial Statements and carrying amounts under prudential principles	
Tidak terdapat perbedaan antara nilai tercatat dalam Publikasi Laporan Keuangan dan nilai tercatat menurut prinsip kehati-hatian pada Bank Mandiri Taspen.	There are no differences between the carrying amounts presented in the Published Financial Statements and the carrying amounts under prudential principles at Bank Mandiri Taspen.
b. Metodologi valuasi, deskripsi proses verifikasi harga independen, dan prosedur untuk penyesuaian valuasi atau reserves b. Valuation methodology, description of independent price verification processes, and procedures for valuation adjustments or reserves	
Valuasi merupakan salah satu bentuk pengukuran risiko yang dilakukan Bank dalam pengelolaan risiko pasar. Adapun proses valuasi dilakukan terhadap seluruh instrument trading book atau instrument keuangan dengan klasifikasi diukur pada nilai wajar melalui laporan laba-rugi (<i>fair value through profit or loss</i>) termasuk efek-efek yang dimiliki Bank dengan klasifikasi diukur pada nilai wajar melalui penghasilan komprehensif lain (<i>fair value through other comprehensive income</i>). Metodologi valuasi dilakukan dengan dua metode yaitu Mark to Market (MtM) dan Mark to Model. - Mark to Market (MtM) dilakukan berdasarkan nilai wajar yang diperoleh dari pasar sekunder untuk surat berharga yang likuid. - Mark to Model dilakukan jika informasi harga pasar dari aset keuangan tidak terdapat >10 Hari kerja berturut-turut, adapun metode yang digunakan yaitu menggunakan metode <i>discounted cashflow</i>. Verifikasi proses valuasi dilakukan untuk memastikan kewajaran dan keakuratan atas sumber harga pasar yang digunakan. Metode verifikasi yang digunakan yaitu dengan metode <i>sampling</i> untuk setiap jenis instrumen dan tidak harus dilakukan dengan waktu yang sama, verifikasi dilakukan minimal 1 (satu) bulan sekali.	Valuation constitutes one of the risk measurement approaches undertaken by the Bank in managing market risk. The valuation process is applied to all trading book instruments or financial instruments classified as measured at fair value through profit or loss (FVTPL), including securities held by the Bank classified as measured at fair value through other comprehensive income (FVOCI). The valuation methodology is conducted using two approaches, namely Mark to Market (MtM) and Mark to Model. - Mark to Market (MtM) is performed based on fair value derived from the secondary market for liquid securities. - Mark to Model is applied when market price information for financial assets is unavailable for more than 10 consecutive working days, whereby the method used is the discounted cash flow approach. The valuation verification process is carried out to ensure the reasonableness and accuracy of the market price sources used. The verification method applied is a sampling approach for each type of instrument and does not need to be conducted simultaneously, with verification performed at least once a month.

Analisis Kualitatif Qualitative Analysis	
Sesuai dengan ketentuan Otoritas Jasa Keuangan (OJK), struktur permodalan Bank Mandiri Taspen terdiri dari Modal Inti (Tier 1) dan Modal Pelengkap (Tier 2). Modal Inti (Tier 1) Modal Inti (Tier 1) Bank terdiri dari Modal Inti Utama (Common Equity Tier/CET 1) dan Modal Inti Tambahan (Additional Tier 1). Modal inti utama mencakup modal disetor, cadangan tambahan modal (disclosure reserve), dan faktor pengurang modal inti utama. Cadangan tambahan modal terdiri atas faktor penambah (pendapatan komprehensif lainnya dan cadangan tambahan modal lainnya) dan faktor pengurang (pendapatan komprehensif lainnya dan cadangan tambahan modal lainnya). Modal inti (tier 1) posisi 31 Desember 2025 yaitu sebesar Rp9.164 Miliar. Modal Pelengkap (Tier 2) Modal Pelengkap (Tier 2) Bank meliputi Cadangan umum PPA atas aset produktif yang wajib dibentuk (paling tinggi 1,25% dari ATMR risiko kredit). Modal pelengkap (Tier 2) posisi 31 Desember 2025 yaitu sebesar Rp362.5 Miliar. Kecukupan Permodalan Bank telah melakukan pengelolaan modal sesuai dengan regulasi OJK (Basel II dan Basel III) dalam rangka memastikan bahwa Bank dapat menjaga kecukupan modalnya untuk mengatasi risiko-risiko utama pada kegiatan perbankan, yaitu Risiko Kredit, Risiko Pasar dan Risiko Operasional, dengan tetap memberikan return bagi stakeholder. Untuk perhitungan kecukupan modal dengan memperhitungkan risiko kredit dan risiko pasar, Bank menggunakan Pendekatan Standar Basel II (Standardized Approach). Untuk risiko operasional, Bank mengacu kepada Pendekatan Standar (Standardized Approach). Bank memiliki tingkat permodalan yang memadai dengan rasio kecukupan modal (Capital Adequacy Ratio/CAR) sebesar 30,47% dan di atas persyaratan minimum sesuai profil risiko yang ditetapkan oleh regulator, sehingga memadai untuk mendukung rencana bisnis Bank yang diimbangi dengan upaya dalam mengantisipasi seluruh risiko yang dihadapi. Selain perhitungan tersebut, Bank juga memperhitungkan kecukupan permodalan dengan mengacu kepada Pilar 2 Basel II atau yang lebih dikenal dengan pendekatan Internal Capital Adequacy Assessment Process (ICAAP). Sesuai dengan peringkat profil risiko, Bank berada pada peringkat 2 (Low to Moderate), maka perhitungan ICAAP Bank adalah 12% atau sesuai dengan ketentuan regulator.	"In accordance with the provisions of the Financial Services Authority (OJK), Bank Mandiri Taspen's capital structure consists of Tier 1 Capital and Tier 2 Capital. Tier 1 Capital Tier 1 Capital comprises Common Equity Tier 1 (CET1) and Additional Tier 1 (AT1). CET1 includes paid-in capital, disclosure reserves, and regulatory deductions from Tier 1 capital. Disclosure reserves consist of additions (other comprehensive income and other additional capital reserves) and deductions (other comprehensive income and other additional capital reserves). As at 31 December 2025, Tier 1 Capital amounted to IDR9,164 billion. Tier 2 Capital Tier 2 Capital includes general allowance for impairment losses on productive assets required to be maintained (capped at 1.25% of credit risk-weighted assets). As at 31 December 2025, Tier 2 Capital amounted to IDR362.5 billion. Capital Adequacy The Bank has managed its capital in accordance with OJK regulations (Basel II and Basel III) to ensure adequate capital levels to absorb key risks in banking activities, namely credit risk, market risk, and operational risk, while continuing to provide returns to stakeholders. For capital adequacy calculations incorporating credit and market risks, the Bank applied the Basel II Standardized Approach. For operational risk, the Bank used the Standardized Approach. The Bank maintained a strong capital position with a Capital Adequacy Ratio (CAR) of 30.47%, which was above the minimum regulatory requirement based on its risk profile. This provided sufficient support for the Bank's business plan while ensuring appropriate risk mitigation across all exposures. In addition, the Bank also assessed capital adequacy under Basel II Pillar 2 through the Internal Capital Adequacy Assessment Process (ICAAP). Based on its risk profile rating of 2 (Low to Moderate), the Bank's ICAAP requirement was set at 12%, in accordance with regulatory provisions."

b. Pendekatan yang Digunakan Bank Dalam Menilai Kecukupan Modal Approach Used by the Bank in Assessing Capital Adequacy	
Permodalan Bank telah mengacu kepada Ketentuan Otoritas Jasa Keuangan (OJK), yaitu: a. Pilar 1 (satu), dalam melakukan perhitungan kecukupan modal untuk risiko kredit, risiko pasar dan risiko operasional. b. Pilar 2 (dua) Basel II atau lebih dikenal dengan pendekatan <i>Internal Capital Adequacy Assessment Process</i> (ICAAP). Bank menerapkan proses perhitungan kecukupan modal secara internal atau <i>Internal Capital Adequacy Assessment Process</i> (ICAAP) dalam rangka memenuhi kewajiban penyediaan modal minimum (KPMM) sesuai profil risiko dan untuk menetapkan strategi dalam memelihara tingkat permodalan Dalam menghitung kecukupan modal, Bank menggunakan pendekatan Standar Basel II (<i>Standardized Approach</i>) untuk risiko kredit dan telah memasukkan komponen External Rating. Mulai posisi Januari 2023, sesuai SEOJK No.24/SEOJK.3/2021 KPMM risiko kredit akan dihitung menggunakan Pendekatan Standar berdasarkan dokumen Basel III: Finalising Post-Crisis Reforms, dan telah dilakukan Uji Coba sejak posisi Desember 2021. Untuk risiko operasional, sampai dengan posisi Desember 2024 Bank mengacu kepada pendekatan Indikator Dasar Basel II (<i>Basic Indicator Approach</i>) berdasarkan SEOJK No.24/SEOJK.03/2016. Selain itu, Bank juga telah melakukan Uji Coba perhitungan beban modal risiko operasional dengan menggunakan <i>Standardized Approach</i> (SA) sesuai ketentuan SEOJK No. 06/SEOJK.03/2020 perihal Perhitungan Aset Tertimbang Menurut Risiko (ATMR) untuk Risiko Operasional dengan menggunakan Pendekatan Standar yang akan mulai berlaku mulai berlaku efektif di Januari 2023. Sedangkan untuk risiko pasar, sampai dengan posisi Desember 2025 perhitungan ATMR Risiko Pasar Bank sesuai dengan standar baru Basel III Reforms yang didasarkan pada <i>Fundamental Review of the Trading Book</i> (FRTB) yang diatur dalam SEOJK Nomor 23/SEOJK.03/2022 Tentang Perhitungan Aset Tertimbang Menurut Risiko Untuk Risiko Pasar Bagi Bank Umum (SEOJK ATMR Risiko Pasar) dengan menggunakan pendekatan standar (<i>standardized approach</i>). Bank pertama kali melakukan perhitungan ATMR Risiko Pasar pada periode Maret 2025.	The Bank's capital management has been conducted in accordance with Financial Services Authority (OJK) regulations, namely: a. Pillar 1, in calculating capital adequacy for credit risk, market risk, and operational risk. b. Basel II Pillar 2, also known as the <i>Internal Capital Adequacy Assessment Process</i> (ICAAP). The Bank implemented an internal capital adequacy assessment process (ICAAP) to comply with the Minimum Capital Adequacy Requirement (KPMM) based on its risk profile and to establish strategies for maintaining capital levels. In calculating capital adequacy, the Bank applied the Basel II <i>Standardized Approach</i> for credit risk and incorporated external ratings. Starting from January 2023, in accordance with SEOJK No. 24/SEOJK.3/2021, the capital adequacy requirement for credit risk has been calculated using the <i>Standardized Approach</i> based on the Basel III: Finalising Post-Crisis Reforms framework, with parallel testing conducted since December 2021. For operational risk, up to December 2024, the Bank applied the Basel II <i>Basic Indicator Approach</i> in accordance with SEOJK No. 24/SEOJK.03/2016. In addition, the Bank has conducted parallel testing for operational risk capital charges using the <i>Standardized Approach</i> (SA) in accordance with SEOJK No. 06/SEOJK.03/2020 concerning Risk-Weighted Assets (RWA) for Operational Risk using the <i>Standardized Approach</i>, which became effective in January 2023. For market risk, up to December 2025, the Bank calculated Market Risk-Weighted Assets (RWA) based on the new Basel III reforms under the <i>Fundamental Review of the Trading Book</i> (FRTB), as regulated under SEOJK No. 23/SEOJK.03/2022 concerning the Calculation of Risk-Weighted Assets for Market Risk for Commercial Banks using the <i>Standardized Approach</i>. The Bank first implemented market risk RWA calculations in March 2025.

Risk Management – Bank Risk Management Approach (OVA)

Tabel Pengungkapan Pendekatan Manajemen Risiko Bank (OVA)
Table of Disclosure on the Bank Risk Management Approach (OVA)

a. Model Bisnis dan Interaksi dengan Profil Risiko Business Model and Interaction with Risk Profile	
Bank Mandiri Taspen melakukan evaluasi atas penerapan manajemen risiko dalam setiap aktivitas bisnis Bank secara berkala yang mencakup penilaian/evaluasi untuk setiap jenis risiko yang bertujuan untuk memberikan gambaran profil risiko secara menyeluruh dan berkelanjutan. Model bisnis Bank tercermin dalam profil risiko melalui pengukuran/evaluasi atas parameter-parameter profil risiko. Penilaian terhadap profil risiko bertujuan untuk mendeteksi permasalahan secara lebih dini, melakukan tindak lanjut perbaikan yang sesuai dan lebih cepat, serta melakukan perbaikan dalam praktik tata kelola dan manajemen risiko, sehingga Bank dapat mengelola risiko dengan lebih baik dan memiliki ketahanan yang lebih kuat dalam menghadapi krisis. Dalam menetapkan kecukupan modal sesuai dengan profil risiko dan menetapkan strategi untuk memelihara tingkat permodalan, bank menerapkan Internal Capital Adequacy Assessment Process (ICAAP). Perhitungan modal yang disediakan oleh Bank dilakukan secara internal untuk kemudian hasil perhitungan modal tersebut dilaporkan kepada regulator.	Bank Mandiri Taspen periodically evaluates the implementation of risk management across all business activities of the Bank, covering assessments for each type of risk, with the objective of providing a comprehensive and continuous overview of the Bank's risk profile. The Bank's business model is reflected in its risk profile through the measurement and evaluation of risk profile parameters. The assessment of the risk profile aims to enable early detection of issues, facilitate timely and appropriate corrective actions, and enhance governance and risk management practices, thereby enabling the Bank to manage risks more effectively and strengthen its resilience in facing crises. In determining capital adequacy in accordance with its risk profile and establishing strategies to maintain capital levels, the Bank applies the Internal Capital Adequacy Assessment Process (ICAAP). Capital calculation is performed internally by the Bank, and the results of such calculations are subsequently reported to the regulator.
b. Struktur Tata Kelola Risiko Risk Governance Structure	
Struktur tata kelola manajemen risiko di Bank Mandiri Taspen terdiri dari Dewan Komisaris yang menjalankan fungsi pengawasan risiko melalui Komite Audit dan Komite Pemantau Risiko, serta Direksi yang menjalankan fungsi kebijakan risiko melalui komite terkait manajemen risiko yaitu Komite Manajemen Risiko, Komite Kebijakan Perkreditan dan Asset and Liabilities Committee. Di tingkat operasional, Satuan Kerja Manajemen Risiko bersama Unit Bisnis dan Unit Kerja Kepatuhan melakukan fungsi identifikasi risiko, pengukuran risiko, mitigasi risiko serta pengendalian risiko. Bank Mandiri Taspen menerapkan konsep <i>Three Lines of Defense</i> (TLD) dalam Sistem Pengendalian Intern. Penerapan TLD membedakan antara fungsi-fungsi pemilik risiko (<i>risk owner</i>) sebagai <i>first line of defence</i> terhadap fungsi-fungsi yang menangani risiko (<i>managing risks</i>), dan antara fungsi-fungsi yang monitor spesifik risiko (misal: ketidakpatuhan terhadap eksternal regulator) sebagai <i>second line of defence</i> dengan fungsi-fungsi yang menyediakan <i>independent assurance</i> sebagai <i>third line of defence</i>. 1. Lini Pertahanan Pertama (<i>First Line of Defense</i>) Unit Bisnis/Operasional yang merupakan UPPR sebagai lini pertama yang bertanggung jawab dalam melaksanakan tindakan preventif atau control yang telah diatur dalam ketentuan untuk memitigasi terjadinya risiko. 2. Lini Pertahanan Kedua (<i>Second Line of Defense</i>) Bertanggung jawab dan memiliki fungsi Manajemen Risiko dan Compliance (<i>Risk Oversight</i>) untuk membantu dan/atau memantau pengendalian. Fungsi pengawasan dan pengendalian dilaksanakan oleh Risk Management, Compliance dan Risk Business Control (RBC) 3. Lini Pertahanan Ketiga (<i>Third Line of Defense</i>) Befungsi untuk memberikan penilaian secara independen atas kecukupan <i>internal control</i> serta memastikan <i>First Line of Defense</i> dan <i>Second Line of Defense</i> telah menjalankan fungsinya dengan baik. Untuk menjaga independensi, Internal Audit bertanggungjawab langsung kepada Direktur Utama dan dapat berkomunikasi dengan Dewan Komisaris melalui Komite Audit	The risk governance structure of Bank Mandiri Taspen consists of the Board of Commissioners, which performs oversight functions through the Audit Committee and the Risk Monitoring Committee, and the Board of Directors, which implements risk policies through relevant committees, namely the Risk Management Committee, Credit Policy Committee, and Asset and Liability Committee (ALCO). At the operational level, the Risk Management Work Unit, together with Business Units and the Compliance Unit, performs risk identification, risk measurement, risk mitigation, and risk control functions. Bank Mandiri Taspen applies the <i>Three Lines of Defense</i> (TLD) concept in its internal control system. The implementation of TLD distinguishes between risk owners as the first line of defense and risk management functions, and between functions that monitor specific risks (e.g., non-compliance with external regulations) as the second line of defense and functions that provide independent assurance as the third line of defense. 1. First Line of Defense Business/Operational Units, which act as the Risk Taking Units (UPPR), serve as the first line of defense and are responsible for implementing preventive actions or controls as stipulated in relevant policies to mitigate risk occurrence. 2. Second Line of Defense Responsible for risk management and compliance (risk oversight) functions to support and/or monitor controls. The oversight and control functions are carried out by Risk Management, Compliance, and Risk Business Control (RBC). 3. Third Line of Defense Responsible for providing independent assurance on the adequacy of internal controls and ensuring that both the first and second lines of defense have performed their functions effectively. To maintain independence, Internal Audit reports directly to the President Director and may communicate with the Board of Commissioners through the Audit Committee.

The Company's website; 2. Administrator email distributed to all employees; 3. Signing of the collective labor agreement between employees and management; and 4. Standing banners, flyers, and other advertising media within office premises. In addition, employees may report suspected violations of the Code of Conduct to their supervisors through the whistleblowing mechanism known as Letter to CEO (LTC). Any action proven through investigation to constitute a violation of the Code of Conduct shall be subject to sanctions in accordance with applicable regulations. The implementation and enforcement of the Code of Conduct at Bank Mandiri Taspen are carried out continuously and with full awareness, in the form of commitment, attitude, and behavior, including through the following measures: 1. Annual Disclosure Statement All Bank employees are required to sign the Annual Employee Statement in triplicate, one of which is duly stamped. 2. Electronic Employee Declaration Form Employees may submit their employee statements electronically. 3. Integrity Pact A statement signed by the Head of Work Unit containing a pledge to prevent and not engage in acts that violate applicable laws and regulations, and a commitment to perform duties and responsibilities in line with the organization's values.
d. Ruang Lingkup dan Fitur Utama Sistem Pengukuran Risiko Scope and Key Features of the Risk Measurement System	
Bank Mandiri Taspen secara berkelanjutan menerapkan pengukuran risiko yang mengacu kepada <i>international best practices</i> dengan menggunakan pendekatan permodelan kuantitatif maupun kualitatif melalui pengembangan model risiko seperti <i>rating</i>, <i>scoring</i>, <i>Value at Risk (VaR)</i>, <i>portfolio management</i>, <i>stress testing</i> dan model lainnya sebagai pendukung <i>judgemental decision making</i>. Secara periodik, model-model risiko tersebut mengikuti <i>lifecycle</i> model sejalan dengan penerapan Model Risk Management dan divalidasi oleh unit Model Validator yang bersifat independen untuk menjaga keandalan dan validitas model serta memenuhi persyaratan regulasi. Dalam rangka penyesuaian antara penerapan Basel II, III dan Enterprise Risk Management (ERM), Bank Mandiri Taspen terus melaksanakan Implementasi Basel dengan acuan regulasi Otoritas Jasa Keuangan dan BCBS (Basel Committee on Banking Supervision) maupun <i>best practices</i>, yang meliputi area di Risiko Kredit, Risiko Pasar, Risiko Likuiditas, Risiko Suku Bunga pada Banking Book Position, Risiko Operasional, Pengelolaan Modal dan Internal Capital Adequacy Assessment Process (ICAAP), serta Stress Testing dan Recovery Plan.	Bank Mandiri Taspen continuously applies risk measurement practices aligned with international best practices, using both quantitative and qualitative modeling approaches. These include the development of risk models such as rating, scoring, Value at Risk (VaR), portfolio management, stress testing, and other models supporting judgment-based decision making. On a periodic basis, these risk models follow a defined lifecycle in line with the implementation of Model Risk Management and are independently validated by a Model Validation unit to ensure reliability, validity, and compliance with regulatory requirements. In order to align Basel II, Basel III, and Enterprise Risk Management (ERM) implementation, Bank Mandiri Taspen continuously implements Basel-aligned practices based on regulations issued by the Financial Services Authority (OJK) and the Basel Committee on Banking Supervision (BCBS), as well as best practices. These cover credit risk, market risk, liquidity risk, interest rate risk in the banking book, operational risk, capital management, Internal Capital Adequacy Assessment Process (ICAAP), stress testing, and recovery planning.

e. Proses Pelaporan Informasi Risiko yang Diberikan Kepada Dewan Komisaris dan Direksi
Risk Reporting Process Provided to the Board of Commissioners and Board of Directors

Pelaporan informasi risiko disampaikan kepada Dewan komisaris dan Direksi melalui komite yang ada di bawah supervisi Dewan Komisaris dan Direksi. Untuk komite di bawah supervise Dewan Komisaris yang memiliki tugas dan tanggung jawab melakukan kajian dan evaluasi atas kebijakan dan pelaksanaan manajemen risiko bank, serta memberikan masukan dan rekomendasi kepada Dewan Komisaris dalam rangka melaksanakan fungsi pengawasan adalah Komite Pemantau Risiko dan Komite Audit.

Dari 5 (lima) komite yang berada di bawah supervisi Direksi, terdapat 3 (tiga) komite yang berkaitan langsung dengan pengelolaan manajemen risiko yaitu Komite Manajemen Risiko (KMR), Komite Kebijakan Perkreditan (KKP) dan Asset & Liabilities Committee (ALCO).

Risk information reporting is submitted to the Board of Commissioners and the Board of Directors through committees established under their respective supervision. For committees under the supervision of the Board of Commissioners, which are responsible for reviewing and evaluating the Bank's risk management policies and implementation, and providing input and recommendations to support the supervisory function, these include the Risk Monitoring Committee and the Audit Committee.

Out of the five committees under the supervision of the Board of Directors, three committees are directly related to risk management, namely the Risk Management Committee (RMC), Credit Policy Committee (CPC), and Asset and Liability Committee (ALCO).

f. Stress Test

Untuk mengukur tingkat ketahanan Bank Mandiri Taspen dalam menghadapi suatu scenario kejadian eksternal yang ekstrim (exceptional) tetapi mungkin terjadi (plausible), Bank Mandiri Taspen melakukan stress testing sebagai dasar pengambilan keputusan dan penyusunan contingency plan serta sebagai pemenuhan atas ketentuan regulasi yang berlaku di Indonesia. Bagi Bank Mandiri Taspen, stress testing bertujuan untuk mengestimasi besarnya potensi kerugian yang dapat terjadi, ketahanan modal Bank dalam menyerap kerugian, kecukupan likuiditas untuk memenuhi kewajiban kontraktual maupun behavioral Bank, serta mengidentifikasi langkah-langkah yang harus dilakukan untuk memitigasi risiko dan menjadi ketahanan modal.

Terdapat beberapa jenis stress testing yang dilakukan di Bank Mandiri Taspen berdasarkan jenis risikonya, diantaranya:

1. Stress Testing Risiko Kredit

Model Stress Testing dibuat dengan mempertimbangkan faktor risiko yang mempengaruhi tingkat NPL pada seluruh portfolio kredit. Dalam perhitungan Stress Testing risiko kredit.

2. Stress Testing Risiko Likuiditas

Perhitungan Stress Testing Likuiditas diukur mengikuti Flow Based (Liquidity Gap Analysis). Liquidity gap merupakan metodologi untuk memproyeksikan arus kas masuk dan arus kas keluar di masa mendatang. Hasil pengukuran liquidity gap menunjukkan kondisi likuiditas Bank yaitu surplus likuiditas (positive liquidity gap) atau defisit likuiditas (negative liquidity gap). Proyeksi kondisi likuiditas tersebut akan menentukan strategi yang akan dilaksanakan oleh Bank, seperti strategi penempatan dana, strategi pendanaan dan strategi terkait likuiditas seperti strategi pricing dana.

3. Stress Testing Risiko Pasar

Adapun lingkup perhitungan stress testing risiko pasar yang diukur sebagai berikut:

a. Sensitivity Analysis

Sensitivity Analysis dalam hal ini atas portofolio surat berharga merupakan metode yang digunakan untuk mengetahui harga dari suatu instrument keuangan atas perubahan faktor pasar. Adapun contoh perubahan faktor pasar yang dapat dipertimbangkan antara lain BI7DRR, Market Yield Government Bonds, JIBOR ataupun faktor lain yang dapat mempengaruhi nilai valuasi dari portofolio surat berharga kategori FVTOCI (Fair Value Through Other Comprehensive Income), dimana setiap perubahan nilai valuasi surat berharga dapat mempengaruhi nilai comprehensive income yang secara langsung mempengaruhi aspek permodalan Bank.

b. Stress Testing EVE

Metode EVE merupakan salah satu metode dalam perhitungan IRRBB (Interest Rate Risk in the Banking Book). Adapun dalam melakukan pengukuran Risiko IRRBB, Bank menggunakan 2 (Dua) metode yaitu EVE dan NII sensitivity. Bank menghitung stress testing IRRBB hanya untuk metode EVE, dimana stress testing EVE untuk menghitung potensi risiko kerugian yang dapat mempengaruhi mode Bank yang diakibatkan dari perubahan faktor pasar seperti perubahan suku bunga pasar, Market Yield Government Bonds, JIBOR ataupun faktor lain yang dapat mempengaruhi portofolio Bank.

To assess Bank Mandiri Taspen's resilience in facing extreme (exceptional) but plausible external scenarios, the Bank conducts stress testing as a basis for decision-making and contingency planning, as well as to comply with applicable regulatory requirements in Indonesia. For Bank Mandiri Taspen, stress testing aims to estimate potential losses, assess the Bank's capital adequacy in absorbing losses, evaluate liquidity sufficiency to meet contractual and behavioral obligations, and identify mitigation actions to strengthen capital resilience.

Several types of stress testing are conducted at Bank Mandiri Taspen based on risk categories, including:

1. Credit Risk Stress Testin

The stress testing model is developed by considering risk factors affecting the Non-Performing Loan (NPL) level across the entire credit portfolio.

2. Liquidity Risk Stress Testing

Liquidity stress testing is measured using a flow-based approach (Liquidity Gap Analysis). Liquidity gap analysis is a methodology used to project future cash inflows and outflows. The results indicate whether the Bank is in a liquidity surplus (positive liquidity gap) or liquidity deficit (negative liquidity gap). These projections determine the Bank's strategies, including funding placement strategies, funding strategies, and liquidity pricing strategies.

3. Market Risk Stress Testing

The scope of market risk stress testing includes:

a. Sensitivity Analysis

Sensitivity analysis for the securities portfolio is used to assess changes in financial instrument prices due to changes in market factors. These factors include BI7DRR, government bond market yields, JIBOR, or other variables affecting the valuation of securities classified as Fair Value Through Other Comprehensive Income (FVOCI). Changes in valuation directly affect other comprehensive income and subsequently impact the Bank's capital position.

b. EVE Stress Testing

The Economic Value of Equity (EVE) method is one of the approaches used in Interest Rate Risk in the Banking Book (IRRBB). The Bank applies two IRRBB measurement methods, namely EVE and Net Interest Income (NII) sensitivity. However, stress testing is conducted only for the EVE method, which estimates potential losses affecting the Bank's capital due to changes in market factors such as interest rates, government bond yields, JIBOR, and other variables impacting the Bank's portfolio.

4. Stress Testing Terintegrasi

Integrasi dari stress testing risiko kredit, pasar, likuiditas berdampak financial terhadap Bank. Pada integritas stress testing digunakan satu jenis skenario yang diaplikasikan pada risiko-risiko utama (kredit, pasar, likuiditas) untuk melihat dampak risikonya serta dihitung dampak atas profitabilitas yang ditimbulkan. Skenario yang digunakan dapat bersumber dari skenario idiosyncratic, market wide shock atau kombinasi keduanya. Terkait mekanisme implementasi skenario pada masing-masing risiko sesuai dengan yang dijelaskan pada poin di atas. Setelah diperoleh dampak risiko, dilakukan perhitungan dampak yang ditimbulkan pada neraca, profit & loss ataupun rasio keuangan lainnya.

4. Integrated Stress Testing

Integrated stress testing combines credit, market, and liquidity risk stress testing to assess the overall financial impact on the Bank. A single scenario is applied across key risk types (credit, market, liquidity) to evaluate risk impacts and their effect on profitability. Scenarios may originate from idiosyncratic events, market-wide shocks, or a combination of both. The implementation of scenarios follows the methodologies described above for each risk type. The resulting risk impacts are then translated into effects on the balance sheet, profit and loss, and other financial ratios.

g. Strategi dan Proses Untuk Mengatur, Melindungi Nilai dan Memitigasi Risiko yang Muncul dari Model Bisnis Bank Strategies and Processes to Manage, Protect Value, and Mitigate Risks Arising from the Bank's Business Model

Strategi pengelolaan risiko pasar dan risiko likuiditas dilakukan melalui tahapan identifikasi, pengukuran, pemantauan dan pengendalian risiko. Strategi lindung nilai atas portofolio Bank yang menimbulkan potensi kerugian dilakukan dengan mempertimbangkan risk appetite, analisa data historis, strategi dan kebutuhan bisnis, serta proyeksi pergerakan faktor pasar di masa yang akan datang.

Dalam hal mitigasi risiko, Bank menetapkan limit yang mengacu pada Risk Appetite Statement (RAS), ketentuan internal dan ketentuan perundang-undangan yang berlaku. Pemantauan atas eksposur risiko pasar banking book dilakukan secara periodik oleh Divisi Risk Management (Departement Market, Liquidity & Data Analytics) yang meliputi antara lain utilisasi limit risiko pasar, sensitivity analysis, dan stress test secara berkala. Untuk risiko likuiditas, Bank menyusun dan melakukan review berkala terhadap Contingency Funding Plan (CFP) dan Recovery Plan yang mengatur tentang prosedur perusahaan dalam menghadapi kondisi likuiditas yang memburuk.

Market risk and liquidity risk management strategies are carried out through the stages of risk identification, measurement, monitoring, and control. Hedging strategies for the Bank's portfolios that potentially generate losses are implemented by taking into consideration the risk appetite, historical data analysis, business strategy and requirements, as well as projections of future market factor movements.

In terms of risk mitigation, the Bank establishes limits based on the Risk Appetite Statement (RAS), internal policies, and applicable laws and regulations. Monitoring of market risk exposures in the banking book is conducted periodically by the Risk Management Division (Market, Liquidity & Data Analytics Department), which includes, among others, monitoring of market risk limit utilization, sensitivity analysis, and periodic stress testing. For liquidity risk, the Bank prepares and periodically reviews the Contingency Funding Plan (CFP) and Recovery Plan, which set out the procedures to be implemented by the Bank in dealing with deteriorating liquidity conditions.

Risiko Kredit

Credit Risk

Risiko kredit merupakan risiko yang terjadi akibat kegagalan debitur dan/atau pihak lain dalam memenuhi kewajibannya kepada Bank. Dalam rangka mengelola risiko dimaksud, Bank melakukan pengukuran terhadap risiko kredit atas portofolio yang ada secara kuantitatif maupun kualitatif, guna meminimalkan potensi kerugian akibat tidak terpenuhinya kewajiban pembayaran kredit, baik pada level debitur individual maupun pada level portofolio secara keseluruhan.

Credit risk is the risk arising from the failure of debtors and/or other counterparties to fulfill their obligations to the Bank. In managing such risk, the Bank performs both quantitative and qualitative assessments of credit risk across its existing portfolio, in order to minimize potential losses resulting from non-fulfillment of credit repayment obligations, both at the individual debtor level and at the overall portfolio level.

Analisis Kualitatif Qualitative Analysis	
1.	Model bisnis Bank Mandiri Taspen tercermin dalam komponen profil Risiko Kredit Bank. Saat ini Bank Mandiri Taspen memiliki portofolio pada Kredit serta Surat Berharga. Dari sisi kredit, Bank saat ini fokus pada bisnis pensiun. Selanjutnya pada portofolio Surat Berharga, Bank memiliki Surat Berharga Negara (SBN) yang memiliki risiko sangat rendah (<i>risk free</i>). Berdasarkan segmen kredit, Bank fokus pada bisnis pensiun dimana komposisi segmen pensiun terhadap total kredit sebesar 98.61%. Berdasarkan portofolionya, sebagian besar portofolio Bank juga pada Kredit Pensiun & Pegawai sebesar 98.32%. Selanjutnya berdasarkan sektor ekonomi, sebesar 24.12% kredit Bank merupakan kredit dengan sektor ekonomi Rumah Tangga. Kualitas portofolio yang dimiliki Bank sangat baik. Hal ini ditunjukkan dengan besarnya NPL yang terjaga di angka 0.63% dan LAR di angka 1.12%. Bank memiliki beberapa strategi yang dilakukan sebagai bentuk mitigasi risiko antara lain: - Bank telah melakukan <i>monitoring</i> secara harian, mingguan, maupun bulanan atas portofolio kredit Bank yang disampaikan kepada Manajemen. - Bank secara rutin telah melakukan evaluasi atas profil debitur meninggal dunia sebagai acuan dalam melakukan evaluasi terhadap Risk Acceptance Criteria (RAC) produk perkreditan. - Bank secara berkala melakukan evaluasi atas parameter verifikasi Kesehatan tersebut agar semakin sensitif dalam melakukan seleksi nasabah. - Bank melakukan evaluasi pembentukan CKPN secara berkala, selanjutnya membentuk tambahan pencadangan risiko yang cukup untuk meng-cover portofolio yang berpotensi risiko tinggi. - Bank telah menetapkan <i>Trigger Level</i> terkait kualitas aset pada risiko kredit. - Bank melakukan rekonsiliasi premi harian untuk memastikan data penutupan pertanggungan sesuai antara bank dengan asuransi. Rekonsiliasi data klaim dilakukan secara bulanan disertai Berita Acara (BA), selanjutnya Bank mengirimkan surat tagihan sesuai hasil rekonsiliasi kepada asuradur untuk memastikan seluruh klaim yang diajukan bank dapat dibayarkan. - Bank telah menambah rekanan asuransi jiwa baru sebagai strategi agar penutupan asuransi tidak terkonsentrasi. - Bank melakukan evaluasi atas kinerja keuangan asuradur secara semesteran melalui Tim Akreditasi Rekanan (TAR), untuk memastikan kesehatan keuangan asuradur dapat meng-cover risiko Bank. - Bank juga melakukan <i>Benchmark</i> dengan Perusahaan Induk terkait evaluasi atas kinerja asuransi rekanan untuk mendorong percepatan penyelesaian klaim asuransi.

Analisis Kualitatif Qualitative Analysis

2. Bank menetapkan Kebijakan Manajemen Risiko yang mencakup kegiatan identifikasi risiko, pengukuran risiko, pemantauan risiko dan pengendalian risiko. Pengelolaan Risiko Kredit secara umum diterapkan pada tingkat transaksional maupun tingkat portofolio sebagai berikut: A. Pengelolaan Risiko Kredit pada Tingkat Transaksional Salah satu penerapan kebijakan manajemen risiko diterapkan saat pelaksanaan proses akuisisi kredit, yaitu implementasi <i>four-eyes principle</i>. Penerapan prinsip tersebut adalah bahwa setiap proses pengambilan keputusan kredit melibatkan <i>business unit</i> dan <i>risk management unit</i> secara independen untuk memperoleh keputusan yang obyektif, pada tahapan ini <i>business unit</i> dan <i>risk management unit</i> melakukan proses identifikasi risiko kredit untuk setiap <i>credit account</i> yang dikelola. Mekanisme pengambilan keputusan kredit dilakukan melalui Rapat Komite Kredit (Credit Committee) menggunakan Nota Analisa Kredit (NAK) oleh pejabat Pemegang Kewenangan Memutus Kredit dari <i>business unit</i> dan <i>risk approval</i> yang memiliki kompetensi, kemampuan dan integritas. Bank juga mengimplementasikan <i>application scoring</i> pada tools <i>Loan Origination System (LOS)</i> untuk melakukan akuisisi kredit segmen mikro dan pensiunan. Bank secara periodik melakukan review terhadap ketentuan kredit & produk, menyusun <i>Risk Acceptance Criteria (RAC)</i> dan melakukan analisis risiko dari seluruh produk Bank. Selanjutnya untuk meningkatkan kompetensi SDM para pejabat Pemegang Kewenangan Memutus Kredit, maka Bank dari sisi <i>people development</i> melakukan <i>assesment & training</i> dimana setiap pemilik limit kewenangan (pemutus kredit) harus melalui serangkaian proses yang telah dirancang untuk memperoleh kewenangan memutus kredit. Proses tersebut dimulai dengan uji kompetensi, selanjutnya melakukan review terhadap pemutus kredit dimana setiap pemutus kredit secara periodik akan di-review untuk mengetahui kualitas debitur yang sudah diberikan kredit. Hasil review tersebut juga akan menjadi dasar kenaikan limit kewenangan maupun pencabutan limit kewenangan memutus kredit. Dengan demikian, proses pemberian kredit menjadi lebih komprehensif dan hati-hati. B. Pengelolaan Risiko Kredit pada Tingkat Portofolio Pada tingkat portofolio dilakukan proses pemantauan portofolio kredit setelah kredit tersebut dicairkan. Monitoring portofolio dilakukan secara rutin sebagai bentuk <i>awareness</i> manajemen terhadap pengelolaan risiko kredit melalui forum <i>Risk Threshold Trigger and Action (RTTA)</i>. Dalam rangka menjaga kualitas portofolio, Bank akan menerapkan kebijakan <i>stop booking</i> untuk produk kredit yang memiliki tingkat risiko yang cenderung meningkat. Selain itu Bank menerapkan strategi <i>exit</i> dalam rangka pencegahan peningkatan NPL. Dalam rangka memenuhi ketentuan dalam Surat Edaran Otoritas Jasa Keuangan, nomor 24 /SEOJK.03/2021 tentang Perhitungan Aset Tertimbang Menurut Risiko untuk Risiko Kredit dengan Menggunakan Pendekatan Standar bagi Bank Umum, bank telah melakukan perhitungan ATMR risiko kredit dengan menggunakan pendekatan standar (<i>Standardized Approach</i>). Bank juga telah menetapkan <i>limit appetite</i> risiko kredit, dengan metode <i>survey</i> yang dilakukan berdasarkan data historis 5 tahun dituangkan dalam ketentuan internal bank yaitu Kebijakan Manajemen Risiko PT Bank Mandiri Taspen dan dimonitor secara bulanan.	The Bank has established a Risk Management Policy covering risk identification, risk measurement, risk monitoring, and risk control activities. Credit Risk management is generally applied at both transactional and portfolio levels, as follows A. Credit Risk Management at Transactional Level One of the implementations of the risk management policy is applied during the credit acquisition process through the implementation of the <i>four-eyes principle</i>. Under this principle, each credit decision-making process involves both the <i>business unit</i> and the <i>risk management unit</i> independently to ensure an objective decision. At this stage, both units conduct credit risk identification for each managed account. The credit approval mechanism is conducted through the Credit Committee Meeting (Credit Committee) based on the Credit Analysis Memorandum (CAM), executed by authorized credit approving officers from the <i>business unit</i> and <i>risk approval</i> function, who possess the required competency, capability, and integrity. The Bank also implements <i>application scoring</i> through the <i>Loan Origination System (LOS)</i> to support credit acquisition for micro and pension segments. The Bank periodically reviews credit provisions and product frameworks, develops <i>Risk Acceptance Criteria (RAC)</i>, and conducts risk analysis across all Bank products. Furthermore, to enhance the competency of credit approving officers, the Bank conducts structured assessment and training programs as part of its <i>people development</i> initiative. Each authorized credit approver must undergo a qualification process before being granted approval authority. This process begins with competency testing, followed by periodic performance reviews of credit approvers based on the quality of approved loans. The results of these reviews serve as the basis for increasing or revoking credit approval limits. Accordingly, the credit granting process is carried out in a more comprehensive and prudent manner. B. Credit Risk Management at Portfolio Level At the portfolio level, credit monitoring is conducted after loan disbursement. Portfolio monitoring is carried out regularly as part of management awareness of credit risk management through the <i>Risk Threshold Trigger and Action (RTTA)</i> forum. To maintain portfolio quality, the Bank implements a <i>stop booking</i> policy for credit products with increasing risk levels. In addition, the Bank applies an <i>exit</i> strategy to prevent the increase of non-performing loans (NPL). In compliance with Financial Services Authority (OJK) Circular Letter No. 24/SEOJK.03/2021 regarding the calculation of Risk-Weighted Assets (RWA) for credit risk using the <i>Standardized Approach</i> for Commercial Banks, the Bank has implemented RWA credit risk calculations using the <i>Standardized Approach</i>. The Bank has also established a credit risk <i>appetite</i> limit using a <i>survey-based</i> methodology derived from five years of historical data, which has been incorporated into the Bank's internal policy, namely the Risk Management Policy of PT Bank Mandiri Taspen, and is monitored on a monthly basis.

3. Pengelolaan manajemen risiko untuk Risiko Kredit diterapkan sesuai dengan Struktur Organisasi Manajemen Risiko sebagai berikut:
Credit risk management is implemented in accordance with the Risk Management Organizational Structure as follows:

Sesuai dengan struktur organisasi tersebut, saat ini Divisi Risk Management memiliki 4 (empat) Departemen yang fokus pada tugas dan tanggungjawab masing-masing, yaitu terdiri dari Departemen Credit & Portfolio Risk, Departemen Market, Liquidity Risk & Data Analytics, Departemen Operational Risk, serta Departemen IT, Produk Delivery & Fraud Risk.

Dalam pengelolaan manajemen risiko untuk Risiko Kredit juga terdapat fungsi *Procedure Review* yaitu tim yang berperan aktif sebagai *reviewer* atas ketentuan-ketentuan terkait perkreditan yang ditetapkan oleh Bank Mandiri Taspen.

Dalam rangka memperoleh gambaran risiko secara menyeluruh dan berkelanjutan, Bank Mandiri Taspen menyusun Laporan Profil Risiko yang menggambarkan risiko yang melekat dalam kegiatan bisnis bank (*inherent risk*) dan kualitas penerapan manajemen risiko (KPMR) untuk 8 (delapan) jenis risiko (risiko kredit, pasar, operasional, likuiditas, hukum, strategi, reputasi dan kepatuhan). Dalam penyusunannya melibatkan seluruh unit kerja yang tugas dan tanggungjawabnya telah diatur dalam Surat Keputusan *Group in Charge*. *Group in Charge* melakukan evaluasi atas Metode *Self Assessment* penilaian Profil Risiko, dimana hasil evaluasi tersebut akan dijadikan sebagai dasar penilaian profil risiko 1 tahun kedepan. Penetapan penilaian risiko mengacu kepada *rule rating* yang telah ditetapkan, adapun metode yang digunakan dalam penyusunan *rule rating* RBBR menggunakan analisa data historis dan *peers* (perusahaan pesaing), maupun *expert judgement* yang diyakini memberikan hasil perhitungan yang lebih detail.

Based on the organizational structure, the Risk Management Division currently consists of four (4) departments, each focusing on its respective duties and responsibilities, namely the Credit & Portfolio Risk Department, Market, Liquidity Risk & Data Analytics Department, Operational Risk Department, and IT, Product Delivery & Fraud Risk Department.

Within credit risk management, there is also a *Procedure Review* function, which serves as an active team responsible for reviewing credit-related policies and provisions established by Bank Mandiri Taspen.

In order to obtain a comprehensive and continuous risk overview, Bank Mandiri Taspen prepares a Risk Profile Report that reflects inherent risks in the Bank's business activities and the quality of risk management implementation (KPMR) across eight (8) types of risk, namely credit, market, operational, liquidity, legal, strategic, reputational, and compliance risk. The preparation of this report involves all work units whose duties and responsibilities have been defined under the *Group-in-Charge* Decree. The *Group-in-Charge* performs an evaluation of the Risk Profile *Self-Assessment* methodology, and the results of such evaluation serve as the basis for the risk profile assessment for the subsequent one-year period. The risk rating determination is based on an established rating rule, where the Risk-Based Bank Rating (RBBR) methodology incorporates historical data analysis, peer comparison (benchmarking against peer institutions), and expert judgment, which is considered to provide a more comprehensive and detailed assessment.

Analisis Kualitatif Qualitative Analysis

Bank Mandiri Taspen juga menerapkan pengelolaan manajemen risiko untuk Risiko Kredit secara menyeluruh, yang ikut melibatkan jajaran Dewan Komisaris serta Dewan Direksi dalam pelaksanaan fungsi pengawasan.

Bank Mandiri Taspen also implements comprehensive credit risk management, involving both the Board of Commissioners and the Board of Directors in the supervisory function.

4. Hubungan antara fungsi manajemen Risiko Kredit, pengendalian risiko, kepatuhan, dan audit internal tercermin dalam penerapan pendekatan *Three Lines of Defense*. Hal ini merupakan upaya dalam peningkatan efektivitas proses manajemen risiko kredit dan budaya manajemen risiko ke seluruh jajaran organisasi Bank, yang dapat dilihat pada gambar berikut:

The relationship between Credit Risk management, risk control, compliance, and internal audit functions is reflected in the implementation of the *Three Lines of Defense* approach. This serves as an effort to enhance the effectiveness of the credit risk management process and embed a risk management culture across all levels of the Bank's organization, as illustrated below:

Pengungkapan Tambahan terkait Kualitas Kredit atas Aset (CRB) Additional Disclosure Related to Credit Quality of Assets (CRB)

Analisis Kualitatif Qualitative Analysis		
1.	Bank mendefinisikan "Tagihan yang Telah Jatuh Tempo" dan "Tagihan yang Mengalami Penurunan Nilai" sesuai dengan SEOJK no 24/SEOJK.03.2021 sebagai berikut: a. Tagihan yang Telah Jatuh Tempo adalah tagihan yang telah jatuh tempo lebih dari 90 (sembilan puluh) hari, baik atas pembayaran pokok dan/atau pembayaran bunga, atau tagihan kepada debitur yang wanprestasi. b. Tagihan yang Mengalami Penurunan Nilai adalah tagihan yang teridentifikasi mengalami penurunan nilai, yaitu berada pada Stage 2 (aset kurang baik) dan Stage 3 (aset tidak baik).	The Bank defines "Past Due Receivables" and "Impaired Receivables" in accordance with SEOJK No. 24/SEOJK.03/2021 as follows: a. Past Due Receivables are receivables that are more than 90 (ninety) days past due, either for principal and/or interest payments, or receivables from debtors in default. b. Impaired Receivables are receivables identified as impaired, namely those classified under Stage 2 (underperforming assets) and Stage 3 (non-performing assets).
2.	Tagihan yang telah jatuh tempo diklasifikasikan sebagai tagihan yang mengalami penurunan nilai sehingga tidak terdapat tagihan yang telah jatuh tempo (lebih dari 90 hari) yang tidak dianggap mengalami penurunan nilai.	Past due receivables are classified as impaired receivables; therefore, there are no past due receivables (more than 90 days) that are not considered impaired.
3.	Dalam perhitungan CKPN, Bank menggunakan metode <i>expected loss</i> yang bersifat <i>forward looking</i> yang mewajibkan Bank untuk mengukur estimasi risiko berdasarkan data makroekonomi. Perhitungan pencadangan secara <i>forward looking</i> dimaksudkan agar Bank lebih siap dalam menghadapi potensi serta skenario dari kondisi makroekonomi di masa mendatang. Secara umum terdapat 3 (tiga) Stage yang dibagi sesuai dengan hasil evaluasi terhadap risiko kredit. Pada Stage 1, Bank mengukur penyisihan kerugian untuk aset keuangan sejumlah kerugian kredit ekspektasian 12 (dua belas) bulan. Pada Stage 2 dan Stage 3, Bank mengukur penyisihan kerugian untuk aset keuangan sejumlah kerugian ekspektasian dihitung sepanjang umur kredit (<i>lifetime</i>).	In calculating Expected Credit Loss (CKPN), the Bank applies a forward-looking expected loss methodology, which requires the Bank to estimate risk based on macroeconomic data. This forward-looking provisioning approach is intended to enhance the Bank's preparedness in facing potential future macroeconomic conditions and scenarios. In general, credit exposures are categorized into three (3) Stages based on credit risk evaluation results. In Stage 1, the Bank measures loss allowances for financial assets at an amount equal to 12-month expected credit losses. In Stage 2 and Stage 3, the Bank measures loss allowances for financial assets at an amount equal to lifetime expected credit losses.

Pengungkapan Tambahan terkait Perlakuan terhadap Aset Bermasalah (CRB-A) Additional Disclosure Related to the Treatment of Non-Performing Assets (CRB-A)

Analisis Kualitatif Qualitative Analysis		
1.	Bank mendefinisikan "Tagihan yang Telah Jatuh Tempo" dan "Tagihan yang Mengalami Penurunan Nilai" sesuai dengan SEOJK no 24/SEOJK.03.2021 sebagai berikut: a. Tagihan yang Telah Jatuh Tempo adalah tagihan yang telah jatuh tempo lebih dari 90 (sembilan puluh) hari, baik atas pembayaran pokok dan/atau pembayaran bunga, atau tagihan kepada debitur yang wanprestasi. b. Tagihan yang Mengalami Penurunan Nilai adalah tagihan yang teridentifikasi mengalami penurunan nilai, yaitu berada pada Stage 2 (aset kurang baik) dan Stage 3 (aset tidak baik).	The Bank defines "Past Due Receivables" and "Impaired Receivables" in accordance with SEOJK No. 24/SEOJK.03/2021 as follows: a. Past Due Receivables are receivables that are more than 90 (ninety) days past due, either for principal and/or interest payments, or receivables from debtors in default. b. Impaired Receivables are receivables identified as impaired, namely those classified under Stage 2 (underperforming assets) and Stage 3 (non-performing assets).
2.	Tagihan yang telah jatuh tempo diklasifikasikan sebagai tagihan yang mengalami penurunan nilai sehingga tidak terdapat tagihan yang telah jatuh tempo (lebih dari 90 hari) yang tidak dianggap mengalami penurunan nilai.	Past due receivables are classified as impaired receivables; therefore, there are no past due receivables (more than 90 days) that are not considered impaired.
3.	Dalam perhitungan CKPN, Bank menggunakan metode expected loss yang bersifat forward looking yang mewajibkan Bank untuk mengukur estimasi risiko berdasarkan data makroekonomi. Perhitungan pencadangan secara forward looking dimaksudkan agar Bank lebih siap dalam menghadapi potensi serta skenario dari kondisi makroekonomi di masa mendatang. Secara umum terdapat 3 (tiga) Stage yang dibagi sesuai dengan hasil evaluasi terhadap risiko kredit. Pada Stage 1, Bank mengukur penyisihan kerugian untuk aset keuangan sejumlah kerugian kredit ekspektasi 12 (dua belas) bulan. Pada Stage 2 dan Stage 3, Bank mengukur penyisihan kerugian untuk aset keuangan sejumlah kerugian kredit ekspektasi dihitung sepanjang umur kredit (lifetime).	In calculating Expected Credit Loss (CKPN), the Bank applies a forward-looking expected loss methodology, which requires the Bank to estimate risk based on macroeconomic data. This forward-looking provisioning approach is intended to enhance the Bank's preparedness in facing potential future macroeconomic conditions and scenarios. In general, credit exposures are categorized into three (3) Stages based on credit risk evaluation results. In Stage 1, the Bank measures loss allowances for financial assets at an amount equal to 12-month expected credit losses. In Stage 2 and Stage 3, the Bank measures loss allowances for financial assets at an amount equal to lifetime expected credit losses.

Analisis Kualitatif Qualitative Analysis		
1.	Aset performing dikategorikan untuk aset dengan kualitas Lancar (Kol 1), dan kualitas Dalam Perhatian Khusus (DPK) (Kol 2). Sedangkan aset non-performing dikategorikan untuk aset dengan kualitas Kurang Lancar (Kol 3), Diragukan (Kol 4), dan Macet (Kol 5). Aset non-performing tersebut sama dengan Tagihan yang telah Jatuh Tempo. Penetapan kualitas L (Lancar), DPK (Dalam Perhatian Khusus), KL (Kurang Lancar), D (Diragukan), dan M (Macet) sesuai dengan Peraturan Otoritas Jasa Keuangan mengenai penilaian kualitas aset bank umum.	Performing assets are categorized as assets with Current quality (Grade 1) and Special Mention (Grade 2). Meanwhile, non-performing assets are categorized as assets with Substandard (Grade 3), Doubtful (Grade 4), and Loss (Grade 5) quality. These non-performing assets are equivalent to past due receivables. The classification of Current (L), Special Mention (DPK), Substandard (KL), Doubtful (D), and Loss (M) is conducted in accordance with Financial Services Authority (OJK) regulations regarding the assessment of asset quality for commercial banks.
2.	Restrukturisasi Kredit merupakan upaya perbaikan yang dilakukan Bank dalam kegiatan perkreditan terhadap Debitur yang mengalami kesulitan untuk memenuhi kewajibannya dengan tetap memperhatikan prinsip objektivitas, independensi, menghindari benturan kepentingan serta prinsip kewajaran. Pelaksanaan restrukturisasi mempertimbangkan kriteria antara lain debitur mengalami kesulitan pembayaran angsuran pokok dan/atau bunga, dan/atau debitur diperkirakan akan mengalami kesulitan keuangan, serta debitur yang masih memiliki prospek usaha/prospek pendapatan yang baik dan dinilai mampu memenuhi kewajiban setelah kredit direstrukturisasi. Bank memiliki kredit yang disalurkan kepada korporasi yang pembobotannya mengikuti ketentuan dari otoritas jasa keuangan akan tetapi saat ini Bank hanya memiliki 3 (tiga) pengkategorian segmentasi kredit yaitu Pensiun, Mikro dan Retail.	Credit restructuring is a corrective measure undertaken by the Bank in lending activities for debtors experiencing difficulties in fulfilling their obligations, while still adhering to the principles of objectivity, independence, avoidance of conflicts of interest, and fairness. Restructuring is carried out by considering criteria such as debtors experiencing difficulties in paying principal and/or interest installments, and/or debtors who are expected to face financial difficulties, as well as debtors who still have viable business prospects or income potential and are deemed capable of meeting their obligations after restructuring. The Bank provides credit to corporate borrowers, with risk-weighting following the regulations of the Financial Services Authority. However, currently the Bank only has three credit segments, namely Pension, Micro, and Retail segments..

Analisis Kualitatif Qualitative Analysis	
1. Strategi dan proses manajemen risiko pasar yang dilakukan oleh Bank Risiko Pasar merupakan Risiko pada posisi neraca dan rekening administratif termasuk transaksi derivatif, akibat perubahan secara keseluruhan dari kondisi pasar, termasuk Risiko perubahan harga option. Risiko pasar dapat berasal dari posisi <i>banking book</i> maupun posisi <i>trading book</i>. Adapun dalam penerapan Manajemen Risiko untuk Risiko Pasar disesuaikan dengan ukuran dan kompleksitas usaha Bank. Sampai dengan saat ini, Bank melakukan pengelolaan risiko pasar terhadap seluruh portofolio <i>banking book</i> dan <i>trading book</i>. Dalam rangka pengelolaan risiko pasar yang timbul pada portofolio <i>banking book</i> dan <i>trading book</i>, Bank telah memiliki Kebijakan Manajemen Risiko, Kebijakan Dana dan Jasa, Standar Prosedur (SP) Treasury, SP Asset & Liability Management serta beberapa Petunjuk Teknis turunan yang mengatur teknis pelaksanaan ketentuan di atasnya. Pada ketentuan tersebut, telah diatur penerapan manajemen risiko mulai dari proses identifikasi, pengukuran, pemantauan dan pengendalian risiko pasar. Selain hal tersebut, dalam pelaksanaan aktivitas treasury Bank telah menggunakan sistem treasury dalam rangka pencatatan transaksi serta pengukuran dan pemantauan risiko pasar.	Risk Management Strategy and Process for Market Risk Market Risk is defined as the risk in on-balance sheet and off-balance sheet positions, including derivative transactions, arising from overall changes in market conditions, including the risk of changes in option prices. Market risk may arise from both <i>banking book</i> positions and <i>trading book</i> positions. In implementing Market Risk Management, the Bank adjusts its approach based on the size and complexity of its business. Currently, the Bank manages market risk across all <i>banking book</i> and <i>trading book</i> portfolios. To manage market risk arising from <i>banking book</i> and <i>trading book</i> portfolios, the Bank has established key internal policies, including the Risk Management Policy, Funding and Services Policy, Treasury Standard Procedures (SP), Asset & Liability Management SP, as well as several derivative technical guidelines that govern the implementation of these policies. These regulations cover the risk management process, including risk identification, measurement, monitoring, and control of market risk. In addition, the Bank's treasury activities are supported by a treasury system that is used for transaction recording as well as market risk measurement and monitoring.
2. Struktur dan organisasi pengelolaan manajemen risiko untuk risiko pasar Dalam mengimplementasikan penerapan Manajemen Risiko untuk Risiko Pasar, Bank telah menerapkan: a). Pengawasan Aktif Direksi dan Komisaris; b). Kebijakan dan Prosedur Manajemen Risiko serta Penetapan Limit Risiko; c). Proses Identifikasi, Pengukuran, Pemantauan, dan Pengendalian Risiko, serta Sistem Informasi Manajemen Risiko Pasar; d). Sistem Pengendalian Intern. Bank menerapkan prinsip <i>segregation of duties</i> dalam pengelolaan risiko pasar, dengan memisahkan fungsi <i>front office</i> dalam hal ini dijalankan oleh Unit Bisnis, <i>middle office</i> dalam hal ini dijalankan oleh Unit Pengelolaan Risiko Pasar dan <i>back office</i> dalam hal ini dijalankan oleh Unit Operation. Unit Pengelola Risiko Pasar berada dibawah Divisi Risk Management, dimana dalam hal ini fungsi tersebut merupakan tanggung jawab Departmen Market, Liquidity & Data Analytics. Adapun gambaran Divisi Risk Management sesuai dengan struktur organisasi berikut:	Risk management structure and organization for market risk The Bank has adopted the following framework: a) Active supervision by the Board of Directors and the Board of Commissioners; b) Risk management policies and procedures, as well as risk limit setting; c) Risk identification, measurement, monitoring, and control processes, supported by a Market Risk Management Information System; and d) Internal control system. The Bank applies the principle of <i>segregation of duties</i> in managing market risk by separating the functions of <i>front office</i>, <i>middle office</i>, and <i>back office</i>. The <i>front office</i> function is performed by the Business Unit, the <i>middle office</i> function is carried out by the Market Risk Management Unit, and the <i>back office</i> function is handled by the Operations Unit. The Market Risk Management Unit is under the Risk Management Division, specifically within the Market, Liquidity & Data Analytics Department. The structure of the Risk Management Division is illustrated in the following organizational chart:

Analisis Kualitatif Qualitative Analysis

Departemen Market, Liquidity & Data Analytics memiliki tiga tugas utama yaitu tim Asset & Liabilities Management (ALM) yang memiliki fungsi sebagai penanggungjawab penerapan manajemen risiko likuiditas dan risiko pasar, tim Middle Office sebagai penanggungjawab penerapan manajemen risiko untuk aktivitas trading serta tim Data Analyst yang menjalankan framework model risiko dalam penyusunan atau validasi model yang digunakan Risk Management.

Selain hal di atas, dalam aspek pengelolaan risiko Bank memiliki perangkat dalam bentuk Komite Manajemen Risiko (KMR) sebagai salah satu Komite dibawah Direksi yang membahas delapan risiko Bank baik dalam bentuk pembahasan profil risiko ataupun hal lainnya. Dalam bentuk lebih spesifik, Bank juga melakukan pembahasan secara khusus untuk risiko pasar dalam Assets and Liabilities Management Committee (ALCO) yang juga dibawah Direksi. Selain hal tersebut, Bank juga memiliki sarana komunikasi dengan Komisaris dalam Komite Pemantau Risiko (KPR) yang juga membahas risiko-risiko Bank.

The Market, Liquidity & Data Analytics Department has three main responsibilities, namely the Asset & Liabilities Management (ALM) team, which is responsible for the implementation of liquidity risk and market risk management; the Middle Office team, which is responsible for the implementation of risk management for trading activities; and the Data Analyst team, which is responsible for implementing the risk model framework, including the development and validation of models used by the Risk Management function.

In addition to the above, the Bank has established governance structures in the form of the Risk Management Committee (KMR) as one of the Committees under the Board of Directors, which discusses all eight types of risk, including risk profile discussions and other relevant matters. More specifically, the Bank also conducts dedicated discussions on market risk through the Assets and Liabilities Committee (ALCO), which is also under the Board of Directors. Furthermore, the Bank maintains communication channels with the Board of Commissioners through the Risk Monitoring Committee (KPR), which also discusses the Bank's various risk exposures.

Analisis Kualitatif Qualitative Analysis

3. Ruang lingkup dan sifat pelaporan risiko dan/sistem pengukuran Bank melakukan pengukuran risiko pasar baik dalam frekuensi harian, bulanan, triwulanan maupun dalam frekuensi yang lebih tinggi sesuai dengan alat pengukuran risiko Bank. Hasil pengukuran risiko tersebut, diinformasikan dan dikomunikasikan kepada Unit terkait, Manajemen ataupun Komisaris. Secara internal, media pelaporan yang disampaikan tidak terbatas hanya dalam bentuk tertulis namun juga dikomunikasikan dalam bentuk <i>working group</i> (bersama Unit terkait), dalam bentuk KMR dan ALCO (bersama Direksi) ataupun dalam bentuk KPR (bersama Komisaris). Pengukuran risiko yang dilakukan Bank dalam bentuk pengukuran eksposur risiko sesuai posisi maupun potensi risiko yang dapat terjadi kedepan atau proyeksi. Adapun pengukuran risiko yang dilakukan oleh Bank antara lain: valuasi surat berharga pada portofolio <i>banking book</i> dan <i>trading book</i> dengan metode <i>Mark to Market (MtM)</i> ataupun <i>Mark to Model</i>, <i>sensitivity analysis</i> dengan menggunakan skenario perubahan suku bunga atau <i>market yield</i> di masa yang akan datang untuk mengukur potensi risiko, pengukuran <i>Value at Risk (VaR)</i> serta pengukuran kecukupan modal untuk risiko pasar dengan menggunakan metode standar (<i>Standardised Approach</i>) yang mengacu pada SEOJK Nomor 23/SEOJK.03/2022. Selain hal tersebut, Bank melakukan pemantauan risiko pasar secara periodik dengan menetapkan limit-limit risiko pasar secara internal untuk portofolio <i>banking book</i>. Adapun limit-limit yang dimaksud sebagai berikut: a. Limit Trading Book 1) Limit Value at Risk (VaR) Maksimum eksposur potensi kerugian yang dihadapi Bank secara harian. 2) Net Open Position Batasan jumlah posisi terbuka yang diperbolehkan untuk dimiliki dalam waktu tertentu. 3) Limit Stop Loss Maksimum akumulasi kerugian (<i>Realized & Unrealized</i>) secara bulanan & tahunan. 4) Limit Holding Period Batasan maksimum kepemilikan atas suatu instrumen surat berharga yang termasuk dalam <i>Trading Book</i>. 5) Limit Cut Loss Batasan maksimum penurunan harga atas suatu portofolio yang dimiliki. b. Limit Banking Book 1) Unrealized loss terhadap total modal Maksimum kerugian atas surat berharga kategori <i>FVOCI</i> yang dimiliki Bank terhadap total modal. 2) Limit Transaksi atau plafon surat berharga Batasan maksimum <i>outstanding</i> atas surat berharga yang dimiliki oleh Bank. 3) Limit Counterparty Batasan maksimum pemberian fasilitas kepada Bank Counterparty. Selain pelaporan tersebut, Bank juga menyampaikan laporan pengukuran risiko kepada regulator sesuai dengan ketentuan yang berlaku dan dalam rangka pengukuran risiko terintegrasi, Bank secara aktif berkomunikasi dengan entitas induk dalam rangka pengukuran risiko secara konsolidasi.	Scope and Nature of Risk Reporting and Measurement Systems The Bank measures market risk on a daily, monthly, quarterly basis, and at higher frequencies depending on the availability of risk measurement tools. The results of these measurements are communicated and reported to relevant units, Management, and the Board of Commissioners. Internally, reporting is not limited to written reports but is also communicated through working groups with relevant units, Risk Management Committee (KMR) and Assets and Liabilities Committee (ALCO) meetings with the Board of Directors, as well as Risk Monitoring Committee (KPR) meetings with the Board of Commissioners. The Bank's risk measurement framework covers both current risk exposures and forward-looking or projected risk exposures. Risk measurement tools used by the Bank include valuation of securities in both banking book and trading book portfolios using Mark-to-Market (MtM) or Mark-to-Model approaches, sensitivity analysis using interest rate or market yield scenarios to assess potential future risk, Value at Risk (VaR) measurement, and capital adequacy measurement for market risk using the Standardised Approach in accordance with SEOJK No. 23/SEOJK.03/2022. In addition, the Bank conducts periodic monitoring of market risk by establishing internal risk limits for its banking book portfolio. These limits include: a. Trading Book Limits 1. Value at Risk (VaR) Limit – the maximum daily potential loss exposure faced by the Bank. 2. Net Open Position (NOP) Limit – the maximum allowable open position held within a certain period. 3. Stop Loss Limit The maximum accumulated loss (realized and unrealized) on a monthly and annual basis. 4. Holding Period Limit The maximum holding period for securities classified under the trading book. 5. Cut Loss Limit The maximum allowable price decline of a portfolio held by the Bank. b. Banking Book Limits 1. Unrealized Loss to Total Capital Maximum unrealized loss on <i>FVOCI</i> securities relative to total capital. 2. Securities Transaction or Holding Limit Maximum outstanding limit of securities held by the Bank. 3. Counterparty Limit Maximum exposure limit to banking counterparties. In addition, the Bank reports risk measurement results to regulators in accordance with applicable regulations and actively coordinates with its parent entity for consolidated risk measurement as part of integrated risk management.

Penerapan Manajemen Risiko Untuk Interest Rate Risk In Banking Book (IRRBB) Implementation of Risk Management for Interest Rate Risk in the Banking Book (IRRBB)

Tabel Laporan Penerapan Manajemen Risiko Untuk Risiko Suku Bunga Dalam Banking Book
Table of Report on the Implementation of Risk Management for Interest Rate Risk in the Banking Book
(Interest Rate Risk in the Banking Book)

Analisis Kualitatif Qualitative Analysis		
1.	Penjelasan mengenai bagaimana Bank mendefinisikan IRRBB untuk pengukuran dan pengendalian Risiko. Risiko Suku Bunga dalam Banking Book atau Interest Rate Risk in The Banking Book (IRRBB) didefinisikan sebagai risiko akibat pergerakan suku bunga di pasar yang berlawanan dengan posisi Banking Book, yang berpotensi memberikan dampak terhadap permodalan dan rentabilitas (earnings) Bank baik untuk saat ini maupun pada masa mendatang. Bank mengukur risiko suku bunga pada banking book sesuai dengan yang tertuang dalam Surat Edaran Otoritas Jasa Keuangan No.12/SEOJK.03/2018 tentang pedoman pengukuran risiko pendekatan standar untuk risiko suku bunga dalam banking book bagi bank umum dengan menggunakan dua perspektif, baik dari perspektif nilai ekonomis (economic value) maupun perspektif rentabilitas (earnings).	An explanation of how the Bank defines IRRBB for risk measurement and control. Interest Rate Risk in the Banking Book (IRRBB) is defined as the risk resulting from market interest rate movements that are contrary to the Banking Book position, potentially impacting the Bank's capital and profitability (earnings) both now and in the future. The Bank measures interest rate risk in the banking book in accordance with Financial Services Authority Circular Letter No. 12/SEOJK.03/2018 concerning guidelines for measuring standardized approaches to interest rate risk in the banking book for commercial banks, using two perspectives: economic value and profitability (earnings).
2.	Penjelasan mengenai strategi Manajemen Risiko dan mitigasi Risiko untuk IRRBB. Dalam penerapan manajemen risiko untuk IRRBB, Bank memiliki kebijakan Manajemen Risiko, Standar Prosedur Asset & Liability Management serta Petunjuk Teknis turunan yang mengatur teknis pelaksanaan ketentuan di atasnya. Dalam rangka mengelola risiko suku bunga untuk IRRBB beberapa hal yang dilakukan Bank antara lain: - Menetapkan internal limit untuk risiko IRRBB sebagai upaya untuk menghindari peningkatan eksposur risiko yang timbul. - Menetapkan batasan maksimum tenor dalam transaksi surat berharga agar eksposur risiko masih berada pada limit internal Bank. - Menetapkan plafon atas transaksi surat berharga dalam rangka mengelola eksposur risiko suku bunga. - Berupaya melakukan evaluasi eksposur risiko IRRBB secara berkala, serta berupaya untuk melakukan review limit secara gradual untuk mengurangi eksposur risiko dalam jangka panjang.	An explanation of Risk Management Strategy and Mitigation for IRRBB In implementing IRRBB risk management, the Bank has established Risk Management Policies, Asset & Liability Management Standard Procedures, and supporting technical guidelines governing implementation details. To manage IRRBB exposure, the Bank applies several measures, including: - Establishing internal limits for IRRBB to prevent excessive risk exposure. - Setting maximum tenor limits for securities transactions to ensure exposure remains within internal risk appetite. - Establishing transaction limits (plafond) for securities to manage interest rate risk exposure. - Conducting periodic evaluation of IRRBB exposure and gradually reviewing limits to reduce long-term risk exposure.

Analisis Kualitatif Qualitative Analysis

3.	Periodisasi perhitungan IRRBB Bank dan penjelasan mengenai pengukuran spesifik yang digunakan Bank untuk mengukur sensitivitas terhadap IRRBB. Dalam rangka memonitor eksposur risiko IRRBB, Bank melakukan perhitungan secara bulanan atas posisi akhir bulan laporan. Dalam hal pemenuhan kewajiban regulator, sesuai dengan ketentuan yang tertuang dalam Surat Edaran Otoritas Jasa Keuangan No.12/SEOJK.03/2018 tentang pedoman pengukuran risiko pendekatan standar untuk risiko suku bunga dalam banking book bagi bank umum, Bank menghitung sensitivitas terhadap IRRBB secara Triwulan atas posisi akhir bulan laporan. Adapun pengukuran spesifik yang digunakan oleh Bank dalam mengukur sensitivitas IRRBB antara lain sebagai berikut: - Pengukuran berdasarkan perubahan pada nilai ekonomis dari ekuitas (economic value of equity) atau EVE. - Pengukuran berdasarkan perubahan pada pendapatan bunga bersih (net interest income) atau NII.	The periodization of the Bank's IRRBB calculation and an explanation of the specific measurements the Bank uses to gauge sensitivity to IRRBB. To monitor IRRBB risk exposure, the Bank performs monthly calculations based on the end-of-month reporting position. In compliance with regulatory obligations, in accordance with the provisions of Financial Services Authority Circular Letter No. 12/SEOJK.03/2018 concerning guidelines for measuring standardized approaches to interest rate risk in the banking book for commercial banks, the Bank calculates IRRBB sensitivity quarterly based on the end-of-month reporting position. The specific measures used by the Bank to assess IRRBB sensitivity include the following: - Measurement based on changes in the economic value of equity (EVE). - Measurement based on changes in net interest income (NII).
4.	Penjelasan mengenai skenario shock suku bunga dan skenario stress yang digunakan Bank dalam perhitungan IRRBB dengan menggunakan metode EVE dan NII. Sesuai dengan Surat Edaran Otoritas Jasa Keuangan No.12/SEOJK.03/2018 tentang pedoman pengukuran risiko pendekatan standar untuk risiko suku bunga dalam banking book bagi bank umum, skenario shock suku bunga yang digunakan antara lain: - Dalam perhitungan ΔEVE terdapat enam (enam) jenis skenario shock suku bunga, yaitu <i>Parallel Up</i>, <i>Parallel Down</i>, <i>Steeper</i>, <i>Flattener</i>, <i>Short Rates Up</i>, dan <i>Short Rates Down</i>. - Sedangkan untuk perhitungan ΔNII menggunakan 2 (dua) skenario shock suku bunga, yaitu <i>Parallel Up</i> dan <i>Parallel Down</i>.	Explanation of the interest rate shock scenarios and stress scenarios used by banks in calculating IRRBB using the EVE and NII methods. In accordance with Financial Services Authority Circular Letter No. 12/SEOJK.03/2018 concerning guidelines for measuring risk using a standardized approach for interest rate risk in the banking book for commercial banks, the interest rate shock scenarios used include: - In the ΔEVE calculation, there are six types of interest rate shock scenarios: <i>Parallel Up</i>, <i>Parallel Down</i>, <i>Steeper</i>, <i>Flattener</i>, <i>Short Rates Up</i>, and <i>Short Rates Down</i>. - The ΔNII calculation uses two interest rate shock scenarios: <i>Parallel Up</i> and <i>Parallel Down</i>.
5.	Apabila terdapat asumsi pemodelan yang digunakan secara signifikan dalam IMS Bank (contoh: hasil pengukuran EVE yang dilakukan oleh Bank untuk tujuan selain pengungkapan, asesmen internal terhadap kecukupan permodalan) berbeda dari asumsi pemodelan yang digunakan dalam laporan perhitungan IRRBB dengan pendekatan standar, Bank harus memberikan penjelasan terhadap asumsi tersebut termasuk dampaknya serta alasan penggunaan asumsi tersebut (contoh: data historis, pertimbangan dan analisis manajemen). Saat ini Bank tidak menggunakan asumsi pemodelan dalam IMS/ Internal Measurement System Bank yang berbeda dari asumsi pemodelan yang digunakan dalam laporan perhitungan IRRBB dengan menggunakan pendekatan standar.	If any significant modeling assumptions used in the Bank's IMS (e.g., EVE measurements conducted by the Bank for purposes other than disclosure, internal assessments of capital adequacy) differ from the modeling assumptions used in the IRRBB calculation report using the standard approach, the Bank must provide an explanation of these assumptions, including their impact and the rationale for their use (e.g., historical data, management judgment and analysis). The Bank does not currently use any modeling assumptions in its IMS/Internal Measurement System that differ from the modeling assumptions used in the IRRBB calculation report using the standard approach.
6.	Penjelasan mengenai bagaimana Bank melakukan lindung nilai (hedging) terhadap IRRBB (apabila ada) dan perlakuan akuntansi terkait. Saat ini Bank tidak melakukan tindakan lindung nilai (hedging) terhadap IRRBB.	An explanation of how the Bank hedges its IRRBB (if any) and the related accounting treatment. The Bank currently does not hedge its IRRBB.
7.	Penjelasan komprehensif mengenai asumsi utama pemodelan dan parametrik yang digunakan dalam menghitung ΔEVE dan ΔNII antara lain: - Perhitungan EVE telah memperhitungkan keberadaan margin komersial dalam arus kas dan diskonto atas arus kas. - Bank memperhitungkan opsi perilaku (behaviour options) seperti menggunakan model <i>early prepayment</i> untuk kredit dan analisa <i>behavior options</i> untuk simpanan tanpa jangka waktu (Non Maturity Deposit). Metodologi yang digunakan Bank untuk mengestimasi <i>prepayment rate</i> dari pinjaman dengan menggunakan data historis yang dimiliki Bank. Bank melakukan analisa <i>behavior options</i> untuk simpanan tanpa jangka waktu (Non Maturity Deposit) pada Tabungan dan Giro dengan mengidentifikasi <i>core deposit</i> dan <i>non core deposit</i> dari setiap simpanan stabil Retail transaksional, Retail non-transaksional dan Wholesale. Penempatan <i>core deposit</i> dengan metode <i>slotting</i> yang mengacu pada SEOJK No. 12/SEOJK.03/2018 perihal Penerapan Manajemen Risiko dan Pengukuran Risiko Pendekatan Standar untuk Risiko Suku Bunga dalam Banking Book (Interest Rate Risk in The Banking Book) Bagi Bank Umum.	A comprehensive explanation of the key modeling and parametric assumptions used in calculating ΔEVE and ΔNII includes: - The EVE calculation takes into account the commercial margin in cash flows and discounted cash flows. - The Bank considers behavioral options, such as using an <i>early prepayment</i> model for loans and behavioral options analysis for non-maturity deposits. The Bank's methodology for estimating the <i>prepayment rate</i> for loans utilizes historical data. The Bank conducts behavioral options analysis for non-maturity deposits in Savings and Current Accounts by identifying <i>core</i> and <i>non-core</i> deposits from each stable deposit in transactional retail, non-transactional retail, and wholesale. Core deposits are allocated using a <i>slotting</i> method, which refers to OJK Circular Letter No. 12/SEOJK.03/2018 concerning the Implementation of Risk Management and Risk Measurement Standard Approaches for Interest Rate Risk in the Banking Book for Commercial Banks.

Analisis Kualitatif Qualitative Analysis

	Model early prepayment untuk kredit dan analisa behavior options untuk simpanan tanpa jangka waktu (Non Maturity Deposit) yang digunakan oleh Bank berdampak pada repricing time pada kredit, giro dan tabungan.	The early prepayment model for credit and behavioral options analysis for non-maturity deposits used by the Bank have an impact on repricing time for credit, current accounts and savings.
8.	Informasi lainnya yang perlu diungkapkan oleh Bank terkait interpretasi Bank terhadap signifikansi dan sensitivitas hasil pengukuran IRRBB yang telah diungkapkan dan/atau penjelasan terhadap variasi yang signifikan pada tingkat IRRBB yang dilaporkan dibandingkan dengan pengungkapan sebelumnya (apabila ada). Tidak terdapat informasi lainnya.	Other information required to be disclosed by the Bank regarding the Bank's interpretation of the significance and sensitivity of the IRRBB measurement results that have been disclosed and/or an explanation for significant variations in the reported IRRBB levels compared to previous disclosures (if any). No other information available.

Analisis Kuantitatif Quantitative Analysis

1.	Rata-rata jangka waktu penyesuaian suku bunga (repricing maturity) yang diterapkan untuk NMD. a. Rata-rata jangka waktu (repricing maturity) untuk Giro Retail adalah 2.0 Tahun dan Giro wholesale adalah 1.3 Tahun. b. Rata-rata jangka waktu jangka waktu (repricing maturity) untuk Tabungan Retail adalah 1.9 Tahun dan Tabungan wholesale adalah 1.2 Tahun.	Average repricing maturity applied to Non-Deliverable Loans (NMDs). a. The average repricing maturity for Retail Current Accounts is 2.0 years and for Wholesale Current Accounts is 1.3 years. b. The average repricing maturity for Retail Savings Accounts is 1.9 years and for Wholesale Savings Accounts is 1.2 years.
2.	Jangka waktu penyesuaian suku bunga (repricing maturity) terlama yang diterapkan untuk NMD. Jangka waktu penyesuaian suku bunga (repricing maturity) terlama yang diterapkan untuk NMD adalah 6 Tahun.	The longest repricing maturity applied to Non-Deliverable Loans (NMDs). The longest repricing maturity applied to Non-Deliverable Loans (NMDs) is 6 years.

Risiko Likuiditas

Liquidity Risk

Risiko likuiditas merupakan risiko akibat ketidakmampuan Bank untuk memenuhi liabilitas yang jatuh tempo dari sumber pendanaan arus kas dan/atau dari aset likuid berkualitas tinggi yang dapat diagunkan, tanpa mengganggu aktivitas dan kondisi keuangan Bank. Pengelolaan risiko likuiditas antara lain dilakukan melalui upaya peningkatan pelayanan kepada nasabah penyimpan dalam rangka menjaga stabilitas dan kontinuitas jumlah simpanan, kebijakan penempatan dana pada instrumen yang aman dan likuid, kebijakan contingency funding plan, dan pemantauan posisi likuiditas secara harian serta evaluasi posisi likuiditas melalui rapat Asset Liability Committee (ALCO) secara rutin.

Liquidity risk is the risk arising from the Bank's inability to meet its maturing liabilities from cash flow funding sources and/or from high-quality liquid assets that can be pledged, without disrupting the Bank's activities and financial condition. The management of liquidity risk is carried out, among others, through efforts to enhance services to deposit customers in order to maintain the stability and continuity of deposit balances, the implementation of policies on the placement of funds in safe and liquid instruments, the establishment of a contingency funding plan policy, and the daily monitoring of liquidity positions, as well as the evaluation of liquidity positions through regular Asset Liability Committee (ALCO) meetings.

Keterangan :

¹⁾ Adjusted value dihitung pengenaan pengurangan nilai (haircut), tingkat penarikan (run-off rate), dan tingkat penerimaan (inflow rate) serta batas maksimum komponen HQLA, misalnya batas maksimum HQLA Level 2B dan HQLA Level 2 serta batas maksimum arus kas masuk yang dapat diperhitungkan dalam LCR.

Notes:

¹⁾ Adjusted values were calculated by applying valuation reductions (haircuts), run-off rates, and inflow rates, as well as caps on HQLA components, such as the maximum limits for Level 2B and Level 2 HQLA, and the maximum allowable cash inflows that could be recognized in the LCR calculation.

Analisis Analysis

- | | |
|---|---|
| <p>1. LCR Bank Mandiri Taspen untuk Triwulan IV 2025 sebesar 228.10%, naik sebesar 14.16% dibandingkan posisi Triwulan III 2025 sebesar 213.94%.</p> <p>2. Faktor peningkatan LCR yang pertama adalah peningkatan HQLA sebesar Rp236.5 M (setelah haircut). Hal tersebut terjadi disebabkan oleh peningkatan rata-rata <i>outstanding</i> surat berharga yang diterbitkan oleh Pemerintah Indonesia dan Bank Indonesia sebesar Rp1.79 T (nilai setelah haircut) selama Triwulan IV dibandingkan dengan Triwulan III 2025.</p> <p>3. Faktor peningkatan LCR yang kedua adalah penurunan rata-rata Net Cash Outflow sebesar Rp433.98 M (setelah haircut) pada Triwulan IV 2025 dibandingkan dengan Triwulan III 2025.</p> <p>4. HQLA Bank Mandiri Taspen per Triwulan IV 2025 sebesar Rp18.77 T didominasi oleh surat berharga Pemerintah Indonesia dan Bank Indonesia sebesar Rp12.98 T dan penempatan pada Bank Indonesia sebesar Rp5.69 T.</p> <p>5. Dalam mengelola likuiditas, Bank telah mengidentifikasi, mengukur, memantau dan mengendalikan risiko likuiditas secara berkala, dengan melibatkan unit kerja funding maupun lending. Sebagai bagian dari penerapan manajemen risiko likuiditas dalam berbagai kondisi, Bank juga telah memiliki Kebijakan Rencana Pendanaan Darurat (<i>Contingency Funding Plan</i>) yang berisi langkah-langkah yang harus dilakukan oleh Bank dalam mengantisipasi dan menghadapi perubahan kondisi likuiditas serta pemantauan yang dilakukan secara harian.</p> <p>6. Strategi pengelolaan neraca dan likuiditas ditetapkan dalam rapat komite ALCO dan dilaksanakan oleh unit kerja baik funding maupun lending. Dalam rangka meningkatkan Simpanan/Pendanaan Stabil dan Simpanan Operasional, Bank Mandiri Taspen terus berupaya mengembangkan strategi untuk meningkatkan akuisisi nasabah retail.</p> <p>7. Likuiditas bank dapat dijaga dengan baik sesuai regulasi dan mendukung kegiatan bisnis bank.</p> | <p>1. The Liquidity Coverage Ratio (LCR) of Bank Mandiri Taspen for the fourth quarter of 2025 was recorded at 228.10%, representing an increase of 14.16% compared to the third quarter of 2025 position of 213.94%.</p> <p>2. The first factor contributing to the increase in LCR was the rise in High Quality Liquid Assets (HQLA) amounting to IDR236.5 billion (after haircut). This increase was primarily driven by a higher average outstanding balance of securities issued by the Government of Indonesia and Bank Indonesia, which rose by IDR1.79 trillion (after haircut) during the fourth quarter compared to the third quarter of 2025.</p> <p>3. The second factor contributing to the increase in LCR was the decrease in the average Net Cash Outflow, which declined by IDR433.98 billion (after haircut) in the fourth quarter of 2025 compared to the third quarter of 2025.</p> <p>4. HQLA of Bank Mandiri Taspen as of the fourth quarter of 2025 amounted to IDR18.77 trillion, predominantly consisting of securities issued by the Government of Indonesia and Bank Indonesia totaling IDR12.98 trillion, as well as placements with Bank Indonesia amounting to IDR5.69 trillion.</p> <p>5. In managing liquidity, the Bank had identified, measured, monitored, and controlled liquidity risk on a regular basis, involving both funding and lending business units. As part of the implementation of liquidity risk management under various conditions, the Bank had also established a Contingency Funding Plan policy, which outlined measures to anticipate and address changes in liquidity conditions, supported by daily monitoring.</p> <p>6. Balance sheet and liquidity management strategies were determined through Asset and Liability Committee (ALCO) meetings and implemented by both funding and lending units. In order to enhance Stable Funding and Operational Deposits, Bank Mandiri Taspen continuously pursued strategies to strengthen retail customer acquisition.</p> <p>7. The Bank's liquidity was maintained at a sound level in compliance with prevailing regulations and adequately supported the Bank's business activities.</p> |

Analisis Analysis	
1. Net Stable Funding Ratio (NSFR) Bank Mandiri Taspen per 31 Desember 2025 adalah sebesar 108,28%, turun sebesar -2,33% dari posisi laporan sebelumnya 30 September 2025 sebesar 110,61% dan terjaga di atas ketentuan regulator yaitu minimal 100%. Beberapa perubahan nilai NSFR tersebut dijelaskan sebagai berikut: a. Terdapat peningkatan ASF sebesar Rp455 M (nilai tertimbang) dan RSF meningkat sebesar Rp1,34 T (nilai tertimbang). Hal tersebut berkontribusi atas penurunan nilai NSFR. b. Pada sisi ASF, terdapat penurunan sisa jatuh tempo atas pendanaan <i>wholesale funding</i>, di mana hal ini memberikan dampak pada realisasi nilai ASF. 2. Komposisi ASF didominasi oleh Simpanan nasabah Perorangan sebesar Rp22,72 T dan Simpanan nasabah Korporasi sebesar Rp15,21 T (nilai tertimbang).	1. The Net Stable Funding Ratio (NSFR) of Bank Mandiri Taspen as of December 31, 2025 was recorded at 108.28%, representing a decrease of 2.33% compared to the previous reporting position as of September 30, 2025 of 110.61%, and remained above the regulatory minimum requirement of 100%. The changes in the NSFR were explained as follows: a. Available Stable Funding (ASF) increased by IDR455 billion (weighted value), while Required Stable Funding (RSF) increased by IDR1.34 trillion (weighted value), which contributed to the decline in the NSFR. b. On the ASF side, there was a reduction in the remaining maturity of <i>wholesale funding</i>, which affected the realization of ASF values. 2. The composition of ASF was predominantly contributed by deposits from individual customers amounting to IDR22.72 trillion and deposits from corporate customers amounting to IDR15.21 trillion (weighted values).

Manajemen Risiko Likuiditas (LIQA) Liquidity Risk Management (LIQA)

Tabel Manajemen Risiko Likuiditas (LIQA)
Table of Liquidity Risk Management (LIQA)

a. Pengungkapan Kualitatif Qualitative Disclosure	
Merupakan risiko akibat ketidakmampuan Bank untuk memenuhi liabilitas yang jatuh tempo dari sumber pendanaan arus kas dan/atau dari aset likuid berkualitas tinggi yang dapat digunakan, tanpa mengganggu aktivitas dan kondisi keuangan Bank. Pengelolaan risiko likuiditas dilakukan dengan mengacu pada regulasi yang berlaku dan kebijakan internal, yang mencakup prosedur dan petunjuk teknis. Tujuan utama dari pengelolaan risiko likuiditas adalah untuk memastikan bahwa bank memiliki likuiditas yang cukup untuk memenuhi kewajiban finansialnya dalam berbagai kondisi, baik normal maupun krisis. Pengelolaan risiko likuiditas antara lain dilakukan melalui upaya peningkatan pelayanan kepada nasabah penyimpan dalam rangka menjaga stabilitas dan kontinuitas jumlah simpanan, kebijakan penempatan dana pada instrumen yang aman dan likuid, ketentuan terkait Contingency Funding Plan (CFP), dan pemantauan posisi likuiditas secara harian serta evaluasi posisi likuiditas melalui rapat Asset Liability Committee (ALCO) secara rutin.	Liquidity risk is defined as the risk arising from the Bank's inability to meet its maturing liabilities from cash flow funding sources and/ or from available high-quality liquid assets, without disrupting the Bank's activities and financial condition. Liquidity risk management is conducted in accordance with applicable regulations and internal policies, including procedures and technical guidelines. The primary objective of liquidity risk management is to ensure that the Bank maintains sufficient liquidity to meet its financial obligations under both normal and stressed conditions. Liquidity risk management is implemented, among others, through efforts to enhance services to deposit customers in order to maintain the stability and continuity of funding, policies on fund placement in safe and liquid instruments, the implementation of a Contingency Funding Plan (CFP), and daily liquidity position monitoring, as well as regular evaluation of liquidity positions through Asset Liability Committee (ALCO) meetings.

Pengelolaan risiko likuiditas Bank dijalankan oleh Divisi Risk Management, Divisi Treasury serta berkoordinasi dengan Divisi terkait pendanaan. Secara harian dilakukan proyeksi atas cash flow likuiditas dalam rangka menjaga indikator likuiditas dalam batas aman. Bank menetapkan Risk Appetite Statement (RAS) yang selanjutnya diturunkan dalam bentuk internal limit dalam rangka mengelola risiko likuiditas. Selain hal tersebut dan sejalan dengan implementasi POJK 5 Tahun 2024, Bank juga telah menyusun indicator & trigger, stress test yang mencakup skenario terburuk yang dapat dialami Bank, serta alternatif dan opsi yang dapat dilakukan Bank apabila Bank berada dalam indikator Recovery Plan.

Bank mengukur indikator-indikator likuiditas antara lain: Rasio Intermediasi Makroprudensial (RIM), Liquidity Coverage Ratio (LCR), Net Stable Funding Ratio (NSFR) dan menetapkan batasan cadangan likuiditas secara internal untuk mencadangkan kebutuhan likuiditas jangka pendek. Selain hal tersebut, Bank melalui Divisi Treasury melakukan pemenuhan atas kewajiban Giro Wajib Minimum (GWM) dan Penyangga Likuiditas Makroprudensial (PLM). Sebagai salah satu upaya mengurangi konsentrasi pendanaan Bank mengukur rasio Top 50 nasabah secara harian, serta memiliki internal limit dalam rangka membatasi eksposur risiko tersebut.

Bank melakukan stress testing untuk mengukur kondisi likuiditas Bank kedepan dalam beberapa skenario, baik yang bersifat spesifik ataupun berdampak luas (Market Wide Shock). Bank melakukan stress test secara berkala dengan mengasumsikan skenario-skenario yang mungkin terjadi serta menghitung dampak risiko yang akan ditimbulkan. Seluruh hasil pengelolaan risiko disampaikan dan dikomunikasikan bersama unit terkait serta merupakan bagian dari pembahasan Komite ALCO.

The Bank's liquidity risk management is carried out by the Risk Management Division and the Treasury Division, in coordination with relevant funding-related divisions. Daily cash flow projections are conducted to ensure liquidity indicators remain within safe limits. The Bank has established a Risk Appetite Statement (RAS), which is further translated into internal limits for liquidity risk management. In line with POJK No. 5 of 2024, the Bank has also developed indicators and triggers, stress testing frameworks covering worst-case scenarios, as well as alternative actions under the Recovery Plan framework.

The Bank measures liquidity indicators such as the Macroprudential Intermediation Ratio (RIM), Liquidity Coverage Ratio (LCR), Net Stable Funding Ratio (NSFR), and also establishes internal liquidity buffer limits for short-term liquidity needs. In addition, through the Treasury Division, the Bank ensures compliance with Minimum Reserve Requirements (GWM) and Macroprudential Liquidity Buffer (PLM). To reduce funding concentration risk, the Bank also monitors the Top 50 depositor ratio on a daily basis and applies internal limits to manage exposure.

The Bank conducts stress testing to assess future liquidity conditions under various scenarios, including both idiosyncratic and market-wide shock scenarios. Stress tests are performed periodically by simulating potential events and assessing their impact on liquidity risk. All risk management results are communicated with relevant units and form part of discussions within the ALCO Committee.

b. Pengungkapan Kuantitatif Quantitative Disclosure

Dalam pengukuran likuiditas Bank menggunakan ukuran nominal stock based (rasio-rasio keuangan) serta flow based (berbasis cash flow). Rasio keuangan yang digunakan Bank antara lain: LCR, NSFR, RIM, GWM, dan PLM. Pendekatan berbasis cash flow yang digunakan menggunakan metode liquidity gap.

Laporan posisi keuangan dan rekening administratif berdasarkan kelompok jatuh tempo (maturity buckets) pada posisi Desember 2025 terdapat mismatch antara aset dan kewajiban jangka pendek sampai dengan sisa jatuh tempo 1 tahun. Namun, pada bucket sisa jatuh tempo > 1 tahun terjadi positif gap antara aset & liabilitas Bank.

In measuring liquidity, the Bank uses both stock-based indicators (financial ratios) and flow-based approaches (cash flow-based analysis). Financial ratios used by the Bank include LCR, NSFR, RIM, GWM, and PLM. The flow-based approach is applied using the liquidity gap methodology.

As of December 2025, the statement of financial position and off-balance sheet items based on maturity buckets show a mismatch between short-term assets and liabilities up to a remaining maturity of 1 year. However, in the maturity bucket of more than 1 year, the Bank recorded a positive gap between assets and liabilities.

Risiko Operasional

Operational Risk

Risiko operasional adalah risiko akibat ketidakcukupan dan/atau tidak berfungsinya proses internal, kesalahan manusia, kegagalan sistem, atau adanya problem eksternal yang mempengaruhi operasional Bank.

Untuk meminimalisasi risiko operasional yang timbul, Bank telah meningkatkan fungsi kontrol dalam pemrosesan transaksi yang dilakukan dengan cara antara lain dengan menerapkan prosedur yang menjamin ketepatan waktu penyelesaian transaksi, melakukan penyesuaian metode akuntansi sesuai standar yang berlaku, memelihara dokumen dan arsip secara tertib, mengamankan akses terhadap aset dan data. Selain itu Bank juga meningkatkan fungsi dari satuan kerja audit intern yang secara reguler akan melakukan pemeriksaan terhadap kegiatan operasional perbankan.

Operational risk is the risk arising from the inadequacy and/or failure of internal processes, human error, system failures, or external events that affect the Bank's operations.

To minimize such operational risk, the Bank has strengthened its control functions in transaction processing, among others, by implementing procedures that ensure the timely completion of transactions, aligning accounting methods with applicable standards, maintaining proper documentation and record-keeping, and securing access to assets and data. In addition, the Bank has enhanced the role of the internal audit work unit, which regularly conducts reviews of banking operational activities.

Analisis Kualitatif Qualitative Analysis	
1	Peraturan, kebijakan, dan/atau pedoman terkait manajemen risiko untuk Risiko Operasional. Risiko Operasional merupakan salah satu jenis risiko yang memiliki cakupan yang luas. Oleh karena itu ketentuan yang mengatur risiko ini, disamping mengacu pada ketentuan yang dikeluarkan oleh regulator, Bank juga secara internal menerbitkan beberapa ketentuan utama yang berhubungan dengan risiko operasional yang diatur dalam SP Manajemen Risiko Operasional (SP MRO), PT Risk & Control self Assessment (RCSA), PT Pelaporan Insiden Risiko Operasional (PIRO), PT Key Indicator & Issue and Action Management (KI & IAM) dan PT Operational Risk Management System (ORMS) dimana berdasarkan ketentuan-ketentuan utama tersebut kemudian dituangkan ketentuan yang lebih terperinci agar upaya-upaya pengelolaan risiko operasional dapat efektif berjalan. A. Kebijakan Umum Penerapan Manajemen Risiko Semakin kompleksnya kegiatan usaha maka semakin kompleks juga risiko yang akan terjadi. Dengan demikian, perbankan akan meningkatkan kebutuhan praktek tata kelola serta fungsi Penerapan Manajemen Risiko. Kebijakan ini memuat penjelasan dan petunjuk dalam aktivitas pengelolaan risiko pada Bank Mandiri Taspen, meliputi: 1) Organisasi dan fungsi manajemen risiko. 2) Kebijakan, prosedur, dan penetapan limit. 3) Proses Penerapan Manajemen Risiko yang terdiri dari identifikasi, pengukuran, sistem informasi, pemantauan dan penetapan limit, serta pengendalian risiko. Risiko Operasional adalah risiko akibat ketidakcukupan dan atau tidak berfungsinya proses internal, kesalahan manusia, kegagalan sistem, dan atau adanya kejadian-kejadian eksternal yang mempengaruhi operasional Bank.
	Regulations, policies, and/or guidelines related to Operational Risk management. Operational Risk is one of the risk types with a broad scope of coverage. Therefore, the regulations governing this risk refer not only to regulatory requirements issued by the authorities, but also to internal policies established by the Bank. The Bank has issued several key internal policies related to Operational Risk management, namely the Operational Risk Management Policy (SP MRO), Risk and Control Self-Assessment (RCSA), Operational Risk Incident Reporting Policy (PIRO), Key Indicator & Issue and Action Management (KI & IAM), and Operational Risk Management System (ORMS). These key policies serve as the basis for more detailed provisions to ensure that operational risk management initiatives can be implemented effectively and consistently across the Bank. A. General Policy on Risk Management Implementation As business activities become increasingly complex, the associated risks also become more complex. Accordingly, banking institutions are required to strengthen governance practices as well as the implementation of the Risk Management function. This policy provides explanations and guidelines for risk management activities at Bank Mandiri Taspen, which include: 1) Risk management organization and functions. 2) Policies, procedures, and limit setting. 3) Risk Management implementation processes, consisting of risk identification, risk measurement, management information systems, risk monitoring and limit setting, as well as risk control. Operational Risk is defined as the risk arising from inadequate and/or failed internal processes, human error, system failure, and/or external events that affect the Bank's operations.

Analisis Kualitatif Qualitative Analysis

Faktor-faktor yang menyebabkan timbulnya Risiko Operasional, adalah sebagai berikut:

- 1) Proses internal, faktor ketidakcukupan aspek kebijakan, prosedur dan limit termasuk penyimpanan pelaksanaan yang berpotensi mengganggu aktivitas operasional, bisnis dan layanan nasabah Bank.
- 2) Manusia, faktor ketidakcukupan aspek sumber daya manusia baik secara kuantitas maupun kualitas yang berpotensi mengganggu aktivitas operasional, bisnis dan layanan nasabah Bank.
- 3) Sistem, faktor ketidakcukupan aspek sistem teknologi informasi yang berpotensi mengganggu aktivitas operasional, bisnis dan layanan nasabah Bank.
- 4) Faktor eksternal, faktor dari luar kendali Bank yang mengganggu aktivitas operasional, bisnis dan layanan nasabah Bank.

Oleh karena itu, agar tercipta Penerapan Manajemen Risiko Operasional yang efektif, maka dilakukan proses identifikasi, mengukur, memantau, dan mengendalikan risiko operasional yang timbul dari seluruh kegiatan usaha Bank. Disamping itu, agar tingkat risiko operasional yang terjadi tetap berada pada tingkat risiko yang dapat diterima Bank, maka Bank senantiasa melakukan pengendalian/mitigasi risiko operasional secara efektif.

Tujuan utama manajemen risiko operasional adalah untuk meminimalkan kemungkinan dampak negatif dari tidak berfungsinya proses internal, kesalahan manusia, kegagalan sistem, dan atau kejadian-kejadian eksternal.

Adapun jenis-jenis kejadian risiko operasional dapat digolongkan menjadi beberapa tipe kejadian seperti:

- 1) Fraud internal (*internal fraud*)
- 2) Fraud eksternal (*external fraud*)
- 3) Praktek ketenagakerjaan dan keselamatan lingkungan kerja (*employment practices and workplace safety*)
- 4) Nasabah, produk dan praktek bisnis (*client, products and business practices*)
- 5) Kerusakan aset fisik (*damage to physical assets*)
- 6) Gangguan aktivitas bisnis dan kegagalan sistem (*business disruption and system failures*)
- 7) Kesalahan proses dan eksekusi (*execution and processing errors*).

Adapun penjelasan yang lebih detail terkait proses manajemen risiko operasional adalah meliputi hal-hal berikut:

- 1) Identifikasi Risiko Operasional
Proses identifikasi risiko operasional dilakukan dengan menggali dan menginventarisir berbagai permasalahan yang dapat mengakibatkan kerugian Bank, baik yang sudah terjadi di masa lalu (aktual) maupun yang diperkirakan dapat terjadi di masa depan (potensial). Inventarisasi permasalahan risiko operasional tersebut berdasarkan frekuensi terjadinya serta tingkat dampak yang ditimbulkan atau *loss events* (tingkat kerugian yang dapat timbul akibat adanya suatu risiko operasional).

Inventarisasi permasalahan sebagai proses dari identifikasi risiko operasional dapat diperoleh dari tiga sumber, antara lain:

- a. Pemilik risiko (*risk owner*)
Kantor Pusat Operasional, cabang-cabang, serta unit kerja lainnya sebagai pemilik risiko mengumpulkan permasalahan yang dikategorikan risiko operasional (*risk issue*) melalui *self assessment* atau pelaporan kejadian kerugian (*loss event*)
- b. Laporan keuangan
Neraca dan laporan laba rugi serta perincian tiap perkiraan dapat digunakan sebagai sumber identifikasi risiko operasional, antara lain berdasarkan kewajaran masing-masing perkiraan.
- c. Hasil temuan audit

The factors causing Operational Risk are as follows:

1. **Internal processes**, namely the inadequacy of policies, procedures, and limits, including implementation gaps that may disrupt the Bank's operational activities, business processes, and customer services.
2. **People**, namely the inadequacy of human resources in terms of both quantity and quality, which may disrupt the Bank's operational activities, business processes, and customer services.
3. **Systems**, namely the inadequacy of information technology systems that may disrupt the Bank's operational activities, business processes, and customer services.
4. **External factors**, namely events beyond the Bank's control that may disrupt its operational activities, business processes, and customer services.

Accordingly, to ensure an effective Operational Risk Management implementation, the Bank conducts processes of identifying, measuring, monitoring, and controlling operational risks arising from all business activities. In addition, to ensure that operational risk remains within the Bank's acceptable risk level, the Bank continuously applies effective operational risk mitigation and control measures.

The primary objective of operational risk management is to minimize the likelihood and impact of negative events arising from failures in internal processes, human error, system failures, and/or external events.

Operational risk events are generally categorized into the following types:

1. Internal fraud
2. External fraud
3. Employment practices and workplace safety
4. Clients, products, and business practices
5. Damage to physical assets
6. Business disruption and system failures
7. Execution and processing errors

The detailed operational risk management process is described as follows:

- 1) Operational Risk Identification
The operational risk identification process is conducted by exploring and inventorying various issues that may cause losses to the Bank, both those that have occurred in the past (actual) and those that are expected to occur in the future (potential). The inventory of operational risk issues is based on the frequency of occurrence and the level of impact, or loss events (the level of loss that may arise from an operational risk event).

The sources of risk issue identification include:

- a. Risk owners
Head Office Operations, branch offices, and other work units as risk owners collect operational risk issues through self-assessment or loss event reporting.
- b. Financial statements
The balance sheet, income statement, and detailed account breakdowns are used as sources for operational risk identification, including through the assessment of account reasonableness.
- c. Audit findings

Kemungkinan terjadinya suatu risiko diukur dengan frekuensi terjadinya permasalahan yang diperoleh dari data historis pada suatu periode tertentu (sering disebut <i>likelihood</i>) Menilai dampak risiko
Dampak adalah seberapa besar akibat yang harus ditanggung Bank atas terjadinya suatu risiko, baik kualitatif maupun kuantitatif. Setiap risk issue harus diperhitungkan dampaknya mulai dari yang "insignificant" diberi skor 1, "minor" diberi skor 2, "moderate" diberi skor 3, "significant" diberi skor 4, "major to catastrophic" diberi skor 5, perhitungan dari rating dampak berkaitan dengan kerugian yang mungkin akan ditanggung oleh Bank. Setelah skor frekuensi dan dampak suatu risiko dihitung bobotnya, maka peringkat risiko inheren dapat dihitung dengan mengalikan skor frekuensi (<i>likelihood</i>) dengan skor dampak. Pengelompokan peringkat risiko inheren
Tujuan dari pengelompokan ini adalah untuk menjadi pedoman dan acuan dalam pelaksanaan manajemen risiko operasional pada tahap selanjutnya, yaitu pemantauan dan pengendalian risiko. B. Kebijakan Manajemen Risiko Operasional

Bank melakukan pengelolaan risiko di seluruh organisasi Bank. Ketentuan ini mengatur prinsip-prinsip utama dalam pengelolaan risiko operasional termasuk media atau alat (tools) yang digunakan dalam proses manajemen risiko yang meliputi proses identifikasi, pengukuran, pemantauan dan pengendalian risiko.

Risiko operasional merupakan salah satu jenis risiko yang dapat menjadi pemicu terjadinya jenis risiko lainnya dan dapat menimbulkan kerugian baik finansial maupun non finansial, oleh karena itu Bank wajib menerapkan manajemen risiko operasional yang efektif, melalui proses identifikasi, mengukur, memantau, dan mengendalikan risiko operasional yang terekspos pada semua aktivitas fungsional Bank, melalui beberapa alat atau media namun tidak terbatas seperti:

- 1) **Loss Event Database**
Merupakan sarana pencatatan atas insiden akibat risiko operasional ke dalam sistem. Pencatatan tersebut digunakan sebagai: lesson learn, perhitungan regulatory capital charge, tracking penyelesaian pada action plan untuk mitigasi kedepannya dan insiden dengan risiko yang relevan sebagai bahan back testing atas hasil assessment risiko yang dilakukan. Implementasi LED didukung dengan prinsip lengkap, akurat dan terkini.
- 2) **Risk Control Self Assessment (RCSA)**
Merupakan risk library risiko dan kontrol utama atas risiko operasional yang ada di Bank dengan hasil assessment atas risiko inheren maupun residual. Dimana akan dilakukan assessment secara kuartal untuk melihat profil risiko operasional Bank secara keseluruhan. Implementasi RCSA didukung dengan prinsip accountable, independent dan transparant.
- 3) **Key Risk Indicator (KRI)**
Adalah indikator-indikator risiko utama/ yang memiliki pengaruh signifikan terhadap pencapaian tujuan obyektif dan/ atau Key Performance Indikator operasional dan bisnis Bank yang harus dipantau untuk memberikan indikasi awal (early warning) apabila terjadi kecenderungan yang negatif sehingga memicu untuk segera dilakukan investigasi lebih lanjut (trigger event). Dalam hal ini, jika berdasarkan hasil evaluasi ditemukan indikasi adanya peningkatan risiko yang signifikan, maka harus segera dilakukan tindak lanjut penanganan (action plan).
- 4) **Laporan Profil Risiko Operasional**
Menggambarkan tingkat risiko dan kualitas kontrol yang dimiliki Bank. Profil risiko operasional mencakup penilaian terhadap risiko inheren dan penilaian terhadap kualitas penerapan Manajemen Risiko yang mencerminkan tata kelola risiko (risk governance), kerangka manajemen risiko, sistem informasi dan sumber daya manusia, serta sistem pengendalian risiko (risk control system). Dalam melakukan penilaian profil risiko operasional, Bank wajib mengacu pada ketentuan dari regulator yang mengatur mengenai penilaian tingkat Kesehatan Bank Umum maupun ketentuan lainnya seperti ketentuan terkait Perhitungan Aset Tertimbang Menurut Risiko Untuk Risiko Operasional Dengan Menggunakan Pendekatan Standar Bagi Bank Umum khususnya tentang pelaporan penerapan manajemen risiko untuk risiko operasional.
- 5) **IAM (Issues & Actions Management)**
Pencatatan isu atas hasil dari penggunaan perangkat manajemen risiko operasional maupun secara self identified beserta action plan sebagai bahan tracking bagi manajemen dan bukti atas management control awareness yang tinggi atas kelemahan-kelemahan kontrol yang ada.

B. Operational Risk Management Policy

The Bank manages risk across the entire organization. This policy sets out the key principles of operational risk management, including the tools and instruments used in the risk management process, which cover risk identification, measurement, monitoring, and control processes.

Operational risk is one of the risk types that can trigger other risk types and may result in both financial and non-financial losses. Therefore, the Bank is required to implement an effective operational risk management framework through the processes of identifying, measuring, monitoring, and controlling operational risk exposures across all functional activities of the Bank, using various tools and systems, including but not limited to the following:

- 1) **Loss Event Database**
A system used to record operational risk-related incidents. The recorded data is utilized for lessons learned, calculation of regulatory capital charges, tracking action plans for future mitigation, and as relevant risk events for back-testing risk assessment results. The implementation of the LED is supported by principles of completeness, accuracy, and timeliness.
- 2) **Risk Control Self Assessment (RCSA)**
A risk library of key risks and controls related to operational risk within the Bank, including assessment results of both inherent and residual risk. Assessments are conducted quarterly to evaluate the overall operational risk profile of the Bank. The implementation of RCSA is supported by principles of accountability, independence, and transparency.
- 3) **Key Risk Indicator (KRI)**
Indicators that have significant influence on the achievement of operational and business objectives and/ or Key Performance Indicators (KPIs) of the Bank. KRIs are monitored to provide early warning signals of negative trends that may trigger further investigation. If evaluation results indicate a significant increase in risk, immediate follow-up actions (action plans) are required.
- 4) **Operational Risk Profile Report**
A report that reflects the level of risk and quality of controls within the Bank. The operational risk profile includes assessment of inherent risk and the quality of risk management implementation, which reflects risk governance, risk management framework, information systems, human resources, and risk control systems. In conducting this assessment, the Bank complies with applicable regulatory requirements, including those related to bank soundness assessment and calculation of Risk-Weighted Assets (RWA) for operational risk using the Standardized Approach for Commercial Banks, particularly reporting requirements for operational risk management implementation.
- 5) **Issues & Actions Management (IAM)**
A system for recording issues identified through operational risk management tools or self-identification, along with corresponding action plans. This serves as a tracking mechanism for management and demonstrates strong management control awareness of existing control weaknesses.

Analisis Kualitatif Qualitative Analysis

2 Struktur dan organisasi atas manajemen dan fungsi kontrol terkait risiko operasional

A. Dalam perkembangan bisnis dan kompleksitas Bank yang semakin meningkat sehingga diperlukan upaya-upaya peningkatan efektivitas proses manajemen risiko dan budaya manajemen risiko ke seluruh jajaran organisasi Bank melalui pendekatan 3 (Three) Line of Defense.

Structure and Organization of Operational Risk Management and Control Functions

A. In line with the increasing development of business activities and the growing complexity of the Bank, continuous efforts are required to enhance the effectiveness of the risk management process and strengthen the risk management culture across all levels of the organization through the Three Lines of Defense approach.

1) Pemilik Risiko (Risk Owner)/All Business Units

Unit yang melakukan aktivitas operasional dan bisnis Bank, berada di garis depan dan bertindak sebagai pertahanan lapis pertama.

Unit ini diharapkan memastikan adanya lingkungan pengendalian yang kondusif, menerapkan kebijakan manajemen risiko yang telah ditetapkan secara penuh kesadaran dengan mempertimbangkan faktor risiko dalam keputusan dan tindakan yang dilakukan, serta mampu menunjukkan adanya pengendalian internal yang efektif, pemantauan & transparansi terhadap efektivitas pengendalian internal tersebut.

2) Satuan Kerja Manajemen Risiko (SKMR), Satuan Kerja Kepatuhan (SKK) dan Unit Kerja Risk Business Control

Pertahanan lapis kedua di mana unit ini diharapkan untuk bertanggung jawab dalam mengembangkan dan memantau implementasi manajemen risiko dan kepatuhan Bank secara keseluruhan serta melakukan pengawasan, pemantauan, dan pelaporan risiko-risiko Bank.

3) Satuan Kerja Audit Intern (SKAI)

Pertahanan lapis ketiga yang bersifat independen terhadap fungsi-fungsi lainnya dan diharapkan melakukan review dan evaluasi terhadap aktivitas operasional dan bisnis Bank dan implementasi risiko secara keseluruhan serta memastikan bahwa pertahanan lapis pertama dan kedua berjalan sesuai dengan ketentuan yang berlaku.

B. Struktur organisasi Bank senantiasa dikinikan dengan memperhatikan strategi bisnis, kecukupan, dan kualitas sumber daya manusia maupun pemisahan tugas dan wewenang dari masing-masing fungsi. Guna meningkatkan proses pengendalian dan budaya manajemen risiko operasional, Bank memiliki Unit Kerja Risk Business Control yang bertindak sebagai manajer risiko operasional dengan melakukan fungsi pemantauan dan pelaporan hasil pengelolaan risiko operasional di Cabang/Distribution/Divisi tertentu.

1) Risk Owner / All Business Units

Units performing the Bank's operational and business activities serve as the frontline and act as the first line of defense.

These units are expected to ensure a conducive control environment, fully implement established risk management policies by considering risk factors in all decisions and actions, and demonstrate effective internal controls, monitoring, and transparency over the effectiveness of such controls.

2) Risk Management Work Unit (SKMR), Compliance Work Unit (SKK), and Risk Business Control Unit

These functions represent the second line of defense, responsible for developing and monitoring the overall implementation of the Bank's risk management and compliance framework, as well as performing supervision, monitoring, and reporting of the Bank's risk exposures.

3) Internal Audit Work Unit (SKAI)

This function represents the third line of defense and is independent from other functions. It is responsible for reviewing and evaluating the Bank's operational and business activities as well as overall risk implementation, and ensuring that the first and second lines of defense are operating in accordance with applicable regulations.

B. The Bank's organizational structure is continuously updated by taking into account business strategy, adequacy and quality of human resources, as well as clear segregation of duties and authorities across each function. In order to enhance the control process and strengthen the operational risk management culture, the Bank has established a Risk Business Control Unit that acts as an operational risk manager by performing monitoring and reporting functions on the results of operational risk management within selected Branches/Distribution networks/Divisions.

5	Penjelasan mitigasi risiko dan transfer risiko yang digunakan dalam manajemen untuk Risiko Operasional. Penerapan teknologi informasi dan infrastruktur pendukung Bank menuju proses kematangan ditandai dengan terus dilakukan proses perubahan (enhancement). Setiap pengembangan telah memenuhi tahapan-tahapan seperti perencanaan, analisa kebutuhan pengguna (User Requirement) perancangan sistem, pemrograman, uji coba sebelum diluncurkan antara lain: System Integration Test (SIT) dan User Acceptance Test (UAT) dan Product Trial Run (PTR). Bank telah memiliki sistem aplikasi yang dapat digunakan untuk mengelola data nasabah, produk, dan aktivitas Bank serta pelaporan ke Regulator. Sistem aplikasi terus dikembangkan dan disesuaikan dengan pengembangan volume transaksi dan bisnis Bank dengan tujuan untuk mengurangi risiko operasional khususnya kesalahan yang disebabkan oleh faktor manusia (human error) dan meningkatkan efisiensi Seiring dengan perkembangan produk, aktivitas dan teknologi informasi serta infrastruktur pendukung, Bank senantiasa melakukan pemantauan terhadap pencatatan, pelaporan, dan rencana aksi terkait Laporan Kejadian Kerugian Risiko Operasional (Loss Event Database), Risk Control Self Assessment (RCSA), Key Risk Indicator (KRI) dan Issue & Action Management (IAM) yang disampaikan/dilaporkan oleh Unit Kerja Pemilik Risiko secara berkala. Informasi dan Analisa atas laporan loss event, RCSA, KRI, dan IAM dilaporkan kepada Manajemen secara berkala. Bank senantiasa melakukan pengembangan alat pengukuran manajemen risiko operasional tersebut sehingga diharapkan eksposur risiko operasional dapat dideteksi lebih dini. Sejalan dengan semakin meningkatnya volume dan bisnis Bank, pelatihan dan pengembangan terhadap karyawan Bank terus dilakukan untuk meningkatkan kualitas dan kemampuannya sehingga dapat meminimalkan kejadian risiko yang terjadi salah satunya telah dilakukan risk awareness yang dilakukan secara berkala. Proses peningkatan kemampuan karyawan senantiasa dilakukan secara berkala melalui skema-skema rencana pengembangan karyawan dan rencana pelatihan sesuai dengan jenjang jabatan, kebutuhan maupun aspirasi dari karyawan. Gedung-gedung kantor Bank Mandiri Taspen dibuatkan asuransi untuk memitigasi terjadinya kerugian akibat risiko Operasional (eksternal event) seperti gempa, banjir, kebakaran dll. Selain itu untuk produk –produk kredit yang menggunakan agunan juga dibuatkan asuransi kerugian seperti akibat dari kebakaran, bencana alam dan lain sebagainya, khusus segmen kredit komersil dan konsumen terdapat asuransi jiwa untuk debitur hal ini juga dilakukan untuk memitigasi kerugian Operasional diakibatkan oleh eksternal event. Untuk mendukung kelangsungan operasional bisnis Bank ketika terjadi bencana/ gangguan, maka Bank memiliki Business Continuity Management agar operasional bisnis Bank saat terjadi bencana/ gangguan tetap dapat berlangsung. Standar Prosedur ini memberikan aturan untuk memastikan bahwa alur proses kerja, orang dan Teknologi Informasi (TI) tetap tersedia untuk mendukung operasional bisnis yang dibutuhkan dalam kondisi interim atau saat terjadi bencana/ gangguan sehingga Bank dapat melanjutkan operasional utamanya. Dalam pelaksanaannya kita melakukan uji coba DRP (Disaster Recovery Plan), minimal 1 kali dalam 1 tahun untuk aplikasi yang critical.	Explanation of Risk Mitigation and Risk Transfer Used in Operational Risk Management The implementation of information technology and supporting infrastructure at the Bank has been continuously enhanced as part of its maturity development process. Each system development follows structured stages, including planning, user requirement analysis, system design, programming, and pre-implementation testing, such as System Integration Test (SIT), User Acceptance Test (UAT), and Product Trial Run (PTR). The Bank has developed application systems that support the management of customer data, products, banking activities, and regulatory reporting. These systems are continuously enhanced and adjusted to accommodate increasing transaction volumes and business growth, with the objective of reducing operational risk, particularly human error, and improving operational efficiency. In line with the development of products, business activities, and supporting technology infrastructure, the Bank continuously monitors recording, reporting, and action plans related to the Loss Event Database (LED), Risk and Control Self Assessment (RCSA), Key Risk Indicator (KRI), and Issue & Action Management (IAM), which are submitted by risk-owning work units on a regular basis. Information and analysis from these reports are periodically submitted to Management. The Bank continuously enhances these operational risk management tools to enable earlier detection of operational risk exposures. As business volume continues to grow, the Bank also conducts ongoing employee training and development programs to improve skills and competencies, thereby minimizing the occurrence of risk events. Risk awareness programs are conducted periodically, while employee capability development is carried out through structured training and development plans aligned with job levels, needs, and employee aspirations. To mitigate operational risk arising from external events, Bank Mandiri Taspen insures its office buildings against potential losses caused by risks such as earthquakes, floods, fires, and other disasters. In addition, credit products secured by collateral are also covered by insurance against losses due to fire, natural disasters, and similar events. For commercial and consumer credit segments, credit life insurance is also provided for debtors as an additional mitigation measure against operational losses caused by external events. To ensure business continuity during disasters or disruptions, the Bank implements a Business Continuity Management framework. This framework ensures that business processes, personnel, and information technology systems remain available to support critical operations during interim conditions or disruptions, enabling the Bank to continue its core operations. As part of its implementation, the Bank conducts Disaster Recovery Plan (DRP) testing at least once a year for critical applications.

Risiko Hukum

Legal Risk

Risiko hukum adalah risiko akibat tuntutan hukum dan/atau kelemahan aspek yuridis. Pengelolaan risiko hukum antara lain dilakukan dengan mendokumentasi, mengelola kelengkapan dan keabsahan dokumen, meminimalisir kerugian/biaya yang terkait dengan kasus hukum dan menghindari pelanggaran terhadap regulasi perbankan dan ketentuan hukum.

Risiko hukum inheren dinilai berdasarkan potensial kerugian atas kasus-kasus yang terjadi di Bank Mandiri Taspen dan Perusahaan Anak yang sedang dalam proses di pengadilan dibagi dengan modal Bank Mandiri Taspen dan modal konsolidasian. Parameter yang digunakan untuk menghitung potensial kerugian atas kasus yang sedang dalam proses di pengadilan adalah dasar gugatan (kasus posisi), nilai perkara, dan dokumentasi hukum.

Legal risk is the risk arising from legal claims and/or weaknesses in juridical aspects. Legal risk management is carried out, among others, through documentation, management of the completeness and validity of documents, minimization of losses/costs associated with legal cases, and avoidance of violations of banking regulations and legal provisions.

Inherent legal risk is assessed based on the potential losses arising from cases occurring at Bank Mandiri Taspen and its Subsidiaries that are currently under court proceedings, divided by the capital of Bank Mandiri Taspen and consolidated capital. The parameters used to calculate potential losses from cases under court proceedings include the basis of the claim (case position), case value, and legal documentation.

Tabel Pengungkapan Kualitatif Umum (Risiko Hukum)
Table of General Qualitative Disclosure (Legal Risk)

a. Organisasi Manajemen Risiko Hukum Legal Risk Management Organization	Bank mendefinisikan Risiko hukum sesuai dengan Peraturan Otoritas Jasa Keuangan Nomor 18/POJK.03/2016 tentang Penerapan Manajemen Risiko Bagi Bank Umum, sebagai risiko akibat tuntutan hukum dan/atau kelemahan yuridis. Risiko hukum timbul antara lain karena ketiadaan peraturan perundang-undangan yang mendukung atau kelemahan perikatan seperti tidak dipenuhinya syarat sah-nya kontrak atau pengikatan agunan yang tidak sempurna. Organisasi pengelolaan risiko hukum dilakukan oleh Unit Legal di Divisi Corporate Secretary & Legal dengan melaksanakan fungsi, tugas, dan tanggung jawab terkait regulatory, advisory, litigasi, advokasi dan bantuan hukum, edukasi dan transformasi di bidang hukum serta pengelolaan risiko hukum pada Bank. The Bank defines legal risk in accordance with Financial Services Authority (OJK) Regulation No. 18/POJK.03/2016 concerning the Implementation of Risk Management for Commercial Banks, as the risk arising from legal claims and/or legal weaknesses. Legal risk arises, among others, due to the absence of supporting laws and regulations or weaknesses in contractual arrangements, such as non-fulfilment of the validity requirements of contracts or imperfect collateral binding. The legal risk management organization is carried out by the Legal Unit under the Corporate Secretary & Legal Division, which performs functions, duties, and responsibilities related to regulatory affairs, advisory services, litigation, advocacy and legal assistance, legal education and transformation, as well as legal risk management within the Bank.
b. Mekanisme Pengendalian Risiko Hukum Legal Risk Control Mechanism	Mekanisme pengelolaan risiko yang meliputi proses identifikasi pengukuran, pemantauan dan pengendalian mengacu kepada ketentuan yang berlaku mengenai manajemen risiko. Setiap unit kerja pemilik dan/atau pelaksana produk maupun penyelenggara aktivitas wajib mengidentifikasi dan mengelola risiko secara maksimal, namun tidak terbatas pada risiko hukum yang pada dasarnya melekat pada setiap produk atau aktivitas yang dibuat. sehingga hal tersebut tidak berdampak luas dan menjadi pemicu timbulnya risiko-risiko lain yang termasuk tetapi tidak terbatas pada risiko reputasi. Pengelolaan risiko hukum yang dilakukan oleh Bank Mandiri Taspen baik yang bersifat preventif maupun represif telah cukup memadai dalam melindungi kepentingan Hukum Bank Mandiri Taspen dan meminimalisir dampak finansial yang signifikan yang berkaitan dengan Bank Mandiri Taspen, hal tersebut tercermin dalam Laporan Profil Risiko Hukum Tahun 2025 yang berada pada predikat low. The risk management mechanism, which includes the processes of identification, measurement, monitoring, and control, is implemented in accordance with applicable risk management regulations. Each business unit, as the owner and/or executor of products and operational activities, is required to identify and manage risks to the fullest extent, including but not limited to legal risk, which is inherently attached to every product or activity developed. This is conducted to ensure that such risks do not have a broader impact and do not trigger the emergence of other risks, including but not limited to reputational risk. Legal risk management implemented by Bank Mandiri Taspen, both preventive and corrective in nature, has been considered adequate in protecting the legal interests of the Bank and minimizing significant financial impacts associated with the Bank. This is reflected in the Legal Risk Profile Report for 2025, which is classified as "low".

Risiko Reputasi

Reputational Risk

Risiko reputasi adalah risiko akibat menurunnya tingkat kepercayaan pemegang saham yang bersumber dari persepsi negatif terhadap Bank. Bank akan merespon secara aktif apabila timbul publikasi negatif sehingga hal-hal yang mungkin berpotensi merugikan Bank dapat dideteksi lebih awal.

Manajemen risiko reputasi dilakukan oleh unit *Corporate Secretary and Legal*. Beberapa hal yang dilakukan dalam mengelola risiko reputasi unit kesekretariatan melakukan manajemen pemberitaan, melakukan pengelolaan dalam monitoring opini/komentar di media masa dan melakukan pengelolaan komplain/keluhan nasabah.

Reputational risk is the risk arising from a decline in the level of shareholder confidence resulting from negative perceptions toward the Bank. The Bank actively responds to any negative publicity to ensure that potential adverse impacts can be identified at an early stage.

Reputational risk management is carried out by the *Corporate Secretary and Legal* unit. Key activities undertaken include media management, monitoring and managing opinions/comments in mass media, as well as handling customer complaints and grievances.

a. **Kebijakan dan Prosedur**

Implementasi manajemen risiko reputasi mengacu pada pedoman penerapan manajemen risiko serta kebijakan dan prosedur lainnya.

b. **Proses**

Proses yang dilakukan dalam mengelola risiko reputasi antara lain melakukan monitoring dan evaluasi terhadap keluhan, komentar dan masukan yang berkembang di media masa dan pemilihan strategi dalam merespon opini yang berkembang.

a. **Policies and Procedures**

The implementation of reputational risk management refers to risk management guidelines as well as other relevant policies and procedures.

b. **Process**

The processes undertaken in managing reputational risk include monitoring and evaluating complaints, comments, and feedback circulating in the mass media, as well as determining appropriate strategies to respond to emerging public opinions.

Tabel Pengungkapan Kualitatif Umum (Risiko Reputasi)
Table of General Qualitative Disclosure (Reputational Risk)

a. Organisasi Manajemen Risiko Reputasi Reputation Risk Management Organization	
Risiko reputasi merupakan risiko akibat menurunnya tingkat kepercayaan stakeholder yang bersumber dari persepsi negatif terhadap Bank. Pengelolaan risiko reputasi dikoordinasikan oleh Divisi Corporate Secretary & Legal dengan dukungan unit kerja terkait, seperti unit customer experience, Legal, IT Product Delivery & Fraud Risk, IT Application & Data Management, IT Service & Support dan Business Continuity Management. Pengelolaan risiko reputasi ini mengacu pada ketentuan internal dan peraturan yang berlaku. Dalam implementasinya, risiko reputasi juga dikelola dengan penciptaan persepsi positif melalui pemuatan artikel di media konvensional dan konten positif di media social. Mekanisme Pengelolaan Risiko Reputasi Risiko reputasi dikelola melalui 4 (empat) tahapan mekanisme yaitu identifikasi, pengukuran, pemantauan dan pengendalian yang dikoordinasikan oleh Divisi Corporate Secretary & Legal dengan mengacu pada ketentuan Standar Prosedur Corporate Secretary. Perwujudan keempat tahap tersebut dapat dilihat pada masing-masing aktivitas Corporate Secretary yang memiliki risiko reputasi, seperti misalnya aktivitas bank sebagai perusahaan yang diwajibkan untuk menyampaikan laporan keuangan. Pada aktivitas tersebut, dapat diidentifikasi risiko reputasi berupa keterlambatan, kesalahan, dan ketidaksesuaian dalam penyampaian laporan yang disebabkan antara lain oleh individu yang kurang mengetahui atau memahami kewajiban penyampaian keterbukaan informasi ataupun kurangnya pengawasan dan pengecekan dari supervisor. Untuk mengendalikan daftar kewajiban penyampaian keterbukaan dan/atau supervisor dengan adanya melakukan proses check & recheck. Adapun jika risiko reputasi sudah terjadi dan berdampak pada adanya persepsi negatif pada perusahaan, maka dapat dilakukan aktivitas peredaman dampak kejadian risiko reputasi tersebut. Salah satunya melalui pemuatan artikel positif di media cetak, media online dan media elektronik serta konten positif di media sosial untuk menetralkan persepsi negatif yang sempat terbentuk. Artikel positif ini bisa berdasarkan aktivitas bisnis dan sosial maupun dukungan kepada program-program pemerintah dengan mengacu pada ketentuan Standar Prosedur Corporate Secretary. Implementasi Kebijakan Pengelolaan Risiko Reputasi Sebagai bentuk implementasi kebijakan pengelolaan risiko reputasi, Bank Mandiri Taspen memastikan bahwa seluruh unit kerja telah melakukan fungsi masing-masing dengan baik sesuai ketentuan yang berlaku. Adapun juga terjadi kejadian yang berpotensi berdampak pada risiko reputasi terkait tugas pokok dan fungsi unit kerja tertentu, maka unit kerja tersebut berkewajiban memberikan informasi secara rinci kepada Corporate Secretary pada kesempatan pertama agar dapat segera mengelola kejadian tersebut untuk meminimalisir dampak yang ditimbulkan.	Reputation risk is defined as the risk arising from a decline in stakeholder trust, which originates from negative perceptions of the Bank. Reputation risk management is coordinated by the Corporate Secretary & Legal Division, supported by relevant work units such as Customer Experience, Legal, IT Product Delivery & Fraud Risk, IT Application & Data Management, IT Service & Support, and Business Continuity Management. The management of reputation risk is conducted in accordance with internal policies and applicable regulations. In its implementation, reputation risk is also managed through the creation of positive perception by publishing articles in conventional media and positive content across social media platforms. Reputation Risk Management Mechanism Reputation risk is managed through four (4) stages, namely identification, measurement, monitoring, and control, which are coordinated by the Corporate Secretary & Legal Division in accordance with the Corporate Secretary Standard Operating Procedures. The implementation of these stages is reflected in Corporate Secretary activities that carry reputation risk exposure, such as the Bank's obligation to submit financial reports. In such activities, reputation risk may be identified in the form of delays, errors, or inaccuracies in reporting, which may arise from individuals who are not fully aware of or do not properly understand disclosure obligations, or due to insufficient supervision and review by supervisors. To mitigate such risks, the Bank implements a check-and-recheck process to ensure proper monitoring of disclosure obligations and supervisory oversight. If reputation risk has already materialized and resulted in negative perception of the Company, mitigation actions are undertaken to reduce its impact. One of the key measures includes the publication of positive articles in print, online, and electronic media, as well as positive content on social media platforms to neutralize previously formed negative perceptions. These positive publications may be based on business and social activities, as well as support for government programs, in accordance with the Corporate Secretary Standard Operating Procedures. Implementation of Reputation Risk Management Policy As part of the implementation of reputation risk management policies, Bank Mandiri Taspen ensures that all work units perform their respective functions properly in accordance with applicable regulations. In the event of any occurrence that has the potential to impact reputation risk related to the duties and functions of a particular work unit, such unit is required to immediately provide detailed information to the Corporate Secretary at the earliest opportunity, so that appropriate actions can be taken promptly to minimize potential impacts.

Saat ini Bank Mandiri Taspen memiliki saluran internal untuk menerima keluhan dan pertanyaan dari nasabah, seperti call center 14024, website, kantor cabang, termasuk media cetak, online, elektronik dan media sosial resmi. Seluruh keluhan dan pertanyaan tersebut diteruskan unit Customer Experience untuk mendapatkan penanganan dan penyelesaian. Adapun tidak hanya dari saluran internal tersebut, unit Customer Experience juga akan menangani dan menyelesaikan keluhan nasabah yang datang dari sumber eksternal, yaitu melalui media cetak, online, elektronik serta media sosial.

Seluruh kegiatan tersebut merupakan bagian dari dukungan Divisi Corporate Secretary & Legal kepada penguatan reputasi positif perusahaan, terutama dari pandangan stakeholder.

Currently, Bank Mandiri Taspen provides internal channels for receiving customer complaints and inquiries, such as the call center 14024, website, branch offices, as well as official print, online, electronic media, and social media channels. All complaints and inquiries are forwarded to the Customer Experience unit for handling and resolution. In addition, the Customer Experience unit also handles complaints originating from external sources, including print, online, electronic media, and social media platforms.

All of these activities are part of the Corporate Secretary & Legal Division's support in strengthening the Company's positive reputation, particularly from the perspective of stakeholders.

b. Kebijakan dan Mekanisme Peningkatan Kualitas Pelayanan Nasabah dan Pemangku Kepentingan Lainnya
Policy and Mechanism for Enhancing Customer Service Quality and Other Stakeholders

Agar seluruh pengaduan nasabah tertangani dengan proses yang cepat dan efektif, Bank Mandiri Taspen melakukan koordinasi dengan gambar tahapan alur pengaduan nasabah sebagai berikut:

In order to ensure that all customer complaints are handled in a timely and effective manner, Bank Mandiri Taspen conducts coordination through the customer complaint handling flow as illustrated in the following stages:

Flow Pengaduan Nasabah
Customer Complaint Flow

Seluruh pengaduan yang sudah diterima baik dari contact center, APPK OJK, maupun ke cabang dan diberi penjelasan langsung oleh Petugas Cabang terkait penyelesaian pengaduan. Kemudian, apabila membutuhkan eskalasi terkait penyelesaian pengaduan akan diteruskan untuk di monitoring oleh Unit Complaint Handling. Hal ini dilakukan untuk memastikan kepada nasabah bahwa penyelesaian pengaduan dilakukan sesuai dengan Service Level Agreement (SLA) yang sudah ditetapkan. Adapun Unit Pengelola Panduan akan berkoordinasi dengan Unit Penyelesaian Panduan dalam melakukan monitoring dan memberikan tanggapan terkait penyelesaian pengaduan di media terkait. Kemudian, Unit Penyelesaian Pengaduan nasabah juga terbagi atas 2 (dua) sub unit pengaduan seperti Unit penyelesaian pengaduan E- Channel akan dimonitoring langsung oleh Divisi Central Operation yang berkolaborasi dengan BI- Fast, Arta Jasa, Jalin Pembayaran Nusantara, serta Bank Mandiri. Sedangkan terkait pengaduan Non E-Channel, akan dilakukan monitoring oleh Distribution, Kantor Cabang, KCP, dan berbagai Divisi sebagai berikut :

1. Divisi Distribution Portfolio Management (DPM),
2. Divisi Corporate Secretary & Legal,
3. Divisi Pension Business,
4. Divisi Credit Operation,
5. Divisi Risk Management,
6. Divisi Digital Banking Product,
7. Divisi Central Operation,

Dalam monitoring penyelesaian pengaduan nasabah Non E-Channel Bank Mantap akan melibatkan pihak Kepolisian dan sesuai ketentuan Hukum yang berlaku dan sah di Indonesia.

Sebagai wujud pelayanan prima yang diberikan oleh Bank Mandiri Taspen kepada nasabah, Bank Mandiri Taspen selalu berusaha untuk segera menindaklanjuti dan menyelesaikan pengaduan maupun keluhan yang disampaikan oleh nasabah. Adapun dari 8041 pengaduan nasabah yang terjadi pada tahun 2025, sejumlah 8041 atau 100% aduan telah terselesaikan. Hal tersebut membuktikan komitmen Bank Mandiri Taspen dalam memberikan pelayanan terbaik kepada nasabah sebagai salah satu stakeholder.

Selain itu dengan tingginya tingkat penyelesaian aduan nasabah maka kepercayaan nasabah turut meningkat yang secara tidak langsung meningkatkan kinerja keuangan dan laba bersih Bank Mandiri Taspen, sehingga terdapat peningkatan jumlah dividen yang dapat diberikan Bank Mandiri Taspen kepada pemegang saham.

All complaints received through the contact center, OJK Integrated Consumer Complaint Service (APPK), as well as branch offices are addressed directly by branch officers, who provide explanations regarding complaint resolution. If escalation is required, the complaint is forwarded to the Complaint Handling Unit for monitoring. This process is carried out to ensure that complaint resolution is completed in accordance with the established Service Level Agreement (SLA). The Complaint Handling Unit coordinates with the Complaint Resolution Unit in monitoring and providing responses related to complaint handling across relevant media channels. The Customer Complaint Resolution Unit is further divided into two sub-units: E-Channel complaint handling and Non E-Channel complaint handling. E-Channel complaints are monitored directly by the Central Operations Division, in collaboration with BI-FAST, Arta Jasa, Jalin Pembayaran Nusantara, and Bank Mandiri. Meanwhile, Non E-Channel complaints are monitored by Distribution, Branch Offices, Sub-Branch Offices (KCP), and several divisions, namely:

1. Distribution Portfolio Management (DPM) Division
2. Corporate Secretary & Legal Division
3. Pension Business Division
4. Credit Operation Division
5. Risk Management Division
6. Digital Banking Product Division
7. Central Operation Division

In the monitoring of Non E-Channel complaint resolution, Bank Mandiri Taspen also involves the Police and complies with applicable and legally recognized Indonesian laws and regulations.

As part of its commitment to excellent service, Bank Mandiri Taspen consistently ensures prompt follow-up and resolution of all customer complaints. In 2025, out of 8,041 customer complaints received, all 8,041 complaints or 100% were resolved. This achievement reflects the Bank's commitment to delivering the best service to customers as one of its key stakeholders.

Furthermore, the high complaint resolution rate has contributed to increased customer trust, which indirectly supports improvements in the Bank's financial performance and net profit. As a result, this has also led to an increase in dividends distributed by Bank Mandiri Taspen to its shareholders.

c. **Pengelolaan Risiko Reputasi Saat Krisis** Reputation Risk Management During Crisis

Dalam hal terjadi krisis atas reputasi perusahaan dan bersifat masif sehingga menimbulkan dampak yang signifikan terhadap kepercayaan para Pemangku Kepentingan, Bank Mandiri Taspen akan melaksanakan implementasi rencana aksi yang bersifat segera untuk meminimalisir dampak krisis, antara lain menyiapkan strategi pengelolaan masalah, menentukan narasumber internal dan agenda eksekusi penanganan krisis, serta evaluasi secara keseluruhan.

In the event of a crisis affecting the Company's reputation that is widespread and results in a significant impact on stakeholder confidence, Bank Mandiri Taspen shall implement an immediate action plan to mitigate the impact of the crisis. Such measures include, among others, preparing issue management strategies, determining internal spokespersons, establishing execution agendas for crisis handling, and conducting an overall post-implementation evaluation.

Risiko Strategik

Strategic Risk

Risiko strategik adalah risiko akibat ketidaktepatan dalam pengambilan dan/atau pelaksanaan suatu keputusan strategik serta kegagalan dalam mengantisipasi perubahan lingkungan bisnis. Pengelolaan risiko strategik antara lain dilakukan dengan mengoptimalkan sumber daya yang ada dan melakukan pengawasan terhadap realisasi Rencana Bisnis Bank (RBB), dan melakukan penyesuaian kebijakan dan prosedur terhadap perubahan eksternal.

Pengelolaan risiko strategik dilakukan oleh unit perencanaan di bawah pengawasan aktif Direktur Finance, Risk and Operations. Manajemen Risiko Strategik dilakukan melalui serangkaian proses perencanaan strategis (*planning and bugeting*) yang mencakup penyelarasan strategi perusahaan dengan strategi unit serta target bankwide. Dokumen perencanaan strategis meliputi:

- *Corporate Plan*, disusun 5 (lima) tahun sekali.
- *Business Plan*, disusun 1 (satu) tahun sekali.

a. Kebijakan dan Prosedur

Implementasi manajemen risiko strategik mengacu pada Pedoman Penerapan Manajemen Risiko serta kebijakan dan prosedur terkait lainnya.

b. Proses

Mekanisme untuk mengukur kemajuan yang dicapai dari rencana bisnis yang ditetapkan dengan membandingkan target dengan realisasi bisnis perusahaan secara bulanan, triwulanan dan semesteran.

Strategic risk is the risk arising from inaccuracies in decision-making and/or the implementation of strategic decisions, as well as failure to anticipate changes in the business environment. Strategic risk management is carried out, among others, by optimizing available resources, monitoring the realization of the Bank Business Plan (RBB), and adjusting policies and procedures in response to external changes.

Strategic risk management is performed by the planning unit under the active supervision of the Director of Finance, Risk and Operations. Strategic Risk Management is implemented through a series of strategic planning processes (*planning and budgeting*), which include the alignment of corporate strategy with unit strategies and bankwide targets. Strategic planning documents include:

- *Corporate Plan*, prepared every 5 (five) years.
- *Business Plan*, prepared annually.

a. Policies and Procedures

The implementation of strategic risk management refers to the Risk Management Implementation Guidelines as well as other relevant policies and procedures.

b. Process

Mechanisms to measure progress against the established business plan are conducted by comparing targets with the Company's actual business performance on a monthly, quarterly, and semi-annual basis.

3. Evaluation

Pada tahap ini, Bank Mandiri Taspen melakukan review atas pencapaian kinerja seluruh unit kerja berdasarkan *Key Performance Indicators* (KPI) yang dilengkapi dengan beberapa matriks pendukung. Nilai pencapaian KPI tersebut juga menjadi dasar untuk pembagian remunerasi tahunan untuk unit kerja serta pegawai.

To support the achievement of business targets and strategic aspirations, Bank Mandiri Taspen implements a *performance management* process consisting of three cycles, namely *planning, monitoring, and evaluation*, as a framework for measuring the achievement of business targets.

1. Planning

The *planning* process at Bank Mandiri Taspen is divided into three main components, namely:

- Preparation of the Long-Term Corporate Plan (RJPP) or *Corporate Plan* – 5-year horizon. This stage defines the Company's *grand strategy* and *high-level direction*.
- Preparation of the Bank Business Plan (RBB) – 3-year horizon. Long-term corporate aspirations are translated into *key milestones* and more specific *action plans*.
- Preparation of the Annual Work and Budget Plan (RKAP) and *Key Performance Indicators* (KPI) – 1-year horizon. The Company's aspirations, vision, and mission are translated into specific financial targets and *key performance indicators* on an annual basis.

2. Monitoring

Bank Mandiri Taspen conducts periodic and regular *monitoring* processes to ensure that business performance remains aligned with strategic aspirations. *Performance monitoring* is conducted through Board of Directors and Board of Commissioners meetings or *Performance Review* forums, which are held on a monthly basis.

3. Evaluation

At this stage, the Bank reviews the performance achievement of all work units based on *Key Performance Indicators* (KPI), supported by several additional performance metrics. The KPI results also serve as the basis for annual remuneration distribution for both work units and employees.

Risiko Tingkat Suku Bunga

Interest Rate Risk

Bank melakukan pengukuran risiko suku bunga dengan menggunakan metodologi yang dapat mengidentifikasi risiko suku bunga dari portofolio aset dan liabilitas yang sensitif terhadap perubahan suku bunga serta menentukan besaran risiko terhadap Bank.

Untuk mengendalikan risiko suku bunga tersebut, Bank menjadikan tingkat suku bunga penjaminan dari Lembaga Penjaminan Simpanan sebagai salah satu acuan dalam menetapkan tingkat suku bunga dana pihak ketiga dan tingkat suku bunga kredit. Selain itu, penghimpunan dana Bank selalu dikaitkan dengan kemampuan penyalurannya, serta diupayakan tidak terjadi negative interest gap sehingga net interest margin yang diperoleh Bank selalu dalam kondisi positif dan risiko tingkat suku bunga dapat ditekan seminimal mungkin.

Risiko tingkat suku bunga terjadi dari bermacam-macam layanan perbankan kepada nasabah meliputi penghimpunan dana (antara lain giro, tabungan dan deposito), penempatan dana (antara lain kredit yang diberikan), komitmen dan kontinjensi, serta instrumen lain yang mengandung suku bunga.

ALCO Bank yang beranggotakan Direksi dan beberapa anggota manajemen senior, bertanggung jawab dalam menetapkan kebijakan dan strategi pengelolaan risiko tingkat suku bunga di banking book serta mengawasi penerapan dan pelaksanaannya. Tujuan utama ALCO adalah mengoptimalkan hasil usaha Bank dengan tetap memperhatikan batasan-batasan risiko yang ditetapkan.

The Bank measures interest rate risk using methodologies capable of identifying interest rate risk arising from portfolios of assets and liabilities that are sensitive to changes in interest rates, as well as determining the magnitude of such risks to the Bank.

To control interest rate risk, the Bank uses the deposit insurance rate set by the Indonesia Deposit Insurance Corporation (LPS) as one of the references in determining interest rates for third-party funds and lending rates. In addition, the Bank aligns its fund-raising activities with its lending capacity and seeks to avoid a negative interest gap, thereby ensuring that the net interest margin remains positive and interest rate risk is minimized.

Interest rate risk arises from various banking services provided to customers, including fund-raising activities (such as current accounts, savings, and time deposits), fund placements (such as loans), commitments and contingencies, as well as other interest-bearing instruments.

The Bank's Asset and Liability Committee (ALCO), comprising members of the Board of Directors and senior management, is responsible for establishing policies and strategies for managing interest rate risk in the banking book, as well as overseeing their implementation and execution. The primary objective of ALCO is to optimize the Bank's financial performance while maintaining risk exposure within the established limits.

Pengembangan Kompetensi

Kebijakan dan pelaksanaan pengembangan kompetensi dapat dilihat pada Bab Profil Perusahaan.

Recruitment

Policy

New employee recruitment activities are regulated by the provisions of Standard Procedures and Technical Instructions for Human Resources which refer to Law Number 6 of 2023 concerning Job Creation. The existence of business needs and dynamics means that companies require sufficient workforce that can fulfill the Bank's business activities. As an effort to meet workforce needs, one thing that must be done is recruiting employees who are capable and competent in their fields. Bank Mandiri Taspen implements a Strategic Recruitment Plan which is carried out in accordance with current and future business needs. Employee satisfaction is conducted through pro-hire recruitment and the implementation of regular Officer Development Programs (ODP), which are aimed at producing professional, competitive and adaptive young leaders to deal with changes.

Implementation of Recruitment

In 2025, the recruitment process was carried out with the following details:

Recruitment is conducted through a selective process to produce competent, adaptive, supportive and capable employee to support the Bank's business objectives.

Competency Development

Competency development policies and implementation can be seen in the Company Profile Chapter.

Pengembangan Karir

Kebijakan

Pengembangan karir di Bank Mandiri Taspen tidak hanya berfokus pada promosi, tetapi juga mencakup peningkatan kapabilitas, perluasan kewenangan, pengembangan individu, serta peningkatan remunerasi. Seluruh aspek pengembangan karir ini telah diatur secara komprehensif dalam Standar Prosedur Sumber Daya Manusia dan Petunjuk Teknis Sumber Daya Manusia, yang mencakup mekanisme rotasi, mutasi, detasering, hingga promosi pegawai.

Pelaksanaan Pengembangan Karir

Program pengembangan karir di Bank Mandiri Taspen terbuka bagi seluruh pegawai, dengan berbagai jalur pengembangan sesuai dengan jenjang dan kebutuhan bisnis.

Bank Mandiri Taspen memiliki inisiatif terhadap program Mantap Associate (MA) yaitu kesempatan seleksi kepegawaian menjadi pegawai organik yang dilakukan secara bertahap sesuai dengan ketentuan yang berlaku. Sepanjang tahun 2025, sebanyak 57 (lima puluh tujuh) pegawai MA telah menjadi pegawai pelaksana yang ditempatkan pada posisi esensial, seperti Customer Service dan Account Officer Pensiunan, sesuai dengan kebutuhan bisnis.

Di tingkat pelaksana, pegawai dengan kinerja baik berkesempatan mengikuti *Staff Development Program* (SDP), yang dirancang untuk menyiapkan calon pemimpin masa depan sesuai kebutuhan bisnis. Pegawai yang memenuhi syarat, termasuk masa kerja minimum dan penilaian kinerja yang ditetapkan, berhak masuk dalam daftar eligibilitas promosi ke jenjang kepemimpinan. Pada tahun 2025, **Staff Development Program Angkatan 11** telah menghasilkan 29 pegawai terbaik yang kini menempati posisi officer.

Pada tingkat pimpinan, sepanjang tahun 2025 sebanyak 92 pegawai dipromosikan ke jabatan yang lebih tinggi sebagai bagian dari upaya mendukung kebutuhan bisnis yang semakin dinamis dan menantang. Promosi ini didasarkan pada evaluasi kinerja pegawai di posisi sebelumnya, termasuk konsistensi dalam mempertahankan kinerja dalam berbagai kondisi bisnis.

Bagi fresh graduate, Bank Mandiri Taspen menjalankan *Officer Development Program* (ODP), untuk merekrut talenta muda berkualitas dari berbagai universitas ternama di Indonesia. Pada tahun 2025, program *ODP Regular Angkatan 10* telah meluluskan 31 pegawai yang mengisi berbagai posisi officer. Program ini merupakan bagian dari upaya Bank Mandiri Taspen dalam menghadirkan sumber daya manusia yang siap dibentuk sesuai kebutuhan bisnis, serta mendukung pengembangan teknologi di perusahaan.

Career Development

Policy

Career development at Bank Mandiri Taspen is not only focused on promotion, but also includes increasing capability, expanding authority, individual development, and increasing remuneration. All aspects of career development have been comprehensively regulated in the Human Resources Standard Procedure and Human Resources Technical Instructions, which include rotation mechanisms, mutations, detasering, and employee promotions.

Implementation of Career Development

The career development program at Bank Mandiri Taspen is open to employees, with various development paths according to level and business needs.

Bank Mandiri Taspen has initiated the Mantap Associate (MA) program, a gradual selection process for organic employees, in accordance with applicable regulations. Throughout 2025, 57 MA employees have become executive employees, placed in essential positions, such as Customer Service and Retired Account Officers, as needed.

In the first level, Employees with good performance have the opportunity to participate in the Staff Development Program (SDP), which is designed to prepare future leaders according to business needs. Employees who meet the requirements, including minimum length of service and performance assessments set, are entitled to be included in the list of promotion eligibility to the leadership level. In 2025, **Staff Development Program Batch 11** resulted in 29 best employees, who position currently as officer.

In the leader level, during 2025, 92 employees were promoted to higher positions as part of efforts to support increasingly dynamic and challenging business needs. This promotion was based on an evaluation of employee performance in previous positions, including consistency in maintaining performance in various business conditions.

For fresh graduate, Bank Mandiri Taspen performs the Officer Development Program (ODP) to recruit quality young talents from various leading universities in Indonesia. In 2025, the Regular ODP program Batch 10 graduated 31 employees who filled various officer positions. This program is part of Bank Mandiri Taspen's efforts to provide human resources that are ready formed according to business needs and support technology development in the company.

Bank Mandiri Taspen senantiasa mengutamakan kesempatan promosi bagi pegawai internal yang dinilai memiliki kompetensi dan kapabilitas untuk menempati posisi strategis. Hal ini mencerminkan bahwa proses suksesi talenta (*talent succession*) telah berjalan dengan baik sesuai dengan pedoman promosi yang ditetapkan.

Penilaian Kinerja

Kebijakan

Penilaian kinerja pegawai merupakan salah satu komponen kunci dalam upaya Bank Mandiri Taspen untuk mencapai keunggulan organisasi. Proses ini diatur dalam Standar Prosedur Sumber Daya Manusia dan Petunjuk Teknis Sumber Daya Manusia, yang menjadi pedoman utama dalam pelaksanaan penilaian kinerja pegawai. Penilaian kinerja bertujuan untuk mengevaluasi keterampilan, kekuatan, serta area pengembangan pegawai secara akurat. Hasil evaluasi ini menjadi dasar dalam penyusunan program pengembangan yang bertujuan untuk meningkatkan kompetensi pegawai.

Pengelolaan kinerja pegawai dilakukan secara menyeluruh dalam berbagai aktivitas dan proses di Human Capital. Salah satu alat utama dalam proses ini adalah penilaian kinerja, yang mengukur pencapaian target dibandingkan dengan realisasi kinerja pegawai. Hasil dari penilaian ini berhubungan erat dengan sistem penghargaan, baik dalam bentuk material maupun non-material, seperti pemberian bonus, penyesuaian gaji, dan kesempatan pengembangan karier. Dengan pendekatan ini, diharapkan pegawai semakin termotivasi untuk memberikan kinerja terbaik bagi perusahaan.

Pelaksanaan Penilaian Kinerja

Pada penilaian kinerja 2025, Bank Mandiri Taspen melaksanakan *performance appraisal* secara penuh melalui sistem yang telah terdigitalisasi sepenuhnya dalam *Human Resource Information System* (HRIS). Digitalisasi ini meningkatkan efisiensi dan kualitas proses penilaian kinerja, sehingga lebih cepat dan akurat. Proses penilaian kinerja dilakukan secara bertahap untuk memastikan objektivitas dan transparansi. Salah satu tahapannya adalah diskusi *1 on 1* antara pegawai dan atasan, yang merupakan ruang bagi pegawai untuk menyampaikan realisasi kinerja yang telah dilakukan serta pandangan mereka terkait pencapaian dan pengembangan diri.

Selain itu, *Human Capital* memfasilitasi proses moderasi di seluruh unit kerja guna meningkatkan transparansi dan akuntabilitas penilaian. Moderasi ini melibatkan manajer atau pemimpin tim yang berkumpul untuk meninjau serta mendiskusikan hasil penilaian sebelum ditetapkan secara final, memastikan bahwa setiap pegawai dinilai secara adil dan objektif.

Bank Mandiri Taspen always prioritizes promotion opportunities for internal employees, who are considered to have the competence and capability to occupy strategic positions. This demonstrates that the talent succession process has been well-performed in accordance with the established promotion guidelines.

Work Assessment

Policy

Employee performance assessment is one of the key components in Bank Mandiri Taspen's efforts to achieve organizational excellence. This process is regulated in the Human Resources Standard Procedure and Human Resources Technical Instructions, which are the key guidelines in implementing employee performance assessments. Performance assessments aim to accurately evaluate employee skills, strengths, and development areas. The results of this evaluation become the basis for compiling development programs that aim to improve employee competency.

Employee performance management is carried out comprehensively in various activities and processes in Human Capital. One of the key tools in this process is performance assessment, which measures target achievement compared to employee performance realization. The results of this assessment are closely related to the reward system, both in material and non-material forms, such as bonuses, salary adjustments, and career development opportunities. The implementation of this approach is expected that employees will be more motivated to provide the best performance for the company.

Implementation of Work Assessment

In the 2025 performance assessment, Bank Mandiri Taspen conducted a full performance assessment through a system that had been fully digitized in the Human Resource Information System (HRIS). This digitalization increased the efficiency and quality of the performance appraisal process, which was faster and more accurate. The performance assessment process is conducted in stages to ensure objectivity and transparency. One of the stages was a *1-on-1* discussion between employees and superiors, which was a space for employees to address the realization of performance that had been conducted and their views on achievements and self-development.

Moreover, Human Capital facilitates a moderation process across work units to increase transparency and accountability for assessments. This moderation involves managers or team leaders coming together to review and discuss the assessment results before they are finalized to ensure that each employee is assessed fairly and objectively.

Remunerasi

Remunerasi merupakan bagian dari strategi Bank Mandiri Taspen dalam memastikan kesejahteraan dan motivasi pegawai. Kebijakan ini dituangkan dalam Standar Prosedur Sumber Daya Manusia, Petunjuk Teknis Sumber Daya Manusia, serta Standar Prosedur Remunerasi. Remunerasi adalah imbal jasa yang diberikan perusahaan kepada pegawai sebagai penghargaan atas kontribusi mereka. Faktor-faktor yang memengaruhi pemberian *reward* meliputi bobot jabatan, pencapaian target, kompetensi pemegang jabatan, serta masa kerja. Remunerasi dapat berbentuk tunai (*cash*) maupun non-tunai (*non-cash*) dan sering disebut sebagai **compensation and benefits**.

Bank Mandiri Taspen berkomitmen untuk memberikan *compensation & benefits* yang kompetitif kepada pegawai. Salah satu upaya yang dilakukan adalah dengan mengikuti *salary survey* dari pihak eksternal untuk memastikan kesesuaian dengan nilai pasar (*market salary*). Selain itu, perusahaan juga menyediakan berbagai *benefit* yang menunjang kenyamanan dan kesejahteraan pegawai, seperti jaminan kesehatan dan jaminan kecelakaan kerja, guna memberikan perlindungan terhadap risiko yang mungkin terjadi.

Kebijakan remunerasi di Bank Mandiri Taspen dirancang untuk menarik talenta baru (*attract new hires*) serta mempertahankan pegawai yang ada (*employee retention*). Dengan kebijakan yang tepat, diharapkan pegawai dapat terus termotivasi untuk meningkatkan kinerja dan memberikan kontribusi optimal demi mencapai tujuan perusahaan.

Program Pensiun

Bank mengikutsertakan pegawainya dalam program pensiun melalui Badan Penyelenggara Jaminan Sosial Ketenagakerjaan (BPJS TK) yang telah disetorkan dengan rincian sebagai berikut:

1. Iuran Pensiun yang menjadi beban pegawai sebesar 1% (satu persen) dari gaji pokok (*Base Salary*).
2. Iuran Pensiun yang menjadi beban perusahaan sebesar 2% (dua persen) dari gaji pokok (*Base Salary*).

Bank juga telah mencadangkan kewajiban pasca kerja kepada pegawai, cadangan pasca kerja ini ditempatkan di Dana Pensiun Lembaga Keuangan dan pos cadangan internal bank.

Remuneration

Remuneration is part of Bank Mandiri Taspen's strategy in ensuring employee welfare and motivation. This policy is outlined in the Human Resources Standard Procedure, Human Resources Technical Instructions, and Remuneration Standard Procedure. Remuneration is a reward given by the company to employees as an appreciation for their contribution. Factors that influence the provision of rewards include job weight, target achievement, job holder competence, and length of service. Remuneration can be cash or non-cash and is often referred to as **compensation and benefits**.

Bank Mandiri Taspen commits to provide competitive compensation & benefits to employees. One of the efforts is to participate in salary surveys from external parties to ensure compliance with market salary. In addition, the Company also provides various benefits that support employee comfort and welfare, such as health insurance and work accident insurance, to provide protection against possible risks.

The remuneration policy at Bank Mandiri Taspen is designed to attract new hires and retain existing employees (employee retention). The implementation of the right policy is expected that employees can continuously be motivated to improve their performance and provide optimal contributions to achieve the Company's goals.

Pension Program

The Bank enrolls its employees in a pension program through the Employment Social Security Administration Agency (BPJS TK) which has been deposited with the following details:

1. Retirement contributions that are paid by employees are 1% (one percent) of the base salary.
2. Pension contributions which are paid by the company are 2% (two percent) of the base salary.

The bank has also reserved post-employment obligations for employees, these post-employment reserves are placed in the Financial Institution Pension Fund and the bank's internal reserve post.

System and Infrastructure Human Capital

System and Infrastructure Human Capital

Sistem dan infrastruktur *Human Capital* merupakan elemen fundamental dalam mendukung keberhasilan perusahaan dalam menghadapi dinamika bisnis yang terus berkembang. Pengelolaan Human Capital yang efektif membutuhkan kebijakan, proses, dan teknologi yang terintegrasi, mencakup seluruh siklus kerja pegawai, mulai dari perekrutan, pengembangan, hingga retensi talenta dalam organisasi. Sejalan dengan upaya peningkatan kapabilitas sumber daya manusia, sistem kepegawaian telah dikembangkan secara bertahap dan akan terus mengalami penyempurnaan guna memenuhi kebutuhan organisasi yang dinamis. Saat ini, sistem yang tersedia telah mencakup berbagai aspek penting dalam pengelolaan pegawai, termasuk absensi, pengajuan cuti, proses pengunduran diri, klaim lembur, reimbursement, serta layanan administratif lainnya yang mendukung efektivitas kerja.

Selain penguatan sistem, perusahaan juga telah menyiapkan infrastruktur yang mendukung pengembangan pegawai. Learning Center yang berlokasi di Denpasar telah beroperasi sejak tahun 2023 dan terus dikembangkan untuk meningkatkan efektivitas pembelajaran. Sebagai bagian dari strategi pengembangan, perusahaan juga mengimplementasikan *e-learning* yang memungkinkan pegawai untuk mengakses materi pembelajaran secara fleksibel.

E-learning ini mencakup modul *self-learning* yang berfokus pada pengetahuan penting, seperti contoh Anti Pencucian Uang dan Pencegahan Pendanaan Terorisme (APU PPT), serta penerapan Pelindungan Data Pribadi (PDP). Dengan pendekatan ini, perusahaan berkomitmen untuk meningkatkan literasi dan kepatuhan pegawai terhadap regulasi yang relevan.

Dengan adanya peningkatan sistem dan infrastruktur *Human Capital* ini, perusahaan optimis bahwa kualitas dan kapabilitas pegawai akan terus berkembang, sehingga dapat memberikan kontribusi optimal bagi organisasi. Sistem dan infrastruktur *Human Capital* yang solid menjadi fondasi utama bagi perusahaan dalam mencapai kesuksesan jangka panjang di tengah perubahan bisnis yang dinamis.

Human Capital systems and infrastructure are fundamental elements in supporting the success of companies in facing the dynamics of business that continue to grow. Effective Human Capital management requires integrated policies, processes, and technologies, covering the entire employee work cycle, from recruitment, development, to talent retention in the organization. In line with efforts to improve human resource capabilities, the personnel system has been developed gradually and will continue to be refined to meet the needs of dynamic organizations. Currently, the available systems cover various important aspects of employee management, including attendance, leave applications, resignation processes, overtime claims, reimbursements, and other administrative services that support work effectiveness.

In addition to strengthen the system, the Company has also prepared infrastructure that supports employee development. The Learning Center located in Denpasar has been operated since 2023 and is continuously developed to improve learning effectiveness. As part of its development strategy, the Company also implemented an e-learning platform that enabled employees to access learning materials flexibly.

This e-learning includes self-learning modules that focus on essential knowledge, such as examples of Anti-Money Laundering and Countering the Financing of Terrorism (APU PPT) as well as the implementation of Personal Data Protection (PDP). Implementing this approach, the Company commits to improve employee literacy and compliance with relevant regulations.

Having the improvement of the Human Capital system and infrastructure, the Company is optimistic that the quality and capabilities of employees will continuously grow, so that they can provide optimal contributions to the organization. A solid Human Capital system and infrastructure are the key foundation for the Company in achieving long-term success amidst dynamic business changes.

Internalisasi Budaya

Culture Internalization

Bank Mandiri Taspen terus meneguhkan komitmen dalam membangun budaya perusahaan yang kuat, relevan, khususnya dalam pembentukan nilai integritas dan nilai keberlanjutan. Pada Oktober 2025, Bank Mandiri Taspen resmi meluncurkan **The Mantap Ways** sebagai *unique characteristic* budaya perusahaan yang menjadi pedoman perilaku bagi seluruh insan perusahaan. The Mantap Ways hadir untuk memperkuat budaya perusahaan yang tidak hanya berlandaskan nilai, tetapi juga terwujud dalam perilaku nyata di setiap aktivitas pekerjaan. Nilai The Mantap Ways tercermin melalui 5 (lima) karakter utama, yaitu:

Bank Mandiri Taspen continues to strengthen its commitment to building a strong, relevant corporate culture, particularly in fostering integrity and sustainability values. In October 2025, the Bank officially launched **The Mantap Ways** as its unique cultural identity, serving as a behavioral guideline for all employees. The Mantap Ways was designed to reinforce a culture that is not only value-based but also reflected in daily work practices. The values are embodied in five core characteristics:

Sepanjang tahun 2025, internalisasi The Mantap Ways dilakukan secara terstruktur dan berkelanjutan melalui berbagai inisiatif yang mencakup komunikasi, edukasi, aktivasi, serta penguatan implementasi budaya di seluruh unit kerja. Untuk memastikan implementasi budaya berjalan secara efektif dan konsisten, Bank Mandiri Taspen membentuk peran *Culture Captain* dan *Culture Agent* sebagai penggerak utama budaya di unit kerja.

Throughout 2025, the internalization of The Mantap Ways was carried out in a structured and continuous manner through various initiatives, including communication, education, activation, and reinforcement across all work units. To ensure effective and consistent implementation, Bank Mandiri Taspen established the roles of Culture Captain and Culture Agent as key drivers of corporate culture.

Di tahun 2025, telah ditunjuk dan dilantik **34 Culture Captain** dan **94 Culture Agent**. *Culture Captain* terdiri dari jajaran pimpinan yang memiliki peran strategis dalam memberikan arah, memastikan keselarasan dengan strategi perusahaan, serta melakukan *monitoring* atas implementasi budaya di masing-masing unit kerja. Sedangkan *Culture Agent* berperan dalam menginternalisasikan nilai dalam keseharian, mendorong keterlibatan pegawai, serta menginisiasi dan menjalankan program budaya yang disesuaikan dengan kebutuhan dan karakteristik unit kerja.

In 2025, a total of **34 Culture Captains** and **94 Culture Agents** were appointed and inaugurated. Culture Captains, consisting of leadership-level personnel, played a strategic role in providing direction, ensuring alignment with corporate strategy, and monitoring cultural implementation within their respective units. Meanwhile, Culture Agents were responsible for embedding values into daily activities, encouraging employee engagement, and initiating culture programs tailored to each unit's needs.

Sejalan dengan penguatan peran tersebut, internalisasi The Mantap Ways juga dilakukan melalui berbagai program aktivasi budaya yang mendorong keterlibatan aktif pegawai

The internalization efforts were further strengthened through various culture activation programs that promoted active employee participation and fostered work habits aligned with

serta pembentukan kebiasaan kerja yang selaras dengan nilai perusahaan. Salah satu implementasi yang dilakukan adalah melalui **Risk Awareness Program** yang dilaksanakan oleh seluruh pegawai di unit kerja. Program ini memperkuat penerapan nilai **Do the Right Thing, the Right Way** dalam mendorong pegawai untuk lebih proaktif dalam mengidentifikasi, memahami, dan mengelola risiko dalam setiap aktivitas kerja, sehingga tercipta budaya kerja yang menjunjung tinggi integritas, kepatuhan, dan prinsip kehati-hatian.

Upaya peningkatan kompetensi juga dilakukan secara berkelanjutan melalui kegiatan **Morning Briefing** yang menjadi sarana pembelajaran rutin bagi seluruh pegawai. Di tahun 2025, terdapat **32 materi** yang sudah disampaikan melalui kegiatan Morning Briefing. Program ini mendukung penguatan nilai **Think Smart, Fast, and Detail**, dengan mendorong pegawai untuk memiliki pola pikir yang responsif, solutif, serta tetap mengedepankan ketelitian dalam menjalankan tugas.

Budaya inovasi terus dikembangkan melalui program **Mantap Innovation (MOTION)** sebagai wadah bagi pegawai untuk menyampaikan ide dan solusi perbaikan. Program ini menjadi representasi dari nilai **Act Innovatively**, di mana setiap pegawai didorong untuk berkontribusi secara aktif dalam menciptakan inovasi yang memberikan nilai tambah bagi perusahaan. Pada tahun 2025, total **Idea Submission** MOTION kategori **New Idea** yaitu **147 ide** yang mencerminkan tingginya partisipasi dan semangat inovasi dari seluruh pegawai.

Penguatan sinergi dan kolaborasi lintas fungsi diwujudkan melalui penyelenggaraan **Forum Kadiv** sebagai wadah strategis bagi para pimpinan untuk berdiskusi, menyelaraskan arah, serta merumuskan langkah-langkah yang mendukung pencapaian kinerja perusahaan. Sepanjang tahun 2025, Forum Kadiv telah dilaksanakan sebanyak **3 (tiga) kali**. Forum ini mencerminkan nilai **Collaborate for Result**, di mana kolaborasi tidak hanya terjadi dalam pelaksanaan, tetapi juga dalam proses pengambilan keputusan.

Selaras dengan upaya membangun kebersamaan dan *engagement*, setiap Jumat dilaksanakan kegiatan **Culture Day** atau hari budaya. Program ini memberikan ruang bagi pegawai untuk berinteraksi dalam suasana yang lebih santai namun tetap produktif. Berbagai kegiatan diselenggarakan, antara lain *fun games*, olahraga, saling memberikan apresiasi, yang mendorong keharmonisan dan kekompakan tim. Selain itu, kegiatan bersama nasabah seperti *Senam Sehat Bersama Mantap* atau agenda *Mantapreuner*, juga turut diadakan untuk mempererat hubungan dan meningkatkan pengalaman layanan.

corporate values. One key initiative was the **Risk Awareness Program**, implemented across all work units. This program reinforced the value of **Do the Right Thing, the Right Way** by encouraging employees to proactively identify, understand, and manage risks, thereby fostering a culture of integrity, compliance, and prudence.

Competency development was also continuously enhanced through **Morning Briefing** sessions, serving as regular learning platforms for employees. In 2025, a total of **32 materials** were delivered through these sessions. This program supported the value of **Think Smart, Fast, and Detail**, encouraging employees to adopt responsive, solution-oriented thinking while maintaining accuracy in their work.

An innovation-driven culture was cultivated through the **Mantap Innovation (MOTION)** program, which served as a platform for employees to submit ideas and improvement solutions. This initiative represented the value of **Act Innovatively**, encouraging employees to actively contribute innovations that add value to the organization. In 2025, a total of **147 new ideas** were submitted under the MOTION program, reflecting strong participation and an innovative spirit among employees.

Strengthening cross-functional synergy and collaboration was achieved through the **Forum Kadiv**, a strategic forum for leaders to discuss, align direction, and formulate actions to support corporate performance. Throughout 2025, the Forum Kadiv was conducted **three times**. This forum embodied the value of **Collaborate for Result**, where collaboration extended beyond execution into the decision-making process itself.

In line with efforts to build togetherness and engagement, **Culture Day** is held every Friday. This program provides space for employees to interact in a more relaxed yet productive atmosphere. Various activities are organized, including fun games, sports, and mutual appreciation, which foster team harmony and cohesion. In addition, joint activities with customers such as *Senam Sehat Bersama Mantap* and *Mantaprepreneur* programs are also conducted to strengthen relationships and enhance the service experience.

Komitmen dalam menempatkan nasabah sebagai prioritas utama turut diperkuat melalui program **GrebeK MOVIN**. Sepanjang tahun 2025, program ini telah dilaksanakan sebanyak 5 (lima) kali sebagai upaya mendorong pegawai untuk menggunakan dan memahami produk serta layanan perusahaan secara langsung. Melalui pendekatan ini, pegawai tidak hanya membangun loyalitas terhadap perusahaan, tetapi juga mampu memberikan rekomendasi yang lebih relevan dan meyakinkan kepada nasabah, sehingga semakin memperkuat implementasi nilai **Customer First, Always** dalam setiap interaksi layanan.

Dengan berbagai program internalisasi budaya yang telah dijalankan sepanjang tahun 2025, *The Mantap Ways* menunjukkan tingkat penerapan yang baik di lingkungan Bank Mandiri Taspen. Hal ini tercermin dari indeks penerapan budaya yang mencapai **81.30**, yang mengindikasikan bahwa meskipun merupakan budaya yang relatif baru diluncurkan, nilai-nilainya telah dipahami, diterima, dan mulai diimplementasikan secara konsisten oleh seluruh pegawai.

Secara lebih rinci, nilai *Do the Right Thing, the Right Way* mencapai 78,94, yang menunjukkan bahwa penguatan aspek integritas dan kepatuhan terus menjadi perhatian utama. Selanjutnya, nilai *Think Smart, Fast, and Detail* mencatatkan capaian sebesar 84,71, mencerminkan kemampuan pegawai dalam berpikir responsif, solutif, dan detail dalam menjalankan tugas. Nilai *Act Innovatively* berada pada angka 80,32, yang menggambarkan mulai tumbuhnya budaya inovasi di lingkungan kerja.

Penguatan kolaborasi tercermin dalam nilai *Collaborate for Result* yang mencapai 84,13, menunjukkan sinergi yang semakin baik antar unit kerja dalam mencapai tujuan bersama. Sementara itu, nilai *Customer First, Always* mencapai 79,39, yang menunjukkan bahwa orientasi terhadap nasabah terus ditingkatkan sebagai bagian dari komitmen perusahaan dalam memberikan layanan terbaik.

Capaian ini menjadi indikasi bahwa internalisasi *The Mantap Ways* telah berjalan dengan baik dan mulai mengakar dalam perilaku kerja sehari-hari, serta menjadi fondasi yang kuat dalam mendukung peningkatan kinerja dan transformasi perusahaan secara berkelanjutan.

The commitment to placing customers as the top priority is further reinforced through the **GrebeK MOVIN** program. Throughout 2025, this program was conducted five times as an effort to encourage employees to directly use and understand the Company's products and services. Through this approach, employees not only build loyalty to the Company but are also able to provide more relevant and convincing recommendations to customers, thereby strengthening the implementation of the **Customer First, Always** value in every service interaction.

With the various cultural internalization programs implemented throughout 2025, *The Mantap Ways* has demonstrated a good level of adoption within Bank Mandiri Taspen. This is reflected in a culture implementation index of **81.30**, indicating that although it is a relatively new culture, its values have been understood, accepted, and consistently implemented by all employees.

In more detail, the value of *Do the Right Thing, the Right Way* achieved 78.94, showing that strengthening integrity and compliance remains a key focus. Meanwhile, *Think Smart, Fast, and Detail* recorded 84.71, reflecting employees' ability to think responsively, solution-oriented, and with attention to detail. The value of *Act Innovatively* reached 80.32, indicating the growing culture of innovation in the workplace.

Strengthening collaboration is reflected in *Collaborate for Result*, which achieved 84.13, demonstrating improved synergy among work units in achieving shared goals. Meanwhile, *Customer First, Always* reached 79.39, indicating that customer orientation continues to be enhanced as part of the Company's commitment to delivering the best service.

These achievements indicate that the internalization of *The Mantap Ways* has been successfully implemented and has begun to take root in daily work behavior, forming a strong foundation to support performance improvement and sustainable corporate transformation.

Keterbukaan Informasi Kepada Pegawai

Disclosure of Information to Employees

Dalam rangka mendukung transparansi dan keterbukaan informasi kepada seluruh pegawai, Bank Mandiri Taspen secara konsisten menghadirkan berbagai inisiatif komunikasi internal yang terstruktur dan mudah diakses. Upaya ini bertujuan untuk memastikan setiap insan perusahaan memperoleh informasi yang akurat, relevan, dan tepat waktu, sehingga dapat mendukung efektivitas kerja serta pengambilan keputusan yang selaras dengan arah strategis perusahaan.

Salah satu inisiatif utama yang dijalankan adalah GEMAR-i (Gerakan Mantap Squad Sadar Informasi) sebagai media komunikasi internal yang dirancang untuk membangun budaya sadar informasi di lingkungan kerja. Melalui platform seperti Microsoft Outlook dan Microsoft Teams, program ini memastikan penyampaian informasi perusahaan dilakukan secara konsisten, mudah dipahami, serta menjangkau seluruh pegawai. Materi yang disampaikan mencakup berbagai topik strategis, antara lain ESG, *leadership*, *risk awareness*, program dan produk baru, perubahan ketentuan, hingga informasi penting lainnya. Selama tahun 2025, tercatat sebanyak 147 informasi telah disampaikan melalui GEMAR-i, yang mencerminkan komitmen perusahaan dalam menjaga arus informasi yang aktif dan berkelanjutan.

Selain itu, Bank Mandiri Taspen juga menghadirkan *platform* HC Helpdesk melalui aplikasi MASDA (Mantap Service Desk Application) sebagai sarana layanan internal yang terintegrasi untuk mendukung kebutuhan kepegawaian. Platform ini dikembangkan guna membangun budaya layanan internal yang tertib, transparan, dan terukur. Sejak diluncurkan pada 12 Maret 2025 hingga 31 Desember 2025, HC Helpdesk telah mencatatkan sebanyak 340 tiket layanan yang terdiri dari *inquiry/information*, *request*, serta *complaint/konsultasi*, yang menunjukkan tingginya pemanfaatan layanan serta kebutuhan pegawai terhadap akses informasi dan layanan yang cepat dan responsif.

Melalui berbagai inisiatif tersebut, Bank Mandiri Taspen terus memperkuat komitmen dalam menciptakan lingkungan kerja yang terbuka, informatif, dan transparan, sehingga mampu meningkatkan keterlibatan pegawai sekaligus mendukung kinerja organisasi secara keseluruhan.

In supporting transparency and information disclosure to all employees, PT Bank Mandiri Taspen consistently implements various structured and accessible internal communication initiatives. These efforts are aimed at ensuring that all employees obtain accurate, relevant, and timely information, thereby supporting work effectiveness as well as decision-making aligned with the Company's strategic direction.

One of the key initiatives implemented is GEMAR-i (Gerakan Mantap Squad Sadar Informasi), an internal communication medium designed to foster an information-aware culture within the workplace. Through platforms such as Microsoft Outlook and Microsoft Teams, this program ensures that corporate information is delivered consistently, clearly, and comprehensively to all employees. The materials disseminated cover various strategic topics, including ESG, leadership, risk awareness, new programs and products, regulatory changes, as well as other important information. Throughout 2025, a total of 147 information updates were delivered through GEMAR-i, reflecting the Company's commitment to maintaining an active and sustainable flow of information.

In addition, PT Bank Mandiri Taspen also introduced the HC Helpdesk platform through the MASDA (Mantap Service Desk Application) as an integrated internal service channel to support employee-related needs. This platform was developed to establish a disciplined, transparent, and measurable internal service culture. Since its launch on March 12, 2025 through December 31, 2025, the HC Helpdesk has recorded a total of 340 service tickets, consisting of inquiries/information, requests, and complaints/consultations, indicating a high level of utilization and strong employee demand for fast and responsive access to information and services.

Through these initiatives, PT Bank Mandiri Taspen continues to strengthen its commitment to fostering an open, informative, and transparent working environment, thereby enhancing employee engagement while supporting overall organizational performance.

Struktur Pengelola Sumber Daya Manusia

Structure of Human Resource Management

Sebagai bagian dari strategi perusahaan dalam menciptakan lingkungan kerja yang produktif dan berkelanjutan, Divisi Human Capital berperan penting dalam mengelola dan mengembangkan sumber daya manusia (SDM). Dengan struktur organisasi yang terintegrasi, Divisi Human Capital memastikan bahwa setiap kebijakan dan inisiatif SDM selaras dengan visi perusahaan untuk memberikan layanan terbaik kepada nasabah.

As part of the company's strategy in creating a productive and sustainable work environment, the Human Capital Division plays an important role in managing and developing human resources (HR). With an integrated organizational structure, the Human Capital Division ensures that every HR policy and initiative is aligned with the company's vision to provide the best service to customers.

Divisi Human Capital terdiri dari lima departemen utama:

1. **HC Strategy & Policy** – Bertanggung jawab dalam merancang strategi dan kebijakan pengelolaan SDM untuk mendukung pertumbuhan dan daya saing perusahaan.
2. **HC Employee Experience** – Berfokus pada peningkatan pengalaman karyawan melalui program kesejahteraan, keterlibatan, dan pengelolaan hubungan kerja.
3. **HC Culture Environment** – Mengembangkan budaya kerja yang kuat dan selaras dengan nilai-nilai perusahaan guna meningkatkan produktivitas dan loyalitas karyawan.
4. **HC Learning & Development** – Menyediakan program pelatihan dan pengembangan bagi karyawan untuk meningkatkan kompetensi serta kesiapan menghadapi tantangan industri.
5. **Executive & Non-Employee Management** – Mengelola sumber daya manusia di tingkat eksekutif serta tenaga kerja non-pegawai untuk memastikan efektivitas operasional perusahaan.

Human Capital Division consists of five main departments:

1. **HC Strategy & Policy** – Taking responsibility for designing HR management strategies and policies to support the company's growth and competitiveness.
2. **HC Employee Experience** – Focusing on improving employee experience through welfare programs, engagement, and work relationship management.
3. **HC Culture Environment** – Developing a strong work culture that is aligned with company values to increase employee productivity and loyalty.
4. **HC Learning & Development** – Providing training and development programs for employees to improve their competence and readiness to face industry challenges.
5. **Executive & Non-Employee Management** – Managing human resources at the executive level and non-employee workforce to ensure the company's operational effectiveness.

Selain itu, **Human Capital Business Partner (HCBP)** berperan sebagai penghubung strategis antara kebijakan SDM dan kebutuhan bisnis di berbagai unit kerja, memastikan bahwa implementasi strategi SDM selaras dengan kebutuhan organisasi secara menyeluruh.

Dengan struktur organisasi yang kuat dan strategi yang terarah, Divisi Human Capital terus berinovasi dalam membangun tenaga kerja yang kompeten dan berdaya saing. Hal ini sejalan dengan komitmen perusahaan untuk memberikan pelayanan terbaik kepada nasabah serta menciptakan nilai tambah bagi seluruh pemangku kepentingan/*stakeholder*.

Additionally, **Human Capital Business Partner (HCBP)** acts as a strategic liaison between HR policies and business needs in various work units, ensuring that the implementation of HR strategies is aligned with the needs of the organization comprehensively.

Having a strong organizational structure and a focused strategy, the Human Capital Division continuously innovates in building a competent and competitive workforce. It is in line with the Company's commitment to provide the best service to customers and create added value for stakeholders.

Rencana Kerja Sumber Daya Manusia 2026

Human Capital Work Plan 2026

Rencana Kerja Human Capital 2026: Memperkuat Fondasi Melalui Strategi 3C

Pada tahun 2026, Bank Mandiri Taspen menetapkan visi pertumbuhan bisnis yang berkelanjutan (*sustainable business growth*). Untuk mendukung pencapaian tersebut, Direktorat Compliance & Human Resource memainkan peran krusial sebagai *enabler* utama melalui implementasi Strategi 3C: *Capacity*, *Capability*, dan *Culture*. Strategi ini dirancang untuk memastikan keselarasan organisasi, penguatan kompetensi pimpinan, serta internalisasi budaya kerja yang berorientasi pada kinerja.

1. **Capacity: Penguatan Struktur dan Efektivitas Organisasi**
Fokus utama pada aspek *Capacity* adalah membangun organisasi yang adaptif dan lincah (*agile*) dalam merespons perubahan pasar. Bank menetapkan lima pilar organisasi sebagai standar kerja: *Align* (penyelarasan peran), *Efficient* (proses kerja sederhana dan cepat), *Right People & Skill* (SDM kompeten), *Collaborative Structure* (menghilangkan mentalitas silo), dan *Agile Governance* (keputusan cepat dengan kewenangan jelas).

Langkah strategis yang dilakukan meliputi:

- **Penyelarasan Struktur:** Memastikan ketersediaan dan optimalisasi tim penjualan (*lending & funding*) untuk mengeksekusi target bisnis secara presisi.
- **Independensi & Tata Kelola:** Menegakkan prinsip *Good Corporate Governance* (GCG) melalui pemisahan fungsi pengawasan dan pengendalian risiko guna menghindari konflik kepentingan.
- **Kolaborasi Lintas Fungsi:** Menghilangkan tumpang tindih fungsi untuk memperjelas batas tanggung jawab antar unit.

Human Capital Work Plan 2026: Strengthening the Foundation Through the 3C Strategy

In 2026, Bank Mandiri Taspen has set a vision of sustainable business growth. To support this objective, the Compliance & Human Resource Directorate plays a crucial role as a key enabler through the implementation of the 3C Strategy: *Capacity*, *Capability*, and *Culture*. This strategy is designed to ensure organizational alignment, strengthen leadership competencies, and embed a performance-oriented work culture.

1. **Capacity: Strengthening Organizational Structure and Effectiveness**

The primary focus of Capacity is to build an adaptive and agile organization capable of responding to market changes. The Bank establishes five organizational pillars as working standards: *Align* (role alignment), *Efficient* (simple and fast processes), *Right People & Skill* (competent human resources), *Collaborative Structure* (eliminating silo mentality), and *Agile Governance* (fast decision-making with clear authority).

Strategic initiatives include:

- **Structural Alignment:** Ensuring the availability and optimization of sales teams (*lending & funding*) to execute business targets precisely.
- **Independence & Governance:** Upholding Good Corporate Governance (GCG) principles through the separation of oversight and risk control functions to avoid conflicts of interest.
- **Cross-Functional Collaboration:** Eliminating overlapping functions to clarify responsibilities across units.

2. Capability: Pengembangan Talenta dan Kepemimpinan Berkelanjutan

Peningkatan kapasitas SDM difokuskan pada penguatan kompetensi teknis dan *soft skill* pimpinan di berbagai level melalui MANTAP Academy dan TRUST Academy. Program ini bertujuan mempercepat kesiapan *top talent* dalam menduduki posisi manajerial yang berorientasi pada hasil.

Program pengembangan kepemimpinan (*Leadership Pipeline*) dibagi menjadi tiga tahapan utama:

- **Learn Faster (Leading Self):** Mempercepat penguasaan kemampuan inti kepemimpinan bagi level dasar.
- **Leap Forward (Leading Others):** Mengakselerasi kemampuan memimpin tim dan menggerakkan kinerja.
- **Lead Beyond (Leading Function):** Memperkuat kepemimpinan level fungsional untuk memastikan koordinasi lintas unit dan eksekusi strategis berjalan efektif.

Selain itu, tiga atribut kepemimpinan yang wajib dimiliki oleh setiap pimpinan cabang adalah **Know the Business** (pemahaman ekosistem bank), **Act with Excellence** (disiplin eksekusi), dan **Care for People** (membangun keterlibatan tim).

3. Culture: Internalisasi "The Mantap Ways" sebagai Driver Kinerja

Budaya perusahaan "**The Mantap Ways**" diposisikan sebagai penggerak utama kinerja (*performance driver*) dan sumber keunggulan kompetitif. Strategi budaya tahun 2026 mencakup tiga pilar implementasi:

- **Align:** Mengintegrasikan nilai-nilai *The Mantap Ways* ke dalam seluruh siklus HC, mulai dari rekrutmen, proses *onboarding*, hingga sistem penghargaan dan pengembangan.
- **Cultivate:** Membudayakan perilaku inovatif melalui program *Culture Camp*, orientasi pimpinan, dan kompetisi inovasi (MOTION).
- **Thrive:** Meningkatkan kesejahteraan dan keterlibatan karyawan melalui dukungan profesional (EAP), perayaan momen nasional untuk memupuk kebanggaan, serta penguatan *Employer Branding* melalui media sosial.

Dengan sinergi antara kapasitas organisasi yang kokoh, kapabilitas talenta yang unggul, dan budaya kerja yang kuat, Bank Mandiri Taspen optimis dapat mewujudkan pertumbuhan bisnis yang sehat dan berkelanjutan di tahun 2026.

2. Capability: Sustainable Talent and Leadership Development

Human capital capability development focuses on strengthening both technical and soft skills of leaders across all levels through MANTAP Academy and TRUST Academy. These programs aim to accelerate the readiness of top talent to assume results-oriented managerial roles.

The Leadership Pipeline is structured into three main stages:

- **Learn Faster (Leading Self):** Accelerating mastery of core leadership skills at the foundational level.
- **Leap Forward (Leading Others):** Enhancing the ability to lead teams and drive performance.
- **Lead Beyond (Leading Function):** Strengthening functional-level leadership to ensure effective cross-unit coordination and strategic execution.

In addition, three key leadership attributes required for branch leaders are: **Know the Business:** Understanding the Bank's ecosystem, **Act with Excellence:** Demonstrating disciplined execution, and **Care for People:** Building strong team engagement.

3. Culture: Internalizing "The Mantap Ways" as a Performance Driver

The corporate culture *The Mantap Ways* is positioned as a key performance driver and source of competitive advantage. The 2026 culture strategy includes three implementation pillars:

- **Align:** Integrating The Mantap Ways values into the entire Human Capital cycle, from recruitment and onboarding to reward systems and development.
- **Cultivate:** Embedding innovative behavior through programs such as Culture Camp, leadership orientation, and innovation competitions (MOTION).
- **Thrive:** Enhancing employee well-being and engagement through professional support (EAP), celebration of national moments to foster pride, and strengthening employer branding through social media.

Through the synergy of strong organizational capacity, superior talent capability, and a robust work culture, Bank Mandiri Taspen is optimistic about achieving healthy and sustainable business growth in 2026.

IT Security

Dalam menghadapi dinamika perkembangan teknologi digital serta meningkatnya kompleksitas ancaman siber, Bank senantiasa memperkuat pengamanan teknologi informasi sebagai bagian integral dari penerapan manajemen risiko dan tata kelola perusahaan yang baik. Bank telah mengimplementasikan strategi pengamanan berlapis (*defense in depth*), yang sesuai dengan ketentuan regulator, serta penerapan *best practices* (NIST Cyber Security Framework) dan standar ISO 27001:2022 yang mencakup perlindungan terhadap infrastruktur, aplikasi, data, serta pengguna. Pendekatan ini dilakukan melalui kombinasi pengendalian preventif, detektif, dan responsif guna memastikan keberlangsungan layanan serta perlindungan terhadap aset informasi Bank.

Bank Mandiri Taspen IT Governance focuses on 3 (three) main pillars, namely:

- **People & Organization**
Discussion related to IT organization and personnel along with the required competencies.
- **Process, Policy, & Procedure**
Discussion related to process flows that support governance such as IT policies, procedures, standards and organizations.
- **IT Service & Risk Management**
Discussion related to IT governance in the implementation of IT service management and risk management.

The Board of Commissioners and Board of Directors have identified key risks related to information technology, including system disruption, cybersecurity, and disaster recovery, to ensure that these risks are managed and integrated into the overall risk management framework.

IT Security

In response to the dynamic development of digital technology and the increasing complexity of cyber threats, the Bank consistently strengthens its information technology security as an integral part of implementing risk management and good corporate governance. The Bank has implemented a multi-layered security strategy (*defense in depth*), in accordance with regulatory requirements, and implemented best practices (the NIST Cyber Security Framework) and the ISO 27001:2022 standard, which encompasses protection for infrastructure, applications, data, and users. This approach is implemented through a combination of preventive, detective, and responsive controls to ensure service continuity and protect the Bank's information assets.

Framework Manajemen Pengamanan Keamanan Siber Cybersecurity Management Framework

Untuk mendorong bisnis yang berbasis digital menjaga keamanan data dan informasi Bank, maka telah dilakukan implementasi dengan framework 3 Pilar **Governance & Awareness, Protection, Operations**:

To support digital-driven business operations and safeguard the Bank's data and information security, implementation has been carried out based on the Three-Pillar Framework: Governance & Awareness, Protection, and Operations:

Peran pengamanan tidak hanya berfokus pada Unit Pengendali keamanan, namun peran seluruh seluruh karyawan. Bank juga secara berkelanjutan meningkatkan kapabilitas dalam mendeteksi dan merespons ancaman siber melalui penguatan fungsi pemantauan keamanan (*security monitoring*), peningkatan kapasitas tim keamanan informasi, peningkatan kesadaran risiko siber seluruh karyawan serta pemanfaatan teknologi terkini dalam mendukung analisis ancaman secara proaktif.

Seluruh implementasi pengamanan teknologi informasi menerapkan 3 (tiga) pilar dengan prinsip keamanan informasi yaitu *Confidential, Integrity, & Availability* (CIA) yang menjadi *key success factor* dalam melakukan keamanan dan penguatan teknologi informasi untuk keberlangsungan operasional dan bisnis Bank, yaitu dengan pilar *Governance & Awareness, Protection, Operations* (GPO) dengan penjelasan sebagai berikut:

A. **Governance & Awareness**

Bank melakukan tindakan berkelanjutan untuk memperkuat tata kelola dan aspek people dalam pengamanan informasi

The security role is not solely focused on the Security Control Unit, but also encompasses the role of all employees. The Bank also continuously enhances its capabilities in detecting and responding to cyber threats by strengthening its security monitoring function, enhancing the capacity of its information security team, enhancing cyber risk awareness among all employees, and utilizing the latest technology to support proactive threat analysis.

All information technology security implementations adhere to three pillars based on the information security principles of Confidentiality, Integrity, & Availability (CIA), which are key success factors in securing and strengthening information technology for the Bank's operational and business continuity. These pillars are Governance & Awareness, Protection, Operations (GPO), as explained below:

A. **Governance & Awareness**

The Bank takes ongoing action to strengthen governance and the people aspect of information security through

melalui program *security awareness* dan penerapan tata kelola keamanan informasi.

1. Pemenuhan *Security Policy* merujuk kepada Peraturan Regulator, *best practice* internasional/nasional yang relevan dan *update (comply)*, serta Sinergi dengan Perusahaan Induk (Bank Mandiri) untuk memenuhi standar minimum *requirement security*.
2. Menyediakan sumber daya manusia (SDM) yang memiliki kompetensi yang memadai, serta relevan dan *update* sesuai dengan kebutuhan Bank, dengan program sertifikasi kompetensi profesional (seperti sertifikasi: *Lead Implementer ISO/IEC 27001:2022*; *Certified Ethical Hacker (CEH)*; *Certified Fundamentals in Cybersecurity*, dan sebagainya).
3. Bank mengimplementasikan budaya keamanan informasi kepada seluruh pegawai melalui, *campaign security awareness* rutin melalui, *email blast*, video, kuis, poster dan *phishing simulation drill*.
4. Pelaksanaan *Security Awareness* juga diberikan kepada jajaran *top management (Board of Directors dan Board of Commissioners)* dengan tema "Penguatan Operasional, Keamanan Transaksi, dan Aktivasi *Digital Banking* melalui Perspektif IT & Operasional" dengan narasumber Bapak Dr. Dodit Wiweko Probojakti, SE., Ak., MBA selaku Ex. *Director of IT Consumer Business & Distribution Network Bank* serta Bapak Agus Supriyatna selaku Ex. *Division Head Information System Technology Bank*, yang dilaksanakan pada 14 Mei 2025 di DoubleTree by Hilton, Jakarta.

security awareness programs and the implementation of information security governance.

1. Compliance with the Security Policy refers to Regulatory Regulations, relevant and updated international/national best practices, and synergy with the Parent Company (Bank Mandiri) to meet minimum security requirements.
2. Providing human resources (HR) with adequate competencies, relevant and updated according to the Bank's needs, through professional competency certification programs (such as: Lead Implementer ISO/IEC 27001:2022; Certified Ethical Hacker (CEH); Certified Fundamentals in Cybersecurity, etc.).
3. The Bank implements an information security culture for all employees through regular security awareness campaigns, including email blasts, videos, quizzes, posters, and phishing simulation drills.
4. Security Awareness training was also provided to top management (Board of Directors and Board of Commissioners) with the theme "Strengthening Operations, Transaction Security, and Digital Banking Activation through an IT & Operational Perspective." The session, presented by Dr. Dodit Wiweko Probojakti, SE., Ak., MBA, Former Director of IT, Consumer Business & Distribution Network, Bank, and Mr. Agus Supriyatna, Former Division Head of Information System Technology, Bank, was held on May 14, 2025, at DoubleTree by Hilton, Jakarta.

5. Melakukan pengukuran secara mandiri terkait *maturity* siber berdasarkan regulator, *best practices* serta memastikan implementasi tata kelola yang baik berjalan secara berkelanjutan.

5. Conducting independent cyber maturity assessments based on regulators and best practices, and ensuring the ongoing implementation of good governance.

6. Selain kesadaran risiko siber, Bank Mandiri Taspen melakukan pelaksanaan pengujian berbasis skenario (*table top exercise*) melibatkan *top management* (*board of directors*) yang membawahi teknologi informasi dan Risiko Manajemen guna menguji kesiapan organisasi dalam menghadapi kondisi darurat, khususnya insiden keamanan siber dan gangguan operasional kritis serta meningkatkan kesadaran bahwa keamanan siber adalah tanggung jawab bersama, bukan hanya tim IT.

6. In addition to cyber risk awareness, Bank Mandiri Taspen conducted scenario-based testing (*tabletop exercises*) involving top management (*board of directors*) overseeing information technology and risk management to assess the organization's readiness to face emergencies, particularly cybersecurity incidents and critical operational disruptions, and to raise awareness that cybersecurity is a shared responsibility, not just the IT team.

7. *Workshop* pembekalan Tim Tanggap Insiden Siber (TTIS)/Computer Security Incident Response Team (CSIRT) bersama Lembaga dan Instansi berkaitan, seperti *workshop* bersama Badan Siber dan Sandi Negara (BSSN) dalam agenda untuk meningkatkan efektivitas dan efisiensi operasional pengelolaan insiden siber dengan pengukuran Tingkat Maturitas Penangan Insiden (TMPI) serta dalam meningkatkan koordinasi dan komunikasi intensif dalam berbagi informasi keamanan siber dalam kegiatan Forum TTIS Sektor Keuangan, Perdagangan dan Pariwisata.
- National Cyber Exercise - Indonesia Cross-Sectoral Cyber Exercise Malware Stealer Scenario
 - Cyber Exercise Cyber Web Defacement

7. Workshops to equip the Cyber Incident Response Team (TTIS)/Computer Security Incident Response Team (CSIRT) with relevant institutions and agencies, such as a workshop with the National Cyber and Crypto Agency (BSSN), to improve the effectiveness and efficiency of cyber incident management operations by measuring the Incident Handling Maturity Level (TMPI) and to enhance coordination and intensive communication in sharing cybersecurity information within the TTIS Forum for the Financial, Trade, and Tourism Sectors.
- National Cyber Exercise - Indonesia Cross-Sectoral Cyber Exercise Malware Stealer Scenario
 - Cyber Exercise Cyber Web Defacement

B. **Protection**

Pada area *Protection*, Bank menerapkan berbagai langkah pengamanan preventif guna melindungi sistem, jaringan, aplikasi, dan data dari potensi ancaman. Strategi perlindungan dilakukan melalui pendekatan berlapis (*defense in depth*) yang mencakup:

1. *Endpoint* (PC/Laptop) *Security*
 - Implementasi Antivirus, sebagai proteksi *endpoint* dari serangan virus, malware, trojan, dan ransomware.

B. **Protection**

In the *Protection* area, the Bank implements various preventative security measures to safeguard systems, networks, applications, and data from potential threats. The protection strategy is implemented through a layered approach (*defense in depth*), which includes:

1. *Endpoint* (PC/Laptop) *Security*
 - Antivirus implementation to protect endpoints from viruses, malware, Trojans, and ransomware.

- Pemanfaatan *Desktop Management* (Ivanti Landesk) untuk percepatan konfigurasi keamanan perangkat seluruh pegawai secara terpusat.
 - Implementasi *USB Blocking* dalam mencegah pertukaran data bank dan antisipasi celah masuknya virus dari media USB Pegawai.
 - Implementasi EDR dan XDR untuk mengoptimal kan deteksi dan respon insiden pada tingkat *endpoint*.
 - Integrasi *Device Posturing* ke berbagai macam tools TI sebagai indikator pengamanan *endpoint* sudah memenuhi standar Bank sesuai dengan ketentuan dan *best practice* sebelum dapat mengakses informasi perusahaan.
2. *Infrastructure (Server) Security*
- Melakukan *testing hardening* pada perangkat server untuk memperkuat keamanan server dari jaringan dalam maupun luar Bank.
 - *Update patching OS endpoint* dan Server untuk memastikan *software* telah *ter-update* sehingga virus dapat terdeteksi dan diblokir.
 - Implementasi Pengamanan AS400 sebagai proteksi untuk *core banking system*.
3. *Perimeter & Network Security*
- Implementasi *Firewall* serta *Network Access Control* (NAC) untuk menjaga keamanan jaringan dan pembatasan akses ke server, serta implementasi *Intrusion Prevention System* (IPS) mencegah apa pun yang berhasil menembus firewall dan masuk ke dalam jaringan.
 - Implementasi *Network Segmentation* untuk pengaturan akses jaringan sesuai dengan tujuan dan wewenang *user*.
 - Implementasi *Web Security Assessment*, sebelumnya Bank belum memiliki deteksi konfigurasi *server web*, dan belum memenuhi standar *security* yang ada (OWAPS Top 10).
 - Implementasi *Tools Attack Surface Management* untuk melakukan proses pengawasan untuk mengatasi segala ancaman siber mencakup penilaian risiko, kontrol keamanan, dan langkah diperlukan dalam memetakan, melindungi, dan mengurangi kemungkinan berhasilnya serangan.
 - Implementasi *tools anti DDoS & Web Application Firewall* (WAF) untuk pengamanan aplikasi internet *facing* dari serangan DDOS yang menyebabkan *flooding traffic* sehingga sistem tidak dapat diakses.
4. *Applications Security*
- Implementasi *Vulnerability Assessment Tool* untuk mengidentifikasi kerentanan dan risiko dalam implementasi sistem.
 - Melakukan *Penetration Test*, sebagai uji coba untuk menerobos sistem pengamanan yang ada, sesuai dengan batasan yang telah ditentukan sebelumnya.
 - SAST dan DAST tools untuk pengamanan *secured coding* aplikasi yang akan diimplementasi.
- Desktop Management (Ivanti Landesk) utilization to accelerate centralized security configuration for all employees' devices.
 - USB blocking implementation to prevent the exchange of bank data and anticipate potential virus intrusions from employee USB drives.
 - EDR and XDR implementation to optimize incident detection and response at the endpoint level.
 - Device posturing integration with various IT tools serves as an indicator that endpoint security meets the Bank's standards, in accordance with regulations and best practices, before accessing company information.
2. Infrastructure (Server) Security
- Hardening testing on server devices to strengthen server security from both internal and external networks.
 - Update endpoint and server OS patches to ensure software is up-to-date so viruses can be detected and blocked.
 - Implement AS400 security to protect the core banking system.
3. Perimeter & Network Security
- Implement a firewall and Network Access Control (NAC) to maintain network security and restrict server access, and implement an Intrusion Prevention System (IPS) to intercept anything that manages to penetrate the firewall and enter the network.
 - Implement network segmentation to regulate network access according to user objectives and authorizations.
 - Implement a web security assessment. Previously, the bank did not have web server configuration detection and did not meet existing security standards (OWAPS Top 10).
 - Implement attack surface management tools to monitor all cyber threats, including risk assessments, security controls, and the steps needed to map, protect, and mitigate the likelihood of successful attacks.
 - Implement anti-DDoS tools and a web application firewall (WAF) to protect internet-facing applications from DDOS attacks that flood traffic, making the system inaccessible.
4. Application Security
- Implementation of a Vulnerability Assessment Tool to identify vulnerabilities and risks in system implementation.
 - Penetration Testing, as a trial run to breach existing security systems, in accordance with predetermined limitations.
 - SAST and DAST tools to secure the application coding to be implemented.

- Penggunaan *Web Application Firewall* (WAF) yang merupakan proteksi dan kontrol akses terhadap aplikasi berbasis *website*.
- Implementasi Pengamanan *Source Code Mobile Application*, untuk aplikasi lebih sulit untuk dipahami, direkayasa atau diubah sehingga *source code* tidak mudah dicuri atau dirusak, lebih aman tidak bisa disisipkan *code* berbahaya (*Obfuscation*).

5. *Identity & Access Management*

- Implementasi *Active Directory* (LAPS) sebagai konfigurasi *Identity Management* setiap *user* sebagai standarisasi pengelolaan *user access* dan *policy*.
- *Privilege Access Management* untuk kontrol akses dan otorisasi terhadap perangkat *server*, *network*, dan *firewall*.
- Penerapan kontrol dual custodian untuk pengelolaan akun *super user* aplikasi, baik dari pembuatan *password* akun *super user* maupun penyimpanannya.
- Penyimpanan informasi akun *super user* (*user ID* dan *password*) dimasukkan ke dalam amplop yang disimpan dalam brankas/k Luis tertutup yang dikunci dengan kunci fisik dan kunci digital.

6. *Data Security*

- Implementasi *Data Loss Prevention* (DLP), untuk pengaturan pendistribusian dokumen Bank sesuai dengan level/klasifikasi data.
- Implementasi pengamanan *data protection* (*Security AI*) untuk data pribadi dan atau data nasabah Bank sesuai ketentuan Regulator.

C. *Operations*

Pada area *Operations*, Bank memastikan kemampuan deteksi, respons, dan pemulihan terhadap insiden keamanan siber berjalan secara efektif dan terintegrasi. Langkah-langkah yang dilakukan antara lain:

1. *Security Operation Center (SOC) Cyber Drill*

- Pelaksanaan simulasi pengujian real ke sistem metode *Adversarial Attack Simulation Exercise* (AASE) dengan konsultan independen eksternal.
- Pelaksanaan pengujian *Cyber Drill* dengan metode *Table-Top Exercise* telah dilakukan melibatkan *Top Management* (*Board of Directors*) untuk simulasi mengetahui kesiapan Bank dalam mengidentifikasi dan menghentikan serangan atau merespons dengan cepat dan efektif dari insiden siber yang terjadi.

2. *Security Operation Center (SOC) Security Information and Event Management (SIEM) untuk Detect & Response*

- *Internal Threat*: mendeteksi dan melakukan proteksi dengan *response blocking* terhadap serangan yang berasal dari internet.
- *External Threat*: mendeteksi serangan dan melakukan proteksi dengan *response blocking* terhadap serangan yang berasal, seperti *ransomware* dan *phishing email*.

- Use of a *Web Application Firewall* (WAF) to protect and control access to website-based applications.

- Implementation of *Mobile Application Source Code Security*, for applications that are more difficult to understand, engineer, or modify, so that the source code is less easily stolen or tampered with, and more secure and cannot be inserted with malicious code (*obfuscation*).

5. *Identity & Access Management*

- Implementation of *Active Directory* (LAPS) as an *Identity Management* configuration for each user to standardize user access and policy management.
- *Privilege Access Management* to control access and authorization for server, network, and firewall devices.
- Implementation of dual custodian controls for managing application superuser accounts, including superuser account password creation and storage.
- Super user account information (*user ID* and *password*) is stored in an envelope in a closed safe/ case locked with a physical key and a digital key.

6. *Data Security*

- Implementation of *Data Loss Prevention* (DLP), to regulate the distribution of Bank documents according to data level/classification.
- Implementation of data protection (*Security AI*) for personal data and/or Bank customer data in accordance with Regulatory provisions.

C. *Operations*

In the *Operations* area, the Bank ensures that the detection, response, and recovery capabilities for cybersecurity incidents are effective and integrated. The steps taken include:

1. *Security Operation Center (SOC) Cyber Drill*

- Implementation of real-world system testing simulations using the *Adversarial Attack Simulation Exercise* (AASE) method with an external independent consultant.
- Implementation of *Cyber Drill* testing using the *Table-Top Exercise* method has involved *Top Management* (*Board of Directors*) to simulate the Bank's readiness to identify and stop attacks or respond quickly and effectively to cyber incidents.

2. *Security Operation Center (SOC) Security Information and Event Management (SIEM) for Detect & Response*

- *Internal Threat*: Detects and protects against attacks originating from the internet with response blocking.
- *External Threat*: Detects and protects against attacks originating from the internet, such as *ransomware* and *phishing emails*.

- *Threat Intelligence*: security tools yang digunakan untuk mengumpulkan data dan informasi dari internet termasuk *dark web* terkait dengan aktivitas mencurigakan dan ancaman siber bagi organisasi.
- 3. *Back-Up & Recovery Plan*
 - *Hot Site*: adalah dalam hal terjadi bencana yang dapat mengancam kelangsungan operasional perbankan maka terdapat penyediaan server dan infrastruktur sebagai *back up* aplikasi *critical*.
 - *Warm Site*: adalah dalam hal terjadi bencana yang dapat mengancam kelangsungan operasional perbankan maka terdapat penyediaan server dan infrastruktur sebagai *back up* aplikasi *moderate*.
 - *Back up* dilakukan pengamanan dengan *Sandbox* dan *realtime* dengan Rubrik. Untuk memastikan keandalan dan kesiapan TI pada saat terjadi bencana dan hal yang tidak diinginkan lainnya, telah dilaksanakan uji coba atas Rencana Pemulihan Bencana (*disaster recovery plan*) untuk seluruh aplikasi *very critical* dan *critical*.

Sinergi antara pilar *Governance & Awareness*, *Protection* dan *Operations* memungkinkan Bank Mandiri Taspen untuk tidak hanya mencegah terjadinya ancaman, tetapi juga memastikan kesiapan dalam menghadapi dan memulihkan kondisi secara optimal. Dengan dukungan penuh dari manajemen serta penerapan praktik terbaik dan kepatuhan terhadap regulasi, Bank terus berkomitmen menjaga kepercayaan nasabah dan mendukung pertumbuhan bisnis yang berkelanjutan di era digital.

The synergy between the *Governance & Awareness*, *Protection*, and *Operations* pillars enables Bank Mandiri Taspen not only to prevent threats but also to ensure optimal preparedness to face and recover from them. With full management support, the implementation of best practices and regulatory compliance, the Bank remains committed to maintaining customer trust and supporting sustainable business growth in the digital era.

As part of the implementation of the 2026–2030 ITSP, Bank Mandiri Taspen has established a 2026 information technology work plan that focuses on the execution of priority initiatives in

sesuai roadmap strategis. Rencana ini memastikan bahwa investasi teknologi memiliki keterkaitan langsung dengan penciptaan nilai melalui peningkatan pendapatan, efisiensi biaya, serta penguatan kapabilitas jangka panjang.

Inisiatif yang dijalankan diklasifikasikan dalam kerangka *strategic house* yang terdiri dari tiga pilar utama, yaitu Fokus Utama Bisnis, IT Business Enabler, dan Pondasi. Pilar Fokus Utama Bisnis diarahkan untuk mendorong pertumbuhan dan peningkatan kualitas layanan, IT *Business Enabler* berperan dalam meningkatkan efisiensi dan kecepatan eksekusi, sementara Pilar Pondasi memastikan keandalan, keamanan, dan keberlanjutan operasional.

Dengan pendekatan tersebut, rencana kerja TI 2026 diharapkan dapat memperkuat produktivitas, mengoptimalkan biaya operasional, serta mendukung penciptaan nilai jangka panjang yang berkelanjutan bagi pemegang saham.

accordance with the strategic roadmap. This plan ensures that technology investments are directly linked to value creation through increased revenue, cost efficiency, and strengthening long-term capabilities.

The initiatives implemented are classified within a strategic house framework consisting of three main pillars: Main Business Focus, IT Business Enabler, and Foundation. The Main Business Focus pillar is directed at driving growth and improving service quality, IT Business Enabler plays a role in increasing efficiency and speed of execution, while the Foundation pillar ensures operational reliability, security, and sustainability.

With this approach, the 2026 IT work plan is expected to strengthen productivity, optimize operational costs, and support the creation of sustainable long-term value for shareholders.

This commitment is reflected, among others in the internal regulations outlined in the Bank Mandiri Taspen Policy Architecture, which stipulates that every shareholder has the same right to obtain information disclosure from the bank, including information on the company's performance, financial information and other information required by all shareholders.

In addition, equal treatment of shareholders is also reflected in the implementation of the company's GMS. Each shareholder has the right to propose the agenda of the GMS to the company by taking the number of votes owned into account.

Rapat Umum Pemegang Saham

Rapat Umum Pemegang Saham (RUPS) merupakan organ tertinggi dalam Perseroan yang memiliki kewenangan eksklusif yang tidak diberikan kepada Direksi dan Dewan Komisaris sesuai dengan anggaran dasar dan peraturan perundang-undangan yang berlaku. Forum RUPS merupakan forum yang sangat penting. Dalam RUPS, para pemegang saham memiliki kewenangan utama untuk memperoleh keterangan-keterangan mengenai Perseroan, baik dari Direksi maupun Dewan Komisaris. Keterangan-keterangan tersebut merupakan landasan bagi RUPS untuk mengambil kebijakan dalam menyusun langkah strategis Perseroan, pijakan-pijakan umum dalam mengambil keputusan sebagai sebuah badan hukum. RUPS juga merupakan forum evaluasi kinerja seluruh aspek operasional Perseroan termasuk kegiatan sosial maupun lingkungan.

Rapat Umum Pemegang Saham dalam Perseroan terdiri dari:

- a. Rapat Umum Pemegang Saham Tahunan.
- b. Rapat Umum Pemegang Saham lainnya, yang dalam Anggaran Dasar disebut juga Rapat Umum Pemegang Saham Luar Biasa.

Dengan agenda yang dibahas dalam RUPS yaitu:

1. Direksi menyampaikan:
 - a. Laporan Tahunan yang telah ditelaah oleh Dewan Komisaris untuk mendapat persetujuan RUPS;
 - b. Laporan keuangan untuk mendapat persetujuan RUPS. Persetujuan Laporan Tahunan, termasuk pengesahan Laporan Keuangan dan Laporan tugas pengawasan oleh Dewan Komisaris, oleh RUPS Tahunan berarti memberikan pelunasan dan pembebasan tanggung jawab sepenuhnya kepada anggota Direksi dan Dewan Komisaris atas pengelolaan dan pengawasan yang telah dijalankan selama tahun buku yang lalu, sejauh tindakan tersebut tercermin dalam Laporan Tahunan dan Laporan Keuangan.
2. Ditetapkan penggunaan laba, jika Perseroan mempunyai saldo laba yang positif.

Penggunaan laba tersebut dapat dibagi menurut cara penggunaannya yang ditentukan oleh RUPS, antara lain sebagai dividen kepada Pemegang Saham, untuk membentuk cadangan wajib sampai 20% dari jumlah modal ditempatkan dan disetor dan hanya dipergunakan untuk menutup kerugian yang tidak dipenuhi oleh cadangan lain serta sebagai laba ditahan untuk menambah permodalan Perseroan.
3. Diputuskan mata acara RUPS lainnya yang telah diajukan sebagaimana mestinya dengan memperhatikan peraturan perundang-undangan yang berlaku dan ketentuan Anggaran Dasar. Mata acara lain seperti perubahan Anggaran Dasar, perubahan Direksi dan Dewan Komisaris usulan Akuntan Publik dan Kantor Akuntan Publik untuk mengaudit Laporan Keuangan Perseroan untuk Tahun Buku Yang Berakhir pada tanggal 31 Desember di Tahun Buku periode berikutnya, penetapan gaji/honorarium, tantiem, tunjangan dan fasilitas untuk Direksi dan Dewan Komisaris dan keputusan lainnya dalam batasan yang ditentukan dalam ketentuan peraturan perundangan dan Anggaran Dasar Perseroan.

General Meeting of Shareholders

The General Meeting of Shareholders (GMS) is the highest organ in the Company, which has exclusive authority which is not given to the Board of Directors and the Board of Commissioners under the articles of association and the prevailing laws and regulations. The GMS forum is critical. In the GMS, the shareholders have the central authority to obtain information regarding the Company, both from the Board of Directors and the Commissioners. This information is the basis for the GMS to formulate the Company's strategic steps general guidelines in making decisions as a legal entity. The GMS is also a forum for evaluating the performance of all aspects of the Company's operations, including social and environmental activities.

The General Meeting of Shareholders in the Company consists of:

- a. Annual General Meeting of Shareholders.
- b. Another General Meeting of Shareholders, which in the Articles of Association is also called the Extraordinary General Meeting of Shareholders.

With the agenda discussed at the GMS as follows:

1. The Board of Directors conveyed:
 - a. Annual Report that has been reviewed by the Board of Commissioners for approval by the GMS;
 - b. Financial report for approval by the GMS.

Approval of the Annual Report, including the ratification of the Financial Statements and the Report in supervisory duties by the Board of Commissioners, by the Annual GMS means granting full release and discharge to the members of the Board of Directors and the Board of Commissioners for the management and supervision that have been carried out during the past fiscal year, to the extent that such actions are reflected in the Annual Report and Financial Statements.
2. It will be considered as the use of profit if the company has a positive balance of profit.

The use of profit can be divided according to the method of use determined by the GMS, among others as dividends to shareholders to form a mandatory reserve of up to 20% of the total issued and paid-up capital and only used to cover losses that are not met by other reserves and as retained earnings to increase the company's capital.
3. Resolved other GMS agenda items that have been duly submitted with due observance of the prevailing laws and regulations and the provisions of the Articles of Association. Other agenda items such as amendments to the Articles of Association, changes to the Board of Directors and Board of Commissioners, proposals for a Public Accountant and Public Accounting Firm to audit the company's Financial Statements for the Financial Year Ending on December 31 in the following Financial Year period, determination of salaries/honorarium, bonuses, allowances and facilities for the Board of Directors and Board of Commissioners and other decisions within the limits specified in the provisions of laws and regulations and the company's Articles of Association.

Proses Penyelenggaraan RUPS dan Pemungutan Suara

Rapat Umum Pemegang Saham diadakan di tempat kedudukan Perseroan atau di tempat Perseroan melakukan kegiatan usahanya dalam wilayah negara Republik Indonesia. Pemanggilan dilakukan paling lambat 14 (empat belas) hari sebelum tanggal Rapat Umum Pemegang Saham diadakan dengan tidak memperhitungkan tanggal pemanggilan dan tanggal Rapat Umum Pemegang Saham diadakan. Pada saat pemanggilan RUPS telah disampaikan penjelasan untuk tiap-tiap agenda yang akan mendapat persetujuan Pemegang Saham. Rapat Umum Pemegang Saham dapat dilangsungkan apabila kuorum kehadiran sebagaimana disyaratkan dalam Undang-Undang tentang Perseroan Terbatas telah terpenuhi. Bagi Pemegang Saham yang tidak dapat hadir maka dapat memberikan kuasanya. Surat kuasa dapat diperoleh pada Perseroan. Mekanisme voting dilakukan dengan metode polling. Rapat Umum Pemegang Saham dapat mengambil keputusan berdasarkan musyawarah untuk mufakat atau berdasarkan suara setuju dari jumlah suara yang dikeluarkan dalam Rapat Umum Pemegang Saham sebagaimana ditentukan dalam Undang-Undang tentang Perseroan Terbatas.

Selain itu dengan memperhatikan Pasal 91 Undang-Undang No. 40 Tahun 2007 tentang Perseroan Terbatas menyatakan bahwa Pemegang Saham dapat juga mengambil keputusan mengikat di luar RUPS dengan syarat semua pemegang saham dengan hak suara menyetujui secara tertulis dengan menandatangani usul yang bersangkutan. Keputusan yang demikian merupakan keputusan yang mengikat yaitu mempunyai kekuatan hukum yang sama dengan keputusan RUPS.

Pada saat pemanggilan RUPS telah disampaikan penjelasan untuk tiap-tiap agenda yang akan mendapat persetujuan Pemegang Saham. Sebelum pelaksanaan RUPS Perseroan menjelaskan tata cara pemungutan suara. Setelah RUPS selesai maka risalah RUPS mencatat pertanyaan atau tanggapan Pemegang Saham. Dalam risalah RUPS juga disampaikan hasil pemungutan suara bagi yang menyetujui, tidak menyetujui (*dissenting*) dan abstain.

The Process of Implementing a GMS and Voting

The General Meeting of Shareholders shall be held in the location of the Company. Summons are made no later than 14 (fourteen) days before the date of the General Meeting of Shareholders held without taking into account the date of summons and of the General Meeting of Shareholders. At the time of the summons for the GMS, an explanation has been conveyed for each agenda that will be approved by the Shareholders. The General Meeting of Shareholders can be held if the attendance quorum as required by the Law on Limited Liability Companies has been met. Shareholders who are unable to attend may provide a proxy. A power of attorney can be obtained from the Company. The voting mechanism is carried out using the polling method. The General Meeting of Shareholders can be held if the quorum has met the requirements stipulated by the Law concerning Limited Liability Companies. The general meeting of Shareholders can make decisions based on the amicable discussion or the number of votes issued at the Extraordinary general meeting of Shareholders as stipulated in the Law concerning Limited Liability Companies.

In addition, considering Article 91 of Law no. 40 of 2007 related to Limited Liability Companies stated that Shareholders might also make binding decisions outside the GMS provided that all shareholders with voting rights agreed in writing by signing the proposal in question. Such resolutions are binding ones that have the same legal force as the resolutions of the GMS.

At the time of the invitation to the GMS, an explanation has been submitted for each agenda that will be approved by the shareholders. Prior to the implementation of the GMS, the Company explained the voting procedures. After the GMS is completed, the minutes of the GMS record the Shareholders' questions or responses. The minutes of the GMS also conveyed the voting results for those who approved, dissented and abstained.

Resignation and Termination Mechanism of Directors

Resignation Mechanism

In accordance with the provisions of Article 12 paragraph 9 of the Company's Articles of Association, a member of the Board of Directors has the right to resign from his position by giving written notification to the Bank at least 30 days before the date of his resignation. Furthermore, within 90 days of the occurrence of vacancies, a GMS must be held to fill them with due observance of the laws and regulations and the Articles of Association.

Resignation can be submitted in less than 30 days in the event that there is a relevant assignment by the competent government or the majority shareholder of the Company's Shareholders.

Termination Mechanism

Based on the provisions of Article 105 of the UUPT, members of the Board of Directors may be dismissed at any time by the GMS by stating the reason. Prior to the dismissal, the members of the Board of Directors concerned were given the opportunity to defend themselves in the GMS. The dismissal of members of the Board of Directors can also be done by decisions outside the GMS with the same mechanism, namely the Board of Directors is given the opportunity to defend themselves before a decision is taken dismissal, if the Board of Directors to be dismissed does not mind the dismissal then self-defense is not required. Termination shall be effective from the closing of the GMS or the date of termination decision outside the GMS or any other date specified.

The member of the Board of Directors can also be temporarily dismissed by the Board of Commissioners as regulated in Article 12 Paragraph 12 Articles of Association, if they act contrary to the Articles of Association or there are indications of committing a violation which results in a loss for the company. Temporary dismissal of the member of the Board of Directors is notified in writing by conveying the reason.

Dalam jangka waktu paling lambat 90 (sembilan puluh) hari setelah tanggal pemberhentian sementara harus diselenggarakan RUPS. Dalam RUPS Direksi yang bersangkutan diberikan hak untuk membela diri. RUPS dapat mencabut ataupun menguatkan keputusan pemberhentian tersebut. Apabila keputusan RUPS menguatkan keputusan pemberhentian sementara, anggota Direksi yang bersangkutan diberhentikan untuk seterusnya.

Apabila tidak dilaksanakan RUPS dalam jangka waktu sebagaimana ditentukan sejak pemberhentian sementara tersebut, ataupun RUPS tidak mengambil keputusan maka pemberhentian sementara tersebut menjadi batal dan anggota Direksi yang bersangkutan berhak dan berwenang kembali melakukan tugas dan kewajibannya.

Rapat Dewan Komisaris

Kebijakan Rapat

Sesuai dengan ketentuan Pedoman dan Tata Tertib Kerja Dewan Komisaris, Rapat Dewan Komisaris terdiri dari 2 (dua) jenis, yaitu:

- Rapat Dewan Komisaris yang diadakan sekurang-kurangnya 1 (satu) kali dalam 1 (satu) bulan.
- Rapat Gabungan Dewan Komisaris dan Direksi yang diadakan sekurang-kurangnya 1 (satu) kali dalam 4 (empat) bulan.

Board of Commissioners Meeting

Meeting Policy

In accordance with the provisions of the Guidelines and Working Code of the Board of Commissioners, the Meeting of the Board of Commissioners consists of 2 (two) types, namely:

- The Board of Commissioners' meeting which is held at least 1 (one) time in 1 (one) month.
- Joint Meeting of the Board of Commissioners and Board of Directors held at least 1 (one) time in 4 (four) months.

Pelaksanaan Rapat Dewan Komisaris harus sejalan dengan Anggaran Dasar Bank dan peraturan perundang-undangan yang berlaku. Pemanggilan rapat dilakukan oleh Komisaris Utama. Dalam hal Komisaris Utama berhalangan, maka pemanggilan Rapat dapat dilakukan oleh anggota Dewan Komisaris lainnya yang ditunjuk oleh Komisaris Utama. Bahan rapat dikirim secara tertulis paling lambat 3 (tiga) hari kalender sebelum pelaksanaan Rapat, atau 1 (satu) hari kalender sebelum pelaksanaan Rapat bila penyelenggaraan Rapat bersifat mendesak yang ditetapkan oleh Komisaris Utama.

Rapat Dewan Komisaris sebagaimana tersebut di atas adalah sah dan berhak mengambil keputusan-keputusan yang mengikat apabila dihadiri oleh lebih dari 1/2 (satu per dua) bagian dari jumlah seluruh Komisaris, dengan catatan risalah rapat ditandatangani oleh seluruh Komisaris. Seorang Komisaris dapat diwakili dalam rapat hanya oleh seorang Komisaris lainnya berdasarkan kuasa tertulis yang diberikan khusus untuk keperluan itu. Kuasa tertulis Komisaris yang tidak hadir kepada Komisaris lainnya diperhitungkan sebagai kehadiran. Seorang Komisaris hanya boleh menerima kuasa dari 1 (satu) orang Komisaris lainnya.

Bahan rapat Dewan Komisaris dibuat secara tertulis dan ringkas oleh pejabat yang akan melakukan presentasi dan berisi data serta informasi sesuai dengan materi yang akan dibahas dalam rapat. Untuk hal yang bersifat sensitif dan/atau mendesak dimungkinkan bahan rapat tidak dapat dibuat secara tertulis. Bahan rapat Dewan Komisaris didistribusikan sebelumnya kepada seluruh peserta rapat, kecuali dalam keadaan mendesak bahan rapat disampaikan pada saat dilaksanakannya rapat.

Keputusan rapat Dewan Komisaris diambil secara musyawarah dan mufakat dari para peserta yang hadir. Dalam hal musyawarah dan mufakat tidak dapat dilaksanakan, maka keputusan diambil dengan suara terbanyak (voting). Apabila jumlah suara yang setuju dan tidak setuju sama banyaknya, maka keputusan ditunda untuk dikaji masalahnya lebih mendalam.

Rencana Rapat Internal Dewan Komisaris

Rencana rapat Dewan Komisaris diadakan sekurang-kurangnya 1 (satu) kali dalam 1 (satu) bulan dengan membahas hasil laporan dari Komite di bawah Dewan Komisaris.

Rapat Internal Dewan Komisaris

Sepanjang tahun 2025, agenda, tanggal dan peserta rapat Dewan Komisaris adalah sebagai berikut.

The meeting of the Board of Commissioners had to be in line with the Articles of Association of the Bank and the prevailing laws and regulations. The invitation to the meeting was made by the President Commissioner. In the event that the President Commissioner was absent, the invitations for the Meeting might be made by another member of the Board of Commissioners who was appointed by the President Commissioner. Meeting materials were sent in writing no later than 3 (three) calendar days prior to the implementation of the Meeting, or 1 (one) calendar day before the implementation of the Meeting if the meeting was urgent as determined by the President Commissioner.

The Board of Commissioners' meeting as mentioned above is valid and entitled to make binding decisions if attended by more than 1/2 (one-half) of the total number of Commissioners as long as the minutes of meeting signed by all Commissioners. A Commissioner may only be represented in a meeting by another Commissioner based on written authorization granted specifically for that purpose. The written outhorization of the Commissioner who is not present to another Commissioner shall be counted as attendance. A Commissioner may only receive authorization or power from 1 (one) other Commissioner.

Materials for the Board of Commissioners' meeting are made in writing and concise by officials who will make presentation and contain data and information in accordance with the materials to be discussed during the meeting. For sensitive and/or urgent matters, it is allowed to make meeting materials not in writing. Materials of the Board of Commissioners' meeting are distributed to all meeting participants before the meeting, except in the case of urgent conditions, meeting materials are distributed at the time of the meeting.

Decisions of the meeting of the Board of Commissioners were taken by deliberation and consensus from the attendees. In the event that deliberation and consensus could not be implemented, a decision shall be made by means of a majority vote (voting). If the number of votes agreeing and disagreeing was the same, then the decision would be postponed to study the problem more deeply.

Penilaian Kinerja Direksi dan Dewan Komisaris

Penilaian Kinerja Direksi

PROSEDUR PELAKSANAAN PENILAIAN KINERJA DIREKSI

Sebagai bentuk pengukuran atas pencapaian target kinerja yang telah dilaksanakan oleh Direksi, maka perlu dilakukan penilaian terhadap Direksi secara kolektif maupun masing-masing anggota Direksi. Penilaian Direksi dilakukan secara berkala dan saat pertanggungjawaban laporan tahunan pada RUPS Tahunan 2025. Pelaksanaan RUPS untuk pertanggungjawaban laporan tahunan tahun buku 2024, pada kesempatan tersebut pemegang saham menerima laporan tahunan perusahaan tahun buku 2024 mengenai keadaan jalannya perusahaan dan hasil yang telah dicapai, dan selanjutnya menyatakan memberikan pembebasan sepenuhnya pertanggungjawaban (*acquitted de charge*) Direksi Bank untuk operasional Bank selama tahun buku 2024.

Untuk Direksi secara individu, dinilai setiap tahun untuk melihat kinerja masing-masing anggota Direksi dalam pelaksanaan tugas dan tanggung jawabnya. Penilaian tersebut dilaksanakan berdasarkan target yang ditetapkan dalam *Key Performance Indicator* (KPI) yang telah disepakati bersama dari awal tahun sesuai pembedangannya masing-masing.

directly or from related work units specially invited. In the Board of Commissioners meeting, Committee Meeting and Board of Commissioners meeting invited the Board of Directors.

To supervise the implementation of the Company's strategy, the Board of Commissioners conducted studies and provided opinions on the business strategies implemented by the Bank, conducted assessments, provided opinions and advice on the Business Plan Draft and its elaboration into the Bank's Annual Work Plan and Budget (RKAP), conducted periodic supervision on the implementation of the RKAP and provide opinions or approvals on changes to the RKAP in accordance with applicable regulations.

Performance Assessment the Board of Commissioners and Board of Directors

Board of Directors Performance Assessment

PROCEDURE FOR THE IMPLEMENTATION OF BOARD OF DIRECTORS PERFORMANCE ASSESSMENT

As a measure of the achievement of performance targets carried out by the Board of Directors, an assessment of the Board of Directors was conducted, both collectively and individually. The assessment of the Board of Directors was carried out periodically and at the time of accountability for the annual report at the 2025 Annual General Meeting of Shareholders (AGMS). At the AGMS convened to present accountability for the 2024 financial year, the shareholders accepted the Company's annual report for the 2024 financial year regarding the condition of the Company's operations and the results achieved, and subsequently granted full release and discharge (*acquitted de charge*) to the Board of Directors for the Bank's operations during the 2024 financial year.

Individually, members of the Board of Directors were assessed annually to evaluate their respective performance in carrying out their duties and responsibilities. The assessment was conducted based on targets set in the *Key Performance Indicators* (KPIs), which had been mutually agreed upon at the beginning of the year in accordance with their respective areas of responsibility.

KRITERIA PENILAIAN KINERJA DIREKSI

Keberhasilan kinerja Direksi akan tercermin dalam satu kesatuan realisasi Rencana Kerja dan Anggaran Perusahaan (RKAP) secara tahunan, penilaian berdasarkan parameter kinerja kolegal dan kinerja individual/sektoral dengan mempertimbangkan faktor kuantitatif dan kualitatif. Penilaian Direksi meliputi tingkat kesehatan bank yang mencakup aspek profil risiko, Good Corporate Governance (GCG), rentabilitas dan permodalan Bank.

Penilaian Direksi dilaksanakan secara berkala dan tahunan berdasarkan Key Performance Indicator (KPI), secara garis besarnya mengacu pada 4 (empat) kriteria penilaian berdasarkan perspektif keuangan, perspektif pelanggan, perspektif aliansi, dan strategi serta perspektif pengembangan.

PARTIES CONDUCTING THE PERFORMANCE ASSESSMENT

The performance assessment of the Board of Directors in carrying out its duties collectively and collegially was conducted at the General Meeting of Shareholders (GMS) by the Shareholders. Prior to submission to the GMS, the assessment was reviewed and evaluated by the Board of Commissioners. Meanwhile, the assessment of each individual member of the Board of Directors, based on their respective Key Performance Indicators (KPIs), was conducted semi-annually or annually by the Board of Commissioners.

RESULTS OF THE BOARD OF DIRECTORS PERFORMANCE ASSESSMENT

The GMS was convened for the accountability of the 2024 annual report. The results of the Shareholders' assessment showed that the Shareholders accepted the Company's annual report for the 2024 financial year regarding the condition of the Company's operations and the results achieved, and subsequently granted full release and discharge (acquitted and discharged) to the Board of Directors for the Bank's operations during 2024. The release and discharge (acquitted and discharged) were also granted to members of the Board of Directors who had ceased to serve prior to the end of the 2024 financial year.

The individual KPI assessment conducted by the Board of Commissioners showed that each member of the Board of Directors had carried out their duties and responsibilities very well. The results of the performance assessment of the Board of Directors based on the previously agreed KPIs served as consideration for the implementation of remuneration and nomination for each member of the Board of Directors going forward.

Penilaian Kinerja Dewan Komisaris

Penilaian kinerja Dewan Komisaris dilakukan oleh Pemegang Saham dalam RUPS Tahunan pada saat penyampaian Laporan tugas pengawasan Dewan Komisaris tersebut kepada RUPS dalam Laporan tahunan Bank, berdasarkan laporan tersebut RUPS menyatakan serta memberikan pembebasan sepenuhnya (*acquitted de charge*) kepada Dewan Komisaris atas tindakan pengawasan yang dilakukan dalam Tahun Buku yang berakhir pada akhir tahun. Kinerja Dewan Komisaris tercermin dari pencapaian realisasi Program Kerja/Rencana Kerja Tahunan Dewan Komisaris yang seluruhnya telah tercapai. Di samping itu, hasil evaluasi terhadap kinerja Dewan Komisaris secara keseluruhan dan kinerja masing-masing anggota Dewan Komisaris secara individu merupakan bagian tak terpisahkan dalam skema kompensasi/pemberian insentif bagi Dewan Komisaris dan dasar pertimbangan bagi pemegang saham untuk memberhentikan dan/atau menunjuk kembali Dewan Komisaris yang bersangkutan.

Dalam melaksanakan penilaian atas kinerja Dewan Komisaris, Bank Mandiri Taspen telah mengacu pada beberapa ketentuan seperti Undang-Undang No. 40 Tahun 2007 tentang Perseroan Terbatas. Sebagai media penilaian kinerja Dewan Komisaris, dilakukan *self assessment* atas kinerja fungsi pengawasan Dewan Komisaris dan Komite di bawah Dewan komisaris yang disampaikan dalam suatu laporan Dewan Komisaris yang dibuat setiap semester untuk dilaporkan kepada Otoritas Jasa keuangan. Sedangkan penilaian kinerja Dewan Komisaris tahunan dilaksanakan setiap tahun sekali dalam forum RUPS untuk melaporkan fungsi pengawasan yang telah dilakukan. Pengukuran kinerja Dewan Komisaris merupakan hasil kerja kolektif dari seluruh Dewan komisaris yang tercermin dalam satu kesatuan pada realisasi Rencana Kerja dan Anggaran Perusahaan (RKAP) secara tahunan.

PROSEDUR PELAKSANAAN PENILAIAN KINERJA DEWAN KOMISARIS

Prosedur penilaian kinerja Dewan Komisaris yang dilaksanakan oleh Pemegang Saham melalui RUPS adalah sebagai berikut:

1. Dewan Komisaris wajib menyampaikan laporan kinerja Dewan Komisaris dan Anggota Dewan Komisaris untuk dievaluasi oleh Pemegang Saham dalam RUPS.
2. Kinerja Dewan Komisaris ditentukan berdasarkan tugas kewajiban yang tercantum dalam peraturan perundang-undangan yang berlaku dan Anggaran Dasar maupun amanat Pemegang Saham.
3. Hasil evaluasi kinerja masing-masing Anggota Dewan Komisaris secara individual merupakan salah satu dasar pertimbangan bagi Pemegang Saham untuk memberhentikan dan/atau menunjuk kembali Anggota Dewan Komisaris yang bersangkutan.
4. Hasil evaluasi kinerja tersebut merupakan sarana penilaian serta peningkatan efektivitas Dewan Komisaris.

Performance Assessment the Board of Commissioners

The performance assessment of the Board of Commissioners collegial and individual was carried out by the Shareholders at the Annual GMS at the time the Board of Commissioners' supervisory duties report was submitted to the GMS in the Bank's Annual Report in the Fiscal Year ending at the end of the year. The performance of the Board of Commissioners was reflected in the realization of the Work Program/Annual Work Plan of the Board of Commissioners, which had all been achieved. In addition, the results of the evaluation of the overall performance of the Board of Commissioners and the performance of each member of the Board of Commissioners individually became an integral part of the compensation/incentive scheme for the Board of Commissioners and a basis for consideration for shareholders to dismiss and/or reappoint the Board of Commissioners concerned.

In assessing the performance of the Board of Commissioners, Bank Mandiri Taspen referred to several provisions such as Law No. 40 of 2007 concerning Limited Liability Companies. As a medium for evaluating the performance of the Board of Commissioners, a selfassessment was carried out on the performance of the supervisory function of the Board of Commissioners and Committees under the Board of Commissioners which was submitted in a Board of Commissioners report which was made every semester to be reported to the Financial Services Authority. Meanwhile, the annual performance assessment of the Board of Commissioners was carried out every year in the GMS forum to report the supervisory function that had been carried out. The performance measurement of the Board of Commissioners is the collective work of the entire Board of Commissioners, reflected as a unified result in the annual realization of the Corporate Work and Budget Plan (RKAP).

PROCEDURES FOR PERFORMANCE ASSESSMENT BOARD OF COMMISSIONERS

The collegial and individual performance assessment procedures for the Board of Commissioners carried out by Shareholders through the GMS are as follows:

1. The Board of Commissioners shall submit a performance report of the Board of Commissioners and Members of the Board of Commissioners to be evaluated by the Shareholders in the GMS.
2. The performance of the Board of Commissioners shall be determined based on the duties of obligations stated in the prevailing laws and regulations and the Articles of Association and mandate of the Shareholders.
3. The results of performance evaluation of each Member of the Board of Commissioners individually is one of the basis of consideration for shareholders to dismiss and/or re-appoint members of the board of commissioners concerned.
4. The results of the performance evaluation are a means of assessment and improvement of the effectiveness of the Board of Commissioners.

KRITERIA PENILAIAN KINERJA DEWAN KOMISARIS

Kriteria evaluasi yang digunakan untuk menilai kinerja Dewan Komisaris dan individu Anggota Dewan Komisaris adalah pelaksanaan fungsi Dewan Komisaris dalam melakukan pengawasan dan memberikan nasihat kepada Direksi demi kepentingan Bank dan Pemegang Saham khususnya serta pihak yang berkepentingan pada umumnya.

Penilaian tersebut dilaksanakan secara tahunan dengan kriteria evaluasi sebagai berikut:

1. Efektivitas pelaksanaan fungsi pengawasan dan pemberian nasihat kepada Direksi sesuai dengan Anggaran Dasar Perseroan dan ketentuan yang berlaku.
2. Tingkat kepatuhan Dewan Komisaris terhadap peraturan perundang-undangan, kebijakan internal, dan prinsip-prinsip tata kelola perusahaan yang baik.
3. Peran Dewan Komisaris dalam memastikan keberlanjutan usaha, manajemen risiko yang efektif, serta terjaganya tingkat kesehatan Bank.
4. Tingkat kehadiran dan kontribusi aktif dalam Rapat Dewan Komisaris, Rapat Komite Dewan Komisaris, serta Rapat Dewan Komisaris bersama Direksi.
5. Peran dan kontribusi dalam pelaksanaan tugas Komite di bawah Dewan Komisaris, termasuk Komite Audit, Komite Pemantau Risiko, dan Komite Remunerasi dan Nominasi.
6. Partisipasi Dewan Komisaris dalam penugasan tertentu yang diberikan oleh Pemegang Saham atau yang diperlukan untuk mendukung kepentingan Perseroan.
7. Penerapan prinsip independensi, objektivitas, integritas, serta profesionalisme dalam pengambilan keputusan.
8. Efektivitas pengawasan terhadap pelaksanaan Rencana Bisnis Bank (RBB) dan Rencana Kerja dan Anggaran Perusahaan (RKAP).

PIHAK YANG MELAKUKAN ASSESSMENT

Pihak yang melakukan penilaian terhadap kinerja Dewan Komisaris adalah Pemegang Saham melalui RUPS berdasarkan kewajiban yang tercantum dalam Perundang-undangan yang berlaku dan Anggaran Dasar maupun amanat Pemegang Saham. Dewan Komisaris akan mempertanggungjawabkan kinerja mereka pada periode 2025 dalam RUPS yang diselenggarakan pada tahun 2026.

HASIL PENILAIAN KINERJA DEWAN KOMISARIS

Penilaian kinerja Dewan Komisaris dilakukan oleh Pemegang Saham melalui Rapat Umum Pemegang Saham (RUPS) Tahunan berdasarkan penyampaian Laporan Tugas Pengawasan Dewan Komisaris dalam Laporan Tahunan Bank. Berdasarkan laporan

BOARD OF COMMISSIONERS' PERFORMANCE ASSESSMENT CRITERIA

The evaluation criteria used to assess the performance of the Board of Commissioners and individual members of the Board of Commissioners are the execution of the Board of Commissioners' functions in overseeing and providing advice to the Board of Directors for the benefit of the Bank and Shareholders, in particular, and stakeholders in general.

The assessment was conducted annually with the following evaluation criteria:

The Board of Commissioners will be responsible for their performance in the 2025 period at the GMS to be held in 2026.

BOARD OF COMMISSIONERS ' PERFORMANCE ASSESSMENT RESULTS

The performance evaluation of the Board of Commissioners was conducted by the Shareholders through the Annual General Meeting of Shareholders (AGMS) based on the submission of the Board of Commissioners' Supervisory Report

tersebut, RUPS memberikan persetujuan serta pembebasan dan pelunasan tanggung jawab sepenuhnya (acquit et de charge) kepada Dewan Komisaris atas pelaksanaan tugas pengawasan selama Tahun Buku 2025.

Di samping itu, hasil evaluasi terhadap kinerja Dewan Komisaris secara keseluruhan dan kinerja masing-masing anggota Dewan Komisaris secara individu merupakan bagian tak terpisahkan dalam skema kompensasi/pemberian insentif bagi Dewan Komisaris dan dasar pertimbangan bagi pemegang saham untuk memberhentikan dan/atau menunjuk kembali Dewan Komisaris yang bersangkutan.

Penilaian Kinerja Komite di Bawah Dewan Komisaris dan Dasar Penilaiannya

Dalam rangka meningkatkan peran Dewan Komisaris dalam menjalankan fungsi pengawasan, Dewan Komisaris telah membentuk 3 (tiga) komite yaitu:

1. Komite Audit
2. Komite Remunerasi dan Nominasi
3. Komite Pemantau Risiko

Dewan Komisaris secara periodik (tahunan) melakukan penilaian atas efektivitas kinerja komite-komite di bawah Dewan Komisaris. Masing-masing komite dinilai berdasarkan rencana kerja serta Piagam dari masing-masing Komite dengan indikator penilaian mencakup jumlah pelaksanaan rapat, kehadiran rapat, materi-materi yang dibahas dalam rapat, kunjungan ke kantor wilayah serta penugasan lainnya oleh Dewan Komisaris. Dewan Komisaris menilai bahwa selama tahun 2025 komite-komite telah menjalankan tugas dan tanggung jawabnya dengan baik dan telah sesuai dengan ketentuan yang berlaku.

Komite Audit memiliki tugas dan tanggung jawab melakukan pengawasan atas hal-hal yang terkait dengan informasi keuangan, sistem pengendalian internal (*internal control system*), efektivitas pemeriksaan oleh auditor eksternal dan internal, efektivitas pelaksanaan manajemen risiko serta kepatuhan terhadap peraturan perundang-undangan yang berlaku. Selama tahun 2025, Komite Audit telah melaksanakan beberapa kegiatan sebagai berikut:

1. Komite Audit telah menyelenggarakan 13 (tiga belas) rapat untuk menelaah laporan keuangan, mengevaluasi audit internal dan eksternal, menilai efektivitas pengendalian internal, memantau tindak lanjut temuan audit dan pemeriksaan regulator, mengawasi pengaduan nasabah dan kasus hukum, serta memastikan kepatuhan terhadap peraturan perundang-undangan.
2. Komite Audit memberikan arahan dan rekomendasi kepada Dewan Komisaris guna meningkatkan kualitas tata kelola perusahaan, memperkuat pengendalian internal, dan mengoptimalkan efektivitas fungsi pengawasan.

in the Bank's Annual Report. Based on such report, the AGMS granted approval as well as full release and discharge (acquit et de charge) to the Board of Commissioners for the performance of its supervisory duties during the 2025 Financial Year.

In addition, the results of the evaluation of the Board of Commissioners' overall performance and the performance of each member of the Board of Commissioners individually are an integral part of the compensation/incentive scheme for the Board of Commissioners and are a basis for shareholders to dismiss and/ or reappoint the Board of Commissioners concerned.

Performance Assessment of Committees Under the Board of Commissioners and the Basis of Their Rating

In order to improve the role of the Board of Commissioners in carrying out its supervisory function, the Board of Commissioners formed 3 (three) committees, namely:

1. Audit Committee
2. Remuneration and Nomination Committee
3. Risk Monitoring Committee

The Board of Commissioners periodically (annually) evaluates the effectiveness of the performance of the committees under the Board of Commissioners. Each committee is assessed based on the work plan and charter of each committee with assessment indicators including the number of meetings held, meeting attendance, materials discussed at meetings, visits to regional offices and other assignments by the Board of Commissioners. The Board of Commissioners considers that during 2025 the committees have carried out their duties and responsibilities properly and are in accordance with applicable regulations.

The Audit Committee has the duties and responsibilities of supervising matters related to financial information, internal control systems, effectiveness of audits by external and internal auditors, effectiveness of risk management implementation and compliance with applicable laws and regulations. During 2025, the Audit Committee has carried out the following activities:

1. The Audit Committee held 13 (thirteen) meetings to review financial statements, evaluate internal and external audits, assess the effectiveness of internal controls, monitor follow-ups on audit findings and regulatory examinations, oversee customer complaints and legal cases, and ensure compliance with prevailing laws and regulations.
2. The Audit Committee provided guidance and recommendations to the Board of Commissioners to enhance the quality of corporate governance, strengthen internal controls, and optimize the effectiveness of the supervisory function.

3. Komite Audit mengevaluasi kinerja dan independensi Kantor Akuntan Publik serta memberikan rekomendasi kepada Dewan Komisaris untuk diajukan kepada RUPS.

Komite Remunerasi dan Nominasi memiliki tugas dan tanggung jawab membantu Dewan Komisaris dalam melaksanakan fungsi dan tugasnya di bidang yang berkaitan dengan nominasi dan remunerasi terhadap anggota Direksi dan Dewan Komisaris. Selama tahun 2025, Komite Remunerasi dan Nominasi telah melaksanakan rapat sebanyak 7 (tujuh) kali dengan membahas antara lain:

1. Penelaahan dan pemberian rekomendasi atas usulan perubahan struktur organisasi satu tingkat di bawah Direksi;
2. Penelaahan dan pemberian rekomendasi terkait remunerasi bagi Direksi dan Dewan Komisaris, termasuk gaji atau honorarium, tantiem, serta fasilitas dan tunjangan lainnya sesuai dengan ketentuan yang berlaku;

Selama tahun 2025, Komite Pemantau Risiko telah melaksanakan rapat sebanyak 12 (dua belas) kali dengan membahas:

1. Evaluasi implementasi pengelolaan 8 (delapan) jenis risiko yang dihadapi Bank.
2. Evaluasi kepatuhan Bank terhadap peraturan perundang-undangan yang berlaku, termasuk penerapan Program Anti Pencucian Uang dan Pencegahan Pendanaan Terorisme (APU PPT).
3. Pemberian arahan dan rekomendasi kepada Dewan Komisaris dalam rangka memperkuat penerapan manajemen risiko dan kepatuhan Bank.

Mekanisme Pemberhentian dan Pengunduran Diri Dewan Komisaris

Sesuai ketentuan Anggaran Dasar Pasal 15 Ayat 8, anggota Dewan Komisaris berhak mengundurkan diri dari jabatannya dengan memberitahukan secara tertulis kepada perusahaan paling kurang 30 (tiga puluh) hari sebelum tanggal pengunduran dirinya. Selanjutnya dalam jangka 90 (sembilan puluh) hari sejak terjadinya lowongan harus diselenggarakan RUPS untuk mengisinya dengan memperhatikan peraturan perundang-undangan dan Anggaran Dasar.

Pengunduran diri dapat disampaikan kurang dari 30 (tiga puluh) dalam hal terdapat penugasan yang bersangkutan oleh pemerintah yang berwenang atau pemegang saham mayoritas dari Pemegang Saham Perseroan.

3. The Audit Committee evaluated the performance and independence of the Public Accounting Firm and provided recommendations to the Board of Commissioners for submission to the General Meeting of Shareholders (GMS).

The Remuneration and Nomination Committee had the duties and responsibilities to assist the Board of Commissioners in carrying out its functions and responsibilities in matters related to the nomination and remuneration of members of the Board of Directors and the Board of Commissioners. During 2025, the Remuneration and Nomination Committee held 7 (seven) meetings, discussing among others:

1. Review and recommendation on the proposed changes to the organizational structure one level below the Board of Directors;
2. Review and recommendation regarding remuneration for the Board of Directors and the Board of Commissioners, including salaries or honoraria, tantiem, as well as other facilities and benefits in accordance with prevailing regulations;
3. Review and recommendation on the proposed candidates for members of the Board of Commissioners and the Board of Directors of Bank Mandiri Taspen.

The Risk Monitoring Committee has duties and responsibilities in supervising the implementation of the Company's risk management and continues to fulfill the elements of adequate risk management procedures and methodologies, so that the Bank's business activities can remain controlled within acceptable and profitable limits. In 2025, the Risk Monitoring Committee held 12 (twelve) meetings, discussing:

1. Evaluation of the implementation of the management of the eight (8) types of risks faced by the Bank.
2. Evaluation of the Bank's compliance with applicable laws and regulations, including the implementation of the Anti-Money Laundering and Counter-Terrorism Financing (AML/CTF) Program.
3. Provision of directions and recommendations to the Board of Commissioners in order to strengthen the implementation of the Bank's risk management and compliance.

Mechanism of Termination and Return of the Board of Commissioners

Following the Articles of Association Article 15 Paragraph 8, a member of the Board of Commissioners has the right to resign from his position by giving written notification to the company at least 30 (thirty) days before his resignation. Furthermore, within 90 (ninety) days after the vacancy occurs, a GMS must be held to fill it with due observance of the laws and regulations and the Articles of Association.

The resignation can be submitted by less than 30 (thirty) days if there is a relevant assignment by the competent government or the majority shareholder of the Company's Shareholders.

Jabatan anggota Dewan Komisaris berakhir apabila:

1. Kehilangan kewarganegaraan Indonesia.
2. Mengundurkan diri.
3. Tidak lagi memenuhi persyaratan perundang-undangan yang berlaku.
4. Meninggal dunia.
5. Diberhentikan berdasarkan keputusan RUPS.

Dalam hal terdapat penambahan anggota Dewan Komisaris, maka masa jabatan anggota Dewan Komisaris tersebut akan berakhir bersamaan dengan berakhirnya jabatan anggota Dewan Komisaris lainnya yang telah ada, kecuali Rapat Umum Pemegang Saham menentukan lain.

The remuneration of the Board of Commissioners and the Board of Directors was determined in the following manner:

1. The Remuneration and Nomination Committee reviewed the remuneration for members of the Board of Commissioners and the Board of Directors.
2. The Remuneration and Nomination Committee coordinated with the Director and Officer in charge of Human Capital and related work units in order to prepare the Remuneration proposal.
3. In setting the remuneration policy, at least pay attention to:
 - a. Financial performance and reserve fulfillment;
 - b. Individual work performance;
 - c. Fairness with peer division;
 - d. Consideration of the bank's long-term goals and strategies
4. The Remuneration and Nomination Committee, based on the study, prepared remuneration recommendations and then submitted them to the Board of Commissioners and the Board of Directors.
5. The Board of Commissioners submitted proposals and recommendations based on the review of the Remuneration and Nomination Committee to the GMS for approval.
6. The proposals and recommendations of the Board of Commissioners to the GMS could be in the form of:
 - a. Approval on the form and amount of Remuneration; or
 - b. Approval to be given authority to the Board of Commissioners in determining the form and amount of remuneration.

Indicators for Determining the Remuneration of the Board of Commissioners and Board of Directors

The indicators for determining remuneration for the Board of Commissioners and Board of Directors of Bank Mandiri Taspen referred to the OJK Regulation Number 45/POJK.03/2015 concerning the Implementation of Governance in Providing Remuneration for Commercial Banks and the Regulation of

Republik Indonesia Nomor PER-12/MBU/11/2020 Tentang Perubahan Kelima Atas Peraturan Menteri Badan Usaha Milik Negara Nomor PER-04/MBU/2014 Tentang Pedoman Penetapan Penghasilan Direksi, Dewan Komisaris, dan Dewan Pengawas Badan Usaha Milik Negara yang juga diberlakukan untuk perusahaan anak BUMN.

Bank Mandiri Taspen telah memiliki Kebijakan Remunerasi yang telah beberapa kali di revisi dengan revisi terakhir tanggal 19 Maret 2020. Kebijakan remunerasi yang telah ditetapkan saat ini mengatur terkait remunerasi Dewan Komisaris, Direksi dan juga pegawai di level tertentu untuk ditetapkan sebagai *material risk taker*. Penetapan *material risk taker* dilakukan dengan menggunakan pendekatan kualitatif dan kuantitatif.

Dalam penetapan remunerasi karyawan, Pejabat Eksekutif, Direksi dan Dewan Komisaris, Komite Remunerasi mempertimbangkan beberapa hal, antara lain:

1. Hasil *benchmarking* remunerasi karyawan, pejabat eksekutif, anggota Direksi dan anggota Dewan Komisaris dengan industri sejenis (*peer group*).
2. Kompleksitas dari operasi Bank dan kinerja jangka panjang Bank.
3. Remunerasi terdiri dari gaji/honorarium dan benefit yang bisa distandarisasi yaitu Tunjangan Hari Raya Cuti Tahunan (THR), Rumah Dinas, Kendaraan Dinas, Fasilitas Kesehatan dan Utilities serta benefit lainnya. Sedangkan remunerasi yang berdasarkan kinerja adalah bonus/insentif untuk karyawan dan tantiem untuk Direksi dan Dewan Komisaris.

Struktur dan Jumlah Nominal/Komponen Remunerasi Dewan Komisaris dan Direksi

Remunerasi Dewan Komisaris dan Direksi diberikan dengan memperhatikan pada ketentuan remunerasi yang berlaku, yaitu dalam bentuk:

1. Remunerasi yang bersifat tetap, yaitu remunerasi yang tidak dikaitkan dengan kinerja dan risiko, antara lain gaji/honorarium, fasilitas, tunjangan perumahan, tunjangan kesehatan, tunjangan pendidikan, tunjangan hari raya dan santunan purna jabatan. Remunerasi yang berupa Gaji/Honorarium, Fasilitas, Tunjangan dan santunan purna jabatan diberikan dalam bentuk tunai.
2. Remunerasi yang bersifat variabel, yaitu remunerasi yang dikaitkan dengan kinerja dan risiko, antara lain Bonus, Tantiem/Insentif Kinerja atau bentuk lainnya yang dipersamakan dengan itu. Remunerasi yang berupa Bonus, Tantiem, Insentif dapat diberikan dalam bentuk tunai, saham, atau instrumen yang berbasis saham yang diterbitkan oleh Perseroan dengan ketentuan khusus untuk Dewan Komisaris diberikan dalam bentuk tunai untuk menghindari unsur benturan kepentingan dalam menjalankan pengawasan.

the Minister of State Owned Enterprises of the Republic of Indonesia Number PER-12/MBU/11/2020 Regarding the Fifth Amendment to the Regulation of the Minister of State-Owned Enterprises Number PER-04/MBU/2014 concerning Guidelines for Determining the Income of Directors, Board of Commissioners, and Supervisory Board of State-Owned Enterprises which also applied to SOE subsidiaries.

Bank Mandiri Taspen had a Remuneration Policy revised several times with the latest revision on March 19, 2020. The current remuneration policy regulated the remuneration of the Board of Commissioners, Directors and employees at certain levels to be determined as *material risk takers*. Determination of *material risk takers* was carried out using a qualitative and quantitative approach.

In determining the remuneration of employees, Executive Officers, Directors and Board of Commissioners, the Remuneration and Nomination Committee considers several things, including:

1. The results of *benchmarking* the remuneration of employees, executive officers, members of the Board of Directors and members of the Board of Commissioners with similar industries (*peer group*).
2. The complexity of the Bank's operations and the Bank's long-term performance
3. Remuneration consisted of salary/honorarium and benefits that could be standardized, namely Annual Leave Holiday Allowance (THR), Official House, Official Vehicle, Health Facilities and Utilities and other benefits. Meanwhile, remuneration based on performance is bonuses/incentives for employees and bonuses for the Board of Directors and the Board of Commissioners.

Structure and Amount of Remuneration of the Board of Commissioners and Board of Directors

The remuneration of the Board of Commissioners and the Board of Directors was given by considering the applicable remuneration provisions, namely in the form of:

1. Fixed remuneration, namely remuneration that was not related to performance and risk, including salary/honorarium, facilities, housing allowance, health allowance, education allowance, holiday allowance and post-service benefits. Remuneration in the form of Salary/Honorarium, Facilities, Allowances and post-service benefits was given in cash.
2. Variable remuneration, namely remuneration related to performance and risk, including bonuses, bonuses/performance incentives or other equivalent forms. Remuneration in the form of Bonuses, Bonuses, Incentives could be given in the form of cash, shares, or share-based instruments issued by the Company with special provisions for the Board of Commissioners given in cash to avoid elements of conflict of interest in carrying out supervision.

Internal Audit

Internal Audit merupakan bagian dari struktur pengendalian intern (sebagai bagian dari *Three Lines of Defense*). Ruang lingkup pekerjaan internal audit mencakup pemeriksaan dan penilaian atas kecukupan dan efektivitas struktur pengendalian intern Bank serta penilaian kualitas kinerja yang bertujuan memberikan keyakinan bahwa pengendalian telah berjalan seperti yang ditetapkan.

Aktivitas utama Internal Audit terdiri dari *Assurance, Consulting, Investigation, Quality Assurance & Development*, Pembina sistem *Strategy Anti Fraud* dan *Whistleblowing System* serta aktivitas counterpart pemeriksaan oleh eksternal auditor (BPK, OJK, Bank Mandiri).

Aktivitas Assurance bertujuan untuk mengevaluasi kecukupan dan efektivitas *Internal Control, Risk Management* dan *Governance Process*. Aktivitas Consulting dilakukan melalui Review draft Kebijakan, Standar Pedoman, Manual Produk dan Petunjuk Teknis.

Investigasi merupakan aktivitas audit melalui pengumpulan bukti-bukti, dengan menggunakan teknik investigasi atas hasil penelaahan terhadap indikasi dan/atau fraud yang terjadi yang bertujuan untuk mengungkapkan modus operandi, penyebab, mengidentifikasi potensi kerugian Bank, pelaku fraud dan pihak lain yang terlibat.

Internal Audit

Internal Audit is part of the internal control structure (as the Third Line of Defense). The scope of the internal audit work includes examining and evaluating the adequacy and effectiveness of the bank's internal control structure as well as evaluating the quality of performance that aims to provide assurance that control has proceeded as stipulated.

The main activities of Internal Audit consist of Assurance, Consulting, Investigation, Quality Assurance & Development, Development of Anti-Fraud Strategy System and Whistleblowing System as well as counterpart audit activities by external auditors (BPK, OJK, Bank Mandiri).

Assurance activities aim to evaluate the adequacy and effectiveness of Internal Control, Risk Management and Governance Process. Consulting activities are carried out through reviewing draft policies, standard guidelines, product manuals and technical guidelines.

Investigation is an activity of gathering evidence using investigative techniques on the results of reviewing indications and/or fraud that has occurred which aims to reveal the modus operandi, causes, identify potential losses to the Bank, perpetrators of fraud and other parties involved.

Pembina sistem Strategy Anti Fraud melakukan aktivitas koordinasi penerapan dan pelaporan Strategy Anti Fraud Bank Mantap kepada OJK. Strategi Anti Fraud adalah strategi Bank dalam mengendalikan fraud yang dirancang dengan mengacu pada proses terjadinya fraud dengan memperhatikan karakteristik dan jangkauan dari potensi fraud yang tersusun secara komprehensif dan diimplementasikan dalam bentuk Sistem Pengendalian Fraud. Pembina whistleblowing system melakukan aktivitas perancangan sistem dan prosedur serta evaluasi mekanisme Whistleblowing System.

The Anti-Fraud Strategy system supervisor carries out coordination activities for the implementation and reporting of Bank Mandiri Taspen's Anti-Fraud Strategy to the FSA. The antifraud strategy is the Bank's strategy for controlling fraud, which is designed with reference to the process by which fraud occurs by taking into account the characteristics and scope of potential fraud, which is comprehensively structured and implemented in the form of a Fraud Control System. The whistleblowing system supervisor carries out system and procedure design activities as well as evaluates the Whistleblowing System mechanism.

Dalam rangka memastikan kualitas kinerja Internal Audit telah sesuai dengan fungsinya dan melakukan pengembangan terhadap metodologi/pendekatan termasuk pengkinian Kebijakan/Pedoman Internal Audit, maka dibentuk fungsi Quality Assurance & Development yang saat ini menjadi Departemen Quality Assurance, Development and Support.

In order to ensure that the quality of Internal Audit performance is in accordance with its function and to develop methodologies/ approaches including updating Internal Audit Policies/ Guidelines, a Quality Assurance & Development function was formed which is currently the Quality Assurance, Development and Support Department.
